

The  
Big  
2020

# Pigalog

Don't face oily messes with anything less than the best.

**Trust the one and only PIG Mat.**

# THE #1 MAT BRAND CAN HANDLE ANY MESS. NO DOUBT ABOUT IT.

## People love their PIG Mat!

The plant floor is no place to mess around, so when leaks and spills show their ugly faces, you need absorbents you can trust. What makes PIG Mat better than the rest? Hundreds of five-star customer reviews boil it down to this: PIG Mat just works, plain and simple. It's been the go-to solution at more than 300,000 facilities in over 100 countries — on all 7 continents — and we guarantee you'll love it, too.

## Hold on to this 2020 Buying Guide.

We know you have options when it comes to choosing a supplier, so we're tickled pink that you've found our Big Pigalog! From Absorbents to Spill Control to Containment and more, you'll see more than 2,100 products inside to help keep workers safe and protect your environment. It's also packed with helpful info and expert advice to take some of the worry out of your workday.

## Your Mess. Our Mission.

No matter what mess you're trying to manage, you can always count on New Pig for better ways to work. Ever since we invented the world's first Absorbent Sock in 1985, we've been on a mission to keep you working cleaner, safer and more productive. What can PIG do for you?

# PIG-DEVELOPED & PIG-APPROVED NEW PRODUCTS!

Here at New Pig, our first name reflects our passion for innovative solutions and better ways to work. Check out this special section for the latest products to keep you clean, safe and productive.

## **Grippy® Floor Mat w/Custom Logo** — Stick your logo on the mat that sticks! Enhance floor safety *and* your image.

- Logo mats enhance the image of your facility and boost brand awareness for a **better customer experience**
- High-definition digital printing delivers an **accurate reproduction of your logo**
- Economical alternative to rubber-backed logo mats and floor graphics — **only a fraction of the cost!**
- **PIG Grippy Floor Mat** is highly absorbent, very low profile, extremely durable and effortless to maintain
- Stays put with no shifting, bunching up or flipping over; **proven safe floor solution** eliminates the risk of slips, trips and falls
- **Specially formulated ink** won't affect absorbent properties of mat
- Cleans easily in place using any floor cleaning equipment; even a **floor scrubber won't affect your printed logo**
- **Four sizes available:** 3' x 5', 3' x 10', 6' x 10' and 4' x 6'

Adhesive backing sticks to most commercial flooring with a tight grip but peels up easily without damage or residue.

GRPLM

Put your logo front and center to make a great first impression.

 **EXCLUSIVE!**

Send us your logo and we'll create custom Grippy Mat for your facility.

Call **1-855-474-7791** to get started!

## PIG® Safety Message Mats — Non-slip mats deliver hi-viz warnings while helping to prevent slips, trips and falls.

- **Large 20" safety image** draws attention, won't fade or wear; alerts workers to safety requirements or specific cautions
- Proprietary **adhesive backing sticks to the floor** without shifting, bunching up or wavy edges to trip up workers; peels up easily when you're ready for a fresh mat
- Absorbent, high-traction top layer removes liquid and debris from shoes and **helps prevent falls in wet, oily work environments**
- 5 feet of walk-off coverage stops dirt, grime and moisture from being tracked around, **keeping surrounding floors clean and dry**
- **Easy to clean**; mat won't shift or be damaged by mops, vacuums, wet vacs or floor scrubbers
- **Withstands industrial environments**; takes abuse from heavy foot traffic, forklifts and pallet jacks
- **Choose from 11 legends**

## PIG® Quick-Deploy Oil-Only Absorbent Boom — Roll out a low-profile absorbent barrier for rapid response to oil spills on land.

- **Rolls out quickly** to absorb and contain oil-based spills on land — including lubricants and fuels — without absorbing water
  - Flat, low-profile design puts more absorbent material in contact with the ground for **better absorption** compared to a round boom
  - **Compact design** and packaging for easy storage in vehicles, spill kits and other tight spaces compared to traditional absorbent booms
  - Rope running along length of boom **adds strength** for deployment and retrieval
  - White color makes booms **easier to see** in outdoor environments and clearly shows saturation level
  - Can be incinerated after use to **reduce waste** or for fuels blending
- ◆ **Helps you comply** with SPCC and Stormwater Regs

PIG® Quick-Deploy Oil-Only Absorbent Boom							PIG
Item #	Size	Unit	Abs. Up To	1-4	5-11	12+

KIT917

## PIG® Water-Absorbing Spill Kits — Be ready for quick response to intruding rain and floodwater.

- Help **protect your assets and inventory** from costly water damage
- Keep floors **dry and safe** to eliminate slips and falls
- Packed with our **best absorbents for controlling and soaking up water**; ring and reuse Water Mat during single spill cleanups
- **Transparent bag** (KIT914) lets you check supply levels at a glance while keeping contents clean and dry
- ◆ **Helps you comply** with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition

KIT917 Contents • 4 Socks • 25 Mat Pads • 4 Pillows			

## PIG® Water-Activated Flood Bags & Barriers — Dam floodwater for quick protection with the smart alternative to old-school sandbags.

- Contains super absorbent polymer that **swells on contact with water** to form a solid, heavy barrier
- Sandbag alternatives are **lightweight, compact and easy to handle** prior to activation; place in flood-prone areas when you know water is coming
- **Sandless solution** eliminates the mess, heavy lifting and manual labor of filling standard bags with 40 lbs. of sand
- **Flood Bags** can be stacked up to three rows high; build even higher retaining walls by using a pyramid layout
- **Flood Barriers** are designed to stop water in front of entrances and dock doors; choose 5'L, 10'L or 17'L

PIG® Water-Activated Flood Bag

Saltwater Notice: Not for use with saltwater flooding.

WTR010

Non-activated bags are easy to handle.

Activated bags swell up to 32 lbs. each.

# BEST. MAT. FOR. WATER.

## **pig** Water Mat — The ONE mat to stock for cleaning up water problems from weather, breakdowns and spills.

- Designed and engineered to **pull in large volumes of water on contact**; superfast wicking helps you quickly eliminate pools and puddles to prevent damage and injuries
- The best mat to have on hand **when storms or wet weather intrude into your facility**; soaks up water that comes in through open windows, porous footers, cracked foundations, roof leaks and seepage under doors
- **Helps you deal with water** from system breakdowns, including burst pipes, broken hoses, leaking tanks or malfunctioning equipment
- **Soaks up excess washdown water** in food service, food processing and other critical areas
- **Highly absorbent** for fast cleanup when sump pumps or wet-vacs are not necessary or available; creates less waste than wipers
- **Cleaner method** than dirty mops, rags and towels, which can recontaminate floors by spreading bacteria, mold and odors
- Tough, spunbond top layer holds mat together when it's fully saturated, so it **won't rip or fall apart** when you pick it up
- **Easy-tear perforations** let you take only what you need
- Made with **60% pre-consumer recycled cellulose**

Wring and reuse during a single spill cleanup, then dispose. Wringable mats mean less hassle, less waste and more savings.

WTR001  
Strips

## PIG Absorb-&-Lock™ Water Strips & Pads — Deploy on dry floors as a preventive measure to absorb leaks and drips.

- Can be left in place under leaky pipes, equipment, appliances or machinery until fully saturated — then toss them out
- Great for **sewage and restroom backups** and overflows
- **Super Absorbent Polymer (SAP)** filler swells on contact with water and expands to pull in large volumes of liquid
- Expanded strips **create a barrier** to help prevent further leaks and drips from escaping and spreading into walkways
- **Absorbed water is "locked" inside**; won't leech or run out when you pick up or dispose, even when fully saturated
- Strips and pads (before water contact) are **low-profile** to fit tight spaces; **unobtrusive design** won't create trip hazards
- All items feature "Caution" symbol for added safety; choose long, narrow **Strips** (WTR001–WTR003) or traditional **Pads** (WTR004)

Pads with waterproof backing (WTR005 exclusive) provide an extra layer of protection to keep floors dry.

Pharmacy Receiving

Infusion

## Chemotherapy Drug Spill Kit — Be ready for hazardous drug spills with a kit that helps meet USP 800 standards.

- USP General Chapter 800 provides standards for **safe handling of cytotoxic drugs** (commonly used in chemotherapy) to minimize the risk of exposure to healthcare workers, patients and the environment
- **Helps you satisfy requirements** that spill kits must be part of your chemotherapy spill protocol and readily available in all areas where hazardous drugs are routinely handled
- Durable 4-mil bag **protects kit contents** from dirt and moisture
- PIG Absorbent Mat Pads quickly **soak up and contain spilled cytotoxins**; pads are color-coded yellow to coordinate with chemotherapy materials
- **Personal protective equipment (PPE)** meets USP 800 and ASTM standards
- **Helps protect personnel** wherever exposure may occur during receiving, dispensing, compounding and patient care
- **Ideal for** use in pharmacies, hospitals, healthcare facilities, patient treatment clinics, physicians' practice facilities and veterinarian offices

KIT2014

Kits include gloves, overboots, sleeved aprons, absorbent pads and disposal bags for safer cleanup of spilled cytotoxins.

MAT2015 • Pads only • 30/case • Absorbs up to 12 L/case		<b>\$50</b>

## PIG IBC Dispensing Stand — Elevate your totes to a safer working height for easier dispensing and access.

- Add **26" of ground clearance** to your IBC totes for easy dispensing of non-hazardous liquids into 5-gallon pails and other small containers
- Provides **easy access to connections and valves** for more convenient filling, monitoring and mounting of equipment
- Keeps totes **raised off of work floor** to help prevent damage
- **Eliminates extraneous labor** and back strain from constantly bending over to fill containers
- Durable, all-welded construction is sized to **fit most standard IBCs**
- Powder-coated steel **resists rust and corrosion**

IBCs SOLD ON  
PAGE 316.

IBC200 • 12,000 lb. load capacity • 45.5"W x 52"L x 26.5"H	\$639

## Boot Saver Shoe Covers — Place over boots or shoes for 100% liquid-proof protection.

- **Resistant to** most natural oils, water-soluble compounds, chemicals, low concentration acids and alkalis, alcohols, dilute bleach, and mild to moderate detergents and cleaners (see chemical compatibility guide at [newpig.com](http://newpig.com))
- Durable, **natural rubber latex** stretches over shoes or boots; withstands snags, tears and abrasions (ambidextrous design)
- Textured outsole, non-slip shoe cover **provides grip** on wet and dry surfaces

Four colors support FSMA, HACCP, GMP and other safety and contamination prevention procedures.

# CHEM TANKS YOU CAN TRUST.

PAK5114

## **PIG** Double-Wall Chemical Storage Tanks — Store process liquids in a tank that meets secondary containment regs.

- Double-wall tank provides bulk storage secondary containment; **no need for a separate sump or basin**
- Enclosed design keeps out dust, rainwater and other contaminants to **maintain purity of stored liquids**
- **Molded-in pump mounting platform** on top of tank provides a flat surface for safer use of tank accessories up to 240 lbs.
- 8" vented lid is threaded for **easy access to contents**
- **Recessed "mouse door" molding** at bottom of tank lets you install a bulkhead fitting (not included) for draining or bottom filling
- **Raised access ports** for pickup tubes and other tank accessories
- **Linear low-density polyethylene (LLDPE)** with UV inhibitors offers excellent resistance to corrosion, chemicals and UV rays
- 1.5 specific gravity rating is ideal for storing chemicals; **full tank can stand alone without support**
- Made from **FDA-Compliant resins** for containment of food and cosmetic products
- **Choose round or square**; square tanks use space more efficiently
- **NOTE:** Not designed for fuel storage
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

## **PIG** Chemical Storage Tanks — Great for a wide range of chemical process applications, from day tanks to wastewater treatment.

- **Open-top tanks** (PAK5100–PAK5106) with lift-off lid are great for use as a mixing tank, batch tank or solution tank; perfect day tank for food production and other chemical process applications
- **Closed-top tanks** (PAK5107–PAK5117) with 8" vented lid keep out dust, rainwater and other contaminants to maintain purity of stored liquids; molded-in pump mounting platform holds up to 225 lbs.
- Calibration chart (gallons and liters) molded into sidewall features black lettering for **easy level indication** at a glance
- Polyethylene construction with UV inhibitors provides **chemical resistance and structural integrity**
- Made from **FDA-Compliant resins** for containment of food and cosmetic products
- **NOTE:** Not designed for fuel storage

*"Amazing product — I use  
it all over my shop."*

— Vernon, PIG Grippy  
Absorbent Mat Customer

# ABSORBENTS

## World's first sock: The PIG that launched an industry.

In the early '80s, our founders were working hard cleaning up oil and grime in dirty factories. The worst job was shoveling up the loose, oil-soaked cat litter around the bases of leaking machinery. The clay pellets stuck to everything. It was a nightmare. And it was everywhere. When they started losing money on these jobs, they set out to find a better way to soak up the oily mess.

They cut up panty hose and stuffed them with everything from sawdust to rice hulls. Then they laid these sausage-shaped things into pools of oil to see what would happen. Nothing worked. Finally, they tried the ground corncob they used to blast oil off factory walls — and the first PIG was born.

The **PIG Original Sock** is still the most preferred absorbent sock in the world — sucking up oils, coolants, solvents and water in all kinds of workplaces. Don't miss the PIG Socks on pages 32–36 to see how our offering has grown!

## PIG Mat: It's mat with muscle!

When absorbent mats came on the scene 35 years ago, they were flimsy and fell apart. So we made one that was better. Today, PIG Mat is still the most durable absorbent mat you can buy.

### Exclusive 8-layer construction

No other brand delivers the perfect combination of fine-fiber materials, thermal bonding and multilayered design. That all adds up to absorbency, retention and durability that just can't be beat.

# “SOAK IT UP WITH THE #1 BRAND.”

The quality and engineering that go into our absorbents are second to none. Nothing outperforms or outlasts PIG, and we never stop looking for ways to get even better.

Chris Iuzzolino —  
Product Operations Manager

### ■ UNIVERSAL

*For oils, coolants, solvents & water*

Also called MRO absorbents (Maintenance, Repair & Operations), they soak up the widest range of liquids in everyday applications. Use these versatile products for almost any job.

PIG Universal Mats.....	8–28
PIG Universal Socks .....	32–36
PIG Universal Pillows .....	36–38
PIG Universal Pans & Loose.....	36–43

### ■ OIL-ONLY

*For oils, NOT water*

Oil-only absorbents are naturally water-repellent, making them your best choice for oily cleanups on water. Perfect when you want to preserve absorbency just for oil.

PIG Oil-Only Mats.....	46–57
PIG Oil-Only Socks .....	60–66
PIG Oil-Only Pillows .....	67–68
PIG Oil-Only Pans & Loose.....	58, 69

### ■ HAZMAT

*For most acids, bases and chemicals*

Specially treated absorbents soak up spills without degrading or reacting to corrosive liquids. Play it even safer with our neutralizing absorbents for most acids and bases.

PIG HazMat Pads & Rolls .....	72–73
PIG HazMat Socks.....	74
PIG HazMat Pillows.....	75
Neutralizing Absorbents.....	75–79

# UNIVERSAL MATS

Perform everyday maintenance and clean up spills of oils, coolants, solvents and water.

World's  
**#1**  
Absorbent  
Brand

## What is Universal?

Also called "MRO" absorbents, they soak up the widest range of liquids for everyday applications, including:

- Hydraulic oil
- Vegetable oil
- Coolants
- Isopropyl alcohol
- Lubricants
- Water-based solvents
- Propylene glycol
- Acetone
- Toluene & Xylene
- MEK (methyl ethyl ketone)
- Many other noncorrosive liquids

# TRIED & TRUSTED

PIG Mat delivers the perfect balance of absorbency, retention and durability.

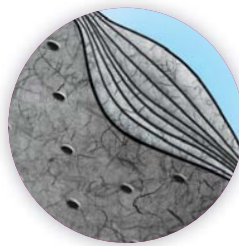

## SOAKS UP FAST

Our exclusive dimple pattern speeds up the wicking of liquid throughout the mat. Leak and spill cleanup is quick and easy.

## HOLDS ITS LIQUID

Highly absorbent fine fibers trap liquids so they don't pour back out when you pick up the mat. The mess is gone for good!

## LASTS 2X LONGER

Eight layers of thermally bonded polypropylene give PIG Mat superior strength and abrasion resistance.

## WE MAKE MATS FOR EVERY WAY YOU WORK

### MAINTENANCE MATS

When you need an absorbent mat for catching everyday leaks and drips or soaking up small spills, PIG Mat delivers. These mats keep your workstations clean, and they're perfect for jobs without much foot traffic:

**Pig Blue Mat**

**PIG Mat**

**PIG Rip-&-Fit Mat**

**PIG High-Visibility Mat**

### WALK-ON MATS

Got a messy application that will see a fair share of foot traffic? Make sure you're choosing a mat that's built for the job. Step up to these PIG Mats with a spunbond top layer for extra walk-on durability:

**PIG Ham-O Mat**

**PIG Chat Mat**

**PIG 4 in 1 Mat**

**PIG Fat Mat**

### HIGH-TRAFFIC MATS

If leaks and spills are hitting your busiest aisles and walkways, you need our roughest, toughest PIG Mats. These high-traffic mats are designed to withstand a daily barrage of wheels and workboots:

**Grippy® Absorbent Mat**

**PIG Traffic Mat**

**Grippy® Floor Mat**

**PIG Elephant Mat**

# DRINKS OTHER MATS UNDER THE TABLE!

BLU101

**EXCLUSIVE!**

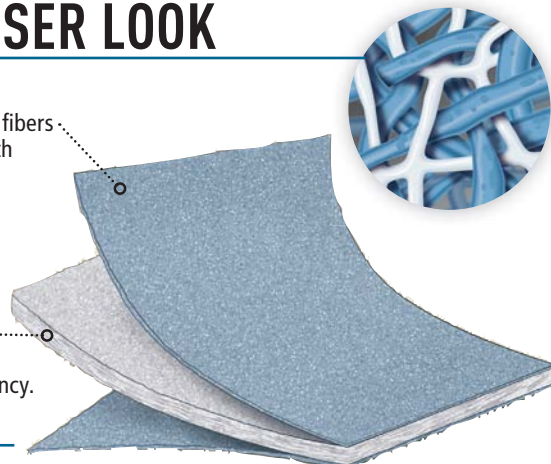

## **Blue Mat** — Absorb more, use less and save money with our best-value absorbent mat.

- **Maximum absorbency soaks up more** so you use less and save money
- **No leak zones!** Consistent construction produces a mat that's free of light spots to absorb liquid evenly for better wicking and retention
- **Stays together**, even when picking up or shifting a fully saturated mat
- **Contains 75% recycled fibers**; ideal in situations where green products are desired or required
- **Fire retardant for added safety**; flame tested in accordance with ASTM Standard E84-08
- **Absorbs oils, coolants, solvents and water**; not recommended for acids, bases or other corrosive liquids
- ◆ **Helps you comply** with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition

### A CLOSER LOOK

**PIG** EXCLUSIVE!

## **PIG** Mat Pads — The one absorbent mat pad to have if you only have one. Absorbs anything, anywhere.

- **Eight layers** of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; it won't rip, tear or fray even when saturated
- **Highly absorbent**, fine-fiber construction won't leave liquids or fiber residue behind; easy-tear perforations for less waste
- Absorbs **common industrial liquids**; oils, water, solvents, coolants and more
- **Exclusive dimple pattern** speeds wicking of liquid throughout mat for faster, easier cleanup
- **Flame-resistant**; won't burn immediately like untreated cellulose mats
- Dark gray color **hides grime** so mat stays on the job longer
- Choose **lightweight** for small jobs or for routine changeouts; **mediumweight** as a great general purpose mat; and **heavyweight** for bigger spills and leaks
- **Pads are ideal** for catching drips and soaking up spills
- Can be wrung out and incinerated after use to **reduce waste**
- ◆ **Helps you comply** with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition

ADVICE**

See why PIG Mat is the #1 Mat  
in the world!

[newpig.com/pig-mat-video](http://newpig.com/pig-mat-video)

MAT140

PIG Mat lets you work grit-free to keep your shop clean and your tools and parts in top condition.

MAT283

Poly-Back Mat (MAT283) provides extra protection for floors, counters or other surfaces; place over a spill with poly-back side up to suppress potentially harmful, flammable or irritating vapors.

# **Rip-&Fit Rolls** — Create custom sizes without cutting!

- **Extra perforations** in our Rip-&Fit Mat allow you to easily "rip" this PIG Mat and "fit" it to your application without cutting
- No matter how you rip it, this mat features the proven eight-layer, 100% polypropylene construction of PIG Mat, the **strongest mat on the market!**
- **Standard mat** (MAT242, MAT243) is perforated every 3<sup>3</sup>/<sub>4</sub>" across width and every 10" along length
- **Extra-wide mat** (MAT252, MAT253) is perforated every 10" across width and length; prefolded for increased absorbency and compact storage; unfolds to cover large areas
- **Dispenser box** (MAT253, MAT242) makes it easy to carry and store your mat while protecting it from dirt and moisture

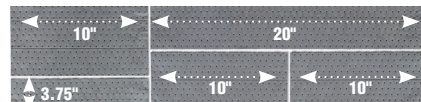

MAT242

**MAT253**  
Unfold to cover large work areas, or leave it folded to target heavy leaks and drips.

**MAT243**  
Tear at the perfs to create the right mat size for any area, any shape!

MAT630

 **EXCLUSIVE!**

## **High-Visibility Mat** — Alert workers to slip hazards while cleaning up leaks.

- **High-visibility yellow color** is easier to see in poorly lit areas to minimize slipping hazards; alerts workers to potential dangers and work in progress
- Eight layers of 100% polypropylene are thermally bonded to make PIG Mat the **strongest mat on the market**; won't rip, tear or fray even when saturated
- **Highly absorbent**, fine-fiber construction won't leave liquids or fiber residue behind
- Absorbs and retains **oils, coolants, solvents and water**
- **Exclusive dimple pattern** speeds wicking of liquid throughout mat for faster, easier cleanup
- **Perforated pads and rolls** are easy to tear to size

**PIG** EXCLUSIVE!

## **PIG** Grippy® Absorbent Mat — Soak up messes to stop slips, trips and falls around workstations and machinery.

- Adhesive-backed absorbent mat stays exactly where you put it with **no shifting, bunching up or flipping over**
- Proprietary adhesive sticks to the floor with a super-tight grip, but **peels up easily** for quick changeouts
- **Tough, spunbond top layer** with heavy-duty zigzag stitching stands up to foot and light-wheeled traffic
- **Eight layers** of fine-fiber polypropylene safely absorb leaks, drips and overspray of oils, coolants, solvents and water
- **Traps oil, grease and grime** to keep them from being tracked around; leakproof backing prevents liquid from reaching the floor
- Mat rolls provide enough length to create **continuous coverage** and absorbency in oily areas near machines and equipment
- **Easy to cut and install:** just roll it out, stick it down and smooth it out (also available in precut pads)
- ◆ **Helps you comply** with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition

### A CLOSER LOOK

Spunbond top layer stands up to traffic.

Zigzag stitching adds strength.

**PIG exclusive!** Eight-layers of thermally-bonded, melt-blown polypropylene provide high absorbency.

Poly backing stops liquid from passing through to floors.

Fully coated adhesive backing holds tight but peels up easily.

Grippy Absorbent Mat is the world's first adhesive-backed mat.

*"It sticks and stays in place under foot traffic, carts and dolly traffic. I'm able to walk, work and restock shelving safely and productively without having to worry about tripping over loose or bunched-up mats."*

— Greg V., MAT32100 Customer

MAT234

**EXCLUSIVE!**

## **PIG** Elephant Mat — Step up to our zigzag-stitched mat for absorbency plus walk-on durability.

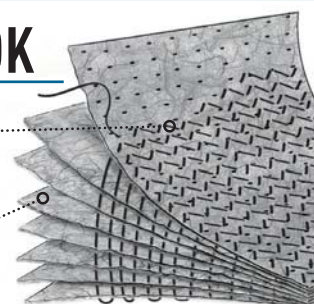

- Mat has **greater wear resistance** so you replace it less often
- Highly absorbent eight-layer PIG Mat is zigzag stitched to offer **excellent walk-on durability**
- Designed specifically for **heavy foot traffic or moderate to light wheel traffic**; put the zigzag side up to extend product life
- **Exclusive dimple pattern** speeds wicking of liquid throughout mat for faster, easier cleanup
- **Highly absorbent, fine-fiber construction** won't leave liquids or fiber residue behind
- Absorbs and retains **oils, coolants, solvents and water**
- **Dark gray color hides grime**, so mat stays on the job longer
- **Flame-resistant material** won't burn immediately like untreated cellulose mats; melts when exposed to high heat while on the job

◆ **Helps you comply** with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition

### A CLOSER LOOK

Zigzag stitching.....  
adds strength.

**PIG exclusive!** Eight layers of thermally-bonded, melt-blown polypropylene provide high absorbency.

Even really heavy foot traffic like this won't rip or shred Elephant Mat!

Poly-Back Mat (MAT270) provides an extra layer of protection to prevent absorbed liquids from reaching floors, counters or other surfaces; can be placed over a spill with poly-back side up to suppress potentially harmful, flammable or irritating vapors.

*"This is definitely some tough material. Very similar absorbing capacity as other mats we already use, but TOUGH! I like how it does not pill up when tools or materials get set down, moved or slid on the mat."*

— Mike T., MAT256 Customer

# UNIVERSAL SOCKS, PANS, PILLOWS AND LOOSE

PIG-tough solutions to absorb oils, coolants, solvents and water.

World's  
#1  
Absorbent  
Brand

## What is Universal?

Also called "MRO" absorbents, they soak up the widest range of liquids for everyday applications, including:

- Hydraulic oil
- Vegetable oil
- Coolants
- Isopropyl alcohol
- Lubricants
- Water-based solvents
- Propylene glycol
- Acetone
- Toluene & Xylene
- MEK (methyl ethyl ketone)
- Many other noncorrosive liquids

# SOME MESSSES NEED MORE THAN A MAT.

Small spills and machine overspray call for the quick absorbency of PIG Mat. But leaking machines or runaway spills must be confined before they make your floors a mess and create the potential for a slip-and-fall accident.

That's when you reach for a moldable PIG Sock. No matter what kind of mess you're facing, there's a PIG Sock to tackle it. From Original PIG Socks for general maintenance to PIG Blue Socks for diking and damming liquids, every sock we sell is PIG-tough to get the job done.

**Find out why choosing the right sock matters. Read the article at [newpig.com/look-inside-socks](http://newpig.com/look-inside-socks)**

Highly absorbent filler traps and holds liquids — they won't leach out onto floors.

Moldable skin won't fall apart.

Absorbent material is contained, so socks are easy to pick up and replace.

## 3 simple steps to get the most out of your PIG Socks.

1. Clean up all loose absorbents, rags and other debris around the source of the leak. Hold each sock by its ends and shake to evenly distribute filler. This will create better surface contact.
2. Make sure your PIG Socks have direct contact with the floor and the liquid being absorbed. Don't stack socks on top of each other. When placing end-to-end, overlap them by 3".
3. If it ain't soaked, don't pitch it! Let the sock work until it's saturated. Replace the sock when you see liquid seeping out from underneath.

## **pig** Original Sock — Control your everyday leaks with our most shape-hugging socks.

- Formable socks **hug corners and surround machine bases** to absorb leaks, contain puddles and keep workers safe
- Corncob filler **pulls liquids from the floor** for maximum absorbency; cleanup is quick and easy
- Polypropylene skin **resists tearing**; reduces dust and holds in liquid, even when saturated

**PIG Clip-&-Fit Socks (PIG220)** let you create custom-sized socks in seconds! Use only what you need and reduce waste.

*"We have about 30 CNC machines in our shop and, of course, some of these machines leak coolant and oil. Out of everything we've tried to contain these leaks, we found that **PIG products work the best**. Very happy with our purchases from PIG."*

# THE SPILL STOPS HERE.

Absorbents

Universal

Absorbs oils, coolants, solvents and water

## **PIG** Blue Sock — Our heaviest sock forms a barrier to keep spills from spreading.

- The **heaviest sock** we make features extra-dense construction to hug floors and stay in place while containing spills; ideal for **diking and damming liquids**
- **Fine-grade vermiculite filler** quickly absorbs leaks, drips and spills; great for spill response or absorbing machine leaks
- **Stitch-bonded, polypropylene skin** resists bursting; reduces dust and holds in liquid, even when saturated
- Absorbs and retains **oils, coolants, solvents and water**
- Can be **air-dried for reuse** when soaked with water

Ideal for surrounding leaking machines, too!

**GOT A BIG LEAK?**

PIG210

**EXCLUSIVE!**

## **PIG** Super Absorbent Sock — Handle your high-volume leaks with our most absorbent sock.

- **Extra-thirsty, formable socks** hug corners and walls, surround higher-volume machine leaks and contain spills to keep workers safe
- Cellulose filler is **highly absorbent for big leaks and spills**; super absorbency means that you replace them less often
- **Stitch-bonded, polypropylene skin** resists bursting; reduces dust and holds in liquid, even when saturated
- Absorbs and retains **oils, coolants, solvents and water**
- 95% recycled cellulose filler is **ideal when green products** are desired
- **Wringable** for reclaiming up to 65% of absorbed liquid
- Can be incinerated after use to **reduce waste** or for fuels blending

Super Socks can be wrung out to reclaim liquids for recycling. (See page 280 for wringer.)

## PIG® Dri Loose Absorbent — Highly absorbent granules are heavy like clay and won't blow around.

- Unlike clay, which coats itself in liquid, fast-wicking cellulose-based kaolin granules **begin to soak up liquid the moment they touch the spill**
- **100% recycled content** (a by-product of the papermaking process); ideal when green products are desired or required
- Lightweight absorbent is **easier than clay to carry and use** without injury
- Silica-free composition **does not pose the health hazards** associated with breathing in clay dust
- **Absorbs and retains** oils, coolants, solvents and water
- **Can be incinerated after use** to reduce waste or for fuels blending

BEST  
SELLER!

"We tried several different brands from at least 6 different vendors. This product tops them all. Very little dust, **it's light, but won't blow away in outside applications** and it absorbs faster than anything we've tried. New Pig has all my shop's business for absorbent products."

— Mark H., PLP213-50 Customer

Easy-to-handle pouch (PLP220) is perfect for small spills and helps reduce injuries from lifting heavy bags of loose absorbent.

## LITE-DRI VS. CLAY? THERE'S NO COMPARISON!

What happens when we put PIG Lite-Dri Absorbent against clay on a 45-gallon spill? Lite-Dri Absorbent wins hands down!

### Number of bags needed

Lite-Dri = 5.5  
Clay = 10

### Dry weight of absorbent

Lite-Dri = 121 lbs.  
Clay = 500 lbs.

### Used absorbent & liquid

Lite-Dri = 1 drum  
Clay = 2 drums

### Disposal cost<sup>a</sup>

Lite-Dri = \$600<sup>b</sup>  
Clay = \$1,800<sup>c</sup>

### Total costs (material, disposal)

Lite-Dri = \$743  
Clay = \$1,995

**Use PIG Lite-Dri and save \$1,252!**

<sup>a</sup>Whether you use incineration or landfill, savings are 50% because you dispose of 50% less volume.

<sup>b</sup>This is because of higher Btu potential and lower ash content of Lite-Dri Absorbent.

<sup>c</sup>\$900/drum for 2 drums.

PLP218  
Universal  
multipack

## PIG Lite-Dri Loose Absorbent — Lighter and easier to carry than clay, plus it absorbs up to 3X more!

- Unlike clay, which is simply coated with liquid, fast-wicking recycled cellulose actually **soaks up the spill the moment it touches the liquid**
- Three times more absorbent means you'll use less material on the spill, **reducing your labor and disposal costs**
- Silica-free composition is nonabrasive and **does not pose the health hazards** associated with breathing in clay dust
- Nonabrasive composition **won't harm finished floors or damage expensive machinery**
- **Lightweight absorbent** is easier than clay to carry and use without injury
- **Absorbs and retains oils, coolants, solvents and water**

- Bag features a **built-in handle** for easy portability, handling and dispersal
- Recycled cellulose is ideal when **green products** are desired or required

Soak up oily leaks and spills without wasting absorbency on water.

World's  
#1  
Absorbent  
Brand

## What is Oil-Only?

Oil-only absorbents do not absorb water. They should be your first choice for any application — indoors or out — where you need to soak up oil without wasting absorbency on water. Use for any oil- or hydrocarbon-based liquids, including:

- Motor oil
- Cutting oil
- Synthetic oils
- Vegetable fluids
- Hydraulic oil
- Diesel fuel
- Vehicle fluids
- Oil-based solvents

# 2 WAYS TO ABSORB OIL AND LEAVE WATER BEHIND:

## Hydrophobic technology repels water.

Oil is absorbed.

Water beads and rolls off.

**Oil-Only Socks & Booms** — Since they float on water, you can control even large waterborne oil spills. They won't sink, even if they're soaked!

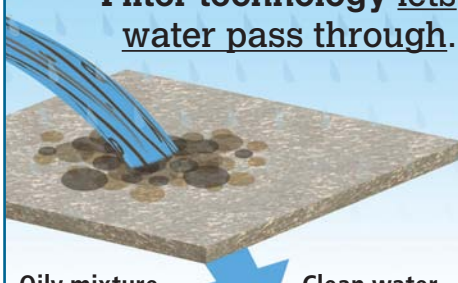

**Oil-Only Mat Pads & Rolls** — Indoors or out, if you know you're only cleaning up fuels or oil-based liquids, these products can maximize efficiency and save you money.

**Oil-Only Pillows** — Clean up large volumes of oil with our high-capacity absorbent pillows. Great for big spills on water or use beneath leaky machines.

## Filter technology lets water pass through.

Oily mixture enters mat.

Clean water flows through.

**Oil Absorbent Filter Mats** — Designed for stormwater applications and oily cleanups on land, these absorbent mats work rain or shine.

**Oily Water Cleanup Towels** — Wipe down oily equipment or surfaces outdoors where oil has collected in cracks and crevices.

## ■ OIL-ONLY ABSORBENTS

For oils, NOT water

## Frequently asked questions:

### Q: Will oil-only mats absorb diesel fuel?

**A:** Yes! PIG Oil-Only Mat absorbs all fuels and oil-based liquids including hydrocarbon-based, vegetable-based and synthetic oils and solvents. If static is a concern, choose PIG Stat Mat, sold on page 51.

### Q: Which absorbents should I use to filter oil out of water?

**A:** PIG Pour-Through Oily Water Filter and PIG Oil Absorbent Filter Mats absorb oils and fuels but let water pass through. Mats can be used for stormwater jobs or as pour-through filters for oily water. See pages 56-59.

### Q: Do you have mats for absorbing jet fuel and other flammables?

**A:** PIG Stat-Mat Pads and Rolls are specially treated to reduce the risk of electrostatic discharge when working with flammables and consistently dissipate static per NFPA 99 criteria in 0.05 seconds or less. See page 51 and don't miss our new static-dissipative socks on page 61.

ADVICE**

Oil hates water and so does PIG Oil-Only Mat! Watch them go at it: [newpig.com/oil-absorbent-mat-video](http://newpig.com/oil-absorbent-mat-video)

# ABSORBS OIL NOT WATER

TOP 10  
BEST  
SELLER!

MAT401

**PIG EXCLUSIVE!**

## **PIG** Oil-Only Mat — Our best mat for skimming and absorbing oily leaks wherever water is present, too.

- Eight layers of 100% polypropylene are thermally bonded to make PIG Mat the **strongest mat on the market**; won't rip, tear or fray even when saturated
- Highly absorbent, **fine-fiber construction** won't leave behind liquids or fiber residue
- Absorbs and retains **oil-based liquids** — including lubricants — without taking in a drop of water
- Exclusive dimple pattern **speeds wicking of liquid** throughout mat for faster, easier cleanup
- **Bright white color** makes absorbed oil easier to see; draws attention to leaks and clearly shows saturation level during spill response
- **Floats** to clean up spills on water
- Choose **lightweight** for small jobs or for routine changeouts; **mediumweight** as a great general purpose mat; and **heavyweight** for bigger spills and leaks
- Can be wrung out and incinerated after use to **reduce waste or for fuels blending**
- **Flame-resistant material** won't burn immediately like untreated cellulose mats; melts when exposed to high heat while on the job
- **Pads** are ideal for catching drips and soaking up spills; **Rolls** are ideal for covering large areas and soaking up leaks
- **Easy-tear perforations** let you take only what you need, so you use less mat and save money
- **Poly-Back Mat (MAT498)** provides a layer of protection to prevent absorbed liquids from reaching floors, counters and other surfaces

## PIG® Ham-O Oil-Only Mat — Exclusive "hamouflage" top layer makes absorbed oily grime invisible so you can keep the mat down longer.

- The grime-hiding top layer lets you leave the mat in place longer and **save money**; stands up to **heavy foot traffic**, and **won't rip, tear, fray or create a trip hazard**, even when saturated
- **Fast-wicking "diaper action"** transfers liquids from the tough, spunbond top layer into the absorbent inner layers
- Under the Ham-O top layer is the **proven eight-layer, 100% polypropylene construction of PIG Mat**
- **Absorbs and retains oil-based liquids**, not water

NOTE: Ham-O Mat is not recommended for absorbing solvents or corrosive liquids that may affect the printed pattern.

MAT4101

## PIG® Oil-Only Fat Mat — Double-thick, so it absorbs more, lasts longer.

- **16 layers of polypropylene** are thermally bonded to form a highly absorbent mat capable of drinking up huge volumes of oily liquid
- Extremeweight Fat Mat construction is ideal for jobs that require **long life and high capacity**
- Tough, spunbond top layer **stands up to heavy foot traffic**; won't rip, tear, fray or create a trip hazard, even when saturated
- Fast-wicking "diaper action" transfers liquids into the absorbent inner layers to **keep moisture away from surface**
- Absorbs and retains **oil-based liquids** — including lubricants — without taking in a drop of water
- Perforations let you **take only what you need**; white color makes it **easy to see** how much capacity the mat has remaining

PVC holder stops oil from soaking through to the ground.

Oil-Only UV-Resistant Mat Pads absorb oil-based liquids outdoors.

## **Leak and Drip Pad** — Holds a mat to catch oil.

- Tough vinyl-coated holder with sewn-on mesh screen and bermed edge acts as a **nonabsorbent barrier** and keeps fluids from penetrating the ground
- Includes **PIG Oil-Only Mat Pads**; refills sold separately (MAT415, MAT497)

## **Outdoor Leak and Drip Pad** — Hot sun or strong winds won't stop this pad system from doing its job.

- **Weighted drip pad system** stays where you put it; even in wind
- Pad holder accepts **PIG Oil-Only UV-Resistant Mat Pads** (included) to absorb oil-based liquids, but not water
- **Extra-large surface area** provides more coverage than standard mat pads
- Mat pads **resist UV rays for up to 12 months**
- ◆ **Helps you comply** with SPCC and Stormwater Regs

<b>PAD203</b> • Heavyweight • 24"W x 36"L Abs. up to 2 gal./box	<b>\$125</b>
<b>PAD202</b> • Heavyweight • 21"W x 23"L Abs. up to 1 gal./box	<b>\$78</b>
<b>PAD203 &amp; PAD202 Contents</b> • 1 Leak and Drip Pad • 5 Mat Pads	

⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## **Refill for PIG® Leak and Drip Pad System**

Item #	1-2	3-6	7+
<b>MAT497</b> • Heavyweight 20"W x 30"L • 5 pads Abs. up to 2 gal./box	<b>\$23</b>	<b>\$21</b>	<b>\$18</b>
<b>MAT415</b> • Heavyweight 15"W x 20"L • 50 pads Abs. up to 11 gal./bag	<b>\$47</b>	<b>\$45</b>	<b>\$41</b>

## **Oil-Only Railroad Mat** — Three-ply mat protects the ground from oil-based liquids during railyard maintenance.

- Heavy-duty, three-ply mat is **designed specifically to absorb oil-based liquids during railyard maintenance**
- Top layer is constructed with a tough geotextile fabric that's needle punched for **added durability**; **UV resistant** up to 12 months
- **Highly absorbent** polypropylene middle layer traps oils but allows rainwater to evaporate
- **Impermeable bottom** barrier film prevents liquids from leaching into the ground

PIG® Oil-Only Railroad Absorbent Mat							
Weight	Item #	Size	Unit	Abs. Up To	1-2	3-6	7+
Heavy	<b>MAT465</b>	59"W x 100'L	1 roll	60 gal./bag	<b>\$554</b>	<b>\$529</b>	<b>\$501</b>
	<b>MAT466</b>	19"W x 100'L	2 rolls	41 gal./bag	<b>\$420</b>	<b>\$400</b>	<b>\$381</b>

**BEST SELLER!**

[newpig.com/railroad-spills](http://newpig.com/railroad-spills)

## **Ground Mat** — Keep oily leaks off the ground with our durable barrier.

- **Heavy-duty three-layer mat** ensures oily leaks and drips never reach the ground; use for outdoor equipment maintenance or storage
- Top layer is constructed with a tough geotextile fabric that's needle punched for **added durability**
- Highly absorbent polypropylene middle layer **traps oil-based liquids but lets rainwater evaporate**
- **Impermeable bottom** barrier film prevents liquids from leaching into ground
- **UV resistant and reusable**
- **MAT467 is customizable**; material is pretaped on one side with hook closures to easily attach another section

PIG® Absorbent Ground Mat						
Weight	Item #	Size	Unit	Abs. Up To	1-2	3+
Heavy	<b>MAT467</b>	59" W x 80' L	1 roll	48 gal./bag	<b>\$573</b>	<b>\$544</b>
	<b>MAT444</b>	5' W x 5' L	1 pad	3 gal./bag	<b>\$80</b>	<b>\$77</b>
	<b>MAT445</b>	10' W x 10' L	1 pad	12 gal./bag	<b>\$204</b>	<b>\$192</b>

Precut ground mats catch leaks during maintenance; MAT444 and MAT445 feature brass corner grommets for tying in place.

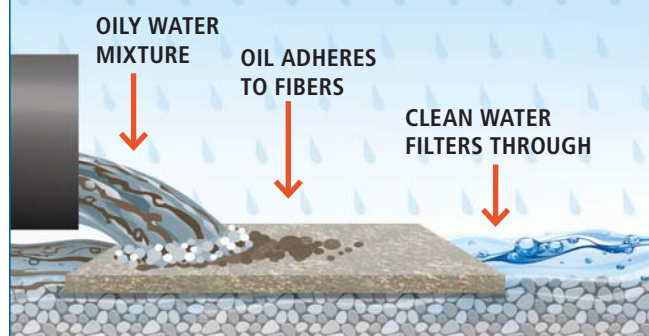

## Oil Absorbent Filter Mats — Traps oils but lets water pass through for fast outdoor cleanup.

- Clean up oily leaks, drips and spills on land — **rain or shine**; mats absorb hydraulic fluid, motor oil and other oil-based liquids
  - Absorbent mats **allow water to pass through as they capture oils** — ideal for stormwater applications
  - Heavyweight construction is superabsorbent for demanding tasks and large-volume cleanups; **great for use near storm drains**, pipes, outflows, storage tanks, roll-offs, vehicles and other oily equipment
  - UV resistant mat is **perfect for outdoor use**
  - Can also be used as a **pour-through filter** for mop buckets and other containers of oily water
  - **Contains 85% recycled fibers**; can be incinerated after use to reduce waste or for fuels blending
  - Choose **Mat Pads** for everyday jobs and **Mat Rolls** for more coverage on bigger cleanups; **Mat Strips** are designed to be placed around storm drains
- ◆ **Helps you comply** with SPCC and Stormwater Regulations.

### A CLOSER LOOK

How PIG Oil Absorbent Filter Mats work to capture oils:

MAT1206, MAT1201 and MAT1207  
Special "vacuum" packaging takes up less space on your shelf and helps you respond quickly to spills.

PIG® Oil Absorbent Filter Mat Pads						
Item #	Size	Unit	Abs. Up To	1-2	3-6	7+
MAT1201	15"W x 18"L	50 pads	33 gal./case	\$149	\$145	\$139
MAT1202	15"W x 18"L	30 pads	20 gal./bag	\$109	\$104	\$99
MAT1203	15"W x 18"L	30 pads	20 gal./box	\$111	\$106	\$101
MAT1206	36"W x 36"L	5 pads	16 gal./case	\$89	\$84	\$79
PIG® Oil Absorbent Filter Mat Rolls						
Item #	Size	Unit	Abs. Up To	1-2	3-6	7+
MAT1204	36"W x 25'L	1 roll	25 gal./bag	\$78	\$73	\$68
MAT1205	18"W x 25'L	2 rolls	25 gal./bag	\$78	\$73	\$68
PIG® Oil Absorbent Filter Mat Strips						
Item #	Size	Unit	Abs. Up To	1-2	3-6	7+
MAT1207	4"W x 48"L	25 strips	12 gal./case	\$99	\$94	\$89

Corrosive Liquid Notice: Not recommended for acids, bases or other corrosive liquids.

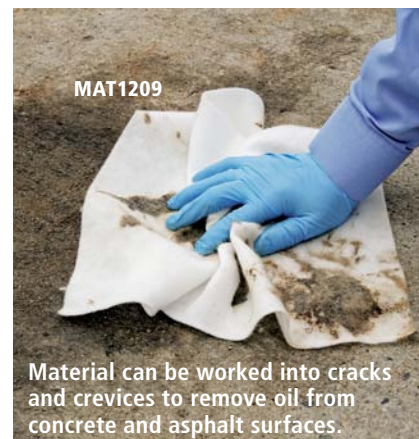

Worried about SPCC regs? Here are 8 things you need to know to make sure you're compliant:  
[newpig.com/spcc](http://newpig.com/spcc)

**PIG® Oil Absorbent Cleanup Towels** — Wipe down outdoor surfaces or equipment where oil has collected in cracks and crevices. Towels absorb oil but not water.

- Designed to work differently than conventional oil-only products; absorbent towels allow water to pass through while capturing hydraulic fluid and other oils
- Lightweight yet durable material conforms to irregular surfaces; **tough enough to scrub** concrete, rocks or asphalt
- Great for final cleanup when used with PIG Oil Absorbent Filter Mat Pads
- Perfect for wiping down oily tools and cleanups in **outdoor applications**, especially in wet or rainy conditions; floats to remove oil on water, even the oily sheen
- Available in **vac-pack bags** (MAT1208) or **dispenser box** (MAT1209–1210)
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

PIG® Oil Absorbent Cleanup Towels				
Item #		1-2	3-6	7+
MAT1208	• In Vac-Pack • 100 towels/case • Absorbs up to 15.8 gal./case • 15"W x 20"L	\$155	\$150	\$145
MAT1209	• 100 towels/dispenser box • Absorbs up to 15.8 gal./box • 15"W x 20"L	\$67	\$63	\$59
MAT1210	• 100 towels/dispenser box • Absorbs up to 8.3 gal./box • 10"W x 16"L	\$49	\$46	\$43

Material can be worked into cracks and crevices to remove oil from concrete and asphalt surfaces.

## PIG® Outdoor Oily Water Filter Bucket — Just connect to a leak diverter for help with regs.

- **Absorbent-filled bucket** captures hydrocarbons from collected liquid, but water passes right through
  - **Alternating layers** of Oil-Only Mat Pads and Oil-Only Pillows offer high oil retention for fewer changeouts
  - Hose fitting on top of container lid accepts ¾" drainage hose **from a PIG Leak Diverter** or other liquid sources
  - **Container and absorbents are UV resistant** for long-term use
  - ¾" **connection on bottom** accepts a self bailer, drain plug (included), drainage hose (included) or use as a free-flowing drain
  - **20-gallon container (FLT730)** holds oil-absorbent media to remove up to 5 gallons of oil, grease and hydrocarbons
  - **Weatherproof containers (FLT1153)** hold oil-absorbent media to remove up to 1 gallon of oil, grease and hydrocarbons
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PIG® Outdoor Oily Water Filter Bucket		PIG

<b>FLT730 Contents</b> • 1 Bucket w/Lid & Fittings • 4 Mat Pads • 3 Pillows • 1 6' Hose • 1 Plug		
<b>FLT731</b> • Refill for FLT730 • Absorbs up to 5 gal.		<b>\$99</b>
<b>FLT731 Contents</b> • 4 Mat Pads • 3 Pillows		
<b>FLT1153</b> • Absorbs up to 1 gal. • 12"L x 10"W x 10"H		<b>\$142</b>
<b>FLT1153 Contents</b> • 1 Bucket w/Lid & Fittings • 3 Mat Pads • 2 Pillows • 1 10'L Hose • 1 Plug		

Patent Pending

## PIG® Outdoor Drip Pan — Traps oily drips while rainwater passes through.

- Absorbs and retains **oil-based liquids**
- Mesh top lets liquid pass into **absorbent filler housed in a chemical-resistant pan**
- **Rainwater passes through slits** in side of pan to avoid puddling
- **Low-profile pan** fits in tight spaces and won't tip over
- **Includes 12 sheets of PIG Oil-Only Mat** to absorb any additional oily discharge and protect the ground

PIG® Outdoor Drip Pan		PIG

## PIG® Outdoor Pillow-In-A-Pan — Large-scale drip-catcher traps oil, drains rainwater.

- **Replaceable pillows trap oil-based liquids** — including lubricants — but allow clean stormwater to drain out of holes in base of pan
  - **Pillow skin is UV resistant** up to 12 months; meets NFPA 99 standards for static decay
- ◆ **Helps you comply** with Stormwater and SPCC Regulations

PIG® Outdoor Pillow-In-A-Pan		PIG
Item #		1-5
<b>FLT610</b> • 40"W x 40"L x 5"H • Absorbs up to 6 gal.		<b>\$130</b>
<b>Absorbent Pillow for PIG® Outdoor Pillow-In-A-Pan</b>		
Item #		1-5
<b>FLT611</b> • 18"W x 18"L x 2"H • Absorbs up to 6 gal./box • 4 pillows/box		<b>\$38</b>
		<b>\$31</b>

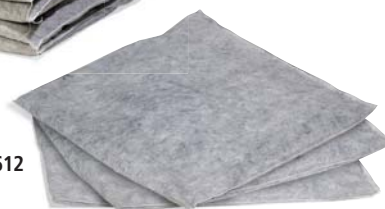

## Pour-Through Oily Water Filter — Separate oils from water.

- Just pour liquid into the filter and **filtered water flows out of drain**
- 55-gallon drum filter handles **up to 8 gallons of liquid per minute**
- **Outflow pipe allows hose connection** for easy draining of filtered water
- **Replaceable absorbent media** is easy to change when saturated
- **Optional carbon pillows** (FLT612) work in conjunction with included oil-only pillows to remove trace amounts of hydrocarbons
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

FLT525

FLT612

PIG® Pour-Through Oily Water Filter			PIG
Item #			1+
FLT521	• Absorbs up to 33 gal. • Ext. Dia. 24" x 39"H		\$375
FLT525	• Refill for PIG® Pour-Through Oily Water Filter • 6 each		\$215
FLT525 Contents • 6 Pillows • 1 Polyethylene Diffuser Funnel			
Carbon Pillow for PIG® Pour-Through Oily Water Filter			PIG
Item #			1-4 5+
FLT612	• 3 Pillows/box		\$349 \$325

NOTE: Test effluent regularly to ensure it meets local, state and federal discharge requirements and to determine when to replace the pillows.

# HIT THE ROAD WITH PIG SPILL KITS!

**PIG Truck Spill Kits** — Tough and rugged for road-ready cleanups wherever you roll.  
Find KIT622 (shown) on page 97.

PIG Oil-Only Socks are great for absorbing oil-based liquids in outdoor applications.

**EXCLUSIVE!**

## PIG Oil-Only Sock — A full year of UV resistance makes PIG the best outdoor sock you can buy.

- **Moldable socks** hug corners and surround machine bases to absorb leaks, contain puddles and keep workers safe
- Cellulose filler is hydrophobic — **absorbs oil-based liquids but not water** — in a variety of environments
- Polypropylene skin **resists tearing**; reduces dust and holds in liquid, even when saturated
- Ideal for use **on land**, but also floats to clean up oil spills **on water**
- **Attached string** conveniently allows socks to be tied down, tied together or dipped in noncorrosive wash baths
- Skin is **UV resistant** up to 12 months; meets NFPA 99 standards for static decay
- **95% recycled content** is ideal when green products are desired or required

*"Delivery was super fast. The socks are easy to use just about anywhere. They bend or can be tied together for the shape and length you need. And, they get the job done. We'll be purchasing these again and again."*

— Mindy R., SKM210 Customer

BEST SELLER

## PIG® Sheen Clean Sock — Cleans up thin, oily residue floating on water that other absorbents leave behind.

- Proprietary filler blends high-capacity recycled cellulose with a copolymer that **pulls in thin, "rainbow" sheens of oil**
- Ideal for **long-term deployment** to remove sheen from oil spills or absorb residue in retention ponds, catch basins, tanks and more
- Polypropylene skin **resists tearing**; reduces dust and holds in liquid, even when saturated
- **Attached string** for tying socks down, together or dipping into tanks
- Absorbs and retains **oil-based liquids** — including lubricants — without taking in a drop of water
- Skin is **UV resistant up to 12 months**; provides long-term outdoor use without degradation
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regulations
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

## PIG® Static-Dissipative Absorbent Socks — Static discharge won't be a problem if you clean up volatile spills with these socks.

SKM701

- **Reduces the risk** of electrostatic discharge; a critical precaution around flammable liquids and vapors
- **Absorbs and retains oil-based solvents and fuels** — acetone, benzene, gasoline, toluene, xylene, mineral spirits and jet fuels — but not water
- **Spunbond polypropylene skin is UV resistant up to 12 months**; filler and skin are 100% static-dissipative polypropylene
- **Socks pass NFPA 99 standards** for static decay and surface resistivity; ideal for fueling areas, solvent cleanup and truck spill kits
- ◆ **Helps you comply** with 29 CFR 1910.106(h)(7)(i)(a) for preventing static that could ignite flammable vapors

### PIG® Static-Dissipative Absorbent Sock

Item #	Size	Unit	Abs. Up To	1-2	3-6	7+

BEST SELLER!

## PIG® Oil-Only Maintenance Sock — Soak up oil-based liquid indoors with our 95% recycled-content sock.

- Designed for use indoors, **these socks absorb a variety of oils, solvents, food-grade oils and other hydrocarbons**, but not a drop of water
- **Economical design** for general, daily use, compared to socks for specialty applications
- **Tan color hides grime** to stay on the job longer
- **Filler is a mixture** of pre- and postconsumer hydrophobic newsprint; 95% recycled content

NOTE: Not for continuous outdoor use.

PIG® Oil-Only Maintenance Absorbent Sock						
Item #	Size	Unit	Abs. Up To	1-4	5-11	12+
SKM500	Ext. Dia. 3" x 48"L	30 socks	30 gal./box	\$130	\$128	\$125

## PIG® Flat Oil-Only Sock — UV-resistant flat sock has a wider surface area for oily drips outdoors.

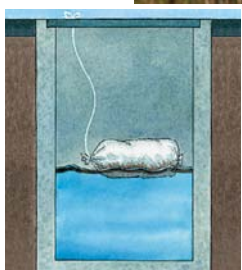

- Design is a **hybrid of round socks and flat pillows**; hugs walls, machine bases and uneven ground to absorb and contain oil-based leaks, drips and spills, but no water
- Low-profile design puts more material in contact with the ground for **better diking and max saturation**
- Polypropylene skin **resists tearing**; reduces dust and holds in liquid, even when saturated
- Skin is **UV resistant up to 12 months**; meets NFPA 99 standards for static decay

PIG® Flat Oil-Only Absorbent Sock						
Item #	Size	Unit	Abs. Up To	1-4	5-11	12+
SKM414	6"W x 48"L x 2"H	8 socks	16 gal./box	\$109	\$102	\$95

# **PIG Sump Skimmer** — Perfectly sized to pull oil out of your sumps, tanks and bilges.

- **Simply lower floating skimmer** into any water-based liquid to absorb oil-based liquids without taking in water
- **Bright white color** makes absorbed oil easier to see; clearly shows saturation level
- Can be **incinerated after use** to reduce waste or for fuels blending
- SKM400 and SKM404 **meet NFPA 99 standards for static decay**

Skimmer floats while absorbing oils without taking in water.

SKM411

SKM413

SKM404

Polypropylene loop can be used for easy deployment and retrieval.

SKM403

Spaghetti strip filler captures thick oils and other viscous liquids; tough outer mesh is UV resistant for long-term outdoor use.

*"Your skimmers and oil-only products saved our bacon many times during surprise environmental regulators' visits. They were impressed with how they absorb all the oil and don't drip any while being retrieved from the sump."*

# CLEAN UP OIL ON WATER

TOP 10  
BEST  
SELLER!

BOM304

**EXCLUSIVE!**

## **pig Absorbent Boom** — Control an oil spill anywhere with our field-proven boom.

- **Floats** to confine and soak up spills on water
- **Tough outer mesh** lets fluids easily pass through to filler material
- **Rope running along length of boom withstands up to 400 lb. loads**, adding strength for deployment and retrieval
- White spunbond polypropylene skin is UV resistant up to 12 months; **meets NFPA 99 standards for static decay**
- **Dark color (BOM410–BOM415)** spunbond polypropylene boom skin is UV resistant up to 4 months
- **Bright white color** makes booms easier to see in outdoor environments and clearly shows saturation level
- **Booms float** at surface for easy retrieval, even when saturated
- **Absorbs and retains oil-based liquids** — including lubricants — without taking in a drop of water
- Strong, zinc-plated carbon steel attachment clips and rings allow you to **link booms together** for greater length
- **Can be incinerated** after use to reduce waste or for fuels blending

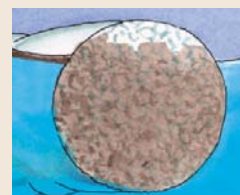

### OIL-ONLY BOOMS AT WORK

Surround spill with booms. They begin to absorb oil (not water) as soon as they're in place.

As oil is absorbed, the boom sinks in the water. Oil is now exposed to fresh absorbent.

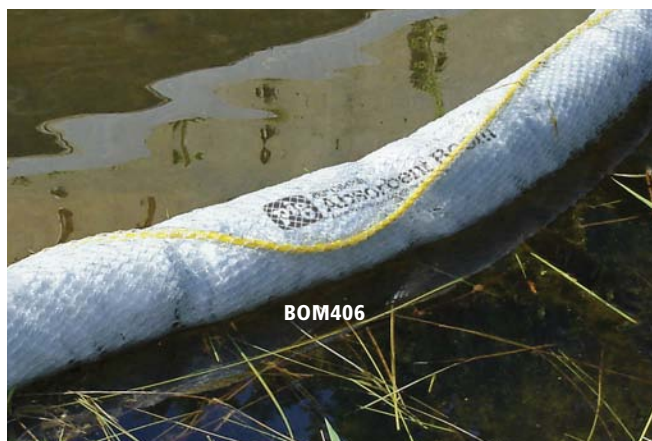

When completely saturated, the boom will "bob" just below the water's surface.

BOM304

BOM414

BOM406

PIG Oil-Only Booms in bright white are easier to see in outdoor environments and clearly show the saturation level.

BOM414

Dark color booms blend in while they absorb so they're barely noticeable.

NOTE: Spaghetti Booms not recommended for land. See page N2 for our new Quick-Deploy Absorbent Booms for spills on land.

PIG® Spaghetti Pillow						
Item #	Size	Unit	Abs. Up To	1-4	5-11	12+
PIL402	24"W x 24"L	5 pillows	10 gal./bag	\$127	\$120	\$114
PIL403	15"W x 15"L	10 pillows	10 gal./bag	\$165	\$160	\$153

Clips every 5' attach sweep to the booms. (Boom not included.)

## PIG® Oil-Only Skimming Sweep — Catch trailing oil from booms for more complete spill cleanup.

- Ideal for **adding a level of absorption to booms** deployed in rough waters
- **Clips** can attach sweep to the mesh of a boom; **straps** let you tie sweep across a waterway or onto a boat
- Bright white color is **easy to see**; shows saturation level
- **Absorbs and retains oil-based liquids**, not water

PIG® Oil-Only Absorbent Skimming Sweep							
Weight	Item #	Size	Unit	Abs. Up To	1-2	3-6	7+
Light	<b>MAT405-01</b>	17"W x 50'L	1 sweep	3.9 gal./bag	<b>\$59</b>	<b>\$55</b>	<b>\$49</b>

PIL203

## **pig** Skimmer Pillow — When you need more than a mat, our high-capacity pillows keep drinking oil.

- Pillow has **large surface area**, high capacity and **fast-wicking filler** to quickly soak up oil-based liquids; resists tearing, reduces dust and holds in liquid, even when saturated
- Tough, chemical-resistant polypropylene skin and filler absorb oils but **repel water-based liquids**
- **UV resistant** to 12 months; meets NFPA 99 standards for static decay

### PIG® Skimmer Oil-Only Absorbent Pillow

Item #	Size	Unit	Abs. Up To	1-4	5-11	12+
<b>PIL203</b>	16"W x 17"L x 1"H	10 pillows	10 gal./box	<b>\$183</b>	<b>\$176</b>	<b>\$168</b>
<b>PIL405</b>	12"W x 12"L x 1"H	10 pillows	5 gal./box	<b>\$112</b>	<b>\$104</b>	<b>\$102</b>

BEST SELLER!

## WANT A FREE SAMPLE?

Call **1-800-468-4647** or enter the product number at **newpig.com**

## **pig** Sheen Clean Pillow — Clean up thin, oily residue floating on water.

- Proprietary filler blends high-capacity recycled cellulose with a copolymer that **pulls in thin, "rainbow" sheens of oil**
- Ideal for **long-term deployment** to remove sheen after oil-based spills or to absorb oil residue
- Tear-resistant skin is **UV resistant up to 12 months**
- ◆ **Helps you comply** with Stormwater and SPCC Regulations

### PIG® Sheen Clean® Oil-Only Absorbent Pillow

Item #	Size	Unit	Abs. Up To	1-2	3-6	7+
<b>SKM602</b>	16"W x 17"L x 1.75"H	10 pillows	10 gal./box	<b>\$198</b>	<b>\$185</b>	<b>\$179</b>

SKM602

## PIG® Weighted Blanket — Even in 40 mph winds, this oil-absorbent pillow will stay down to soak up leaking liquids.

- Ballast keeps blanket in place, even in **winds up to 40 mph**
- Hydrophobic polypropylene filler **absorbs petroleum-based liquids** but not water
- Durable spunbond outer shell repels water and is **UV resistant up to 12 months**
- **Heavy-duty seams form self-contained pockets** to keep filler evenly distributed
- **Folds easily for conforming to uneven surfaces** or adding capacity where you need it
- **Grommeted corners** allow blanket to be staked down in soil or gravel applications
- ◆ **Helps you comply** with SPCC and Stormwater Regs

### PIG® Oil-Only Weighted Absorbent Blanket

Item #	Size	Unit	Abs. Up To	1-4	5-11	12+
PIL104	27"W x 36"L x 2"H	2 blankets	7.7 gal./box	\$125	\$115	\$104

\* ⚠️ **WARNING:** Cancer - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

# DON'T LET SPILLS BLITZ YOUR DRAINS.

Get tight-sealing protection from **PIG SpillBlocker Dikes**. See how to defend against spills on pages 162-163.

**PIG Oil-Only Lite-Dri** — Lighter than clay, plus it absorbs 3X more oil.

- **Recycled cellulose** repels water while absorbing oil-based liquids
- **Absorbent** begins to work the instant it comes in contact with liquid

**PIG® Oil-Only Lite-Dri® Loose Absorbent**

Item #	1-2	3+
<b>PLP415</b> • 10-lb. Bag • Absorbs up to 3.5 gal./bag	<b>\$19</b>	<b>\$18</b>
Item #	1-9	10+
<b>PLP410</b> • 22-lb. Bag • Absorbs up to 8 gal./bag	<b>\$28</b>	<b>\$27</b>

**PIG Peat** — Our best loose absorbent for cleaning up oil that was spilled on soil.

- Superabsorbent, nonleaching **activated sphagnum peat moss** absorbs up to 8 gallons of oil per bag
- Just throw it on a spill and sweep it up; used indoors, it even **removes the oily sheen from your floor**

NOTE: Not recommended for oil spills on water.

**PIG® Peat Absorbent**

Item #	1-9	10-39	40+
<b>PLP404</b> • 11-lb. Bag • Absorbs up to 8 gal./bag	<b>\$34</b>	<b>\$31</b>	<b>\$28</b>

**PIG Loose Absorbent** — Our most absorbent loose for oils and fuels.

- Polypropylene material **absorbs oil-based liquids but not a drop of water**
- Packaged loose so it can be **broadcast into nooks and crannies** where booms and pillows can't reach
- **Ideal for use on shorelines** where saturated absorbents can easily be raked up on ground or rocks

**PIG® Oil-Only Loose Absorbent**

Item #	1-4	5-11	12+
<b>SA8010</b> • 5-lb. Bag • Absorbs up to 7.5 gal./box	<b>\$106</b>	<b>\$103</b>	<b>\$95</b>

**PIG Absorbent Powder** — Turn spilled oils into an easy solid cleanup.

- Permanently solidifies absorbed oils and locks them into the material for easy cleanup; **won't leak or revert to liquid state**, even in disposal
- **Environmentally friendly** product absorbs oils and oil-based liquids, including fuels; will not absorb water

**PLP500**

**PIG® Oil Solidifying Absorbent Powder**

Item #	1-2	\$229
<b>PLP500</b> • 4 - 2-lb. Containers	<b>\$237</b>	<b>\$229</b>

# HAZMAT ABSORBENTS

Specially treated to absorb most acids, bases, corrosives and chemicals.

World's  
**#1**  
Absorbent  
Brand

## What is HazMat?

PIG HazMat Absorbents are specially treated to soak up spills without degrading or reacting to corrosive liquids including:

- Sulfuric acid
- Nitric acid
- Phosphoric acid
- Potassium hydroxide
- Hydrochloric acid
- Hydrofluoric acid
- Sodium hydroxide
- Hydrogen peroxide

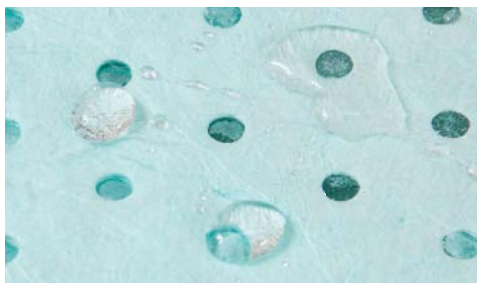

# KICKIN' ACID AND TAKIN' NAMES.

## OURS

PIG HazMat completely absorbs 98% sulfuric acid.

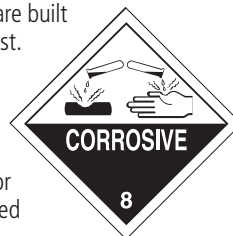

## THEIRS

Highly concentrated corrosives just puddle on top.

**Clean up acids and bases with the only mats and pads for high-concentration chemicals.**

Only PIG HazMat Absorbents are built to handle the worst of the worst. Highly corrosive liquids like 98% sulfuric acid and 30% sodium hydroxide can cause inferior cellulose mats, socks and pillows to degrade or react. But PIG is specially treated to absorb high concentrations of corrosive chemicals.

PIG HazMat Absorbents provide the widest range of chemical resistance you can buy, but don't let the pink color fool you — they're all tough as nails. You get the same strength and durability that make PIG the world's #1 selling absorbent brand. Nasty chemical spill? Think pink!

## NEUTRALIZING ABSORBENTS

**Absorb and neutralize small spills of most acids and bases for safer handling and cleanup.**

Neutralizers and neutralizing absorbents are made for spills of 5 gallons or less. If you're working with small quantities of acids or bases, neutralizers can help make these liquids safer to clean up and handle. Because the process of neutralizing acids and bases generates heat, it can also create the potential for a fire, making neutralizers impractical for large corrosive spills.

### Color change helps you work safer.

To further minimize your risk during chemical cleanup, many of our absorbents feature color-change technology. Take our PIG Encapsulating & Neutralizing Absorbents on pages 76 and 77. They change color on contact with acids or bases, then return to their original color when neutralization is complete, letting you know it's safe to return to work.

MAT302

TOP 10  
BEST  
SELLER!

**PIG** EXCLUSIVE!

## **PIG** HazMat Pads and Rolls — Soaks up all hazardous chemicals including highly concentrated corrosives.

- Absorbs the widest range of acids, bases and unknown liquids — even those with **high concentrations like 98% sulfuric acid and 30% sodium hydroxide**
- Chemical-resistant mat **won't degrade or cause a dangerous reaction** upon contact with corrosive spills
- Eight layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; **won't rip, tear or fray even when saturated**
- Exclusive dimple pattern **speeds wicking** of liquid throughout mat for faster, easier cleanup
- Highly absorbent, fine-fiber construction **won't leave behind liquids** or fiber residue
- **Absorbs and retains** most acids, bases and unknown liquids
- Pink **color is easily distinguishable** to assure workers use the correct mat during a spill emergency
- **Flame-resistant** material won't burn immediately like untreated cellulose mats; melts when exposed to high heat while on the job
- Heavyweight construction is **highly durable and absorbent** for demanding tasks and large-volume cleanups

### A CLOSER LOOK

**PIG exclusive!**  
Eight layers of thermally-bonded, melt-blown polypropylene make PIG Mat the **toughest mat on the market.**

HazMat Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

"I work for a chemical delivery company, and we must be prepared for spills at all times with special pads and socks. **New Pig has the best products hands-down**, and we never worry if they're going to work. All the area fire departments also use PIG products."

— Cory F., MAT354 Customer

MAT342

Tear off a section of Rip-&-Fit HazMat Roll (MAT342) to line an acid cabinet — then use the rest for the shelf it sits on!

### PIG® Chemical Barrel Top Absorbent Mat — Perfect fit to keep drum tops clean.

MAT355

- Shaped to fit on **drum tops** to keep them clean
- 2" bung cutouts
- Chemical-resistant mat **won't** degrade or cause a dangerous reaction

### PIG® HazMat Chemical Barrel Top Absorbent Mat

Item #	1-2	3-6	7+
<b>MAT355</b> • Heavyweight • Use with 55-Gallon Steel/Poly Drum 25 pads • Absorbs up to 5.9 gal./box	<b>\$93</b>	<b>\$88</b>	<b>\$83</b>

# PIG HazMat Socks and Dikes — Contain and absorb spreading spills of highly concentrated corrosives.

- Absorbs the **widest range of acids, bases and unknown liquids**, even those with high concentrations like 98% sulfuric acid and 30% sodium hydroxide
- Chemical-resistant socks and dikes **won't degrade or cause a dangerous reaction** upon contact with corrosive spills
- Polypropylene skin **resists chemicals and tearing**; reduces dust and holds in liquid, even when saturated
- Polypropylene filler is **highly absorbent** for containing corrosive or reactive spills
- **Socks** (124CR and PIG301) are excellent for quickly diking and stopping the spread of **smaller chemical spills**; **dikes** (HA1010) are excellent for quickly diking and stopping the spread of **larger chemical spills**
- **Pink color is easily distinguishable** to assure workers use the correct dike during a spill emergency
- **Can be incinerated** after use to reduce waste

Watch how PIG Socks dike and stop the spread of smaller chemical spills: [newpig.com/sockvideo](http://newpig.com/sockvideo)

## PIG Chem Guard Sock — Form a barrier to stop corrosive spills from spreading.

- Each sock **absorbs 80 oz.** of acids, bases, coolants, solvents and water; should not be used with hydrofluoric acid or hydrazine
- **Fast-wicking** amorphous silicate filler retains liquids after absorbing
- **Flexible socks** are great for diking and molding around chemical spills

PIG® Chem Guard Hazardous Chemical Absorbent Sock			
Item #	1-2	3-9	10+
PIG305 • Ext. Dia. 3" x 48"L 12 socks • Abs. up to 7.5 gal./box	\$118	\$112	\$107

See note above for more details on compatibility and testing.  
Acid Absorbents Notice: Not for use with hydrofluoric acid.

\* ⚠️ **WARNING:** Cancer - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## HazMat Pillow — More absorbency for large chemical cleanups.

- Absorbs the **widest range of acids, bases and unknown liquids**, even 98% sulfuric acid and 30% sodium hydroxide
- **Pillow won't degrade** or cause a dangerous reaction upon contact with corrosive spills
- Pillow has large surface area, high capacity and fast-wicking filler to quickly soak up liquids; **great for adding absorbency during spill response**
- **Pink color is easily seen** to assure use of the correct pillow

### PIG® HazMat Chemical Absorbent Pillow in Dispenser Box

Item #	Size	Unit	Abs. Up To	1-4	5-11	12+
PIL302	8"W x 8"L x 1"H	20 pillows	4.69 gal./box	<b>\$145</b>	<b>\$135</b>	<b>\$131</b>

### PIG® HazMat Chemical Absorbent Pillow

Item #	Size	Unit	Abs. Up To	1-4	5-11	12+
HR7015	17"W x 16"L x 2"H	10 pillows	10 gal./box	<b>\$251</b>	<b>\$243</b>	<b>\$234</b>
PIL307	8"W x 17"L x 2.5"H	10 pillows	6 gal./box	<b>\$145</b>	<b>\$135</b>	<b>\$131</b>

See note on page 74 for more details on compatibility and testing.

Forms into a solid mass that can be easily removed with a shovel and broom.

## PIG® Acid Solidifying Absorbent Powder — Solidifies absorbed acids and locks them into the material for easier cleanup.

- **Permanently solidifies** absorbed acids; won't leak or revert to liquid state when handled or placed under pressure
- Environmentally friendly product **absorbs acids and corrosives**
- **Helps you comply with EPA requirements** when used to solidify waste prior to shipment or landfilling

### PIG® Acid Solidifying Absorbent Powder

Item #	1-2	3+
PLP501 • 4 - 4-lb. Containers • Abs. up to 16 gal./box	<b>\$255</b>	<b>\$246</b>

## PIG® Loose Absorbent — Our HazMat Pad in loose form.

- With the power of PIG HazMat in a loose absorbent, it can be used for **various applications**; ideal for hard-to-reach spaces or final cleanup
- Chemical-resistant absorbent **won't degrade** or cause a dangerous reaction

### PIG® HazMat Chemical Loose Absorbent

Item #	1-4	5-11	12+
HA8010 • 1 - 5-lb. bag • Abs. up to 6.5 gal./box	<b>\$66</b>	<b>\$62</b>	<b>\$59</b>

See note on page 74 for more details on compatibility and testing.

## PIG® Base Encapsulating/Neutralizing Absorbents — Handle bases in one easy step for safer spill cleanup.

PLP805

- Choose from **mats, pillows, socks and loose** to help encapsulate and neutralize common bases in one step
- **Color changes** on contact with bases, then remains in a color-changed state when neutralization is complete; helps identify the best time to handle with the least amount of risk
- **Gelling agents solidify bases** during neutralization; prevents them from leaching out of absorbents
- **Instantly absorbs** up to 50% potassium hydroxide and other bases

PIG® Base Encapsulating & Neutralizing Absorbents			
Item #	1-2	3-6	7+
<b>MAT353</b> • Mat Pad • 25 pads/box • Absorbs up to 80 oz./box 11"W x 12"L	\$86	\$81	\$79
<b>PIL353</b> • Pillow • 4 pillows/box • Absorbs up to 1 gal./box 12"W x 12"L x 1"H	\$83	\$80	\$74
<b>PIG353</b> • Sock • 4 socks/box • Absorbs up to 1.5 gal./box Ext. Dia. 2" x 4"L	\$71	\$66	\$63

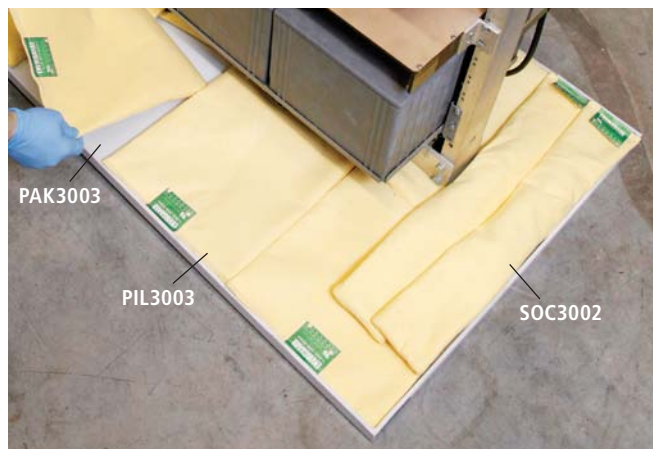

PIG® Base Encapsulating/Neutralizing Loose Absorbent			
Item #	1-2	3-6	7+
<b>PLP804</b> • 1 - 40-lb. Pail • Neutralizes up to 11 gal.	\$331	\$326	\$324
<b>PLP803</b> • 1 - 8-lb. Pail • Neutralizes up to 2.5 gal.	\$118	\$112	\$106
<b>PLP805</b> • 10 - 2-lb. Shaker Bottles • Neutralizes up to 5.7 gal.	\$273	\$268	\$261

Base Absorbents Notice: Avoid contact with metallic nitrates, cyanides, sulfides and strong oxidizers. Contact with sodium or calcium hypochlorite creates chlorine gas.

HazMat Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

## Battery Acid-Neutralizing Absorbents — Protect equipment and flooring from corrosive leaks by lining acid-resistant trays with socks and pillows.

- Low-profile tray is easy to use with cabinet and **Valve Regulated Lead Acid (VRLA)** battery applications; also use with motive power and backup battery power systems
- **Acid-resistant tray** is compatible with a wide range of chemicals
- Designed for use with battery acid-neutralizing **pillows and socks** (sold separately below) based on your battery type and application
- **Acid-neutralizing filler** protects your people and equipment against dangerous leaks, drips and spills
- **Changes color on contact** with acids or electrolytes (but not water)
- **UL Recognized** Pillows have been tested to meet Class 1 fire ratings; **FM Approved** Pillows and Socks meet approval standard 4955 (see ordering information below)

## PIG® Acid Encapsulating/Neutralizing Absorbents — Four absorbent choices, one easy step for safer acid cleanup.

- Choose from **mats, pillows, socks and loose** to help encapsulate and neutralize common acids in one step
- **Color changes** on contact with bases, then remains in a color-changed state when neutralization is complete; helps identify the best time to handle with the least amount of risk
- **Gelling agents solidify acids** during neutralization; prevents them from leaching out of the absorbent
- **Acid neutralizer** instantly absorbs up to 98% concentrations of sulfuric acid and other acids

Color-change technology takes the guesswork out of safe handling.

MAT304

Quick-acting mats absorb, encapsulate and neutralize common acids.

Stop a spreading spill with socks, and use mats and pillows to encapsulate the acid.

Loose absorbent neutralizes and solidifies spilled acid for safe and easy cleanup.

### PIG® Acid Encapsulating & Neutralizing Absorbents

Item #	1-2	3-6	7+
<b>MAT304</b> • Mat Pad • 25 pads/box • Absorbs up to 80 oz./box 11"W x 12"L	\$81	\$75	\$72
<b>PIL352</b> • Pillow • 4 pillows/box • Absorbs up to 1 gal./box 12"W x 12"L x 1"H	\$85	\$82	\$78
<b>PIG309</b> • Sock • 4 socks/box • Absorbs up to 1.5 gal./box Ext. Dia. 2" x 4'L	\$72	\$67	\$64

Notice: Not for use with hydrofluoric acid.

### PIG® Acid Encapsulating/Neutralizing Loose Absorbent

Item #	1-2	3-6	7+
<b>PLP801</b> • 1 - 40-lb. Pail • Neutralizes up to 13 gal.	\$150	\$146	\$142
<b>PLP800</b> • 1 - 8-lb. Pail • Neutralizes up to 3 gal.	\$61	\$59	\$57
<b>PLP802</b> • 10 - 2-lb. Shaker Bottles • Neutralizes up to 6.5 gal.	\$201	\$198	\$194

Notice: Not for use with hydrofluoric acid.

HazMat Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

**Need help choosing the best absorbent for your job?**  
**Call our Tech Team at 1-800-HOT-HOGS!**

PLP301

## PIG® Battery Acid Neutralizing Absorbent — It's pelletized!

- Contains, absorbs and neutralizes
- Pellet formula **absorbs more and requires less cleanup**; safe around sensitive equipment
- **Doesn't create hazardous respirable dust** or leave residue

PLP303

### PIG® Battery Acid Neutralizing Loose Absorbent

Item #	1-4	5-9	10+
PLP303 • 30-lb. Pail • Neutralizes up to 10.5 gal./pail	\$230	\$226	\$220
PLP301 • 10-lb. Pail • Neutralizes up to 3.5 gal./pail	\$91	\$86	\$80

See note on page 77 for more details on compatibility and testing.

MAT1400

## Formaldehyde Pads — Minimize vapors for safer formaldehyde cleanup.

- Specially treated polypropylene **quickly absorbs formaldehyde**, formaldehyde-based fixatives, glutaraldehyde and other aldehyde solutions
- **Rapidly neutralizes** formaldehyde vapors to help protect workers
- **Durable top surface** resists rips, tears and abrasion

### Formaldehyde Neutralizing Absorbent Mat Pads

Item #	1-2	3-6	7+
MAT1400 • 16"W x 20"L • Absorbs up to 4.5 gal./box 25 pads/box	\$389	\$381	\$374

GEN864

## PIG® Hydrofluoric Acid Neutralizer — Converts acid into organic salts and water for safer cleanup.

- **Liquid changes color on contact** with acid, then returns to normal when neutralization is complete; helps identify the best time to handle with the least amount of risk
- **Safer to use** than caustic soda neutralizers which can form a poisonous gas by-product
- Liquid formula works at a **1:1 ratio**

GEN864

### PIG® Hydrofluoric Acid Neutralizer

Item #	1-2	3+
GEN864 • 4 - 1-gal. Bottles • Neutralizes up to 4 gal.	\$350	\$337

PLP806

## PIG® Hydrofluoric Acid Neutralizing Loose — Safer handling of acid spills.

- Product **contains, absorbs and neutralizes** hydrofluoric acid
- **Pelletized formula** absorbs more and requires less cleanup than traditional hydrofluoric acid neutralizers
- **Doesn't splatter** or create hazardous dust

PLP806

### PIG® Hydrofluoric Acid Neutralizing Loose Absorbent

Item #	1-2	3-6	7+
PLP806 • 6 - 1.5-lb. Containers • Neutralizes up to 1.4 gal./box	\$104	\$98	\$94

## Ansul Adsorbents — Neutralize spills up to 5 gallons for cleanup and handling.

- **GEN322 and GEN381 neutralize and solidify most mineral and organic acids** including sulfuric, hydrochloric, nitric and hydrofluoric
- **GEN323 and GEN382 neutralize and solidify many caustics** including sodium hydroxide (50%) and ammonium hydroxide (29%)
- **GEN324 adsorbs spills of many common hydrocarbon solvents** (including mineral spirits, naphtha and xylene), reagents and fuels; solidified liquid is easy to clean up

GEN322

### Ansul® Neutralizing Adsorbents

*"Great value! Kit includes all items needed to handle spills at our location."*

— Becky, PIG Spill Kit Customer

# SPILL KITS

## You can always expect the best from PIG Spill Kits!

Is it your job to make sure that a manageable mishap doesn't turn into a spill catastrophe? Be prepared for the worst by stocking your facility with the best — PIG Spill Kits are a no-brainer if you're serious about protecting your facility and avoiding EPA fines. Here's what separates PIG from the pack:

### Packed with PIG Absorbents

PIG Mats, Socks, Pillows and Loose are the world's #1 brand of absorbents — and you'll only find them in PIG Spill Kits.

### Filled for fast response

Every PIG Spill Kit is filled in the order you need the contents. No digging required! Cleanup starts the second you open the lid.

### More choices to fit your facility

From UN Rated overpack salvage drums to grab-and-go bag kits, you'll find a PIG Spill Kit that's perfect for your application. Turn the page for help choosing!

## “WE’VE GOT SPILL RESPONSE DOWN TO A SCIENCE”

As the leak-and-spill leader since 1985, every kit in our lineup is built on 35 years' experience.

Kelli Steindl — Product Manager

**Spill kits can help you meet SPCC requirements for active secondary containment.**

If your facility is subject to SPCC requirements, spill kits can be an effective active secondary containment strategy for areas where you don't store bulk containers but you still have the potential for oil discharges.

**Spill Kit Accessories**..... 134–137

**Testing Supplies** ..... 134–135

**Signs and Labels**..... 136–137

## ◆ HELPS YOU COMPLY

**Make PIG Spill Kits part of your plan for SPCC and Stormwater Regulation compliance.**

### ◆ SPCC 40 CFR 112.7

*Facilities must have written plans and documentation of the products that are in place to prevent discharge of oil into waters.*

### ◆ STORMWATER

**40 CFR 122.26**

*Facilities with an SWPPP must describe the plan and equipment available to prevent illegal discharge of pollutants into waterways.*

# 3 WAYS TO CHOOSE A SPILL KIT

## 1 SHOP BY LIQUID

Choose a spill kit with the right kind of absorbents for the liquids you manage at your facility.

### UNIVERSAL SPILL KITS

Also called "MRO" absorbents, they soak up the widest range of liquids — oils, coolants, solvents and water.

**Common liquids absorbed:** hydraulic oil, vegetable oil, gasoline, diesel fuel, antifreeze, water-based solvents, propylene glycol, acetone, toluene, xylene and MEK

See pages 84–101

ABSORBS OILS, COOLANTS,  
SOLVENTS AND WATER

### OIL-ONLY SPILL KITS

PIG Oil-Only Absorbents repel water, so you can clean up fuel and oil-based spills, even in outdoor applications.

**Common liquids absorbed:** motor oil, hydraulic oil, cutting oil, diesel fuel, synthetic oils, vehicle fluids, vegetable fluids and oil-based solvents

See pages 102–117

ABSORBS OIL BUT NOT WATER

### HAZMAT SPILL KITS

PIG HazMat Absorbents are specially treated to soak up acids and bases without degrading or reacting.

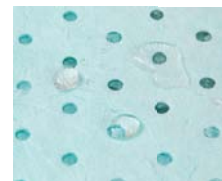

**Common liquids absorbed:** sulfuric acid, hydrochloric acid, nitric acid, hydrofluoric acid, phosphoric acid, sodium hydroxide, potassium hydroxide and hydrogen peroxide

See pages 118–131

#### OURS

Even 98% sulfuric acid is completely absorbed.

#### THEIRS

Highly corrosive liquids just puddle on top.

## 2 SHOP BY CONTAINER

Identify spill-prone areas and choose your spill kit based on where it's stored and how it's used.

We've got a container for every conundrum, giving you more spill kit choices than anyone else. Most of our kits are available in three versions to absorb any mess: Universal, Oil-Only or HazMat (see opposite page).

**Overpack Kits** — UN Rated containers are perfect when you need to ship your spill cleanup waste.

**Economy Kits** — Basic "trash can" containers do the job without the extra cost of a UN Rated shippable container.

**Response Chests** — Our largest kits can be centrally located as an absorbents "warehouse" or wheeled to a large spill.

**Carts & Mobile Container Kits** — Roll your spill response supplies right to the spill site in these containers with wheels.

**Bucket Kits** — Grab-and-go convenience that can also double as a UN Rated shipping container.

**Bag Kits** — Stuff these kits just about anywhere for easy access and quick transport to the scene of the spill.

## 3 SHOP BY APPLICATION

Choose from popular spill kit lines designed for specific areas and special tasks.

We've developed several lines of spill kits to meet the specific demands of certain applications. These kits have been fine-tuned with unique containers, essential protective equipment and job-specific absorbents.

**Fuel Station Kits** — Rugged, weather-resistant containers packed with our best static-dissipative absorbents for spilled fuel and oil.

**Single Use Cleanup Kits** — Compact, easy-open bags designed for small spills of oils, fuels, solvents, chemicals and bio fluids.

**Truck Kits** — Rugged spill kits are road-ready and packed with supplies for cleaning up oil, gas and other vehicle fluids.

**PIG Fuel Station Spill Kits**  
available in 5 container types (Overpack shown)

**Battery Acid Kits** — Stay ready for battery charging blunders with these spill kits for cleaning up and neutralizing battery acid.

**Biohazard Kits** — Stay safe and minimize the yuck factor with these specialized kits made just for biofluid cleanups.

**PIG Truck Spill Kits**  
available in 6 bag types (Duffel shown)

KIT202

## **pig** Spill Kit in Overpack Drum — Strong enough to earn a UN Rating for shipping spill cleanup waste.

- Packed with **PIG Absorbents** for the durability and retention you need for spill cleanup
- Lift-out baskets in 50-, 65- and 95-gallon kits **provide speedy access** and block damaging UV rays
- Overpacks are **X-rated for Packing Groups I, II and III** for shipping spill cleanup waste by land, sea or rail
- Lightweight, 100% plastic container **resists chemicals and keeps contents clean and dry**
- Overpacks are available **with or without wheels**
- **Leakproof, twist-on lid** protects contents from water damage
- Ledges molded into container make kit **easy to move by forklift**
- **Tamperproof seal** helps prevent pilfering of spill response supplies
- ◆ **Helps you comply** with HAZWOPER 29 CFR 1910.120 (j)(1)(vii)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

NOTE: A PIG Overpack Protection Cover (sold separately) is suggested for outdoor storage to protect container from UV degradation and weathering. See page 134.

**EXPERT  
ADVICE**

Overwhelmed by overpacks?  
We can help:  
[newpig.com/overpacks101](http://newpig.com/overpacks101)

### Exclusive UV InnerShield® System protects kit contents and provides easy access.

Lift-out baskets make it easy to reach the supplies you need. They also provide side protection against UV rays.

Lid insert protects against UV exposure from the top down. Keep your absorbents covered for longer life and maximum effectiveness!

OVERPACK ACCESSORIES  
SOLD ON PAGES 134–137.

# GOT A SPILL? IT'S IN THE BAG.

Wall-Mount Hook  
See page 136.

**BEST  
SELLER!**

KIT220

## **PIG** Spill Kit in Bags — These kits are made for portable spill response that's fast and easy!

- Packed with PIG Absorbents to **absorb oils, coolants, solvents and water**
- **Compact size** is ideal for storage in vehicles or in other tight spaces
- Sturdy bags have **straps or handles for hanging** and grab-and-go convenience
- Used absorbents can be put in the **included temporary bags**
- ◆ **Helps you comply** with 40 CFR 263.30(a) and 40 CFR 263.31 Regulations

*"Great product. The **see-through bag** was a big hit. The oil rigs that we work for were impressed with the size of the kit and products inside the bag. They even took one of our kits back to show their safety team!"*

— Quay, KIT274 Customer

KIT274

PIG Spill Kits in Bags contain everything you need to clean up a spill fast, safely and effectively.

See why PIG Mat is the #1 mat in the world:  
[newpig.com/pig-mat-video](http://newpig.com/pig-mat-video)

### Duffel Bag

- Duffel bag is **packed with four kits** — absorb spills at a great price, then keep the bag
- Great for **multiple uses** or locations

### High-Visibility Bag

- Water-resistant bag** with hook-and-loop closure protects kit contents
- Bright yellow bag makes kit **easy to see**

### Camo Duffel Bag

- Durable, camouflaged duffel bag** hides dirt and is easy to grab and go to the spill
- Bag is spacious** enough to fit additional items

### Denim Duffel Bag

- Durable **denim bag with drawstring** closure hides dirt
- Instant bucket, goggles, gloves and coveralls help you **handle spills or ruptures**

### Tote Bag

- Vinyl-coated **canvas tool bag** withstands tough environments; pockets store additional tools and supplies
- Bag features a wide-opening mouth and **self-standing design**

### See-Through Bag

- Compact kit with zipper is easy to store and carry
- Transparent bag** lets you check supply levels at a glance while keeping contents clean and dry

### Spill Pack

- Rugged **vacuum packaging** keeps contents clean and dry and makes it easy to detect tampering
- Highly visible** pack is easy to locate

KIT5017

# TRUCK SPILL KITS

Inside and out, we designed **PIG Truck Spill Kits** just for trucks. That may sound like a no-brainer, but until now, people used industrial spill kits as truck kits — it just doesn't work. Here's what makes ours better:

## Truck-First Design

We studied trucks of every size and shape, *then* we developed spill kits to fit. (Check 'em out below!)

## Ultra-Durable

Rugged construction for the rigors of the road. Our new bags won't rip or tear, so you can refill and reuse them.

## Road-Ready Supplies

Packed with PIG Absorbents, collapsible containment and more for cleaning up spilled oil, gas and other vehicle fluids.

### Behind the seat

**Stowaway Bags** are just the right size for storing behind or underneath your seat.

**Exterior mounted Bucket Kits and Duffel Bag Kits** can be mounted with optional brackets.

### In the bed

**Storage Boxes** fit standard truck beds. **Bucket Kits** are also designed to ride outside and protect contents.

### Box compartments

**Tote Bag Kits** are ideal for large internal or external compartments and mounted storage boxes.

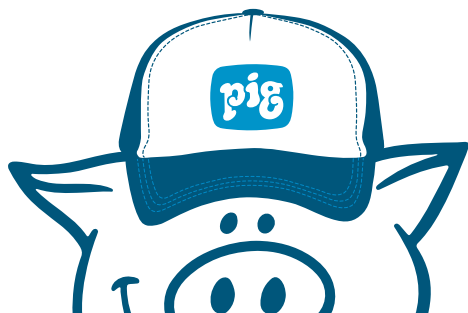

**Big rig, box truck or pickup, there's a spill kit that fits on pages 96–98, 109 and 112–113.**

### Long compartments

**Duffel Bag Kits** fit wheel well boxes and other long, narrow areas. External mounting containers also available.

Learn about our spill kits designed specifically for all kinds of trucks:  
[newpig.com/truckkitsvideo](http://newpig.com/truckkitsvideo)

# HIT THE ROAD WITH PIG!

Your truck's external compartments are perfect for spill kit storage. And now you can buy a kit that fits!

**EXCLUSIVE!**

## **PIG** Truck Spill Kits — Space-saving spill response stashes behind or underneath your seat.

- Packed with PIG Absorbents and other spill response supplies for cleaning up **oil, gasoline and other fluids** that leak, drip or spill from your vehicle (see contents at right)
- **Hi-viz yellow bag** is easy to find; increases driver visibility and safety during spill response
- **Bold "Spill Kit" lettering** on front and sides for quick identification
- **Rugged construction** for repeated use
- Use carrying straps to **pull bag from its space** and take to the spill
- Universal absorbents soak up small leaks and spills of **motor oil, gasoline, engine coolants and other vehicle fluids**
- ◆ **Helps you comply** with 40 CFR 263.30(a) and 40 CFR 263.31

*"Everything that is required for spill control in one easy to store package. Fits nicely behind the seat of my trucks or in the storage bins. High visibility bag means that my crew will always be able to find it in during an emergency."*

— Russell, KIT622 Customer

## **Oil-Only Spill Kit in Hi-Viz Economy Container** — Clean up and comply without the extra cost of a UN Rated container.

Don't get us wrong, spill kits in overpack salvage drums are well worth the money when you need a UN Rated shipping container. But when you just need a spill kit, you can't beat the value (or visibility) of these economical containers.

- Basic container **saves money** when a UN Rated container for shipping haz waste is not necessary
- Bright yellow color is **easy to locate**
- Nonthreaded lid lifts off for **fast access**; molded-in handles make carrying easy
- Lightweight polyethylene container **resists chemicals and protects contents**
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

NOTE: Not recommended for outdoor storage.

## **Oil-Only Spill Kit in Bucket** — Carry this shippable pail to small spills.

- Polyethylene bucket with **easy-open, screw-on lid** can be used to ship or temporarily store used absorbents
- **UN Rating 1H2/Y30/S** for Packing Groups II and III
- Prepacked bucket provides **easy access** to contents
- ◆ **Helps you comply** with HAZWOPER 29 CFR 1910.120 (j)(1)(vii)

**NEED A CUSTOM KIT? GIVE US A CALL AND WE'LL BUILD ONE FOR YOU!**

### **Oil-Only Spill Kit in Bucket**

Item #	1-2	3-5	6+
<b>KIT413</b> • Absorbs up to 4.5 gal. • UN1H2/Y30/S	\$79	\$76	\$72
<b>KIT413 Contents</b> • 2 Socks • 4 Mat Pads • 2 Disposal Bags & Ties • 6 Tamperproof Labels • 1 Instructions			

## **pig** UV-Resistant Oil-Only Spill Kit — Overpack and contents resist UV rays for up to 12 months.

- **Opaque container blocks UV** from degrading contents for up to 8,000 hours
- **All absorbents resist UV for up to 1 year** (12 hours/day of direct exposure for 12 months) and float to absorb oil on water
- **Lift-out, prepacked baskets** allow easy access to contents
- **Overpack drum is UN Rated** for shipping waste after cleanup
- **Reflective tape** on the lid adds visibility
- **Leakproof, twist-on lid is notched** for easy removal or tightening with a 2x4 or pole
- **Ledges molded into container make kit easy to move by forklift**
- **KIT416** contains PIG Oil-Only Booms, PIG Oil-Only UV-Resistant Mat and Pillows, PIG Lite-Dri Loose and temporary disposal bags
- **KIT467** includes the same absorbents as KIT416 plus materials for responding to **ruptured or punctured transformers** (see contents)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

### Meet both sides of the SPCC equation with active and passive containment.

If your facility is subject to SPCC regs, you need both active and passive containment. Absorbents, spill kits and drain covers comply as active containment; pallets, decks, dikes and berms as passive.

# FUEL STATION SPILL KITS

Spills around fuel stations are a given, but the cleanup can get a little dicey. So we studied fueling operations (every shape and size) and designed PIG Fuel Station Spill Kits: the **ONLY** kits made specifically for safe cleanup of fuel and oil-based spills. No more worries — you can count on our kits to be sturdy, fast-acting, versatile, UV-resistant, weatherproof — and safe for fuels!

## Made to Soak Up Fuel Spills

We pack our kits with PIG Absorbents, PPE and cleanup tools to safely and effectively clean up gasoline, diesel, jet fuel and kerosene — but no water.

## Safer Cleanup = Peace of Mind

The PIG Mats and Socks in our kits are static-dissipative and pass NFPA 99, so you can be confident you'll be safe when responding to flammable liquid spills.

## Rugged Containers

All the kits are UV-resistant, weather-resistant and grime-hiding black with reflective labeling and striping for visibility — perfect for outdoor storage. Portable, wheeled or stationary kits: You have options for every fueling location.

### BAG & CABINET

**KIT4004** Hang cabinet on a station pole, beam or wall

### DUFFEL BAG

**KIT4003** Store in a cabinet, building or vehicle

### OVERPACK

**KIT4002** Place by above-ground tanks, piping, or at fueling sites

### CART

**KIT4001** Park indoors or out, at a fuel island or near above-ground tanks

### BUCKET

**KIT4000** Keep indoors or out, in vehicles or at fuel stations

**Perfect for marinas, garages, commercial, military, industrial, construction, airports, truck terminals and remote operations.**

**See these kits on pages 115–117!**

Absorbs  
up to  
**41.7**  
gallons

Spill Kits

Oil-Only

Absorbs fuels and oil-based liquids, but not water

**EXCLUSIVE!**

## **pig** Fuel Station Spill Kit in Overpack — Use this kit for spill cleanup, then ship the waste in the UN Rated container.

- The **only kits designed for fueling stations** — tough, grime-hiding containers packed with absorbents specifically made for gasoline, diesel, jet fuel and kerosene, but not water
- **Packed with absorbent, static-dissipative mats and socks** that pass NFPA 99 standards for static decay and surface resistivity
- **Includes PIG Loose Absorbent, PPE** and cleanup tools
- **Opaque black container has reflective labeling** and striping for easy visibility at night
- **95-gallon overpack container is UN Rated 1H2/Y345/S** for shipping waste after cleanup and is weatherproof and UV resistant
- **Lift-out, prepacked baskets** allow easy access to contents; molded-in ledges make it easy to move by forklift

- **Ideal to store near** above-ground storage tanks, by piping or at fuel-dispensing stations
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

gallons

### See-Through Bag

- Compact kit with **zipper closure** is easy to store and carry
- **Transparent bag** lets you check chemical spill supplies at a glance while keeping contents clean and dry

# NEUTRALIZING & SPECIALTY LIQUID SPILL KITS

An extra measure of safety for chemical spill cleanups.

Size matters when deciding if you need to use a neutralizer or a standard hazmat absorbent. Because the process of neutralizing acids and bases generates heat, it can also create the potential for a fire, making neutralizers impractical for large corrosive spills. But for smaller spills of 5 gallons or less, neutralization can help make these liquids safer to clean up and handle.

Find the PIG Neutralizing Spill Kit that's right for you on pages 126–133.

PLS1850 – PIG Biohazard Spill Kit (See page 132)

KIT322 – PIG Battery Acid Spill Kit in See-Thru Bin (See page 129)

### PIG® Hydrofluoric Acid Neutralizer

Item #	1-2	3+
<b>GEN864</b> • 4 - 1-gal. Bottles	<b>\$350</b>	<b>\$337</b>

After neutralizing a dangerous hydrofluoric acid spill (above), absorb it with the included PIG HazMat Pads!

# TAKE CHARGE OF BATTERY ACID SPILLS

## **pig** Battery Acid Spill Kits — Just neutralize that battery acid spill and get on with your day!

Corrosive liquids require special handling and extra precaution when they hit the floor. Everyday absorbents just don't cut it when you're dealing with the nasty stuff. That's why we pack our **Battery Acid Spill Kits** with specialized contents. We've hand-picked the perfect mix of neutralizers, absorbents and personal protective equipment to help you clean up the mess — and stay safe doing so.

### Battery management must-haves!

Speaking of safety, we've also put together a selection of products specifically designed for safer handling of batteries and battery acid. From specialized absorbents to spill kits to cleaners and PPE, you'll find a solution on pages 76 and 129–130 to help you protect workers and comply with OSHA regulations. For battery recycling containers, see page 284.

◆ **Helps you comply** with 29 CFR 1910.178(g)(2)

We don't mess around when it comes to battery acid. Our kits contain everything you need to clean up a spill — and do it safely.

**EXPERT  
ADVICE**

Use this checklist to ensure your battery storage and charging areas are in compliance with OSHA standards:

## Overpack Drum

- 20-gallon overpack salvage drum (UN Rating 1H2/X46/S) meets DOT shipping specifications for overpacking hazardous materials

KIT352

Absorbs  
up to  
**12.5**  
gallons

"Great service, a **well thought-out product** in a professional package that makes us look like we are on the cutting edge of battery acid spill control. Thank you, New Pig."

— Kevin L., KIT352 Customer

## Caddy

- Caddy in hi-viz yellow is easy to locate
- Swing-out doors and prepacked shelves and compartments make it **easy to access and inventory**

KIT354

Absorbs  
up to  
**7**  
gallons

KIT322

Absorbs  
up to  
**5**  
gallons

KIT353

Absorbs  
up to  
**4**  
gallons

KIT610

Absorbs  
up to  
**3.4**  
gallons

## See-Through Bin

- **Transparent door** for quick supply checks
- **Stores easily** on workbench or shelf
- **Built-in handles** for grab-and-go spill response

## Spill Pack

- **High-visibility foil vacuum package** protects contents and deters pilfering
- **Built-in** grommets and handle
- Compact; **tucks** behind forklift seat

## Bucket Kit

- **Absorbs and neutralizes** NiCad battery electrolyte spills
- **Ship or store** used absorbents in bucket; UN Rating 1H2/Y30/S, Packing Groups II and III

### PIG® NiCad Battery Neutralizing Spill Kit in Bucket

Item #	Style	Absorbency	UN #	Socks	Mat Pads	Loose	PPE	Misc.	Bags & Ties	1-2	3-6	7+
<b>KIT610</b>	Bucket	Up to 3.4 gal.	UN1H2/Y30/S	2	5	1	1 Pair of Gloves, 1 Pair of Goggles, 1 Apron	1 Dustpan/Broom	5	\$345	\$336	\$316

Avoid contact with metallic nitrates, cyanides, sulfides and strong oxidizers. Contact with sodium or calcium hypochlorite creates chlorine gas.

See note on page 118 for more details on compatibility and testing.

## YOUR MESS. OUR MISSION.™

Staying on top of leaks and spills can feel impossible. We're ready to help you stay clean, safe and productive!

See our Universal Mats on pages 11–13.

### Battery Handling PPE Kit — Wall-mounted kit holds PPE for handling leaky batteries.

- All components are attached to a **hi-viz, wall-mounted board** labeled "Battery Changing Area" (hardware included)
- Includes **easy-to-read hydrometer** to accurately measure acid concentration
- Includes gloves, goggles, faceshield and apron for **protection from battery acid**; also includes flashlight (batteries not included)

#### Battery Handling PPE Kit

Item #	1+
<b>WPL105</b>	<b>\$157</b>
<b>WPL105 Contents</b> • 1 Mounting Board • 1 Battery Hydrometer • 1 Flashlight • 1 Battery Cap-Off Tool • 1 Faceshield Headgear • 1 Faceshield • 1 PVC Apron • 1 Pair of Neoprene Gloves • 1 Pair of Goggles	

BEST  
SELLER

### PIG® Battery Maintenance Kit — All the essential items you need to maintain your batteries and handling equipment.

- **Helps reduce trickle discharges, shorts** and corrosion damage; can also be used to **pinpoint leaks**
- **Color-change indicators** show when neutralization is complete
- Included spray cleaner **neutralizes, cleans and degreases** batteries; foam **gets into cracks and crevices** with no run-off
- ◆ **Helps you comply** with 29 CFR 1910.178(g)(2) (CLN1001)

**CLN1001** Kit includes PPE, neutralizers and tools. Cleaner included in kit is also sold separately. (CLN1000)

#### PIG® Battery Cleaning & Maintenance Kit

Item #	1-3	4+
<b>CLN1001</b> • Absorbs up to 16 oz.	<b>\$191</b>	<b>\$184</b>
<b>CLN1001 Contents</b> • 5 Mat Pads • 2 Battery Acid Neutralizer & Cleaner • 40 Wipers • 30 Neutralizing Wipes • 1 Large Brush • 1 Small Brush • 1 Faceshield/Headgear • 1 Apron • 2 Pairs of Gloves • 2 Disposal Bags and Ties • 1 Instructions		
Item #	1-2	3+
<b>CLN1000</b> • PIG Battery Cleaner & Acid Neutralizer • 12 - 20-oz. Canisters	<b>\$103</b>	<b>\$96</b>

See note on page 118 for more details on compatibility and testing.  
Acid Absorbents Notice: Not for use with hydrofluoric acid.

### PIG® Battery Acid Wipes — Color-changing cleanup!

- **Premoistened wipers** neutralize battery acid residue while cleaning the surface of batteries, tools, workstations and small spill sites
- Wipers **change color to indicate neutralization**; when wipe is completely colored, neutralizing ability is exhausted
- **Plastic container** with snap-tight lid neatly dispenses wipers

#### PIG® Battery Acid Cleaner and Neutralizer Wipes

Item #	1-4	5+
<b>WIP700</b> • Center-pull Roll • White 30/pack • 7"W x 8"L	<b>\$15</b>	<b>\$14</b>

## **pig** Mercury Spill Kit — Keep the dangers of mercury spills to a minimum with a kit that is made for the job.

- Includes **PIG Mercury Absorbent Powder** to transform up to 1,000 grams of visible mercury into a zinc amalgam
- **Suppresses hazardous mercury vapors** to limit worker exposure
- Hand **broom, dustpan and disposal bags** included
- Lightweight, **100% polyethylene container** resists chemicals
- **Screw-on lid** opens easily for access to supplies
- Includes **PPE** to guard against mercury
- **PIG Mercury Cleanup Wipers** decontaminate hands, tools and surfaces

**Step 1**  
Shake PIG Mercury Absorbent Powder onto spills to absorb visible mercury, transform it into a zinc amalgam and suppress hazardous vapors.

**Step 2**  
Use enclosed hand broom and dustpan to sweep up stabilized mercury for easy transfer into disposal bags.

**Step 3**  
Eliminate dangerous residue and decontaminate hands, tools and surfaces with premoistened PIG Mercury Cleanup Wipers.

### **PIG® Mercury Spill Kit in Bucket**

Item #	1-2	3-4	5+
<b>KIT600</b> • Absorbs up to 35.27 oz. • UN1H2/Y6/S	<b>\$132</b>	<b>\$128</b>	<b>\$122</b>

**KIT600 Contents** • 1 Mercury Absorbent Powder • 1 Goggles • 1 Pair of 18 mil. Gloves • 10 Wipers • 1 Spatula • 1 Dustpan & Hand Broom • 1 Disposal Bag and Tie • 1 Instructions

### **PIG® Mercury Absorbent Powder**

Item #	1-2	3-4	5+
<b>PLP602</b> • Absorbs Mercury • 1 - 1,000 gram Container	<b>\$109</b>	<b>\$105</b>	<b>\$101</b>

### **PIG® Mercury Cleanup Wipers**

Item #	1-2	3-5	6+
<b>WIP1404</b> • Center-pull roll • White • 10 wipers	<b>\$11</b>	<b>\$10</b>	<b>\$9</b>

NOTE: Avoid contact with metallic nitrates, cyanides, sulfides and strong oxidizers. Contact with sodium or calcium hypochlorite creates chlorine gas.

Respirators sold separately on page 214.

Absorbs up to  
**1.5**  
gallons

**KIT501**

## **pig** Formaldehyde Spill Kit in Bucket — Quickly absorb and solidify formaldehyde.

- **Absorbs, solidifies** formaldehyde, glutaraldehyde, formaldehyde-based fixatives and other aldehyde solutions
- Includes **PPE and cleanup tools** for safe, effective spill response

### **PIG® Formaldehyde Spill Kit in Bucket**

Item #	1-2	3-5	6+
<b>KIT501</b> • Absorbs up to 1.5 gal.	<b>\$192</b>	<b>\$185</b>	<b>\$180</b>

**KIT501 Contents** • 1 Formaldehyde Loose Absorbent • 2 Aprons • 2 Pairs of Goggles • 2 Pairs of Gloves • 2 Pairs of Boot Covers • 1 Hand Broom & Dustpan • 1 Roll Caution Tape • 1 Disposal Bag

## **pig** Mercury Vacuum Kit — Control mercury spills with a vacuum pump.

- **Vacuum pump** allows you to quickly and effectively capture mercury spills for proper recycling and disposal
- Includes **collection vials and cleanup gear** for up to six spills
- **Scoop and spatula** allow for easier gathering of scattered mercury
- Durable polyethylene **carrying case** keeps equipment in one place

### **PIG™ Mercury Spill Vacuum Kit**

Item #	1-2	3+
<b>KIT330</b> • Absorbs up to 6 oz.	<b>\$528</b>	<b>\$512</b>

**KIT330 Contents** • 6 Pair of Latex Gloves • 6 Scoop/Spatulas • 1 Butyl Rubber Tape • 7 Plastic Zip Closure Bags • 6 Premoistened Wipers • 1 Storage/Carrying Case • 1 Vacuum Hand Pump • 6 Collection Vials • 1 Safety Glasses

# **PIG® Biohazard Spill Kit** — Clean up blood, urine and other biofluids.

- Portable, multi-use kit **reduces safety risks** during cleanup
- Loose absorbent solidifies to **lock in liquids** so they won't leak or liquefy
- **Ideal for first responders**, hospitals, schools and nursing homes
- ◆ **Helps you comply** with 29 CFR 1910.1030 for bloodborne pathogens

PIG® Biohazard Spill Kit			
Item #	1-4	5+	
<b>PLS1850</b> • Absorbs up to 8.5 gal.	<b>\$157</b>	<b>\$145</b>	
<b>PLS1850 Contents</b> • 20 Mat Pads • 1 Loose Absorbent • 1 Economy Goggles • 2 Pairs of Neoprene Gloves • 2 Aprons • 6 Surface Wipes • 6 Hand Wipes • 4 Scraper and Scoops • 4 Biohazard Bags and Ties • 1 Instructions			
PIG® Bio-Fluids Solidifying Absorbent Powder			
Item #	1-2	3+	
<b>PLP503</b> • 4 - 4-lb. Containers	<b>\$219</b>	<b>\$212</b>	

See note on page 118 for more details on compatibility and testing.

## **PIG® BioSafety Spill Cleanup Kit** — Stocked with PIG Absorbents for safer cleanup.

- Portable, **single-use kit** helps reduce the risks while cleaning up blood, urine or other biofluids
- Includes PPE, PIG Absorbent Pads, blood solidifier and supplies for **responder and scene cleanup**
- Packaged in a clear plastic, lightweight case for **easy transportation**
- ◆ **Helps you comply** with 29 CFR 1910.1030

PIG® BioSafety Spill Cleanup Kit			
Item #	1-4	5+	
<b>PLS1245</b> • 26 Pieces	<b>\$69</b>	<b>\$64</b>	

**FOR CONTENTS OF CLEANUP KITS, VISIT NEWPIG.COM OR CALL 1-800-HOT-HOGS.**

## **Body Fluid Cleanup Kits** — Clean up body fluid hazards with your choice of two kits.

- **Body Fluid Cleanup Kit (PLS1013)** is an excellent supplement to keep on hand with standard first aid kits and supplies
- Contains **16 body protection items** including an eye shield, gown and gloves
- **Bloodborne Pathogen Kit (PLS1014)** helps protect workers from **bloodborne pathogens**; 26 pieces include a CPR pack, head-to-toe protection and cleanup items
- ◆ **Helps you comply** with 29 CFR 1910.1030 for bloodborne pathogens

⚠️ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

## Water Indicating Paste — Detect water in fuel tanks.

- Easily **test for water in a fuel tank** by spreading a thin film of Kolor Kut onto a dipstick or other graduated rod
- **Dark brown paste turns bright red** after contacting water, clearly measuring the level of water in your tank
- **Will not harm or alter** the composition of gasoline, kerosene or any other fuel
- Paste is made entirely of **nonhazardous materials** and cleans off easily after use

Kolor Kut® Modified Water Indicating Paste		
Item #	1-4	5+
<b>GEN834</b> • 1.5"W x 6"L x 1"H	<b>\$23</b>	<b>\$22</b>

## Waterproof pH Tester — Accurate even in harsh conditions.

- **Dip into any liquid** for readings down to  $\pm 0.01$ ; capable of off-the-chart pH measurements from  $-1.00$  to  $+15.00$
- **Easy-to-read screen** displays pH and temperature; adjusts pH for temps from  $32^{\circ}\text{F}$  to  $122^{\circ}\text{F}$
- **Double-junction electrode** withstands plating baths, process streams, wastewater and other harsh liquids

**PLS1552**  
Protective plastic case and quick-release lanyard also included.

**PLS1268**  
Buffer solutions to calibrate tester come in pH 4, 7 or 10.

### Double Junction Waterproof pHTestr™ 30

**BEST SELLER!**

Whether you use it on soil or water, if the color changes, there's oil present!

## Oil Detection Paper — Hydrocarbon-detecting strips show need for cleanup.

- **Paper quickly changes color** when in contact with hydrocarbons, including gasoline, diesel, fuel, oil, lubricating oils and mineral oils
- **Immerse in water** to test for oil contamination or press to soil to check need for remediation
- **Compact, easily stored**, hard plastic case protects remaining strips

### Oil Detection Test Paper

Item #	1-4	5+
<b>GEN180</b> • 0.75"W x 2.75"L • 100/box	<b>\$52</b>	<b>\$48</b>

## pH Spill Stiks — Easy-read test strips keep hands away from acids and bases.

- **6"-long, nonwicking strip** helps keep potentially dangerous acids and bases away from hands
- **1"-square pad** of pH-testing paper is easy to read in dark or confined spaces
- One-dip, one-color system **instantly identifies pH value**
- **Included chart** features 14 colors to identify pH from 0 to 13

### Hydrion® pH Spill Stiks

Item #	1-5	6+
<b>PLS1559</b> • 1"W x 6"L • 10/container	<b>\$26</b>	<b>\$24</b>

## Insta-Chek Paper — When unknown liquid spills, use this paper for pH checks.

- **Instantly indicates** any pH from 0 to 13 with one of 14 colors
- Color chart has **checkpoints at each unit pH**, determined by single-color match
- Distinct, **easy-to-read colors** for accurate readings
- **Portable kit** includes color chart, dispenser and polyethylene case

### pHydrion® INSTA-CHEK® Paper

Item #	1-3	4+
<b>PLS236</b> • 0.5"W x 50"L	<b>\$15</b>	<b>\$14</b>

**GEN179**  
Effective in concentrations down to 20 mg/L!

## Fluoride Detection Paper — Detect fluoride ions or hydrofluoric acid.

- **Paper quickly changes color** when in contact with dangerous fluoride ions or hydrofluoric acid, whether in liquid or vapor
- **Improve spill response safety** by testing unknown liquids before cleanup or by attaching to protective suit for an instant warning
- **Hard plastic case** protects remaining strips; compact for convenient storage

### Fluoride Detection Test Paper

Item #	1-4	5+
<b>GEN179</b> • 0.75"W x 2.75"L • 200/box	<b>\$52</b>	<b>\$48</b>

**PIG Dolly** — Quickly move your PIG Overpack Spill Kit.

- **Wide-base design** helps keep overpacks stable during transport
- Heavy-duty rolled steel construction **holds up to 800 lbs.**
- **Lockable casters** keep overpack stationary, even on uneven surfaces

**PAK414**  
For use with 95- and 110-gal. overpack containers.

PIG™ Steel Dolly for Overpacks		PIG
Item #	1+	
PAK414 • For 95-gal. & 110-gal. Overpacks • 800 lb. Load Capacity		\$192

**Vehicle Bracket** — Mount your spill kit right on your truck to save cab space.

- Designed for use with PIG Spill Kit in Bucket or other PIG Spill Kits in **6½-gallon containers**
- **Corrosion-resistant aluminum** bracket is lightweight yet very durable

Truck Mounting Bracket for PIG® Spill Kit in 6.5-Gallon Bucket		
Item #	1-2	3+
BKT213	\$112	\$108

**THIS BRACKET FITS OUR SPILL KITS IN BUCKETS ON PAGES 86, 98, 99, 103, 117 AND 120.**

**Wall-Mount Hook** — Hang your PIG Spill Kit so you can find it fast.

- **Increase spill kit visibility** for faster response; establish a specific kit location
- **Durable steel hook** mounts on any surface (hardware not included); accepts most PIG Spill Kits with handles or straps
- **Wall-mounted kits build awareness** of where to find tools quickly

Item #	1-2	3+	
BKT214 • Use with Spill Kits w/Handles 2.5"W x 8.5"L	\$31	\$29	

**Container Wall Bracket** — Mount kits near spill areas.

- Keeps spill kits in the open and elevates them to **maximize visibility and response**
- **Hot-rolled steel** for long-term use
- Use with **20- and 30-gallon** overpack kits

Wall-Mount Bracket for PIG® Spill Kit Container			PIG
Item #	1+		
TLS468 • For 20- and 30-gal. Spill Kits	\$106		

**Wall Sign** — Display spill response instructions and designate your kit location.

- Designed to **wall-mount** your PIG Spill Kit in Bucket for better visibility and accessibility (mounting hardware not included)
- **Powder-coated steel** bracket

Wall Sign for PIG® Spill Kit			PIG
Item #	1-2	3+	
SGN1065 • 19"W x 24"L • 1/package	\$38	\$33	

## Safety Signs — Point out spill kits and supplies with these easy-to-read signs.

Choose from two sizes and three different compositions:

- Long-lasting **aluminum signs** offer superior resistance to abrasion, chemicals, weather, splashes and washdowns
- Indoors or sheltered outdoors, **plastic signs** are an economical choice for light-duty or temporary use on flat or slightly curved surfaces
- Indoors or out, **Dura-Vinyl self-sticking signs** provide exceptional flexibility and performance; high-gloss film resists UV rays, water, chemicals and abrasion

*"These wipers are great! **Very strong** — you can wring them out and keep using them!"*

— Laura, PIG All-Purpose Wipers Customer

# WIPERS & RAGS

## Reusing laundered rags? Here's a better way to work.

You wouldn't use old, dirty rags for your critical wiping jobs, but that's exactly what you're getting with rental shop towels. They may be laundered, but they still contain residual oil, grease and metal shavings that can contaminate what you're wiping. So think twice before you wipe your hands or face with that "clean" red rag.

### A clean break from rental towels.

Our disposable wipers and shop rags are always clean and free from contamination. They're not only safer, but you can fine-tune the strength, absorbency and chemical resistance for every job. When you're done, just toss 'em in the proper disposal container!

## WHAT'S YOUR NUMBER?

Performance Ratings (PR) help you zero in on the right wiper for your job and budget.

PR  
**100**  
ULTRA  
DUTY

Look for this icon — we've done the comparison shopping for you!

The higher the Performance Rating (PR), the more you can expect from your wiper.

- **PR100 Ultra-Duty** can be used all day and provide the highest levels of abrasion and solvent resistance
- **PR60–80 Heavy-Duty** provides the extra toughness you need for jobs like wiping rough parts, gears and sprockets
- **PR30–40 Medium-Duty** delivers a balance of toughness, absorbency and economical cost per toss
- **PR10–20 Light-Duty** is made for high-volume use during light wiping or surface drying jobs

## "YOU NEED WIPERS? WE'VE GOT 'EM!"

From rough scrubbing to fine dusting, you'll find exactly what you need to do the job right.

Carolyn Itle — Product Manager

### EXPERT ADVICE

#### 3 steps to choosing the right wiper, shop towel or rag.

Using the wrong wiper, towel or rag can be wasteful. You could spoil a surface that's being prepared for finishing, not clean the surface completely or cause other problems. Having the right product for the job adds efficiency and allows the job to be done right the first time.

Keep reading at:

## **pig** PR100 Disposable Polishing & Wiping Cloths — Tiny pores nab dust, wax and other contaminants. Great for final wiping!

- Perfect for **no-scratch** removal of wax, polishing compound, fingerprints and smudges from surfaces, or for prepping products for painting
- Rayon/poly blend stands up to **harsh sanitizers, degreasers, cleaners and solvents**
- **Highly absorbent** and textured cloth pulls contaminants away from parts and surfaces while soaking up liquids
- **Can be rinsed and reused** for long life and less frequent replacement

Tiny pores are great for final wiping.

## **pig** PR100 Super Shop Towels — Absorbent option to laundered shop towels is 50% stronger than T-shirt rags.

- Binder-free, solvent resistant and **low linting**
- Unlike T-shirt rags, **size and performance are consistent**
- **Highly absorbent** microfiber material is strong but still soft enough for polishing
- Towels can be **repeatedly washed and reused**; can be used wet or dry

Tiny microfibers lift dirt, oil and grime.

# **PR80 Extra-Heavy-Duty Maintenance Wipers** — No stiffness here! These wipers are tough, yet soft.

- Exceptional abrasion resistance and strength, yet **very soft and pliable**
- **One wiper can handle everything** from scrubbing rough parts to final wipedown and inspection of machined parts
- **Embossed texture grabs grime** due to a durable hydroentangled blend of cellulose and synthetic fibers
- **No chemical binders or adhesives** that could degrade in solvents; quickly absorbs liquids to leave surfaces dry and lint-free

Embossed texture helps lift dirt and grime from surfaces.

## **PR70 Heavy-Duty Maintenance Wipers** — Low-lint blend is our top seller for heavy-duty jobs.

- **Strong and solvent-resistant** for wiping machines and rough parts, but soft enough for cleaning skin or preparing surfaces
- Exceptional **abrasion resistance and wet strength** that stands up to rough surfaces, jagged edges or metal chips
- For **heavy-duty maintenance** jobs like machine wipdowns and degreasing parts

Binder-free cellulose/poly blend leaves surfaces dry and lint-free. Available in blue or white.

*"This is a high-quality product with good absorbency, and is **tough enough to wring out and keep using** all day. It can be used in places that would shred a paper towel. For durability, it's more akin to cloth than to paper."*

## **WorkWipes Series 30 Wipers** — Clothlike thickness for general housekeeping.

- Good for **lighter-duty jobs** like wiping up small spills or cleaning tools
- **Clothlike construction** is soft enough for wiping hands and face
- Made with binder forced deep into soft cellulose fibers for **extra strength**

**WorkWipes®**

WIP631

Cellulose fibers with binder offer clothlike softness.

**Kimberly-Clark**

# WorkWipes Rags — Screened, sized and

Eco-friendly rags are conveniently packaged and made from reclaimed post-consumer materials.

- **Strict material and size requirements** mean more usable, high-quality rags in every package
- All rags are **double scanned for metallic content and many are screened for printing**, so you never have to worry about contamination or poor performance
- **Eco- and cost-friendly rags** are made from recycled, postconsumer materials
- Choose white colored material **for use with solvents**, which might cause colored rags to bleed
- **Poly bags** are compression-packed to take up half the space of loosely packed boxes; plus no heavy packaging added into the final weight
- **Cardboard boxes** provide neat storage, stacking and dispensing with handles for easy transportation; some offer compression packaging for space savings (see ordering information)

## Pick from eight reclaimed options:

- **T-shirts** are durable, low-lint cotton; ideal for staining, wiping, polishing
- **Refreshed T-shirts** are washed and scented to remove odors and stains
- **Sweatshirts** are thick, absorbent cotton and cotton blends for softness and strength; ideal for heavy-duty wiping
- **Surgical huck** is colorfast, low lint and sanitized; 100% cotton for glass cleaning
- **Denim** has no rivets or zippers, great for heavy-duty wiping and absorbing oil; ideal for high-temperature worksites
- **Flannel** is durable, absorbent, soft nonscratching cotton and cotton blends; for general wiping
- **Healthcare linen** is low-lint and laundered for staining, wiping and polishing
- **Hospital blankets** are soft, absorbent, thoroughly washed and sanitized; ideal for polishing and cleaning

Compression-packed bags take up half the space of loosely packed boxes.

All 10 lb. bags feature a built-in handle, so they're easy to carry. Rags dispense right from the bag!

Personal-sized packs in WIP519 and WIP520 feature a slide closure for easy access to rags.

All boxes feature built-in handles and an opening for easy dispensing.

# scanned so you get only usable rags.

WIP529

WIP519

Master box contains five personal-sized packs of colored T-shirts. Also available with white T-shirts (WIP520).

PIG Stormwater Filter Sock

PIG

PIG DrainBlock with DuPont Elval

PIG

PIG Drive-Over DrainBlock Drain Cover

# SPILL CONTROL & STORMWATER

Keep the bad stuff out of your drains with products to block or filter pollutants.

Runaway spills and stormwater pollution are an ever-present risk to your storm drains, and nobody wants to harm the environment or get popped with a violation. We're here to help you keep pollutants in check and maintain Stormwater Regulation compliance with two types of solutions.

## Block all liquids so nothing gets in

Our SpillBlocker Dikes and DrainBlocker Drain Covers go down fast and seal tight. When you need to stop a spill in its tracks or seal off a drain during a fuel delivery, nothing gets past PIG.

## Filter pollutants and let clean water pass

Need to keep things flowing? Don't miss our family of Stormwater Filtration products for easy ways to remove oil and sediment from your runoff without impeding the path of your stormwater. Need a hand choosing? Give us a squeal, we're happy to help!

## ◆ HELPS YOU COMPLY

Most of the PIG products in this section can help you protect the environment and avoid fines by meeting these EPA regulations:

### ◆ SPCC 40 CFR 112.7

*SPCC planning requirements state that facilities subject to these regulations must have written plans in place discussing the products, countermeasures and procedures that are in place, or will be taken by the facility to prevent discharge of oil into waters of the United States.*

### ◆ STORMWATER

#### 40 CFR 122.26

*When applying for a National Pollutant Discharge Elimination System (NPDES) permit, facilities must have a plan in place that describes actions, procedures, control techniques, management practices and equipment available to prevent illegal discharge of pollutants into waterways.*

## “PIG STANDS FOR QUALITY. ALWAYS.”

We understand your liquid handling challenges — that's why we're always innovating to give you the best solutions.

Matt Riley — Product Development

## EXPERT ADVICE

We've visited hundreds of customer sites to learn the issues around stormwater management and develop practical solutions. Read about stormwater permits, pollution and more in these articles from our experts: [newpig.com/stormwater](http://newpig.com/stormwater)

# BLOCKERS & BARRIERS

Three PIG-proven ways to control liquids and avoid fines:

## 1 CONFINE & CHANNEL SPILLS

### PIG SpillBlocker Dike

- Flexible and formable to the shape of the spill
- Tacky bottom layer seals tight so no liquid seeps underneath
- Confines spills or channels washdown liquids without absorbing them

See all PIG SpillBlockers on pages 162–166.

## 2 BUILD CUSTOM CONTAINMENT

### PIG Build-A-Berm Barrier

- Configure a semipermanent barrier to fit your leak-prone areas
- Pliable foam construction springs back to shape so you can roll wheeled equipment right in
- Big savings compared to building concrete curbs or cutting angle iron

See all PIG Build-A-Berms on pages 168–171.

3

## COVER DRAINS

### PIG DrainBlocker Drain Cover

- Seals tight to keep out unwanted liquids
- Won't rip, tear or stretch when you pick it back up
- Use for fast spill response or long-term outdoor deployment without UV degradation

See all PIG DrainBlockers on pages 172–178.

## YOU'RE PROTECTING MORE THAN A DRAIN.

### Comply with SPCC regs to keep water sources clean and avoid fines.

The environment isn't the only thing that takes a hit when oil goes down your drains — the EPA can retaliate with a hit to your wallet. Our DrainBlockers, SpillBlockers and Build-A-Berm Barriers help you contain oil and keep it away from sensitive areas.

**40 CFR 112.7** states that facilities subject to SPCC Regulations must have written plans discussing what measures are in place to prevent spills. Facilities must also have documentation of the products, countermeasures and procedures that are in place, or will be in place, to prevent discharge of oil into waters.

### Stormwater Regs: Why comply?

Noncompliance with EPA's Stormwater Regs can result in fines of up to \$100,000 per day and/or six years in jail. But aside from the fines, protecting the environment is just the right thing to do! The products on these pages can help you on both fronts.

Does your facility need a Stormwater Plan? New Pig can help you choose the best products to get into compliance. Call our Technical Specialists at 1-800-HOT-HOGS for expert advice!

### Frequently asked questions:

#### Q: Can I reuse my DrainBlocker and SpillBlocker?

**A:** Yes, we use a very high-quality urethane, and our patented formulations are built to last. They clean up easily with soap and water so you can reuse them over and over again. (Our SpillBlocker Rough Surface Dike is designed for one-time use on asphalt.)

#### Q: Can I drive over a SpillBlocker Dike?

**A:** Yes and no. SpillBlocker Dikes are tough, but they're not built for vehicle traffic. That's why we invented the Drive-Over SpillBlocker Dike — it stands up to the heavy stuff! (See page 166)

#### Q: Can I leave my DrainBlocker out in the sun?

**A:** Yes, our Original and Drive-Over DrainBlockers are built for long-term outdoor use. If you're not using PIG, get ready for gooey degradation!

### REG TIP

Meet both sides of the SPCC equation with active and passive containment.

If your facility is subject to SPCC regs, you need both active and passive containment. Absorbents, spill kits and drain covers comply as active containment; pallets, decks, dikes and berms as passive.

# SEALS TIGHT TO STOP THE SPILL.

**BEST  
SELLER!**

**PLR267**  
Built-in connectors let you  
create barriers of any length.

**EXCLUSIVE!**

**pig SpillBlocker Dike** — Fast protection for spreading spills, leaking machines or for capturing liquids during maintenance.

- **Exclusive New Pig formulation** resists tearing, and a tacky bottom layer seals tight to smooth surfaces
- Reusable dike is flexible and formable to shape to the spill; **confines and diverts fluids without absorbing** them, making cleanup or reclamation simpler
- **Built-in connectors create a liquidproof seal** and allow you to join as many sections as you need (add connectors and corners to PLR204 and PLR280 to join sections)
- Polyurethane material **resists water, oils and many chemicals;** **cleans easily** with soap and water
- **High-visibility color** draws attention to spill for increased safety
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 112.26 when used as a BMP in a Stormwater Pollution Prevention Plan

**EXPERT  
ADVICE**

You're only 5 steps from effective  
spill response:

[newpig.com/spillresponse](http://newpig.com/spillresponse)

**PLR212**

Have a leak that's starting to spread? Just surround your machine with a dike to contain the liquid until you can make repairs.

## AVAILABLE IN FIVE HEIGHTS!

Contain spills from shallow to deep with our wide range of spill blockers.

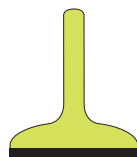

1 1/8" – PLR212

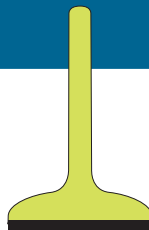

2 1/4" – PLR204

3" – PLR267

4 1/2" – PLR253

6 3/4" – PLR254

**PLR254**

Taller dikes contain more liquid.  
Our tallest dikes can handle high-volume spills and pooling liquids up to 6 3/4" deep.

**PLR205**  
Connector

**PLR204**

Contain washdown liquids or channel to drains.

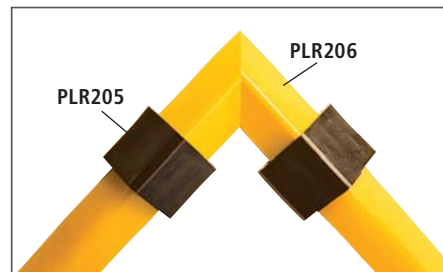

**PLR204**  
Dike

**PLR205**  
Connector

**PLR280**

Attach the **SpillBlocker Vacuum Dike (PLR280)** to your wet vac — the four intakes and integrated channels will suck up liquid faster than a traditional vacuum. You can also connect it to the Original SpillBlocker Dike (PLR204) to create a larger containment area.

Add corners and connectors (PLR205 and PLR206) to PLR204 to join dike sections and/or Vacuum Dikes together.

Patent 5,236,281

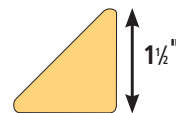

NOTE: Due to the nature of softer urethane, the physical properties of these products may change over time with exposure to certain environmental conditions like temperature, humidity and UV radiation. Typical product life expectancy is five years. Inspect the product regularly to ensure it is in a usable state. For details and chemical compatibility, call Technical Services at 1-800-HOT-HOGS (468-4647) or visit us online at newpig.com. For temporary use only. Pick up after each use, clean, then store properly. Do not leave down for extended periods of time or drive vehicles over dike.

**FOR MACHINES WITH CONSTANT LEAKS, SEE PERMANENT BARRIERS ON PAGES 168–171.**

## PIG® DoorBlocker Dike — Quickly seal off a doorway from a spreading spill or washdown liquid.

- **Ideal as a barrier** during washdowns, as a **dam** to control or contain spilled liquids or as a **diverter** to direct water or liquid away from equipment or supplies
- **Polyurethane material** resists water, oils and many chemicals
- **Hi-viz yellow** color draws attention to spill
- **Fits any doorway** up to 4' wide
- Lightweight dike is **easy to handle and deploy**; **reusable** and easily cleaned

Unique 45° wedge design gives this special dike a tight fit against doorjamb.

### PIG® DoorBlocker Dike

Item #	1-2	3-5	6+
<b>PLR213</b> • 2"W x 4'L x 1.5"H	<b>\$225</b>	<b>\$210</b>	<b>\$204</b>

Patent 5,236,281

See note on page 163 for more details on compatibility and life expectancy.

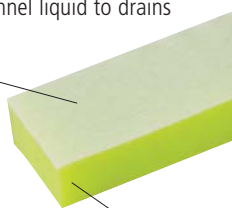

## PIG® WashBlocker Dike — Easily keep washdown liquid from going through doorways or reaching rugs.

- Use low-profile spill dike for **routine containment** of washdown and sanitizing liquid
- **Block doorways**, protect carpeting and channel liquid to drains
- Lightweight strip is **easy to handle** and store
- **Reusable barrier** cleans up easily
- **Bright green** color is highly visible

Tear-resistant polypropylene top withstands repeated use.

Tacky urethane bottom creates a leakproof seal on dry floors.

### PIG® WashBlocker® Dike

Item #	1-2	3-5	6+
<b>PLR500</b> • 1.25"W x 10'L x 0.75"H	<b>\$227</b>	<b>\$221</b>	<b>\$217</b>

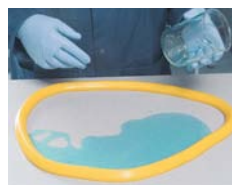

Patent 5,236,281

See note on page 163 for more details on compatibility and life expectancy.

## PIG® SpillBlocker Tabletop Dike — Create a mini-barrier in seconds with our lowest-profile dike.

- **Contains benchtop spills** without absorbing; ideal for small spills on smooth work surfaces
- **Polyurethane material** resists water, oils and many chemicals
- Cut to any length for a **custom fit**

Complete the loop for total spill containment.

### PIG® SpillBlocker® Tabletop Dike

Item #	1-2	3-5	6+
<b>PLR229</b> • 1"W x 4'L x 0.75"H	<b>\$67</b>	<b>\$59</b>	<b>\$55</b>

Patent 5,236,281

See note on page 163 for more details on compatibility and life expectancy.

PLR230

Bottom layer "seeps" into surface cracks to form a liquidtight seal.

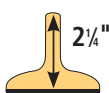

**EXCLUSIVE!**

## **pig** SpillBlocker Rough Surface Dike — Special bottom layer fills into surface cracks to stop spills on asphalt.

- **Exclusive New Pig formulation** has a super-tacky bottom layer for tight seals on rough surfaces
- Specially designed bottom layer "seeps" into surface cracks; **our best blocker for asphalt**
- **Fast protection** when spills head for your drain, **confines and diverts fluids** without absorbing for easy cleanup or reclamation
- 2¼" height contains spills up to 2" deep; **intended for one-time use only**, and should not be left down for extended period
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

Easy installation — lay dike down on its side, turn it over so sticky strip contacts asphalt and press into place.

Pig® SpillBlocker® Rough Surface Dike	
Item #	1+
PLR230 • 2"W x 10'L x 2.25"H	\$261
PLR230 Contents • 1 Connector • 1 Disposal Bag	

Patent 5,236,281

See note on page 163 for more details on compatibility and life expectancy.

"Great product! Really sticks to the ground forming a very good seal against liquid seepage. **Very easy to apply**, no cure time needed."

— David J., PLR230 Customer

# LIKES TO PLAY IN TRAFFIC

PLR350

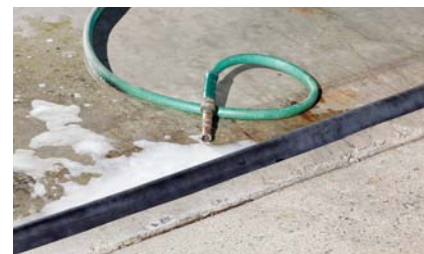

## OTHERS GET SMASHED!

PLR351

Optional corner pieces let you make sharp 90° turns to create a fully enclosed containment area.

Interlocking end joints connect dike sections to create longer lengths.

Creates a tight seal that contains liquids, diverts stormwater and helps you comply with regs.

## **pig** Drive-Over SpillBlocker Dike — The ONLY flexible barrier designed for traffic and long-term outdoor use.

- First flexible barrier **designed for traffic and long-term outdoor use**; driveovers won't rip, tear or crush it to compromise containment
- **HogHyde skin** stands up to heavy traffic driveovers and resists UV rays
- **Molds easily** around mounting brackets or other obstacles
- **Provides a full-width bond** that strengthens over time
- **Reusable** — cleans up with soap and water; can be picked up and repositioned as needed
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

**Problem:** Customers were trying to use our spill response dikes for long-term outdoor and driveover applications — and they didn't work.

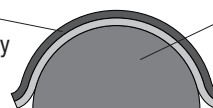

**Finding the solution:** To create a barrier tough enough for long-term use and driveover applications, we started with our patented HogHyde® skin. Then we combined it with our super-sealing urethane so that it would bond to concrete without adhesive. When we tested our new dike in all kinds of harsh conditions, it didn't become brittle or lose adhesion — in fact, it stayed put until a snow plow peeled it up.

**Problem solved:**  
**PIG Drive-Over SpillBlocker Dike**

with  
**HogHyde®**  
Skin

## A CLOSER LOOK

HogHyde® skin stands up to heavy traffic and resists UV rays.

Super-sealing urethane bonds to concrete and smooth surfaces without adhesives.

PLR264

Open-cell foam interior springs back into shape after you walk on it or roll over it with a hand cart.

PLR222

Install a 2"H barrier around machines to keep leaks and drips away from walkways.

**EXCLUSIVE!**

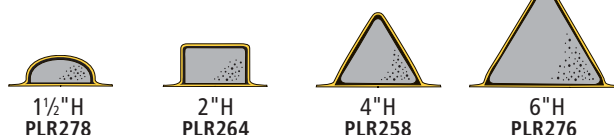

## **pig** Build-A-Berm Barrier — Configure a barrier to fit your leak-prone area.

- PIG Build-A-Berm Barriers can be constructed into a **semipermanent, high-visibility barrier** that's exactly the size and shape you need — indoors or out
- Pliable open-cell foam barrier **springs back into shape** after you walk or roll over it with light, wheeled equipment (see drive-over version on page 171)
- Durable, 18 oz. vinyl covering **resists oils, coolants and most chemicals**
- **Contain leaks and spills around your machinery** without building expensive concrete curbs or cutting angle iron
- For best sealing results, **secure to a smooth, sealed surface**
- **Kit (PLR222, PLR511) includes** straight sections, corners and Sili-Thane sealant; create any length or configuration
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

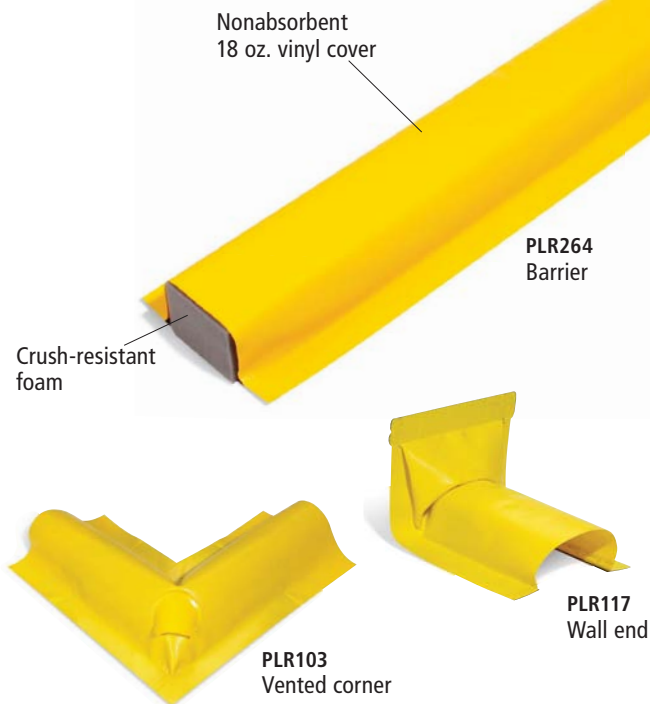

### Add these components to your layout:

- **Corners** let you create liquidproof junctions; join two Build-A-Berm sections at a 90° angle
- **Vented corner** prevents seam rupture by letting air escape during a cart driveover
- **Wall end** seals flush against the floor and wall for a seepage-free connection

### Available in four heights!

A Build-A-Berm Barrier is great for use around battery charging stations, machinery or other leak-prone areas.

**Build-A-Berm installation is easy as 1-2-3 when you use these accessories.**

#### Simple installation

1. Cut to desired length with scissors or utility knife
2. Fit pieces together and secure to floor with **Sili-Thane Sealant** (PTY340 sold below; use one tube per approx. 25 ft. of barrier)
3. Seal seams with **Industrial-Strength Vinyl Cement** (PTY105 sold below; installs approx. 10 connections)

Sili-Thane™ 803 Sealant

Installing a PIG Build-A-Berm is easy:  
[newpig.com/buildabermhowto](http://newpig.com/buildabermhowto)

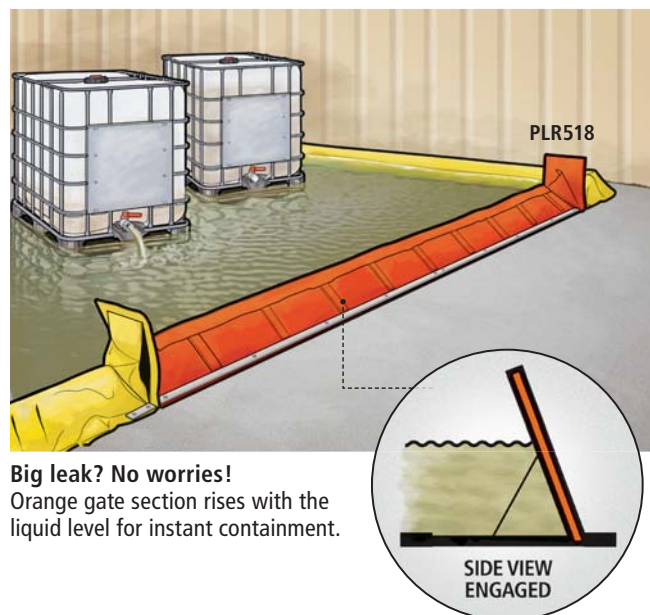

## Build-A-Berm Self-Rising Drive-Over Barrier — Roll across this special gate section, and when a spill strikes, it rises to the occasion.

- Berm wall lays flat to allow forklifts, pallet jacks and drum trucks to drive over for **easy access to containment area**
- In the event of a spill, drive-over gate will **automatically rise with the spill level** to keep liquids contained
- Berm ends can be **directly connected** to an existing 4" H Build-A-Berm system (PLR258, sold separately on page 169)
- Ends of 4" H berm are pliable, open-cell foam core covered with vinyl; gate section is **constructed of durable PVC**
- Secure to a smooth, sealed surface with Sili-Thane sealant and reinforce with predrilled aluminum mounting strips and anchors; seal seams with Industrial-Strength Vinyl Cement (**sealant and vinyl cement sold separately on page 169**)

◆ **Helps you comply** with SPCC and Stormwater Regulations

It's a snap to add this drive-over gate to your existing Build-A-Berm system — hardware is included.

**Big leak? No worries!**  
Orange gate section rises with the liquid level for instant containment.

# TOUGH ENOUGH FOR HEAVY VEHICLE TRAFFIC

PLR283  
Drive-over barrier

PLR108  
Corner

**EXCLUSIVE!**

## **PIG** Drive-Over Build-A-Berm Barrier — Build a spill berm that can handle heavy vehicle driveovers.

- Provides **semipermanent containment** in high-traffic areas on concrete, asphalt or most sealed surfaces; for best results, use on a smooth, sealed surface
- Constructed of 40-ounce, vinyl-coated fabric with an open-cell foam core; compresses to approximately 1/4" when driven over; **springs back to shape when vehicles pass**
- Can withstand **indoor or outdoor traffic from heavy vehicles**; low-profile,

1 1/2" berm accommodates pallet jacks, heavy carts and dollies

- Predrilled aluminum mounting strips with **anchors secure berm to most surfaces**; remove anchors to reposition and **create any configuration**
- **Vented corner** allows built-up air pressure caused by heavy vehicle driveovers to escape; **wall ends** seal flush for seepage-free connection

◆ **Helps you comply** with SPCC and Stormwater Regulations

# DRAINBLOCKERS ARE UV TOUGH!

TOP 10  
BEST  
SELLER!

PLR403

**EXCLUSIVE!**

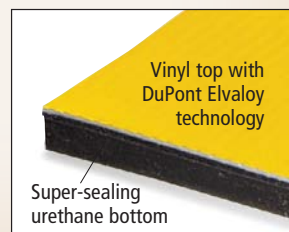

## **piG** DrainBlocker Drain Cover — Our patented design protects drains, seals tight and won't rip.

- **Patented two-layer design seals tight** to protect drains and won't rip. Guaranteed.
- **Reusable cover** is ideal for quick spill response or long-term, outdoor deployment without worrying about degradation
- **Vinyl composite top layer** resists stretching, ripping and tearing
- DuPont Elvaloy technology provides lifelong flexibility **plus chemical, UV and infrared light resistance to vinyl top**
- **Super-sealing urethane bottom layer** conforms to uneven surfaces and tightly seals drain openings to block liquid
- Cover **withstands prolonged exposure to diesel fuel and gasoline**, even when completely submerged
- Ideal for drain protection where **repeated liquid transfers, washdowns or other leak- and spill-prone jobs** are common
- **High-visibility yellow top layer** draws attention to spills for increased safety
- **DrainBlocker carrying bags and cases** available on page 178
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

**Problem:** Our original DrainBlocker used to work great for spill response: seal the drain, pick it up, use it again. The problem was that people would leave it outside for weeks and it would become gooey. Or it would tear when they picked it back up.

**Finding the solution:** We wanted to come up with a top cover that could withstand long-term outdoor use and keep the urethane layer from tearing when customers pulled it off the drain. We created 15 different versions before we had the best combination. The next step was fusing the layers together. We ultimately patented a way to bond a rugged layer of DuPont Elvaloy vinyl with our super-sealing urethane to create the toughest, most weather- and UV-resistant drain cover on the market.

**Problem Solved:**  
**PIG DrainBlocker Drain Cover**

These tough covers protect your drains — no rips, no tears, no worries!

### Tear Resistant

Tougher than standard covers to resist ripping.

### Chemical Resistant

Stands up to long-term hydrocarbon exposure.

### UV & IR Resistant

Let the sun shine — this cover is made for outdoor use.

### Easy to Clean and Reuse

Dirt and grime won't stick, so the top wipes clean for storage and reuse.

### PLR403

The PIG DrainBlocker is tough enough to use over and over again or leave down long-term — and it won't rip when you pick it back up.

"We purchased this to cover a trap we don't want water getting into. Since we have installed it, we have cleaned the floor numerous times — even with a pressure washer — and **no water has gotten past the cover.**  
**Excellent product!**

— James P., PLR402 Customer

**WIMPY COVERS  
CAN'T CUT IT.**

PLR306

**EXCLUSIVE!**

## **Drive-Over DrainBlocker** — The only drain cover you can buy that withstands tanker traffic.

- **Patented, reusable design is the only cover tough enough** to handle driveovers and repeated use — only from New Pig
- **Ideal for long-term drain protection** where liquid transfers, washdowns or other leak- and spill-prone jobs are common
- **Eliminates the need to frequently deploy and remove** a temporary cover or permanently seal your drains
- Tough, patented-rubber HogHyde Skin stands up to punctures, tearing and abrasion, **even under heavy vehicle traffic from tankers, trucks or forklifts**
- **Super-sealing urethane bottom layer** conforms to uneven surfaces and tightly seals drain openings to block liquid
- Also **withstands UV rays, infrared light and all weather conditions**; keep outdoors without worrying about degradation
- Polyurethane and rubber materials **resist water, oils and many chemicals**
- ◆ **Helps you comply** with Stormwater and SPCC Regulations

**Problem:** Drain covers shred when vehicles drive over them.

**Finding the solution:** Our bottom urethane layer sealed tight and stuck just the way we wanted it to, so we set out to create a top layer that would stand up to all kinds of conditions and be tough enough to drive over. But getting it just right took years of trial and error.

We tried every type of vinyl, rubber and urethane formulation out there and finally had a breakthrough with a material that we named HogHyde®. It's the toughest, most UV-resistant and weatherproof top layer ever — and it stands up to heavy traffic.

**Problem Solved:**  
**PIG Drive-Over DrainBlocker**

Our toughest DrainBlocker can take whatever your parking lot dishes out.

### Punctures

Stands up to debris and sharp objects that trash other covers.

### Abrasion

Won't wear down even when tires track on dirt and gravel.

### UV & IR Light

Made to stand up to the baking sun in your parking lot.

### Chemicals

Resists many commonly used chemicals to keep drains secure.

PLR308

Even after repeated tanker or forklift driveovers, this DrainBlocker still seals tight. And it won't rip when you pick it back up. Use it over and over again!

PLR340 (Only)

PLR330

Use the built-in connectors to join multiple covers and create the perfect length for your trench drain. Urethane connectors "fuse" together for a liquidtight seal.

Round drains? No problem! We have DrainBlockers for those, too.

# DRAIN PROTECTION THAT WON'T DRAIN YOUR BUDGET

SGN1060

PLR601

EXCLUSIVE!

## Rapid Response DrainBlocker Drain Cover — Stay prepared for spill emergencies and meet EPA regs.

- **Helps you meet spill plan requirements** without buying more cover than you need
- Ideal for short-term use and **emergency spill response**; mount on a wall (bracket sold separately) or store in a spill kit
- **Polypropylene top layer** prevents drain cover from stretching or tearing when you pick it up; cover resists chemicals, oils and detergents
- **Super-sealing urethane bottom layer** creates a tight seal
- Packaged in an easy-open, **hi-viz storage tube** so workers can find it fast and get to the spill
- **Storage tube (included) is for indoor use only**; for outdoor storage, use PLR700, sold on opposite page
- Add a **Wall-Mount Bracket** (BKT102) for easier access and faster response
- ◆ **Helps you comply** with SPCC and Stormwater Regulations

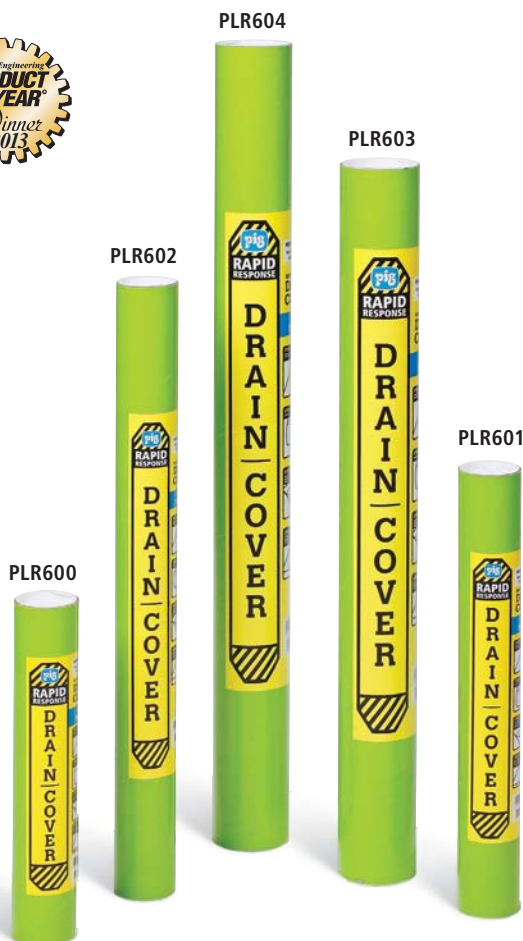

**Problem:** Some customers don't need all the bells and whistles of a DrainBlocker that's designed for repeated use, long-term deployment or vehicle traffic.

**Finding the solution:** We wanted to offer a more affordable drain cover for short-term-use situations. Something that just covered the basics, like protecting drains in emergencies and helping facilities comply with SPCC regs. We ended up with a finished product made from our highest-quality urethane for a classic PIG seal. It's thinner and costs less, but there's nothing cheap about it!

**Problem solved:**  
**PIG Rapid Response DrainBlocker**

## **Conical Drain Plug** — Seal drains below the grate without the hassle or permanence of cement.

- Durable polyurethane plug forms a **liquidtight**, chemical-resistant seal in seconds
- Wedge plug in drain; **easy alternative** to cement
- Installed plug is **low-profile** enough to fit below floor grate
- Allows your drain to function when plug is out; **removes easily** with hand tools
- **Conical drain plugs available in sizes** from 2" to 6"
- **Kit (PLR207)** contains **three sizes** to seal drains from 2" to 4" in diameter

◆ **Helps you comply** with SPCC and Stormwater Regulations

PIG™ Conical Drain Plug			
Item #		1-4	5+
PLR252 • For 6" Dia. Drains		\$179	\$174
 PLR210 • For 4" Dia. Drains		\$81	\$77
PLR281 • For 3.5" Dia. Drains		\$77	\$69
PLR209 • For 3" Dia. Drains		\$80	\$75
PLR208 • For 2" Dia. Drains		\$66	\$60
PIG™ Conical Drain Plug Kit			
Item #		1+	
PLR207 • For 2" to 4" Dia. Drains		\$243	
PLR207 Contents • (1) 2" Dia. Conical Drain Plug • (1) 3" Dia. Conical Drain Plug • (1) 4" Dia. Conical Drain Plug			

See note on page 177 for more details on compatibility and life expectancy.

## **Multi-Flex Inflatable Pipe Plug** — Expands up to eight times its size to fit a wide range of pipe dimensions.

- **Small, flexible design** can be snaked through hot tap or branch pipes into larger, otherwise inaccessible pipelines
  - Pipe plug **inflates up to eight times its size** to prevent the flow of liquids during repairs or to block pipes or drains in the event of a spill (connects to your air compressor)
  - **Conforms to a wide range** of pipe dimensions; inflate fully or partially to fit your application
  - **UV-resistant, nylon-reinforced nitrile** resists oils and has a shelf life of more than ten years
  - **Compact** for storage and grab-and-go applications
- ◆ **Helps you comply** with Stormwater Regulations

NOTE: Seal may not be airtight. Not recommended for pressure tests.

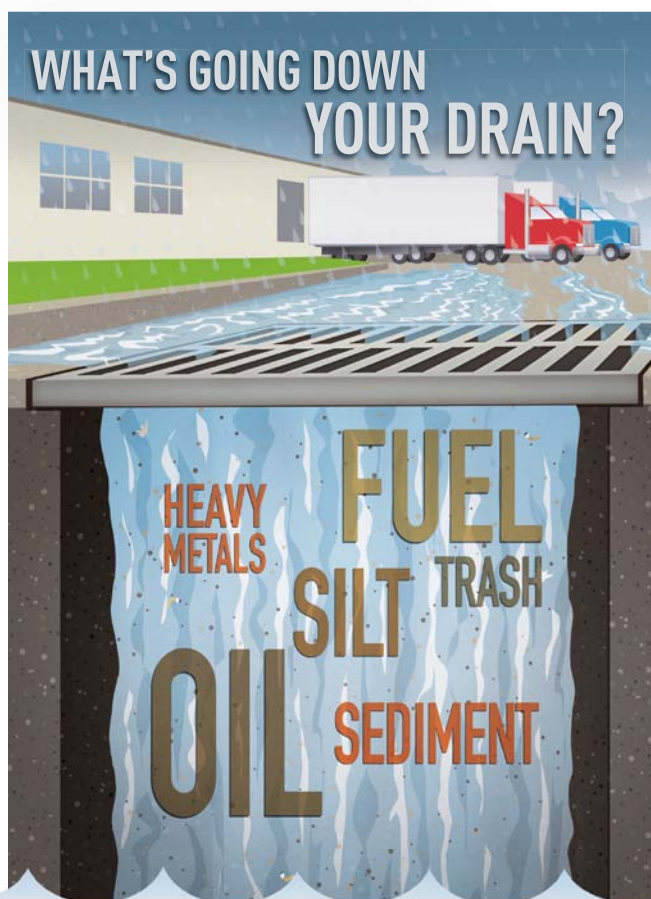

When deflated, Plugs slide into just about any pipe. Three models cover a range of pipes from 3.5" to 24".

Use compressed air supply to inflate plug and block liquid.

Multi-Flex™ Inflatable Pipe Plug		
Item #		1+

PLR112 • For 5.5" to 16" Dia. Pipes • 20 PSI Max • 2" MNPT To 1/2" Quick Connect Inflation Port		\$809
PLR111 • For 3.5" to 8" Dia. Pipes • 30 PSI Max • 1" MNPT To 1/4" Quick Connect Inflation Port		\$449

# STORMWATER FILTRATION

## Stormwater Regs: Why comply?

Noncompliance with EPA's Stormwater Regs can get you popped with a violation. But aside from the hassles and headaches, protecting the environment is just the right thing to do.

### We know NPDES, SWPPP, SWMP and BMPs

If you're in a group that must comply (call us if you're not sure!), you need to obtain National Pollutant Discharge Elimination System (NPDES) permit coverage by filing a Stormwater Pollution Prevention Plan (SWPPP) or Stormwater Management Plan (SWMP). Plan requirements may include implementing Best Management Practices (BMPs), which is where PIG products come in handy.

### New Pig can help!

Stormwater BMPs don't have to be complicated or cost a fortune. The products in this section are designed to help you protect the environment and comply with regs. So whatever's threatening to go down your drains, we can help you keep it out.

### PIG Products to help you meet Stormwater Regs:

Drain Filter .....	181
Filter Sock .....	182-183
Skimmer Squid .....	184
Over-The-Drain Sediment Filter .....	186
Sediment Drain Filter .....	187
Curb Drain Insert .....	189
Pipe Sock and DeWatering Bag .....	190
Outdoor Filter Berm Pad .....	191

Hi-viz straps show from a distance that you're proactively managing stormwater.

## **PIG** Storm Drain Filter — Adjustable frame and 4-stage filtration guard your drains against oily runoff.

- Stainless steel adjustable frame **holds up to 60 lbs.** of oil, sediment, debris and trash; stays in place even when grate is not installed
- Easy, **one-person job** to install, maintain or remove; just pull on ends of frame and expand filter to match your drain size
- **Four-stage filtration:** Stormwater flows through drain grate onto fabric shelf (Stage 1), passes over filter ring (Stage 2) into collection bag (Stage 3) and over four sets of filter strips (Stage 4)
- PET construction **removes contaminants** at multiple stages, increasing the amount of pollutants captured
- **Filter ring** (patent-pending) channels water to center of collection bag to prevent untreated water from escaping through overflow ports
- **Filter strips** float freely to remove hydrocarbons from moving water
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

# FILTER OUT THE NASTY STUFF.

**Heavy Metal Filter Socks**  
(FLT822–FLT823) remove oil and sediment plus zinc, cadmium, lead and other dissolved metals.

Filter Socks also available  
for **oil and sediment only**  
(FLT820–FLT821 sold below).

FLT823

## Stormwater Filter Sock — Remove pollutants to keep your runoff clean and compliant.

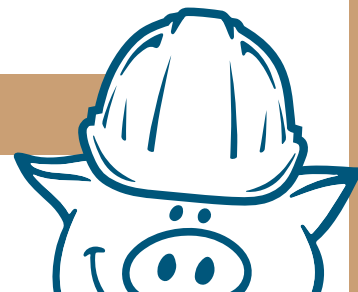

- Filter sock **allows water to pass through** as it removes oil, sediment, trash, debris and other pollutants from your stormwater runoff
- **Heavy Metal Sock** (FLT822, FLT823) also removes zinc, cadmium, chromium, iron, lead and other dissolved metals
- **Patent-pending dual-chamber design:** first chamber's filler pulls in hydrocarbons; second chamber is filled with stone ballast (FLT820, FLT821) or our special media blend (FLT822, FLT823) for two-stage filtration of heavy metals
- **Weighted sock** eliminates the labor and expense of staking or trenching
- Durable geotextile skin **removes total suspended solids (TSS)** over 297 microns (50 mesh) and maintains an impressive flow rate of 2 gpm per foot
- **Flexible design** follows the contours of uneven ground for maximum surface contact; can be shaped, even at right angles, to create fully contained spaces
- **Heavy-duty handles** make socks easy to carry, install, reposition and replace
- Can use multiple socks to build a **treatment train** for source-to-drain protection
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PIG® Stormwater Filter Sock 					
Item #	Filtration	Product Size	Abs. Up To.	1-5	6+

## FOR DRAINS AND SOURCE POLLUTANT REMOVAL

Our new Filter Socks are ideal for use around drains, dumpsters, oil containment areas, downspouts, stock piles, property perimeters, culvert pipes, washdowns and more. Create a treatment train for source-to-drain protection anywhere you need it!

Downspouts

Dumpsters

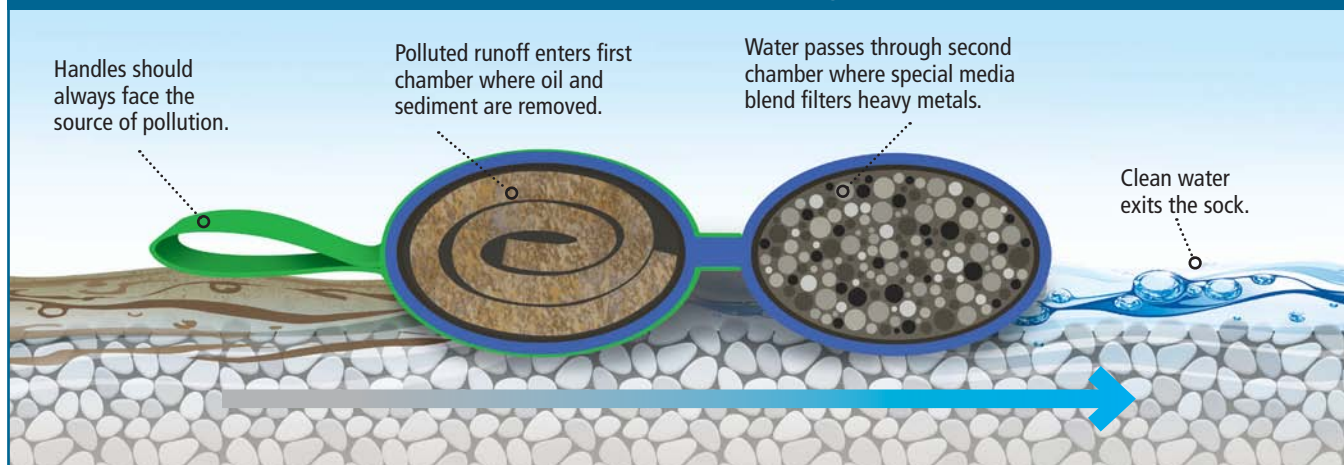

Curb drains

Roof drains

### A look inside our Stormwater Heavy Metal Filter Sock:

## PIG Storm Drain Skimmer Squid — Capture a wide range of pollutants from stormwater inside your catch basin.

- **Filters viscous and non-viscous oils**, sheens and fuels from collected water prior to outfall discharge
- 3-foot diameter reach **covers the largest area** of any in-the-drain skimmer on the market
- Patent-pending design combines two unique absorbents: **absorbent spaghetti-strip pillow** floats on the surface to remove contaminants; **absorbent pompom** sweeps through moving water to capture oil below the surface
- Ideal **last line of defense** against lingering oils and sheens that get past other treatment measures at your facility
- Works effectively in **standing water or turbid conditions** during rain events
- Adjustable 9-foot line makes it easy to deploy and retrieve Squid
- Designed to **work in tandem with a PIG Storm Drain Filter** (see page 181)
- Can also be used as a **standalone treatment option** when tied directly to storm drain grate
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

Absorbent "tentacles" sweep through moving water to cover more area and capture more oil.

### PIG® Storm Drain Skimmer Squid

Item #	1+
FLT012 • Absorbs up to 2.78 gal./box • 2/box • 24"H x 15"Dia.	<b>\$70</b>

## Stormwater Sampler — Collect runoff from catch basins with easy-to-use stormwater sampling equipment.

- **Built-in pump** draws collected water and channels it through attached hose into your container for testing
- **Collection cup** at end of shaft fits through most drain openings, catch basin overflow ports or other treatment products
- Makes it **easy to check and compare pollutant levels** before and after water passes through stormwater management products or procedures; no need to remove heavy grate
- **Disassembles for easy storage** and transportation
- PVC construction **won't rust or corrode**
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

### Stormwater Sampler

Item #	1+
FLT011 • 43"L x 3.25" Int. Dia.	<b>\$199</b>

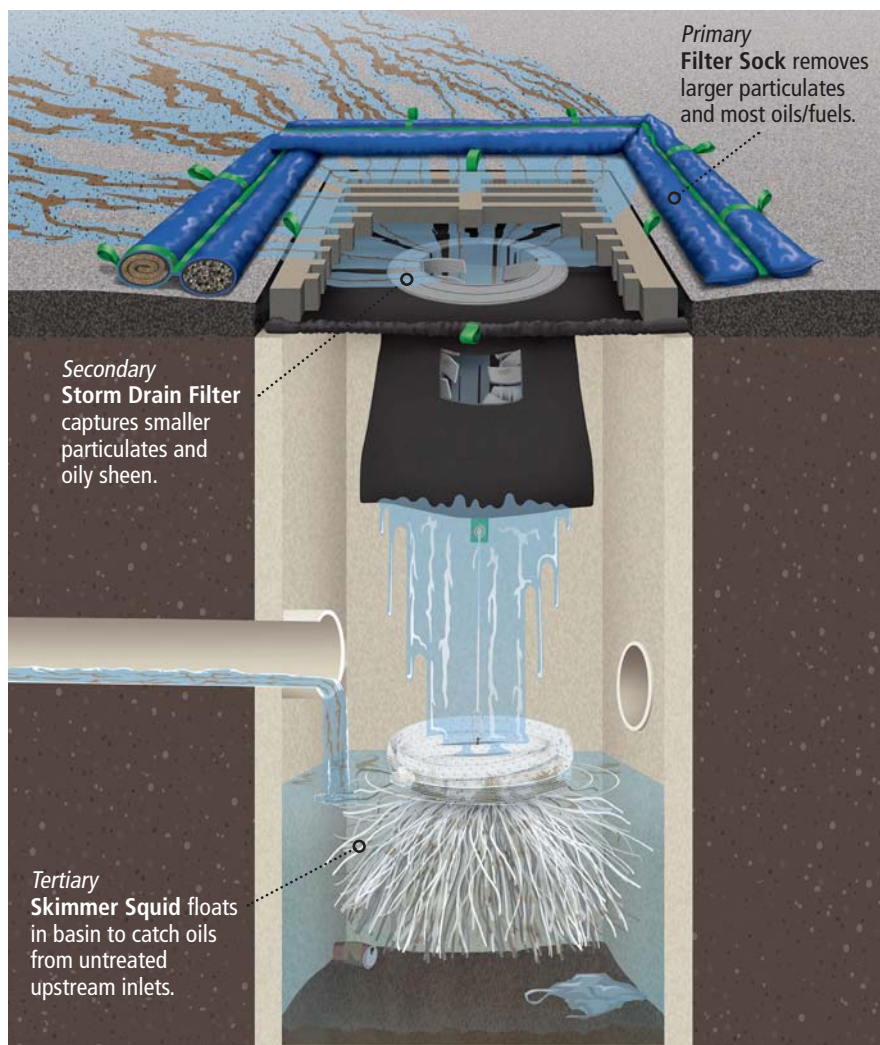

# **Storm Drain Oil & Sediment Filtration Bundle** — **Build a treatment train with our top product combos.**

- Combining multiple stormwater products at multiple stages — **a treatment train** — removes pollutants from runoff more effectively than single treatment practices
- Treatment train extends product life, especially at secondary and tertiary levels, for **less frequent changeouts**
- Hand-picked bundles **eliminate the guesswork** of product selection: choose FLT773 for drains up to 31" x 31"; FLT774 fits drains up to 36" x 48"

## Included PIG Products:

- Stormwater Filter Sock** surrounds drains to remove hydrocarbons, chemicals, trash and debris as your first line of defense
  - Storm Drain Filter** installs below the grate for additional protection against remaining oil and smaller particulates
  - Storm Drain Skimmer Squid** attaches to grommet on bottom of Storm Drain Filter; captures any remaining sheen and other oil that enters basin via untreated upstream inlets
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PIG™ Storm Drain Oil & Sediment Filtration Bundle 	
Item #	1+
<b>FLT773</b> • Use for 20" x 20" to 31" x 31" Drains	<b>\$310</b>
<b>FLT774</b> • Use for 23" x 36" to 36" x 48" Drains	<b>\$330</b>
<b>FLT773 &amp; FLT774 Contents</b> • 1 Storm Drain Filter • 2 Stormwater Filter Socks • 2 Storm Drain Skimmer Squids	

*"Love this new style storm drain protector. We used the drain inserts before and did not like it, you needed two people to install it and to clean it out was a pain. This new one was a one-man job and easy to install."*

— Kamery, Storm Drain Filter Customer

**NEW!**

Protect your facility's stormwater drains from sediment, trash and debris.

**NEW!**

FLT832

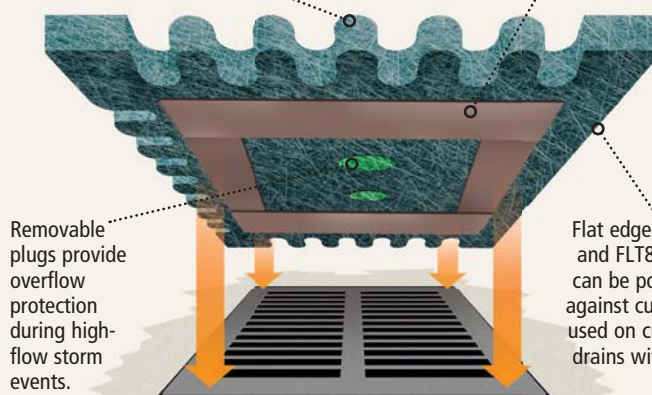

## **pig** Over-the-Drain Sediment Filter — Magnets hold this filter in place for easy installation and removal.

- **Remove sediment and debris** from stormwater before it enters your drains and inlets; ideal as a Best Management Practice (BMP) to help avoid violations
- **Integrated magnetic strips** on underside of filter allow easy installation in seconds — no lifting grate, no cable ties, no pinched fingers
- Natural coconut fibers are densely woven and vertically oriented to **maximize sediment removal and flow rate**
- Designed and tested to **remove 99%** of particulate size 0.425mm and larger
- **Reusable product** can be washed and reinstalled for extended service
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

Scalloped edges and built-in ports (on top of filter) help prevent clogging.

Magnetic strips keep filter in place and make installation fast and easy.

Removable plugs provide overflow protection during high-flow storm events.

Flat edge (FLT831 and FLT832 only) can be positioned against curb when used on curb-style drains with grate.

### **pig** EXPERT ADVICE

Read about how to handle stormwater pollution:  
[newpig.com/stormwaterpollutionprevention](http://newpig.com/stormwaterpollutionprevention)

#### PIG® Over-The-Drain Sediment Filter

Item #	1-4	5+
<b>FLT832</b> • Filters Debris & Sediment from Storm Drains 48" x 24" • 54"W x 32"L x 2.25"H	<b>\$159</b>	<b>\$145</b>
<b>FLT831</b> • Filters Debris & Sediment from Storm Drains 36" x 24" • 43.5"W x 31.5"L x 2.25"H	<b>\$149</b>	<b>\$139</b>
<b>FLT830</b> • Filters Debris & Sediment from Storm Drains 24" x 24" • 30"W x 30"L x 2.25"H	<b>\$139</b>	<b>\$129</b>

FLT748

Integrated straps make positioning the Drain Filter in place an easy task — no need for rebar.

Reusable Drain Filter makes disposing of collected sediment easy during periodic maintenance.

## Sediment Drain Filter — Collect debris and dirt to comply with regulations and protect drains.

- **Ideal for use in the construction industry** and anywhere sediment collection is a concern
- **Geotextile constructed of monofilament polypropylene** captures sand, dirt, sediment, trash, leaves, sticks and cigarette butts
- **Hi-viz integrated straps secure the bag** in place under the drain grate without the use of rebar and cradle the grate for added support and security during installation and removal
- Can handle large capacity but is manageable during maintenance; **no equipment or forklift needed for removal**
- **Filters with overflow ports** (FLT746, FLT748) allow excess water to release into drain during heavy flow or if filter is blocked; also provides an opening to collect samples of filtered stormwater
- **UV resistant**, durable and reusable
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regulations

FLT746  
Without Overflow Ports

FLT748  
With Overflow Ports

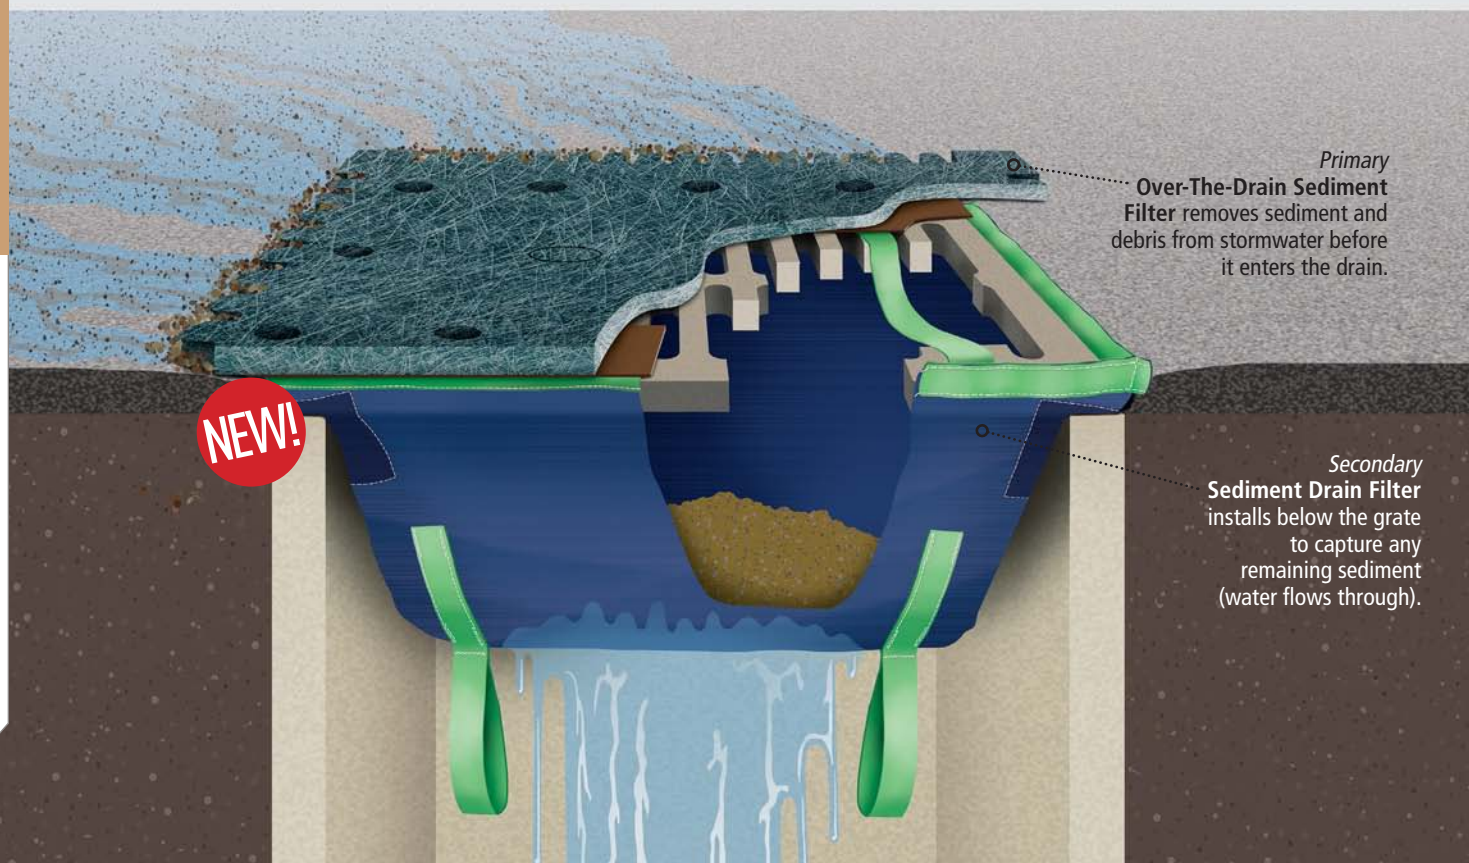

PIG™ Sediment Drain Filter 		
(Specify for FLT746 and FLT748: With or Without Overflow Ports)		
Item #	1-4	5+
<b>FLT746</b> • Filters Debris & Sediment • For Storm Drains 22" x 22" to 28" x 28" • 29"W x 29"L x 20"H	\$57	\$54
<b>FLT747</b> • Filters Debris & Sediment • For Storm Drains 22" x 32" to 28" x 37" • 29"W x 38"L x 20"H • Without Ports only	\$67	\$63
<b>FLT748</b> • Filters Debris & Sediment • For Storm Drains 22" x 42" to 28" x 48" • 29"W x 49"L x 20"H	\$78	\$73
<b>FLT749</b> • Filters Debris & Sediment • For Storm Drains 32" x 42" to 37" x 48" • 38"W x 49"L x 20"H • Without Ports only	\$88	\$82

## Storm Drain Sediment Filtration Bundle — Create a treatment train at drains where oil isn't a concern.

- Combining multiple stormwater products at multiple stages — **a treatment train** — removes pollutants from runoff more effectively than single treatment practices
- Treatment train extends product life, especially at secondary levels, for **less frequent changeouts**
- Hand-picked bundles **eliminate the guesswork** of product selection: choose FLT770 for 2' x 2' drains; FLT771 fits 2' x 4' drains

### Included PIG Products:

- Over-The-Drain Sediment Filter** installs in seconds with integrated magnetic strips; sits on top of drain to remove sediment and debris from stormwater runoff, even during high-flow events
- Sediment Drain Filter** features integrated straps to secure the bag in place under the grate; captures sand, dirt, sediment, trash, leaves, sticks and cigarette butts

◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

**NEED TO KEEP OUT OIL-BASED LIQUIDS, TOO?  
SEE OUR OIL & SEDIMENT BUNDLES ON PAGE 185.**

PIG™ Storm Drain Sediment Filtration Bundle 	
Item #	1+
FLT770 • Use for 2' x 2' Drains	\$175
FLT771 • Use for 2' x 4' Drains	\$210
FLT770 & FLT771 Contents • 1 Sediment Drain Filter • 1 Over-The-Drain Sediment Filter	

## PIG<sup>®</sup> Round Drain Insert — Outfit your round drains with this insert to control oily runoff and avoid fines.

- **Capture trash, sediment, silt and hydrocarbons** to keep storm drains from clogging and overflowing
- Below-grate design **fits round drains** and stays intact in areas with high vehicle traffic
- **Excess fabric around grate** can be trimmed for appearance or left in place for grip during changeouts
- **Excess flow ports** help avoid blockage during high water flow
- **Deep accumulation pocket collects contaminants** while allowing stormwater to flow through
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PIG<sup>™</sup> Round Drain Insert

Item #	Storm Drain Size	Product Size	Abs. Up To	1-3	4+
<b>FLT615</b>	Up to 54" Dia. Round	60"W x 60"L	2.06 gal.	<b>\$123</b>	<b>\$112</b>
<b>FLT116</b>	Up to 30" Dia. Round	48"W x 36"L	1.38 gal.	<b>\$106</b>	<b>\$99</b>

BEST  
SELLER!

## Trench Debris Filter — Roll out this economical, eco-friendly coconut fiber to help keep drains clean.

- Acts as a short-term **Best Management Practice** for sediment issues like construction-phase stormwater sediment removal
- **Built to withstand UV**, weather and light vehicle traffic
- Use with PIG Filter Socks (page 182) to **create a treatment train**
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

Trench Drain Debris Filter

Item #	1-3	4+
<b>FLT700</b> • Filters Debris & Sediment For Storm Drains up to 26" W 27"W x 21'L • 1 roll/box	<b>\$175</b>	<b>\$171</b>

BEST  
SELLER!

## PIG<sup>®</sup> Curb Style Drain Insert Plus — Capture oil, debris and sediment that's swept into your drains.

- Sewn-in debris diverter **blocks runoff at curb opening** and directs it into grate
- **Polypropylene skirting fits inside catch basin** under grate to further block debris from drain

◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

Slide tension rod through material to secure drain insert inside curb inlet.

PIG<sup>™</sup> Curb Style Drain Insert Plus

Item #	1-3	4+
<b>FLT214</b> • Filters Oil & Sediment • For Combination Style Drains w/ Grates up to 40" x 40" & Curb Opening from 24" to 42" • 48"W x 47"L	<b>\$150</b>	<b>\$144</b>

\*▲ **WARNING:** Reproductive Harm - www.P65Warnings.ca.gov

## DeWatering Bag — High-surface-area design removes oil and sediment from higher-volume pumping outflows of water.

- Attach to hose or pipe (up to 6") to **remove hydrocarbons** and sediment
- Nonwoven polypropylene **construction** **resists chemicals**, and fill bag can hold **approximately 4,320 lbs.**
- Ideal for **pumping out** containment areas, collection ponds, utility vaults and sumps
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

DeWatering Bag			
Item #		1-5	6+
<b>FLT617</b> • 15'W x 15'L Holds 225 cu. ft. 1500 gal./min. flow rate		<b>\$235</b>	<b>\$222</b>
<b>FLT563</b> • 10'W x 15'L Holds 150 cu. ft. 1500 gal./min. flow rate		<b>\$164</b>	<b>\$156</b>
<b>FLT562</b> • 6'W x 6'L • Holds 18 cu. ft. 500 gal./min. flow rate		<b>\$60</b>	<b>\$55</b>

## PipeSock — Attach to a hose or pipe to control and contain oil and sediment during lower-volume dewatering.

- **Remove hydrocarbons and sediment** from water by simply attaching PipeSock to a hose or pipe
- **X-Tex recycled fibers** provide high efficiency and excellent flow
- Ideal for **pumping out** containment areas, collection ponds, utility vaults and sumps
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

PipeSock			
Item #		1-5	6+
<b>FLT565</b> • For 12" Dia. Pipes • Ext. Dia. 12" x 5'L • Holds 3.9 cu. ft.		<b>\$118</b>	<b>\$111</b>
<b>FLT564</b> • For 8" Dia. Pipes • Ext. Dia. 8" x 5'L • Holds 1.7 cu. ft.		<b>\$86</b>	<b>\$79</b>

## Curb Inlet Guard — Block debris and sediment from curb inlets and storm drains to prevent ponding.

- During heavy rain, **overflow ports prevent ponding in front of drain**
- **Reusable; can be cleaned and stored** for less waste, expense and maintenance than other drain protection methods
- Constructed of **recycled materials; ideal for construction sites**, municipal streets, parking lots and more
- **Useful as a best management practice** in stormwater pollution prevention plans
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regs

GutterGuard Curb Inlet Guard			
Item #		1-5	6+
<b>FLT561</b> • For Curb Opening up to 10' • Ext. Dia. 9" x 12'L		<b>\$202</b>	<b>\$189</b>
<b>FLT560</b> • For Curb Opening up to 8' • Ext. Dia. 9" x 10'L		<b>\$170</b>	<b>\$154</b>
<b>FLT559</b> • For Curb Opening up to 6' • Ext. Dia. 9" x 8'L		<b>\$152</b>	<b>\$135</b>

FLT901

FLT902

Catch nuisance leaks and drips from oily run-off.

## **pig** Outdoor Filter Berm Pad — Capture oils and other hydrocarbons while rainwater flows through.

- Replaceable absorbent liner **captures leaks and spills** of oils and fuels; clean water passes through walls as hydrocarbons are filtered out
- Berm Pad is **lightweight yet durable**
- **Folds and straps shut** for quick storage and grab-and-go transportation
- **Ideal for temporary storage** of generators and other equipment or containers
- **Corner grommets** let you stake Berm Pad to the ground to help **stay in place** when empty
- ◆ **Helps you comply** with 40 CFR 112.7 and 40 CFR 122.26 Stormwater Regs

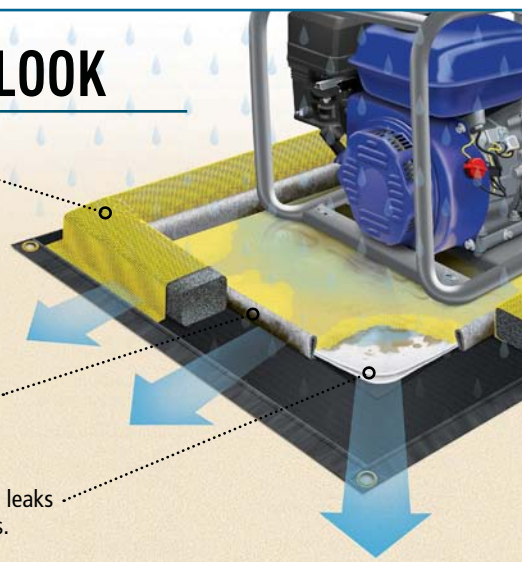

**RFL902**  
Absorbent  
liner is easy  
to remove  
and replace.

### A CLOSER LOOK

2" foam sidewalls provide structure and ensure adequate filtering time in the event of large rainfalls.

Clean water passes through as hydrocarbons are filtered out.

Replaceable liner absorbs leaks and spills of oils and fuels.

#### PIG® Outdoor Filter Berm Pad

Item #	1-2	3+
<b>FLT900</b> • 27" L x 19.5" W x 2.25" H • Absorbs up to .75 gal. /box • Includes 1 Berm & 1 Liner	<b>\$120</b>	<b>\$115</b> *
<b>RFL900</b> • Refill Liner for FLT900 • 4/box	<b>\$109</b>	<b>\$99</b> *
<b>FLT901</b> • 39" L x 27" W x 2.25" H • Absorbs up to 1.34 gal. /box • Includes 1 Berm & 1 Liner	<b>\$175</b>	<b>\$165</b> *
<b>RFL901</b> • Refill Liner for FLT901 • 4/box	<b>\$145</b>	<b>\$135</b> *
<b>FLT902</b> • 78" L x 54" W x 2.25" H • Absorbs up to 4.61 gal. /box • Includes 1 Berm & 1 Liner	<b>\$295</b>	<b>\$280</b> *
<b>RFL902</b> • Refill Liner for FLT902 • 4/box	<b>\$255</b>	<b>\$245</b> *

\* ⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

## Containment Booms — Contain oil and debris to keep it from spreading and protect the environment.

- Closed-cell polyethylene foam **corrals pollutants** while the skirting barrier hangs below the waterline to stop them from creeping under
- **Galvanized steel chain** along the length of the boom adds weight and rigidity (BOM108 is water-filled for weight, no chain included)
- Vinyl-coated polyester material is **UV resistant**
- Foam floats are segmented, so **all booms fold up neatly for compact storage**
- Built-in connectors let you **link multiple booms** (two styles shown below)
- Strap handle/anchor point allows **easy one-person deployment** (featured on all models except EconoMax Booms)
- **High-visibility yellow** for instant recognition in emergencies
- Conforms to **OPA-90 specifications** (in all except BOM301 and BOM302)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
- ◆ **Helps you comply** with 33 CFR 154.545(a) regarding discharge containment equipment
- ◆ **Helps you comply** with 33 CFR 154.1040 requirements for facilities that could cause harm to the environment

### Slide connectors

Most booms shown on the opposite page include marine-grade aluminum slide connectors and toggle pins. (Excludes BOM301 and BOM302)

### Snap hooks

PIG Oil and Debris Containment Booms (BOM301 and BOM302) feature snap hooks so you can easily secure and overlap booms.

# Choose your booms based on type of current and body of water:

## For calm waters, low current

Rectangular foam inserts and 16"-18" height provide enough buoyancy for calm water. Effective in bays, harbors and breakwaters.

**Choose these products:**  
EconoMax Booms  
PIG Oil & Debris Booms

BOM103

Rectangular foam insert

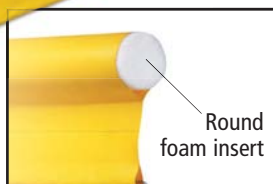

## For calm, shallow waters

10"-high boom with round foam inserts is designed for shallow waters. Use in streams, canals, drainage ditches and swamps.

**Choose these products:**  
Super Swamp Booms

BOM100

Round foam insert

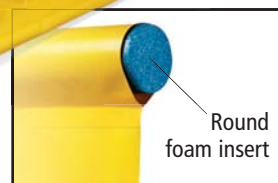

## For fast to strong currents

Round foam inserts and 18"-20" height makes these best for rough waters. Ideal for rivers, shorelines, ports and harbors.

**Choose these products:**  
Optimax Booms & Simplex Booms

BOM107

Round foam insert

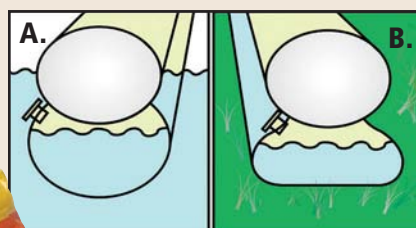

## Tundra Guard Boom

BOM108

Round foam insert

Fill port

Water-filled boom floats in deeper waters (A), but settles snugly in marshes or when the tide is low (B).

## What's freeboard and draft?

**Freeboard** refers to the part of the boom that remains above the waterline. The **draft** is submerged below the waterline. Both work together to contain spills.

## Nonabsorbent Oil & Debris Containment Boom

Item #	Product Name	Type of Current	Where to Use	Dimensions (L x H)	Freeboard	Draft	Breaking Strength	1	2+
BOM105	EconoMax	Calm to Low	Bays, Harbors, Breakwaters	100' x 16"	6"	10"	1,800 lbs.	<b>\$1091</b>	<b>\$1039</b>

# PERSONAL SAFETY & PPE

**Quality comes first at PIG, so consolidate your buying and get your PPE here!**

When it comes to gloves, glasses, suits and other safety essentials, it's easy to get buried under all the choices. But we've done the heavy lifting for you, partnering with market leaders and narrowing down the selection so you can choose quickly and get back to work. Plus, every purchase comes with the perks of doing business with New Pig:

## **No Guff Guarantee®**

If you're not happy with your order for any reason, we'll refund every penny, even shipping both ways.

## **Fast Shipping**

Thanks to our speedy warehouse crew and massive in-stock inventory, most orders ship same day!

## **Autoship**

Never run out! Get the stuff you use most, right when you need it, shipped automatically.

## **Best Service Around**

Our team of product experts are armed with info and ready to help. Got a question? Fire away!

# QUICK-SELECTION GUIDE: GLOVES

From light grime protection to a full-spectrum chemical barrier, we have the gloves to fit every job. Use the quick-selection guide below to help you find what you're looking for. Need a hand choosing? Call our Technical Specialists at 1-800-HOT-HOGS (468-4647).

Glove Category			Page(s)
 GLV107	<b>Disposable</b>	Our best-selling gloves! From light-duty latex to heavyweight nitrile, we have a glove for every wear-and-toss application. <i>See our Disposable Gloves Guide on opposite page.</i>	198–200
 GLV213	<b>Chemical Resistant</b>	Provide extra protection to keep hands safe when working with chemicals like MEK, harsh solvents, degreasers and more. <i>See our Chemical Compatibility Guide on opposite page.</i>	201–202
 GLV323	<b>Coated</b>	Coated gloves give workers a secure grip on slippery parts — without the expense of leather!	203
 GLV500	<b>Cut Resistant</b>	Working with sheet metal, glass, castings or other sharp objects? Keep hands and wrists protected with gloves that are made for the job.	204
 GLV1207	<b>Touchscreen</b>	There's no need to remove these gloves to use your touchscreen devices. Stay safe and productive!	204
 WPL838	<b>Mechanic's Style</b>	Get a comfortable, sure grip on hand tools, as well as impact protection, when you're wrenching in these top-quality gloves.	205
 GLV328	<b>Cotton</b>	When you need minor abrasion protection for inspection applications, our cotton gloves do the job without breaking the bank.	206
 GLV410	<b>Leather</b>	From thin, supple goatskin to tough cowhide, we have a leather work glove for every job.	206
 GLV441	<b>Leather Palm</b>	Durable cowhide reinforcement in high-wear areas and a rubberized safety cuff provide durability and economy.	206

# DISPOSABLE GLOVES

## 4 STYLES FOR ANY APPLICATION

### Nitrile Gloves

- Nonallergenic
- More chemical resistant than latex to protect against intermittent contact and splashes
- Resists puncture and abrasion better than PVC/vinyl

See pages 198–199

### Vinyl Gloves

- Nonallergenic
- Versatile material delivers comfort, sensitivity and performance
- Tough enough for reuse, but inexpensive enough to be disposable

See page 200

### Latex Gloves

- Excellent stretchability
- Fits hands tightly to give them added sensitivity for delicate tasks
- More economical than nitrile

See page 200

### Triple Polymer Gloves

- An exclusive blend of rubber, neoprene and nitrile
- Delivers the comfort of latex with the strength of nitrile and neoprene
- Flexible for easy on and off

See page 200

## CHEMICAL-RESISTANT GLOVES

Chemical Compatibility Guide		
Chemical Name	Recommended Glove Material	Page(s)
Acid 93 – 98%	Butyl	202
Battery Acid 47%	Neoprene or Butyl	201
Hydrochloric Acid 37%	Neoprene	201
Sodium Hydroxide 50%	Neoprene	201
Acetone	Butyl	202
Methyl Ethyl Ketone	Silver Shield	202
Toluene	Silver Shield	202
Xylene	Silver Shield	202
Methylene Chloride	Silver Shield	202
Hydrogen Peroxide 30%	Nitrile	201–202
Ethylene Glycol	Nitrile, Neoprene or Butyl	201–202
Isopropyl Alcohol	Neoprene	201
Gasoline	Nitrile	201–202
Diesel Fuel	Nitrile	201–202

This chart gives general indications based on New Pig's glove offering and a greater-than-8-hour breakthrough time for heavy exposures as tested by the manufacturers. For more precise details on concentrations, degradation, permeation and applications, please consult New Pig Technical Services at 1-800-HOT-HOGS® (468-4647) or visit [newpig.com](http://newpig.com) for manufacturer compatibility guides.

Choose from more than 55 gloves on pages 196–206.

# MUCK 'EM UP & TOSS 'EM OUT!

GLV118

**BEST  
SELLER!**

## Disposable Nitrile Gloves — Light-duty protection for handling grease, food and chemicals.

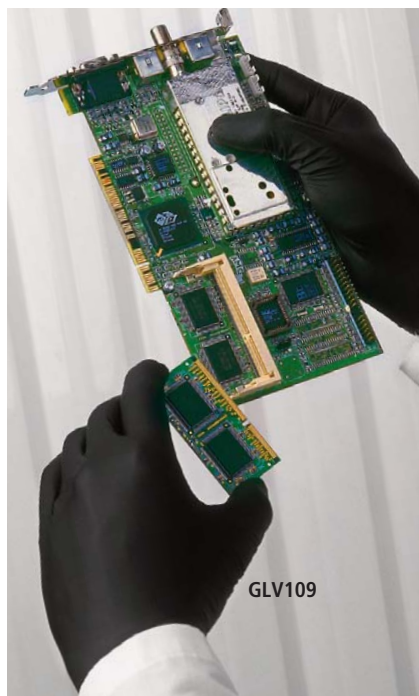

- **Nonallergenic nitrile** is more chemical resistant than latex to guard against intermittent contact and splashes
- **Resists puncture and abrasion** better than PVC or vinyl
- Offer **light protection, sensitivity and dexterity** with use-and-toss convenience
- **Thin enough to use as a liner** under another glove
- **Ambidextrous design** simplifies inventory
- **Beaded cuff** helps prevent ripping and creates a better seal
- Available **powder-free** to help **eliminate skin irritation, contamination and residue**
- **Nonsterile industrial grade** provides an affordable barrier to keep dirt or mild chemicals away from hands
- **Nonsterile medical grade** ensures reliability with strict standards
- Great for **assembly, repair, electronics, quality control, chemicals, hospitals, food, laboratories** and more
- Available **fully textured or with textured fingertips** to provide a firm grip when handling wet or oily objects

### Special features:

- GLV104, WPL362, GLV120 and GLV102 have a **light dusting of powder** to help gloves slide on effortlessly and absorb perspiration throughout the day
- GLV108, GLV117 and GLV168 have a **longer cuff** for extended protection onto forearm
- GLV1211 has **3,000 raised diamonds per glove that produce an aggressive texture** for a superior grip under oily, wet or dry conditions
- GLV116 features an **aloe and vitamin A inner coating** to help prevent chapped or cracked skin
- GLV107, GLV109 and GLV116 are **thicker in fingertips and palm** to minimize tearouts
- GLV168 is **biodegradable in biologically active landfills**
- GLV109 features an **accelerator-free formulation** that won't cause dermatitis

**Need help choosing the right glove? Call our Tech Team at 1-800-HOT-HOGS!**

GLV109

GLV102

"I have tried many different manufacturers' gloves of varying thicknesses and materials. **There's a great feel through this glove**, they allow easy use of hand and power tools, and just look awesome!"

— Joshua S., GLV109 Customer

GLV168

**NEW!**

### N-DEX® Biodegradable!

General purpose nitrile material is biodegradable in biologically active landfills.

GLV1211

3,000 raised diamonds produce a superior grip.

## Disposable Latex Gloves — Get a tighter fit and better dexterity with super-stretchy latex.

- Stretchable latex is **more economical than nitrile**; fits tightly to further increase sensitivity for intricate tasks
- Ambidextrous design** simplifies inventory
- Beaded cuff** helps prevent ripping and creates a better seal
- Nonsterile industrial grade** (GLV151) provides an affordable barrier to keep dirt or mild chemicals away from hands; great for assembly, repair, electronics, quality control, chemicals, laboratories and more
- Nonsterile medical grade** (GLV164, GLV165) ensures reliability with strict standards; great for laboratories, hospitals, food industry, electronics, chemicals and more

### Powder-Free Disposable Latex Gloves

(Specify size: S, M, L or XL)

Item #	Brand	Name	Mil	Grade	Length	Texture	Color	Qty	1-4	5-9	10+
GLV165	Microflex	SAFEGRIP®	11.4	Class I Med.	11.8"	Fingertips	Blue	50	\$29	\$27	\$25

## Triple Polymer Gloves — Comfy & chemically resistant.

- Exclusive formulation** blends natural, powder free rubber, neoprene and nitrile for comfort, durability and chemical resistance
- Lightly halogenated finish** adds flexibility; **textured fingertips provide grip**

### MAPA® TRILITES®

#### Triple Polymer Gloves

(Specify Size: S, M, L or XL)

Item #	1-4	5-9	10+
GLV162 • Powder-Free Industrial Grade • 6 mil 10" L • 100/dispenser	\$21	\$20	\$19

## Disposable Vinyl Gloves — Comfort, fit and protection for your hands without latex.

- Vinyl gloves **contain no latex proteins** and minimize the risk of allergy and irritation
- Ideal for light work
- Thin enough to **use as a liner**
- Ambidextrous design** simplifies inventory
- Beaded cuff** helps prevent ripping and creates a better seal

### SHOWA RealFeel™ Disposable Vinyl Gloves

(Specify Size: M, L or XL)

Item #	1-4	5-9	10+
GLV173 • Powder-Free • Class I Medical Grade 5 mil • 9.5" L • 100/dispenser	\$10	\$9	\$8

## Latex Gloves — The economical choice that's great for cleaning and maintenance!

- Durable 18-mil latex** gloves resist abrasion, punctures and tears
- Stands up to **water, acids, alkalis, detergents, salts, caustics, fats and alcohols**
- Keeps hands clean and dry** in general-duty applications
- Flock-lined interior** adds comfort and makes on/off easier; **diamond grip texture** adds grip in wet work areas

### PIP Assurance® General Duty Latex Gloves

(Specify Size: S, M, L or XL)

Item #	1-5	6-11	12+
GLV220 • 18 mil • 12" L • Flock Lining • 12 pairs	\$26	\$24	\$22

NOTE: For chemical resistance and exact thickness information call Technical Services at 1-800-HOT-HOGS (468-4647) or go to newpig.com.

# Reusable Nitrile Gloves — Look no further for economical protection against harsh chemicals.

- Nitrile material **stands up to long-term submersion in many harsh chemicals**, including 30% hydrogen peroxide, ethylene glycol, gasoline and diesel fuel
- Reusable gloves** resist swelling and degradation; excellent protection against skin irritation and worker injury
- Left- and right-hand molds** are curved to match hand contours for minimized fatigue
- Embossed texture adds grip** when handling wet or oily objects
- Extra-long cuff** extends protection past wrist onto forearm
- Flock lining** (WPL588) absorbs perspiration
- Unlined gloves** (WPL587, GLV970) offer **greater economy** and tactile sensitivity
- Interlock-reinforced lining** (GLV210) increases strength and puncture resistance; soft, comfortable cotton absorbs perspiration
- Shoulder-length cuff** (GLV210) extends protection to entire arm; elastic top cinches to limit sliding and leakage
- Great for spill response**, degreasing, solvent washing, painting, acid dipping, oil refining and more

# The Ultimate Multitasker

You only have two hands, but **PIG All-Purpose Wipers** will do the work of many. Multitask all around your facility with our most versatile wiper. See **WIP231** on page 147.

## SHOWA 377 IP Nitrile Coated Gloves — Get impact protection while keeping your hands dry and maintaining grip, even in oily conditions.

- Thermo Plastic Rubber (TPR) shields on back of fingers and hand **reduce shock**; protect against crushes and impact
- Full nitrile coating **resists abrasion and liquid penetration** to keep hands safe and dry
- Additional foam nitrile on palms helps workers maintain a **strong grip on oily parts** and in wet, greasy conditions
- Flexible materials and ergonomic design **promote dexterity and minimize fatigue**
- **Reinforced cuffs** help keep out contaminants and protects wrists

**NEW!**

**GLV841**  
Highly visible colors draw attention to hands to help avoid injuries on the job.

SHOWA 377 IP Nitrile Coated Impact Protection Gloves 			
(Specify Size: M, L, XL or XXL)			
Item #	1-5	6+	
<b>GLV841</b> • 9"L • 1 pair	<b>\$23</b>	<b>\$21</b>	

## Coated Gloves — Economical choices deliver all-condition grip.

- **All coatings offer excellent grip** in wet conditions; nonallergenic alternative to latex
- **Tear-resistant, seamless nylon knit liner** has high-tensile strength and stretches for a tight fit with better sensitivity (except GLV343)
- Low-linting material **won't absorb oil**; great for wet or dry use
- **Formfitting** to match hand contours for minimized fatigue; **breathable open back**
- **Extended cuff** helps keep out dirt; reinforced stitching helps prevent fraying

### Special features:

- **GLV315, GLV323 and GLV340** has nitrile foam coating for grip in wet uses
- **GLV323** with a dotted texture provides a firmer grip, even on wet or oily objects
- **GLV340** features a unique waffle texture that provides excellent grip and tactile sensitivity
- **GLV343** has a crinkle coating to channel liquids away for better handling in wet and dry applications while the cotton/polyester shell is comfortable and breathable; provides extra protection against snags and abrasions

# SUIT UP FOR SAFETY

Choose the appropriate suit level for your application.

## Level A

Use when you need the highest level of skin, eye, respiratory and mucous membrane protection. Provides Level A protection when combined with either a Self-Contained Breathing Apparatus (SCBA) or a Supplied Air Respirator (SAR) with egress bottle.

See page 208

WPL922

## Level B

Ideal when you need the highest level of respiratory protection, but a lower level of skin, eye and membrane protection. Provides Level B protection when combined with either an SCBA or SAR with egress bottle.

See pages 208–209

WPL860

## Level C

Select this suit when the type of airborne substance is known, its concentration is measured, the criteria for using Air-Purifying Respirators (APR) are met, and skin and eye exposure is unlikely.

See page 209

WPL911

## Level D

The best choice when you only require minimum protection and no eye, skin or respiratory hazards are present.

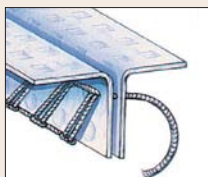

See page 209

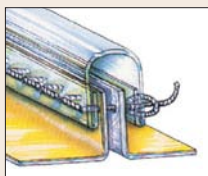

WPL718

## 3 seam types offer different levels of protection.

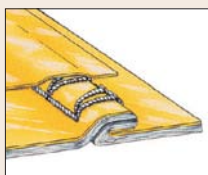

The best protective garments in the world are useless without strong, tight seams. Just one loose thread or gap, and the barrier of protection can unravel and leave you vulnerable to injury. Kappler offers three different seam types for its protective garments.

**Serged Seams** provide general protection. This seam is produced when three threads are interlocked around the raw edges of two pieces of material.

**Bound Seams** offer mid-range protection. A clean-finished binding totally encloses the raw edges of two pieces of fabric, then it's sewn through all layers with a chain stitch.

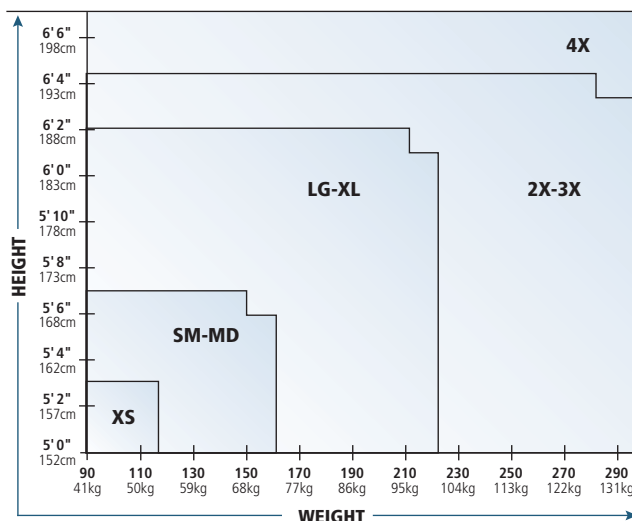

**Heat-sealed Seams** are very strong and tight for high-end chemical protection. A sewn seam is covered with a strip of compatible material, then "heat taped" or "hot air taped" as with film laminated fabrics.

## Size matters. Respond to hazards in a suit that fits.

This chart is a guide for garment selection, but a proper fit varies with individual body shape and underclothing. Always test for proper fit before use. Garment performance depends on selecting appropriate size. Sizes S–3XL are stock items (4XL is available through custom order).

When deciding which size suit to order, consider whether workers will be wearing bulky clothing under their suits. If they are, order suits one or two sizes larger than the sizing shown below.

KAPPLER PROTECTIVE CLOTHING SIZING CHART

WPL922

NOTE: Respirator not included.

### Zytron 500 Chemical Protection Suit — Superior protection with expanded faceshield and anti-fog visor.

- **Industry-first innovation:** Large, expanded-view faceshield increases field of vision with 17% more visor surface area
- **Industry-first innovation:** View window now resists fogging far more effectively than standard suit faceshields
- Effective **barrier against most organic and inorganic chemicals**, including acids, bases, salts, greases and oils
- Suits show **no permeation breakthrough** after 8 hours of exposure to the ASTM F739-85/ASTM F1001-89 list of 15 hazardous chemicals and 6 gases
- **Fully encapsulating Level A suit** made from Zytron material withstands long-term contact with wet and dry chemicals
- **Hot-air taped seams** and double storm flaps maximize strength and help prevent chemical penetration

#### Zytron® 500 Chemical Protection Suit w/Anti-Fog Visor

(Specify Color: Charcoal Orange)  
(Specify Size: L/XL or XXL/XXXL • Add \$50 to price shown for XXL/XXXL)

Item #	1-2	3+
<b>WPL922</b> • Zipper Front Hood w/ Faceshield, Gloves, Sock Boots w/ Flaps Attached	\$1175	\$1125

WPL854

NOTE: Respirator not included.

### Tychem Level A Suit — High-level protection for hazmat first responders.

- Provides **chemical barrier for 8 hours** against any ASTM F1001 chemical and proven against 260 challenge chemicals
- **48" zipper and double-overlapping storm flap** with hook-and-loop closure help block out dangerous vapors and chemicals
- Outside, sewn, **heat-sealed seams** are liquidproof to maximize protection
- Deluxe suit features large 40-mil PVC/10-mil PTFE **faceshield and heavy-duty double-layer gloves**
- **Attached sock boots** with flaps provide leakproof barriers inside outer boots
- **Bright lime green color** is highly visible in emergency and low-light conditions
- Includes handy **canvas carrying bag** to keep suit clean and dry before use

#### Tychem® TK Level A Suit

(Specify: Front or Rear Entry • Specify Size: L, XL or XXL)

Item #	1	2+
<b>WPL854</b> • Zipper Front or Back Hood w/ Faceshield, Gloves, Sock Boots w/ Flaps Attached	\$1450	\$1390

WPL860

NOTE: Respirator not included.

### Tychem Level B Suit — Fully encapsulating suit gives field-proven protection.

- **Designed to protect wearers** from a broad range of chemicals and hazardous materials common in industry
- Also **tested against chemical warfare** agents and suitable for response to weapons of mass destruction
- **Fully encapsulating Level B suit** maximizes chemical protection with 48" zippered rear entry port with double storm flap and hook-and-loop closure
- Outside, sewn, **heat-sealed seams** are **liquidproof** to maximize protection
- **Suit features** an expanded back for added comfort, elasticized wrists, two exhaust ports with shrouds and attached sock boots with boot flaps
- 20-mil PVC **faceshield** permits a broad range of vision

#### Tychem® BR Level B Fully Encapsulating Suit

(Specify Size: L, XL or XXL • Add \$10 to price shown for XXL)

Item #	1-6	7+
<b>WPL860</b> • Zipper Back, Elastic Wrists Hood w/ Faceshield, Sock Boots w/ Flaps Attached	\$365	\$345

**SEE OUR DECON STATION ON PAGE 220.**

## Kappler Zytron Level B/C Coveralls — Choose from a variety of suits for great chemical protection.

- Effective **against organic and inorganic chemicals**, including many acids, bases, salts, greases and oils
- **Attached hood** with elastic face protects head
- Zytron material **outperforms conventional materials** on chemical hold-out
- **Zytron 300 material withstands significant chemical splashes** and dry particulates (WPL911, WPL912)
- **Zytron 200 material withstands moderate chemical splashes** and dry particulates (WPL909, WPL910)
- **Zytron 100XP material withstands light chemical splashes** and dry particulates (WPL907, WPL908)

ABS plastic showerhead is corrosion resistant and highly visible.

## Drench Shower and Eye Wash — Install one unit for total body and MSR face decontamination.

- Ideal for installation in high-risk areas to **provide onsite initial treatment**
- Chrome-plated brass **valves stay open** until manually closed for complete decontamination
- Axion MSR **eye wash head design** works more effectively with natural eye function than standard eye washes
- Inverted streams contact eye at the inner corner and sweep contaminants toward the outside edge; **helps stop contaminants** from flowing into other eye or draining into nasal cavities
- Nearly vertical streams reach zero velocity and softly puddle in midair before falling for a **gentler, fuller flush**
- Face wash nozzles also use inverted streams to **flush entire face** as eyes are cleaned
- **Antimicrobially treated head** prevents the growth of mold and mildew
- **ANSI Z358.1 compliant**

Haws® Free-Standing Drench Shower & Eye Wash

<b>PLS1358</b> • Pedestal Mount Flow Rate Eyewash - 3.7 gal/Minute, Shower - 20 gal/Minute		<b>\$1380</b>	<b>\$1295</b>

### Portable Eye Wash — Provide any worksite with ANSI-compliant flushing.

- Sturdy **stainless steel tank** withstands industrial worksites; built-in handles
- Fill unit with potable water and **add preservative** to keep clean
- Eye wash heads create **gentle cleansing streams** when activated by push handle

Bradley® Portable Drench Hose & Eye Wash	
Item #	1+
PLS1617 • Holds 10 gal. Flow Rate .4 gal/Minute Minimum	\$1599 *

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

# TRIED AND TRUSTED

## PIG ABSORBENT MAT

Clean up any mess with the #1 mat in the world.

See page 11.

### Gravity-Fed Eye Wash — Get full ANSI flow in a unit that won't take up aisle space.

- Eye wash unit has a 14-gallon capacity, but **extends only 9½" from wall** when retractable tray is not in use
- Pinch-valve design and pivoting tray activate unit and ensure **flow within 1 second**
- Steady flow rate of 0.4 gpm for 15 minutes **meets requirements of ANSI Z358.1**
- Separate **5-minute fill line** meets requirements for personal eye wash
- Rugged handles make unit **easy to carry to outdoor worksites**

Hydrosep Additive (PLS726) preserves water for up to 6 months.

Encon® Gravity-Fed Portable Eye Wash Station	
Item #	1+
PLS724 • Holds 14 gal. • Flow Rate .4 gal/Minute Minimum	\$409
PLS726 • Hydrosep® Water Treatment Additive • 4 - 8 oz. Bottles	\$47

### Aquarion Eye Wash — Low-maintenance eye wash uses factory-sealed cartridges.

- **Multiple points of inspection** include a usage seal on the tray, side windows for quick inspections and a removable lid for thorough inspection of cartridges
- **Factory-sealed cartridges** are ideal when a direct plumbing line is inaccessible or inconvenient
- Sleek design **avoids crevices** to help prevent the growth of mold, fungus and bacteria
- High-visibility eye wash is **ANSI Z358.1 compliant**
- **One-step activation**; just pull down the tray and water flow begins

Fluid cartridges (PLS456, sold separately) provide a 0.4 gpm eye wash for up to 15 minutes

Aquarion™ Portable Eye Wash Station	
Item #	1+
PLS455 • Holds 7.4 gal. • Flow Rate .4 gal/Minute Minimum	\$525
PLS456 • Fluid Cartridges • 2 - 3.7 gal. Cartridges	\$314

## Guardian Eyewash Stations and Safety Showers — Provide easy access for workers to flush contaminants and minimize injuries.

- **Variety of plumbed safety stations** can be installed in high-risk areas to provide onsite initial treatment
- Chrome-plated brass valves with PTFE seals stay open until manually closed for **complete decontamination**
- Spray heads include flip-top dust covers plus internal flow control and filter to **remove impurities**
- Bright orange color is highly visible so workers can **quickly locate decon stations**
- Assembled, inspected and water-tested before shipment to ensure **quality and reliable performance** at your facility
- All models are **ANSI Z358.1 compliant**

Did you know there are standards and requirements for eyewash stations and drench showers? See them at [newpig.com/eyewash-drenchshower-standards](https://newpig.com/eyewash-drenchshower-standards)

*"I love it! Nice and short, to the point and grabs your attention."*

— Sally, PIG Training Customer

# PLANT SAFETY

**Avoid accidents, injuries and OSHA fines with our proven selection of safety products.**

The next 30 pages are packed with PIG-approved solutions to help keep your facility on the up-and-up when it comes to safety. Whether you need them to comply with OSHA regulations, or because your company values best practices to provide a safe workplace, you'll find everything you need right here.

## **Proven performers from market leaders.**

We've partnered with the top names in safety to bring you the best in anti-fatigue mats, floor tapes, signage, lockout/tagout and more. We use them in our own plants and buildings, so we know they'll get the job done at yours, too.

## **PIG exclusives invented right here.**

We've also got industry firsts that you won't find anywhere else. Check out **PIG Grippy® Floor Mats** on pages 228–235 — the world's first adhesive-backed mats eliminate slips and trips. And our new **High-Visibility Safety Floor Runner** on pages 234–235 calls attention to hazards while providing a no-slip path for foot traffic. Its hi-viz yellow edging can't be missed!

## ◆ HELPS YOU COMPLY

**OSHA has always required that workroom floors be kept clean and dry.**

### ◆ Walking-Working Surfaces

#### **29 CFR 1910.22(a)(2)**

*The floor of each workroom is maintained in a clean and, to the extent feasible, in a dry condition. When wet processes are used, drainage must be maintained and, to the extent feasible, dry standing places, such as false floors, platforms, and mats must be provided.*

#### **29 CFR 1910.22(a)(3)**

*Walking-working surfaces are maintained free of hazards such as sharp or protruding objects, loose boards, corrosion, leaks, spills, snow, and ice.*

# “PUT YOUR TRUST IN PIG-APPROVED.”

**We screen and scrutinize hundreds of safety products. The ones that make the cut are inside this Pigalog.**

Justin Stroup — Product Development

# ELIMINATE RISKS WITH THE MAT THAT STICKS

**YOUR PROBLEM**

**OUR PROVEN SOLUTION**

## 7 Ways Grippy® Mat Beats Rubber-Backed Mats

### Adhesive Backing Keeps the Mat In Place

Won't shift or move — keeps you covered 24/7.

### Won't Ripple or Bunch Up

Lays flat and stays flat so you never have to worry about people tripping.

### Provides Customized Walk-Off Coverage

Just roll it out and cut to the right size and shape — no gaps or overlaps.

### Absorbent and Fast-Drying

Captures liquid and dries fast to stop it from being tracked around.

### Built for Extreme Traffic

Provides a high-traction surface that lasts up to three months between changes.

### Easy to Clean

Vacuum, sweep, mop or deep clean in place right along with your floors.

### Saves Time and Money

Costs 50% less than rental contracts, reduces labor costs and liability claims.

**GRIPPY  
MAT**

**RISKY  
MATS**

**SLIPS & TRIPS**

**SAFE FLOORS**

## WANT A FREE SAMPLE KIT?

Call 1-800-474-7791 or visit [grippymat.com](http://grippymat.com).

Kit contains 9" x 9" samples of Grippy Floor Mat and Grippy Carpeted Mat plus a 16-page informational brochure and customer case studies.

# GRIPPY ADHESIVE-BACKED MAT EXCLUSIVE FEATURES

## Liquidproof Adhesive Backing

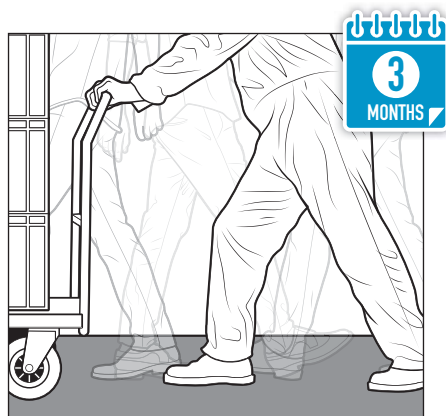

The liquidproof adhesive backing sticks to the floor and creates a barrier to keep absorbed liquids from leaking through.

## Absorbent Top

The absorbent top pulls in liquid and wicks it away from the center so the mat dries quickly.

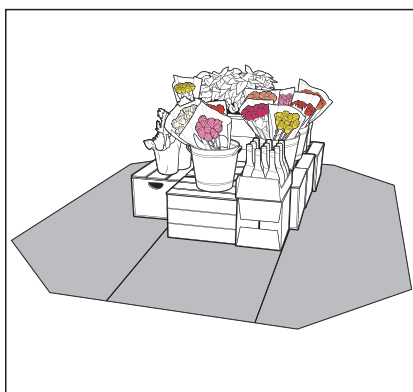

## Entangled Fibers

Entangled fibers add durability and trap dirt to prevent it from being tracked around.

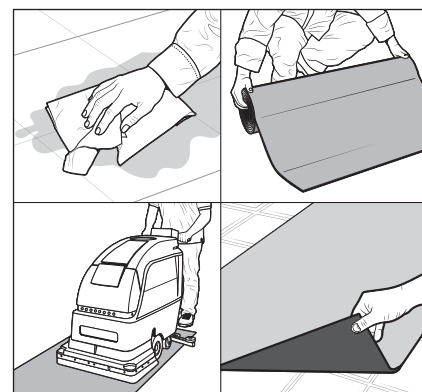

**Sticks to the floor and stays exactly where you put it for up to 3 months.**

- High-traction mat stays flat to eliminate slip-and-fall hazards
- Provides the exact length you need with no dangerous gaps or overlaps
- Withstands extreme foot or wheeled traffic

**Provides complete coverage in any size or shape — anywhere.**

- Cut to fit in any size or shape for complete coverage everywhere you need it
- Easily customize mats to fit irregular spaces around drink stations, product displays, floor drains or pillars
- Our installation tools make it easy (See p. 233)

**Makes clean, safe floors as easy as 1-2-3.**

- Identify your Risk Zones and thoroughly clean your floor before installing mat
- Follow this three-step cycle to keep your Grippy Mats looking good and your floors clean and safe:
  1. Place mats
  2. Clean and maintain
  3. Inspect and change out

**New Pig Adhesive-Backed Mat Notice:** New Pig Adhesive-Backed Mats are formulated to work with most common industrial and commercial floor surfaces. New Pig Adhesive-Backed Mats are not intended for use on wood flooring with stains, finishes or coatings. All adhesive mats have some potential to leave residue or lift or discolor finish coatings, paint, and loose or pre-damaged tiles depending on the condition and age of the floor surface. If you have questions about the suitability of New Pig Adhesive-Backed Mats for your application, test a 6" x 6" piece in a discrete or non-critical area before use. New Pig Adhesive-Backed Mats should be replaced if they show signs of wear or damage and should always be changed out before 3 months of use. CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE AND NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT WILL BE ACCEPTABLE FOR USE IN THE CUSTOMER'S FACILITY. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR, AND CUSTOMER HEREBY RELEASES AND DISCHARGES NEW PIG FROM, ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS AND APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAT IN CUSTOMER'S FACILITY.

# PIG Grippy® Adhesive-Backed Floor Mat — Eliminate slips, trips and falls in Risk Zones with our no-hassle mat.

**GRP36200**  
3' x 100' • Gray

- Adhesive-backed mat stays exactly where you put it with **no shifting, rippling or flipping over**; traps dirt, salt and moisture to keep it from being tracked around
- **P53® adhesive backing** delivers the ideal balance of stick-and-release performance
- **Extreme durability** stands up to heavy traffic — even forklifts — to keep it on the job for up to three months
- Cut or seam together to **create any shape** you need
- **Rolls out to create sufficient walk-off** for complete, anti-slip coverage with no gaps or overlaps; create custom mats in aisles, entrances and transitions, near wet walls, service counters and more
- **ADA compliant** for walkers and wheelchairs
- **Clean your floors with mats in place** to save time and avoid the labor and hassle of dragging heavy mats around

## Antimicrobial-Infused Floor Mat

- **For kitchens**, food prep areas and commercial food production
- Helps to **prevent the growth of odor-causing bacteria** and mold on the mats

## Tools for PIG Grippy® Mat — Make the easy job of installing Grippy Mat even easier with these professional tools.

- **Installation Board** (GRP001) helps you smooth mat into place and eliminate air bubbles; can also be used as a cutting guide for creating perfect corners or 45° angles
- **Safety Knife** (GRP012) makes quick, clean cuts to Grippy Mat without the risk of handling scissors or box cutter; recessed blade has protective edges to help eliminate injuries and property damage (Board and Knife also sold together as GRP005)
- **Installation Roller** (GRP021) unrolls the mat as you push it along and smooths it into place; eliminates the need to get down on your knees during installation. (Not recommended for use with Grippy Carpeted Entrance Mat.)
- **Removal Tool** (GRP020) "locks" its jaws onto mat material, providing a firm handgrip for pulling up Grippy Mat (ideal for removing long runs or mats that have been in place for extended periods of time)

# **High-Visibility Safety Floor Runner** — Provide can't-miss, no-slip paths with our super-safe mat.

- Tapes and paints are easy to see but do nothing to create a safer floor surface; our Runner is the only floor safety solution that combines a high-traction walking surface with a **hi-viz safety edge pattern**
- **Adhesive backing** keeps mat exactly where you put it with no shifting, bunching up or flipping over; traps dirt, salt and moisture to keep it from being tracked around
- **Highly visible yellow and black marking** is designed to meet ANSI standard for floor markings and help you comply with OSHA 1910.22 (walking surfaces standard)
- Durable printed surface **withstands industrial wear and tear**
- Mat is **highly absorbent, quick-drying**, very low profile, extremely durable and effortless to maintain
- Easy to use and customize: **roll out continuous coverage** with no gaps, ripples or overlaps that cause slips and trips
- Proprietary adhesive sticks to the floor with a super-tight grip, but **peels up easily** to replace when mat shows signs of wear
- **Sticks to most commercial floor surfaces** including concrete, VCT, linoleum, ceramic tile, quarry tile and laminate flooring

# QUICK-SELECTION GUIDE: ANTI-FATIGUE MATS

Anti-fatigue mats are designed to reduce leg and back strain when you spend a lot of time on your feet. They promote frequent posture changes to keep blood circulating so you can stay on the job longer without feeling fatigued. New Pig offers a wide range of anti-fatigue mats for a variety of applications.

Also in this section are a few specialty mats that go beyond anti-fatigue. See what innovative solutions like PIG Grippy Floor Mat, PIG BubbleZorb Mat and PIG Sticky Steps Mat can do for your workstations! The guide below will help you choose just the right mat. If you have questions, just give us a call at **1-800-HOT-HOGS** (1-800-468-4647).

## Application Key

NOTE: For chemical compatibility information on mats, please call Technical Services or visit [newpig.com](http://newpig.com).

### Dry Conditions

Use these mats primarily in dry areas, although many resist wet conditions. Some stand up to oil, grease and most chemicals. Choose from a variety of antislip surfaces to provide safe footing.

	Product Name	Light Splashes					Description	Page
		Dry Only	Water	Oil/Grease	Chemicals	Anti-Static		
Single Piece Mat/Rolls	Airug Mat						Economical, basic anti-fatigue comfort	241
	Pebble Step Sof-Tred						Protective coating withstands harsh chemicals	240
	Alleviator Comfort King Mat						Nearly an inch of soft foam for superior comfort	241
	Diamond Sof-Tred Mat						Abrasion-resistant top for long-lasting traction	240
	Diamond-Tuff Classic Max Mat						Thick and comfortable with long-lasting traction	239
	Hog Heaven Mat						Static-dissipative for use near electronics	238
	Cushion Max Mat						Tough nitrile with thick foam cushioning	238
	Cushion Trax Mat						Diamond-plate vinyl; bottom clings to floor	239
	Corrugated Switchboard Mat						Static-dissipative for high voltage	241
	Spark-Safe Mat						Resists sparks and metal shards	241
Modular	Hog Heaven III Modular Mat						Static-dissipative and anti-fatigue modular tile mat	240

### Wet Conditions

Designed to work in wet conditions and provide long-lasting comfort without degrading. Drainage holes let liquids escape to avoid slips and falls.

	Product Name	Continuous Contact			Description	Page
		Water	Oil/Grease	Chemicals		
Single Piece Mat/Rolls	Comfort Flow Mat				Lightweight for easy movement and cleaning	244
	Diamond-Deluxe with Grit-Safe Mat				Nonslip grit embedded in surface provides extra traction	244
Modular	Safety-Step Grease-Resistant Mat				Interlocks for a sturdy, grease-resistant work area	243
	Dura-Step II Grease-Proof Mat				Fast-draining with superior resistance to grease and oils	243
	Performa Mat				Excellent drainage, available with gritted top	243
	Niru Cushion-Ease GSII Mat				Chemical resistance with permanent grit	243
	Diamond Flex-Lok Mat				Customizable open-grid pattern provides traction	242
	Lok-Tyle Draining Mat				Non-slip silicon carbide surface and chemical resistant	242

### Specialty Mats

Work cleaner and safer with these innovative mat solutions!

Product Name	Description	Page
PIG Grippy Floor Mat	Full-coverage adhesive backing holds tight; no bunching up or shifting	228-235
PIG Sticky Steps Mat	Pulls dirt and debris from shoes or wheels to prevent them being tracked around	236
PIG BubbleZorb Mat	Combines cushiony anti-fatigue support and universal absorbency	244

# Hog Heaven Mat — Textured nitrile top and closed-cell cushioning deliver slip-resistant comfort.

## Niru Mat — Interlocking system adds safety where it's slippery.

- **100% nitrile construction** provides comfort and resistance to chemicals, oils and grease
- **Modular design** makes it easy to replace individual sections and customize configurations
- Assembles easily with **built-in connectors** and channels that fit together without hammering
- Silicon-carbide grit bonded permanently to pure nitrile provides **long-lasting, nonslip traction** (yellow ramps are without grit)
- Add **beveled ramps** to reduce tripping hazards and create a finished look
- Available **with holes** for wet areas or **without holes** for dry areas

Carbide surface won't wear off.

Built-in connectors make it easy to connect ramps.

### Niru® Cushion-Ease® GSII™ Modular Anti-Fatigue Mat

## PIG® BubbleZorb Mat — The first absorbent anti-fatigue mat gives all-day comfort.

- The **next best thing to standing on air!** It's the first mat that combines cushiony anti-fatigue support with universal absorbency
- Durable polyethylene-nylon air bubbles **provide support for feet, legs and back;** bubbles handle up to 2,000 lbs. per square foot
- Stitched polypropylene top layer withstands heavy foot traffic and **absorbs oils, coolants, solvents and water** so you have a safer surface to work on

Durable absorbent top layer provides traction in wet work areas.

Cushiony air bubbles on the bottom layer comfort your feet.

### PIG® BubbleZorb® Anti-Fatigue Absorbent Mat Roll

Item #	1-2	3+
FLM351 • Mediumweight 31"W x 50'L • 1 roll Absorbs up to 10 gal./roll	\$304	\$288

Patent Pending

Available in:

## Non-Skid Step Tread — Precut gritted tread installs easily on steps and ramps.

- **Rounded corners** make application easier and **won't lift or flag** like conventional squared corners
- Durable mineral grit compound creates a **nonskid surface** for safe footing
- Grit is **sealed with two-part epoxy resin** for durability and to prevent shedding
- **Resists oil, water and heavy foot traffic** for long service life
- **Low initial tack** for easy repositioning
- Tape removes **without residue**

## Ladder Safety Gate — Employ a full-time guard at your fixed ladders and raised platforms.

- Clamp the ladder safety gate onto pipe railings around your ladders and unloading platforms to **help prevent falls**
- Made of durable **powder-coated steel**
- Gate opens 180°; **self-closing hinges** keep the gate closed at all times
- Universal hinge-mounting assembly **fits railings up to 2" in diameter**
- **Mount in either direction** simply by inverting the gate
- ◆ **Helps you comply** with 29 CFR 1910.23 covering guarding floor and wall openings and holes

Ladder Safety Gate		
Item #	1-4	5+

## Safety Signs — Provide vital information with easy-to-read signs.

Bright colors and easy-to-read legends help you comply with 29 CFR 1910.145 by indicating specific hazards that may lead to accidental injury or property damage.

### THREE-STEP EASY ORDERING

1. Choose a legend
2. Choose a composition
3. Choose a size

**Three compositions to fit your application and budget.**

- **Aluminum signs** offer long-lasting, superior resistance to abrasion, chemicals, weather, splashes and washdowns

- **Plastic signs** are an economical choice for light-duty or temporary use, indoors or sheltered outdoors
- **Dura-Vinyl self-sticking signs** provide exceptional flexibility and performance, indoors or out; high-gloss film resists UV rays, water, chemicals and abrasion

Safety Signs 		
Item #	1-9	0
<b>Aluminum</b> • 10"W x 14"L	\$38	\$37
<b>Aluminum</b> • 7"W x 10"L	\$36	\$35
<b>Plastic</b> • 10"W x 14"L	\$27	\$26

## V-SAFE Gate Valve Lockout — Secures and color-codes gate valves for safety.

- Clamshell-style lockout in **rugged polypropylene** resists chemicals, cracking, abrasion and temperature changes
- If not using ANSI color-coding, red can indicate **locked and closed position**
- Fully dielectric design is **easy to handle** and apply

V-SAFE® Gate Valve Lockout		NORTH	
Item #		1-5	6+
<b>LCK115</b> • For 6.5" to 10" Dia. Valve Handles		\$75	\$68
<b>LCK114</b> • For 5" to 6.5" Dia. Valve Handles		\$62	\$59
<b>LCK113</b> • For 2.5" to 5" Dia. Valve Handles		\$45	\$40
<b>LCK112</b> • For 1" to 2.5" Dia. Valve Handles		\$31	\$27

## B-SAFE Ball Valve Lockout — The only ball valve lockout for open or closed positions.

- Installs in seconds to **completely cover handles** and prevent unauthorized use
- Highly visible, **fully dielectric polypropylene** resists chemicals, cracking, abrasion, rust and extreme temperatures
- Accepts **handles up to 1" wide**; models available for a range of valves from 3/8" to 2 1/2" in closed position; LCK119 can be locked open or closed

B-SAFE® Ball Valve Lockout		NORTH	
Item #		1-5	6+
<b>LCK120</b> • For 1.25" to 2.5" Valves w/ Handles from 7.5" to 10"L		\$65	\$60
<b>LCK119</b> • For .375" to 1.25" Valves w/ Handles up to 7.5"L		\$43	\$39

Tiny drops of oil can be nearly impossible to see, especially outside on white absorbents.

The 390 nm UV LEDs in these lights make even traces of oil glow bright purple for quick, accurate identification!

## Oil Detection Light — LEDs make even the smallest drops of oil glow purple!

- **Titanium-reinforced aluminum** with sealed O-rings and polycarbonate lens resists corrosion, abrasion, impact and water
- **Multi Ops Task Light** has four settings: 5-LED oil detection light, C4 LED floodlight and laser pointer with or without floodlight
- **Ideal for inspections** in utilities, automotive and other industries where catching leaks early is imperative

Compact 5¼" model fits in your pocket.

ELS218

### Multi Ops® LED Oil-Detection Task Light

Item #	1-4	5+
ELS218 • 50 Lumens • Ext. Dia. 1.5" x 5.25"L	\$77	\$74

## Emergency Lighting Station — When the power goes out, this glow-in-the-dark flashlight appears.

- **Glow-in-the-dark body** is easy to locate during power outages
- Produces **378 lumens of output** on high; runs up to 202 hours on low (three AA batteries included)
- **Three light options:** high beam, low beam and flashing signal mode
- **High-impact, water-resistant** design
- Includes light and **lockable, wall-mountable** clear case

## LED Penlight — Get up to 6½ hours of illumination from these slim lights.

- Uses "battery-booster" electronics to increase output while reducing power usage; provides 6½-hour runtime on two AAA batteries (included)
- C4 LED offers super-bright illumination of up to 90 lumens with a 30,000-hour lifespan

ELS212

### Stylus Pro® LED Penlight

Item #	1-4	5+
ELS212 • 90 Lumens Ext. Dia. 0.5" x 5.3"L	\$38	\$36
ELS212 Contents • 2 AAA Alkaline Battery • 1 Belt Holster		

ELS201

## LED Rechargeable Flashlight — Bright light shines in demanding areas.

- Choose from **three brightness levels** and an emergency strobe
- High-capacity NiCad battery can be **recharged up to 1,000 times** before it needs to be replaced
- LED with C4 technology offers **ultra-bright illumination of up to 350 lumens** with a 50,000-hour lifespan
- Focused beam is perfect for **distance or close-up viewing**; parabolic reflector optimizes range and peripheral lighting

### Stinger DS® LED Rechargeable Flashlight

Item #	1-2	3+
ELS201 • 350 Lumens Ext. Dia. 1.5" x 8.85"L	\$236	\$223
ELS201 Contents • 1 120V AC Charger • 1 12V DC Charger • 1 Nickel Cadmium Battery • 1 Hardware		

"When our roof starts leaking, it needs to be controlled ASAP to avoid damaging product. This thing **does the trick** without causing production delays!"

— Tony, PIG Roof Leak Diverter Customer

# MAINTENANCE

## Be prepared for Mother Nature and Murphy's Law with facility-savers from PIG.

Don't wait for something bad to happen around your facility before you stock the right products to deal with it. Because if something *can* go wrong, it usually does, and PIG can help you get through it unscathed.

### Floor-to-ceiling fixer-uppers

Overhead leak after the big storm? Grab a PIG Leak Diverter. Forklift driver puncture a drum? Patch it with PIG Drum Repair Kits. Burst Pipe? PIG Pipe Wrap to the rescue! Broken part? Mend it with PIG Epoxy Putty.

You'll also find dozens of powerful PIG solutions in this section like our Compactors and Can Recycler for waste minimization, and PIG Restroom Mats with adhesive backing to keep law and order on your restroom floor.

### Maintenance

## ◆ MINIMIZE WASTE

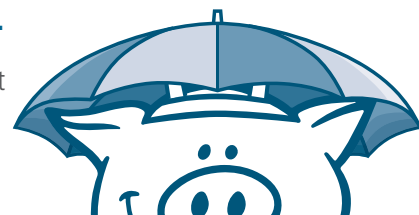

We've got the best-selling products to help you reduce your waste streams — including the PIG Aerosol Can Recycler on pages 278–279.

Don't dump your aerosol cans into landfills! Depressurizing cans exempts them from haz waste regulations and turns them into recyclable scrap metal. Visit [newpig.com](http://newpig.com) and search for DRM1266 to **watch our video** and see the PIG Aerosol Can Recycler in action.

## “REAL SOLUTIONS YOU CAN RELY ON”

PIG has the best fixes for leaky roofs, ruptured drums and waste minimization.

Ben VanOuse — Product Development

### FEATURED RESOURCES: HOW TO PREPARE FOR MAJOR STORMS & WEATHER EVENTS

After a natural disaster, your greatest expense is the disruption of operations while salvaging equipment and materials and repairing your facility. Find out how to create a continuity plan at: [newpig.com/majorstorms](http://newpig.com/majorstorms).

# LEAK DIVERTERS

**BEST  
SELLER!**

TLS462  
Translucent

Don't end up with damaged goods! Protect your inventory with a PIG Leak Diverter.

## Why buy a PIG Leak Diverter?

- **Roof and pipe leaks can be catastrophic** and result in ruined inventory, lost production time and possible injuries. How much can you afford to lose?
- **Be prepared!** That storm is coming. Avert disaster by keeping PIG Leak Diverters on hand before you need them.
- **Get the best!** Only PIG Leak Diverters deliver the top-quality and wide selection that can keep you covered in any situation.
- **Keep your employees safe.** Roof leaks cause wet floors, and wet floors cause slips and falls. PIG Diverters help you comply with regs stating that your floors must be kept dry and safe.

*"We keep a supply of leak diverters on hand to cover leaks over product and machinery."*

— **Dyanna, PIG Leak Diverter Customer**

## Here's how it works...

Collection tarp captures liquid and funnels it to the hose connection.

Hose channels liquid to a floor drain or collection container.

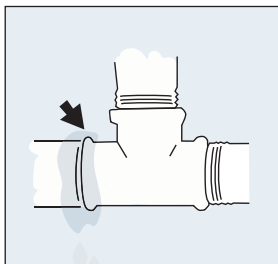

Pails sold separately on pages 318–320.

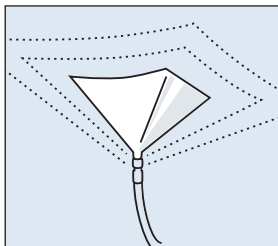

## Selecting the right Leak Diverter.

New Pig offers the biggest variety of leak diverter styles and options, each tailored to specific leak and drip challenges in your workplace. Follow these steps to pick the right one for you.

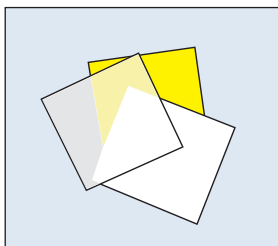

- 1 Survey the spots where you're most likely to have a leak:** roof, ceiling, pipes, HVAC, etc.

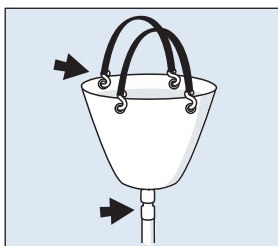

- 2 Choose the diverter size and style** that matches the leak area. Custom sizes are also available.

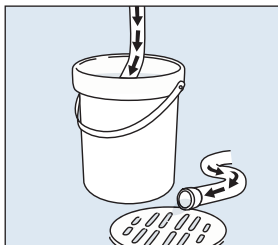

- 3 Decide on the color:** clear and translucent diverters are easily inspected and let light through; hi-viz yellow sends a clear safety message; gray blends in with surroundings.

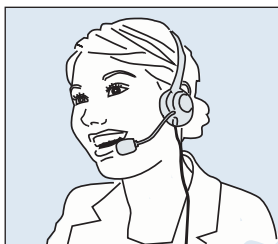

- 4 Choose the appropriate hanging straps and hose** (shown on page 263) for your application.

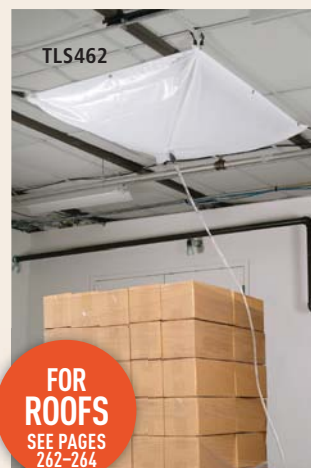

- 5 Consider whether you want to divert the leak into a drain** or use a container to collect the liquid (see Tote-N-Stor Tanks on page 263).

- 6 Still not sure which diverter fits your workplace?** Give us a call at 1-800-HOT-HOGS and we'll help you choose the best diverter for your application.

## Where's your leak? We've got a diverter to match!

TLS462  
Square Leak Diverter

## Leak Diverters — Help protect your people, equipment and inventory from a roof leak.

PIG Leak Diverters hang easily in problem spots to catch roof leaks and channel them to a floor drain or container.

- **Ideal for quick response** to avoid downtime after a roof leak or for long-term prevention in leak-prone areas
- Protect employees, equipment and inventory while **keeping floors dry**
- Impermeable **tarp is vinyl coated** for strength and durability; resists punctures, UV and mildew for long life
- Pinched corners **help funnel liquid** toward center for better drainage
- Accepts a **standard 3/4" hose connection** to channel liquid (hose sold separately)
- Flow rate of **3 1/2 gallons per minute** when used with a 1/2" ID hose
- **Corner grommets** (or D-rings in larger models) resist tearing and make installation easy

*"I used the 5'x10' leak diverter to contain a roof leak (100 gallons a day with a moderate rainfall). I used the four corners, did not need to make any adjustments, and fully contained the leak.  
**Very effective design!"***

— John L., TLS553 Customer

**SEE OUR QUICK CONTROL  
LEAK DIVERTERS  
ON PAGES 265–266.**

Our leak diverters come in different shapes and styles to fit your needs.

### STEP 1: Choose your Leak Diverter size and style.

Rectangular leak diverter is ideal for catching leaks and drips from long cracks or fissures.

The 16"-wide trough-style diverter fits perfectly between ceiling joists, and the edges feature rods along the length for added stability.

# **pig** Roof Leak Diverter Bucket Kits — Be ready for roof leaks with all-in-one diverter kits.

TLS121

Bucket doubles as a drainage container.

- Contains supplies for rapid response to roof leaks, **all in a 6½-gallon pail**
- **Pail lid has a removable plug** to allow the drainage hose to be inserted without having to remove the lid
- **Nonpermeable tarp** is vinyl coated for strength and durability; resists punctures, UV and mildew for long life
- Flow rate of **3½ gallons per minute** when used with a ½" ID hose
- **Basic kit** (TLS121) has diverter, 25' L hose and separate 60" L adjustable hanging straps
- TLS667 and TLS668 have 25' L hose, preinstalled **quick-connect set** and permanently attached 60" L **adjustable hanging straps** allow speedy setup
- Included **PIG Mat and Wipers** help you clean up to keep floors dry (TLS667, TLS668)

TLS667

# **Umbrella-Style Roof Leak Diverter Kit** — Pop open the fastest solution you can buy to catch a roof leak.

- Hang from a single point near the leak, remove the cover and it **opens like an umbrella**
- **All-in-one kit** is perfect for quick response to prevent damage to inventory or machinery and avoid slip hazards
- **Hangs easily to catch nuisance leaks;** flexible 10'L PVC drain hose in TLS461 or 25'L hose in TLS903 (included) channels them to a floor drain or collection container
- Impermeable **tarp is vinyl coated** for strength and durability; resists punctures, UV and mildew for long life
- Tapered **sides help funnel liquid toward center** for better drainage
- ¾" drain fitting **accepts longer hoses**
- **Flow rate of 3½ gallons per minute** when used with a ½" ID hose
- **Three colors available:** yellow draws attention; clear shows liquids and lets light pass through; translucent shows liquids and blends in with white ceilings

## **PIG® Umbrella-Style Roof Leak Diverter Kit**

(Specify Color: ☒ Yellow ☐ Clear ☐ Translucent)

Item #	1-3	4+
<b>TLS903</b> • 48.5"W x 48.5"L	<b>\$285</b>	<b>\$272</b>
<b>TLS461</b> • 30"W x 30"L	<b>\$180</b>	<b>\$171</b>

**TLS903 & TLS461 Contents** • 1 Leak Diverter • 1 Hose • 1 Drain Fitting

NOTE: Not suitable for temperatures over 170°F/77°C.

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

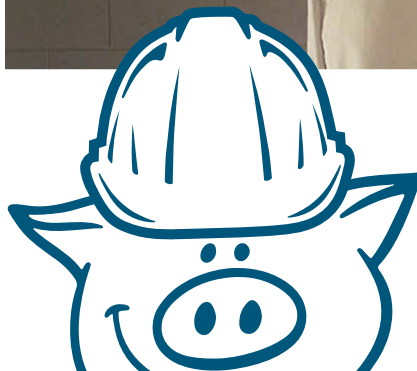

The flexible hose channels the leak to a floor drain or collection container.

**EXCLUSIVE!**

Hang the diverter from a single point near the leak.

**IT'S IN THE BAG! NO NEED TO BUY A HOSE OR STRAPS FOR THE DIVERTERS SHOWN HERE.**

## PIG® Spring-Open Leak Diverter Kit — Hangs and levels easily to capture and divert overhead leaks.

**STEP 1:** Hang it in places where you need fast response.

**STEP 2:** A rigid outer rim opens like a pop-up tent and holds the diverter open for easy installation.

**STEP 3:** Hang diverter by the hooks and slide it along the straps to level.

**STEP 4:** Click drainage hose into place and position toward a drain or collection container.

- Goes from storage bag to fully functioning leak diverter in **less than two minutes**
- **Coiled diverter springs open** for easy installation
- 60"L straps, hooks and clamps can be adjusted in seconds; just **nudge diverter until it's centered and leveled**, even if hanging points are uneven
- **Rigid outer rim adds structure** so diverter keeps its shape and is easier to level
- All diverter **components are preattached for speedy setup**; flexible 25'L PVC drainage hose (included) clicks into place with preinstalled quick-connect adapter
- **Conical shape** funnels leaks toward center and to a floor drain or collection container; translucent for easy monitoring
- **Nonpermeable tarp is vinyl coated** for strength and durability; resists punctures, UV and mildew for long life

PIG® Spring-Open Roof Leak Diverter Kit

UH OH...

TLS248

STAY HIGH AND DRY  
WITH PIG!

Operation's a snap — just attach clear hose (sold separately on page 263) for proper drainage.

Catch liquid from pipes during maintenance or when making repairs.

Tight spot? TLS190 is low-profile for leaks where full-size diverters won't fit.

Standard funnel design (at left) is made for single point leaks. TLS147 (above) wraps to catch spraying leaks.

## **PIG** Pipe Leak Diverter — Don't rig another gizmo to catch a leak. Our diverter works!

- Hangs from a leaking pipe to **catch nuisance leaks** and channel them to a floor drain or collection container
- Nonpermeable tarp is vinyl coated; **resists punctures, UV and mildew** for long life
- Hose coupling accepts **drainage hose** (sold separately on page 263)
- **Flow rate of 3 1/3" gpm** when used with a 1/2" ID hose
- **Choose** yellow for high visibility; gray to blend with ceilings; clear to monitor leaks
- **TLS691, TLS248 and TLS200** have built-in grommets and 14" L rubber straps for easy hanging from a pipe
- **TLS190 is low-profile** for a leak in a tight spot; has built-in grommets. Straps sold separately on page 263
- **TLS147** wraps around 3/4" to 4" pipes spraying liquids; hangs with hook-and-loop fasteners

*"Our field guys love the drain bags. They usually find a home in their trucks! Easy setup and take-down, always easy to order and delivery is good. I'd recommend to all who repair pipe leaks or backflows."*

## PIG® Above-the-Ceiling Diverter — Catch the leak before it damages your tile.

Diverter assembles in less than 5 minutes — then it's ready to install above your drop ceiling.

Water drains through a discreet 25' hose.

- Diverter remains **completely out of view** while diverting ceiling leaks
- Mounted on a lightweight, **sturdy frame** that sits on suspended 2' x 2' or 2' x 4' acoustical tile
- **Impermeable tarp** is vinyl coated for strength and durability
- **Captured liquid** drains through a 1/4" port into the attached 25'-long PVC hose; flow rate of 1 gallon per minute

TLS620

### PIG® Above-the-Ceiling Leak Diverter

Item #	1-3	4+
TLS620 • 22.25"W x 32.25"L x 7.25"H	\$129	\$122

**TLS620 Contents** • 1 Leak Diverter • 1 Frame • 1 Hose • 4 PVC Legs

NOTE: Not suitable for temperatures over 170°F/77°C.

Patent 7,331,357

\* ⚠️ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

**LOOK FAMILIAR?**

**NO MORE LEAKS = NO MORE STAINS!**

**TLS367**  
Drain hose channels liquids to a drain or container.

## **Ceiling Tile Leak Diverter** — Replace your damaged ceiling tile with this discreet system.

- **Channel away liquids** to minimize wet floors and damaged equipment
- Includes 25'L drain hose and clips to **secure hose to ceiling grids**
- **Flow rate of 0.2 gallons per minute** when used with included hose
- After leak has been repaired, **simply uninstall and store** for later use
- **Replaces any standard 2' x 2' or 2' x 4' drop ceiling tile**

PIG® Ceiling Tile Leak Diverter 		
Item #	1-3	4+
 <b>TLS367</b> • 2"W x 4'L	<b>\$155</b>	<b>\$148</b> *

### **PIG® Ceiling Tile Absorbent Pad** — Catch minor drips before they hit your tile.

- Eight-layer **absorbent pad** rests on top of your ceiling tile to catch minor drips
- **Poly backing** prevents absorbed liquids from staining the ceiling tile
- **Low-profile pads** won't interfere with above-ceiling structures or cause tiles to sag

#### PIG® Ceiling Tile Absorbent Pad

Item #	1-3	4+
<b>TLS666</b> • Heavyweight • 23"W x 48"L • 10 pads/box Absorbs up to 5.9 gal./box	\$75	\$71
<b>TLS665</b> • Heavyweight • 23"W x 24"L • 20 pads/box Absorbs up to 5.9 gal./box	\$68	\$66
<b>TLS100</b> • Heavyweight • 15.5"W x 20"L • 25 pads/box Absorbs up to 4 gal./box	\$54	\$52

**MAT WITH MUSCLE**

Get tough on leaks and spills with the #1 mat in the world:

**PIG ABSORBENT MAT**

See more on pages 10 – 13.

Easy-to-install vinyl covers snap right over existing metal ceiling grid.

GEN635

### GridMAX Covers — Don't paint or replace ceiling grids, use snap-on covers instead!

- Precut, pre-notched and **ready to install right out of the box**
- **High-grade, white vinyl construction** resists rust, scratches and UV
- **Eliminate costly downtime** from demolition and replacement
- Works on any **2' x 2' or 2' x 4' ceiling grid system** with  $\frac{15}{16}$ " grid face
- **ASTM E-84 Class A fire rated**
- **For custom colors**, call 1-800-HOT-HOGS (468-4647)

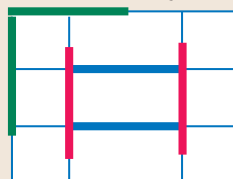

#### GridMAX™ Ceiling Grid Covers

Item #	1-4	5+
<b>GEN635</b> • Main • 0.9375"W x 0.13"D x 48"L • 25/bag	\$99	\$94
<b>GEN638</b> • Wall Molding • 0.9375"W x 0.13"D x 48"L • 25/bag	\$93	\$88
<b>GEN637</b> • Tee • 0.9375"W x 0.13"D x 47"L • 25/bag	\$93	\$88
<b>GEN636</b> • Tee • 0.9375"W x 0.13"D x 23"L • 25/bag	\$52	\$48

### HOW TO ORDER GRIDMAX COVERS

Measure perimeter to calculate the number of wall moldings needed. Measure total square footage to calculate the number of mains and tees needed. See formulas below.

#### Rooms with 2' x 4' Tile and Grid System

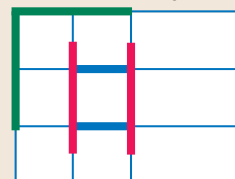

**4' Wall Molding Covers:** Perimeter ÷ 4

**4' Main Covers:** Square Footage ÷ 16

**4' Tee Covers:** Square Footage ÷ 8

#### Rooms with 2' x 2' Tile and Grid System

**4' Wall Molding Covers:** Perim. ÷ 4

**4' Main Covers:** Square Footage ÷ 8

**2' Tee Covers:** Square Footage ÷ 4

Round all calculations up to the nearest whole number.

# PIG PUTTY, PATCH & REPAIR

**PTY123**  
**PIG Pipe Wrap Repair**  
**Kit for Lines & Joints**  
**Under Pressure**  
 (See page 274)

## Burst pipes. Breached drums. Ruptured tanks. Be prepared!

When we say “Be prepared for fast response,” we’re usually talking about PIG Spill Kits. But some leak and spill situations aren’t as simple as cleaning up the liquids that hit the floor. Depending on what’s gushing from where, your first response could be to stop it at the source.

### PIG to the rescue!

That’s why we offer a variety of high-quality, plant-proven putties, wraps and patches. The products shown in this section are designed for fast fixes and lasting results. Putties that set in minutes. Pipe wraps that restore pipes beyond their original strength. Pastes, patches and plugs that stop leaks instantly. We know these solutions work, because we use them in our own facilities when something springs a leak.

So don’t underestimate the power of preparedness. Having the right supplies on-hand in the event of a spill emergency can make a big difference in the damage report.

PTY124

## Pipe Wrap Repair Kits — Make broken pipes like new.

- Each kit contains materials for restoring **one pipe or joint**
- **Works on** PVC, copper, galvanized steel, rubber, lead and iron; repair is **not affected by salt water**
- Materials adhere to wet or dry surfaces; **no need to drain pipes**
- Polyurethane-impregnated fiberglass wrap **seals over damaged areas** to prevent leakage
- Cures in about **30 minutes at 75°F**
- **NSF Certified** for safe use on potable water lines
- Repair kits for **pipes and joints under pressure** (up to 60 psi) can be used without relieving line pressure; pressure-sensitive tape and PIG Repair Putty apply under outer wrap to strengthen seal
- Repair kits for **pipes and joints not under pressure** require you to relieve line pressure before beginning repairs; butyl patch or PIG Repair Putty applies under outer wrap to strengthen seal

PTY119

1. Apply primary patch layer.

2. Soak outer wrap to activate it.

3. Apply outer wrap.

4. Finish off repair and let it cure.

# RECYCLING & WASTE MINIMIZATION

## Zero in on zero waste — help the environment, help yourself.

According to the EPA in the Resource Conservation and Recovery Act (RCRA), waste minimization is “the reduction of hazardous waste that is generated or subsequently treated, stored or disposed,” and includes both source reduction and recycling. Here’s what you can do:

- **Perform a waste audit** — find out what types and how much waste you are producing and identify processes that are producing unnecessary wastes
- **Improve housekeeping** — this inexpensive but effective method includes proper labeling, storage, disposal and segregation of wastes
- **Reclaim, recycle and reuse wastes** — many wastes can be recycled within a process, used as fuel or sold as scrap

PIG Waste Compactors can help you reduce the volume of your waste, and products like our PIG Aerosol Can Recycler can save you money by avoiding the expenses of haz waste handling. Check out the graphic below for more ways that PIG products can help!

## Need help with RCRA requirements?

Call our Tech Team at  
**1-800-HOT-HOGS!**

## WHAT'S YOUR WASTE STREAM?

### ABSORBENTS, RAGS & PAINT BOOTH FILTERS

Crush disposal costs by compacting up to six drums of waste into one.

#### PIG Waste Compactor

DRM655 ▶  
See page 281

### AEROSOL CANS

Puncture your aerosol cans for easy, legal recycling to avoid the hassle, regulation and expense of hazardous waste handling.

**PIG Aerosol Can Recycler**  
See pages 278–279

### USED ABSORBENTS

Reclaim up to 90% of liquids from your PIG Absorbents to help minimize waste.

**PIG Absorbent Wringer**  
RNG202 ▶  
See page 280

### FLUORESCENT BULBS

Recycle your fluorescent lamps the right way. We send you the boxes, Tyvek collection bag, reinforced tape and prepaid shipping labels to safely ship your bulbs to our recycling partner.

**PIG Lamp Recycling Program**  
See pages 282–283

### BATTERIES

Dry-cell battery collection container helps you meet universal waste regulations.

#### Used Battery Container

# PIG® Aerosol Can Recycler — Puncture and drain your aerosol cans to avoid the hassle and expense of haz waste handling.

- Recycling system easily punctures aerosol cans, rendering them **exempt from haz waste regulations** when properly emptied
- **Eliminates the risks** associated with illegal aerosol disposal and the expense of haz waste handling
- **Minimizes worker injuries** caused by fire, explosion or VOC release
- Properly emptied cans can be sold as scrap steel; reducing waste can **help you meet recycling goals**
- System works with **domed mini, standard and jumbo aerosol cans** (minimum 2" Dia x 5" H, maximum 3" Dia x 9.5" H with sleeve removed)
- **Unit mounts directly into 2" bung** on a 30- or 55-gallon closed-head steel drum; residual liquids drain directly into drum. (Drum should not be filled more than 70% full to provide proper displacement for released contents.)
- **Timestrip indicator** eliminates the guesswork of carbon cartridge changeouts (ideal operating temperature range 60–80°F)
- **Replacement gaskets** sold separately; choose standard neoprene (DRM1237) or upgrade to Viton (DRM1236) for extra chemical resistance
- **Replacement filters** also sold separately as combo (DRM1151) or carbon cartridge only (DRM1150); coalescing filter life is six months; carbon cartridge life is three months
- ◆ **Helps you comply** with 40 CFR 261.1(c)(6) that defines scrap metal

DRM1266

## PIG® Aerosol Can Recycler

Item #	1-2	3+
<b>DRM1266</b>	<b>\$867</b>	<b>\$820</b>
<b>DRM1266 Contents</b> • 1 Puncture Unit • 1 Goggles • 1 Instruction Sign • 1 Plastic Sleeve 1 Combination Filter • 1 Grounding Wire • 8 various-sized gaskets

Replacement  
Cartridges

Wall sign has clear directions on how to operate the can recycler system.

Ground wire helps prevent static electricity buildup.

Two-piece coalescing filter/carbon cartridge captures odors and VOCs released by punctured aerosol cans.

## TOSSING EMPTY AEROSOL CANS COSTS YOU. TURN THEM INTO COLD, HARD CASH!

Transform hazardous waste into recycled scrap metal.

LUBRICANTS

BRAKE CLEANERS

DEGREASERS

SPRAY PAINT

### CURRENT STATE OF HAZARDOUS WASTE DISPOSAL

**\$538**

Cost of drum & drum disposal

**234**

Collected "empty" cans per drum

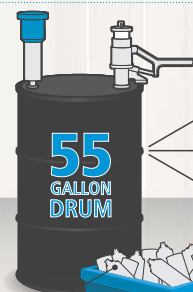

**\$2.30**

Per can disposal cost

- Hazardous Satellite Accumulation Required
- 90 or 180 Day Accumulation Limit
- Closed Container Storage Required
- Frequent Hazardous Waste Removal Required

## PUNCTURE & RECYCLE HAZARDOUS WASTE DISPOSAL

**\$240**

Cost of drum & drum disposal

**4,000**

Collected "empty" cans per drum (processed liquid equivalent)

**\$0.43\***

Per can disposal cost

- Exceed Compliance
- Reduced Disposal Cost
- Reduced Handling Requirements
- Recycling Profits

Empty cans are now valuable scrap metal

\*Includes initial cost of unit and replacement filters.

Punctured cans have no sharp, jagged edges.

Durable aluminum construction resists rust and corrosion.

Hardened steel pin cleanly punctures cans.

How-to instructions come attached to the unit.

"DRM1266 works very well. We used to pay a hazmat company to dispose of our aerosols — quite expensive. Since we got the Aerosol Recycler, we recycle the cans and recoup even more money. We've more than paid for the unit with these savings. **Very good investment.**"

— Chuck, DRM1266 Customer

## AEROSOLV XL Can Puncturing System — Designed to comply with CA regulations.

- Properly-emptied cans are **exempt from haz-waste regulations** and can be recycled as scrap steel
- **Unit quickly pays for itself** as you sell recycled steel rather than pay for can disposal
- System works with **domed mini, standard** and **jumbo** aerosol cans

### AEROSOLV® XL CA-Compliant Can Puncturing System

Item #	1+
<b>DRM1334</b>	<b>\$1550</b>
<b>DRM1334 Contents</b> • 1 Counter for Can Puncturing System • 1 Goggles 1 Padlock & Key • 1 Deluxe Can Puncturing Unit • 1 Plastic Sleeve 1 Grounding Wire • 1 Colorimetric Indicator Replacement Cartridge 1 Drum Cover/Under Containment	

DRM1334

Don't pay for disposal, cash-in on recycling! Turn aerosol cans into scrap steel with this California-compliant system equipped with a can counter.

Pressure gauge tells you when valve stem can be removed.

## Propane Cylinder Recycling System — Recycle cylinders and avoid haz waste disposal.

- **Pays for itself** with recycling of three standard propane cylinders
- Safely removes valve stem so **canister can recycle as scrap steel** rather than be disposed of as hazardous waste
- Inserts **"Recyclable" steel certification tag** into cylinder valve
- **Activated carbon filter** helps remove Volatile Organic Compounds (VOCs) from propellant
- Unit **can be handheld** or mounted on bench
- **Antistatic wire** grounds unit
- **One-piece replacement carbon cartridge (DRM451)** threads directly into ProSolv unit without special tools
- **Replace carbon filter after 40 uses** which can be tracked with the 40 certification tags included
- ◆ **Helps you comply** with 40 CFR 261.1(c) (6) that defines scrap metal

### ProSolv® Propane Cylinder Recycling System

Item #	1-2	3+
<b>DRM429</b>	<b>\$1399</b>	<b>\$1337</b>
<b>DRM429 Contents</b> • 1 Unit • 1 Anti-Static Wire • 1 Carbon Filter 1 Safety Goggles • 40 Certification Tags		
<b>DRM451</b> • ProSolv Replacement Carbon Filter	<b>\$263</b>	<b>\$240</b>
<b>DRM451 Contents</b> • 1 Carbon Filter • 40 Certification Tags		

NOTE: Not for use with oxygen or ether cans.

## PIG® Absorbent Wringer — Reclaim up to 90% of liquids from PIG Absorbents to minimize waste.

- Polyurethane **"gripper" rollers** feature channels to direct liquids away from absorbents and into a collection drum
- 12"-wide throat **adjusts to accommodate a wide variety of PIG Absorbents**: PIG Super Absorbent Socks, PIG Super Pillows, Mats, Booms and Re-Uz-It Pads
- **Mounts on standard open- or tight-head 55-gallon drum** (not included)
- Geared for **easy hand cranking**

### PIG® Absorbent Wringer

Item #	1+
<b>RNG202</b> • Manually Operated	<b>\$1535</b>
<b>RNG202 Contents</b> • 1 Wringer • 1 Tray	

NOTE: Wringing or compacting waste may be considered "treatment" by RCRA regulations. You may require a permit to use this product. Please consult with your state EPA waste management office prior to use.

**Wondering about waste minimization?**  
**Call our Tech Team at 1-800-HOT-HOGS!**

# **pig** Waste Compactor — Crush up to six drums of waste into one and save money.

- Crushes waste with **12,000 lbs. of force**
- **Ideal for minimizing waste** such as absorbents, rags, plastic, paper and cardboard (not recommended for wood, metal or other hard materials)
- Residual liquids are forced through holes in ram top; **add pump** (DRM345) **to remove liquids** up to 5 gpm for recycling
- **Spark-resistant aluminum** is ideal for flammables
- **Durable 5"-channel profile frame** prevents flexing and failure over time
- **No need to move** heavy drum for access
- **Reinforced base plate** keeps drum from bowing under pressure
- **Safety interlock** shuts off compactor if safety cover is opened during operation

PIG® Waste Compactor		
Item #	1	2+
<b>DRM655</b> • Air Spark-Resistant without Waste Pump	<b>\$6968</b>	<b>\$6760</b>
Waste Pump Kit for PIG® Waste Compactor		
Item #	1	2+
<b>DRM345</b>	<b>\$1830</b>	<b>\$1780</b>
<b>DRM345 Contents</b> • 1 Diaphragm Pump • 1 Hose Bracket, 1 Ball Valve • 1 Blue Air Hose • 1 Pump Guard • 1 PVC Suction Wand 1 Clear Hose (2 pieces) • 1 Assorted Clamps and Mounting Hardware.		
Treatment Notice: Wringing or compacting waste may be considered "treatment" by RCRA regulations. You may require a permit to use this product. Please consult with your state EPA waste management office prior to use. <b>This product is covered by our 1-year limited warranty.</b> For complete warranty information, contact 1-800-HOT-HOGS.		

**DRM345**  
Pump Kit works  
with DRM655

Tilt-back frame makes loading easy.

# **pig** Lamp Recycling Program — The safest mail-back kits you can buy to package, label, ship and recycle spent bulbs.

- Includes everything you need — collection and shipping containers, prepaid UPS shipping label to our recycling partner, specially reinforced packing tape and access to your recycling certificate upon completion
- Packaging meets **ISTA 3A Standard Shipping Performance Test** to ensure no hazardous chemicals, including mercury powder, or broken glass can escape during shipping; no other recycling program meets these standards
- **Tyvek and vapor-seal bonded bag** with self-adhesive seal contains bulbs, tubes and haz waste if breakage occurs during shipping
- Collection box holds the bag, featuring **multi-layered cardboard** and reinforced shipping tape
- Outer shipping box, also multi-layered cardboard, contains the sealed inner box and provides **strength during shipment** to the recycling center
- Program includes a downloadable **Certificate of Destruction** to prove your compliance with Hazardous Waste Regulations during EPA audits
- Performance-tested system helps **protect all key stakeholders** within the supply chain (generator, transporter and recycling company)
- **Helps you manage waste streams**, reduce waste costs and avoid costly fines associated with throwing out bulbs in regular trash
- **Minimizes the risk of breakage** or leakage of mercury powder and other hazardous chemicals that can occur in mail-back programs utilizing cheap polyethylene containment bags

DRM1401  
For HID Lamps

DRM1400  
For 4' Fluorescent Lamps

## Recycling your fluorescent lamps *the right way* couldn't be easier!

1. We send you the boxes, Tyvek collection bag, reinforced tape and prepaid shipping labels.

2. Collect your spent bulbs in our bag/box/box container system (Passes ISTA 3A Shipping Test)

3. Schedule your prepaid UPS shipment and send your bulbs off to our recycling partner.

4. Visit [newpig.com/COD](http://newpig.com/COD) and download your Certificate of Destruction (allow 5–7 days)

## You get all this in one easy purchase:

Tyvek and vapor-seal bonded bag

Prepaid UPS shipping box

Containment box

Reinforced shipping tape

Plus a downloadable **Certificate of Destruction** for proof of compliance with EPA regs.

## Q: Do I have to recycle my lamps?

### A: **Yes, you do!**

Many businesses aren't aware that it is illegal to throw fluorescent lamps into a garbage can or dumpster. Other companies are aware, but find it difficult to sort through complex environmental regulations to determine what they need to do.

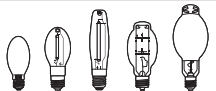

All fluorescent lighting — even when it's marketed as a "green" product — contains mercury, which can leach into groundwater and cause neurological problems in children and adults. To help companies manage this hazardous waste stream, the EPA has established **Universal Waste Regulations** that streamline the requirements for fluorescent lighting that will be recycled.

Keep reading at [newpig.com/spent-lamps](http://newpig.com/spent-lamps)

**DRM1404**  
For U-Bend and Circular Fluorescent Lamps

PIG® Lamp Recycling Program		
Item #		1+
	<b>DRM1400</b> • For 4' Fluorescent Lamps • Holds up to 74 T8 or 32 T12 Lightbulbs	<b>\$120</b>
	<b>DRM1401</b> • For HID Lamps • Holds up to 20 Lightbulbs	<b>\$113</b>
	<b>DRM1402</b> • For Incandescent & Halogen Lamps • Holds up to 50 Lightbulbs	<b>\$120</b>

### Big Wheel Container — Easily haul heavy loads.

- **8" rubber wheels** roll smoothly over nearly any surface
- Polyethylene resin with a **reinforced bottom** and ribbed reinforced sides
- **50-gallon capacity**
- **Attached hinged lid** flips down to protect contents from weather
- **Molded nonslip handles**

<b>BRUTE® Big Wheel® Container</b> 		
(Specify Color:  Blue  Gray  Yellow)		
Item #	1-3	4+
<b>CAN479</b> • Holds 50 gal. 23.5"W x 29"L x 36.75"H • 1/box	<b>\$160</b>	<b>\$149</b>

## PIG® Drain 'N Contain Workbench — Do messy jobs on a self-draining workbench with a built-in sump.

PIG® Drain 'N Contain® Workbench

Item #	1-2	3+
PAK399 • 27.5"W x 54.5"L x 53"H • 22 gal. sump capacity	\$760	\$709

- **Built-in 22-gallon sump** catches leaks and drips from wet, leaking or disassembled parts while you work
- **Integral drain** accommodates a 30-gallon container underneath for added capacity (available separately)
- **Removable polyethylene grates** allow liquids to pass into sump
- Heavy-gauge steel workbench **holds up to 400 lbs.**
- **Keeps your workspace and benchtop neat** while capturing the mess and grime from degreasing, repairs or rebuilds

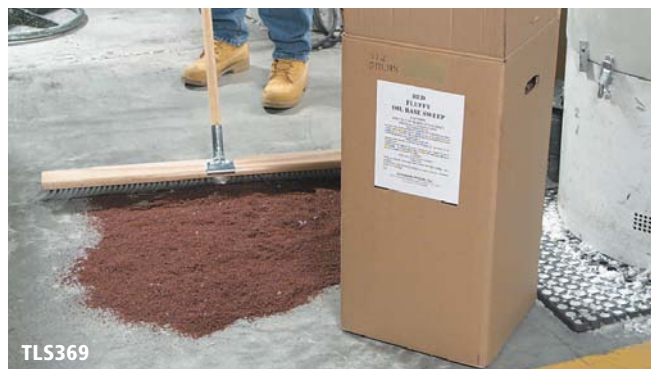

## Industrial Cleaner — Full-power green cleaner without the high price tag.

- **Cost-effective alternative** to expensive brand-name cleaners
- Removes grease, oils, inks, wax and carbons **from any surface not harmed by water**
- Environmentally preferred, water-based formula is **safer than trichloroethane, MEK or mineral spirits**

### S-34 NG Green Industrial Cleaner

Item #	1+

BEST SELLER!

CLN549

## Ink & Dye Remover — Remove ink and dye in the blink of an eye!

- **Contains a natural scrubbing agent** made from ground walnut shells; breaks down stains and removes inks and dyes
- Chlorine-free paste contains **color-neutralizing agent** to reduce dyes to uncolored form
- **No petroleum, solvents or silicone**
- **Highly concentrated;** only a small amount is needed
- **Lightly scented;** economical and biodegradable

CLN549

### Kresto® Kolor ULTRA Ink and Dye Remover

Item #	1-9	10+
CLN549 • 1 - 8.45 oz. Squeeze Tube	\$20	\$18

## Liquid Remediact — On land or water, turn oil into carbon dioxide and water.

- Solves hydrocarbon contamination problems onsite with **minimal labor and expense**
- Active mixture of **naturally occurring live microorganisms** and a bio surface agent oxidizes carbons to quickly tackle contamination problems
- **Microbes are in active preparation:** no special solutions and no special mixing
- 1 gallon of mixed product remediates up to **1 cubic yard of soil or 200 gal. of water**

CLN352

### Liquid Remediact™ Cleaning Agent

Item #	1-2	3+
CLN352 • 1 - 5 gal. Container	\$468	\$446

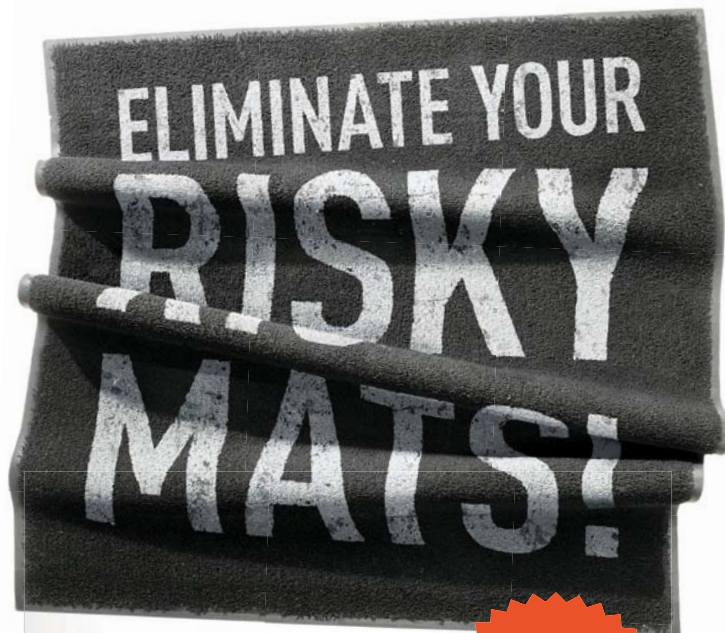

## VAC-U-MAX Vacuum — Make short work of cleaning up liquid spills.

- **Must be used with 55-gallon open-head steel drum** (without clamps) for cleaning spills in one step
- **Ideal for cleaning up spills** of water or machine oils, removing oil from sumps and other containment, and picking up metal chips and other small debris; use with PIG SpillBlocker Dikes for best results
- Includes **static-conductive PVC 1½" x 15' hose, aluminum wand, floor tool and crevice tool**
- Produces a maximum static lift of **215" H2O and 110 SCFM suction**
- **Input operating range** from 37–70 SCFM at 60 psig

### VAC-U-MAX® Industrial Wet Vacuum

Item #	1+
TLS271 • Air: 35 SCFM at 60 PSI (Minimum)	\$2345

NOTE: Not for use with flammable or corrosive liquids and requires a minimum ½" airline for operation.

Adhesive-backed

## PIG GRIPPY FLOOR MAT

sticks tight and stays put to stop slips, trips and falls.

Check out  
PIG GRIPPY on  
pages 228-231

## Flammable Oils Vacuum — Helps you safely lift fuels, flammable oils and compatible semisolids.

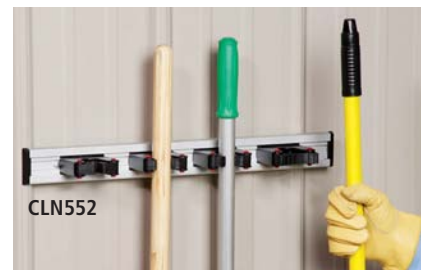

- Advanced safety features **help prevent ignition of fuels and flammable oils**, including a static-dissipative hose, anti-sparking inlet with flame arrestor, grounding lug and nonsparking vacuum tools
- Completely air-driven to **minimize risk** of explosion; auto shutoff
- **Single-jet venturi with variable orifice** produces maximum flow rate with minimum compressed air requirements
- **Recovers 1 gallon of liquid per second** and operates on a minimum of 35 SCFM at 60 psi
- ◆ **Helps you comply** with OSHA Noise Exposure requirements outlined in 29 CFR 1910.95

### VAC-U-MAX® Fuels and Flammable Oils Vacuum

Item #	1+
TLS417 • Holds 55 gal. • Air: 35 SCFM at 60 PSI (Minimum)	\$5975
TLS417 Contents • 1 Vacuum • 1 Hose • 1 Two Bend Floor Wand • 1 Squeegee • 1 Crevice Tool • 1 Caster Assembly • 1 Static-conductive Hose • 1 Quick Disconnect Coupling	

NOTE: Requires a minimum ½" airline for operation.

## MaxiRough Tool Organizer — Grips tools, but lets go easily.

- Wall-mountable unit **holds four tools**, from mops and brooms to shovels and squeegees
- Flexible rubber holders securely hold tools yet release easily; **brackets slide along track and can be positioned** to adjust space between tools
- **Durable, lightweight aluminum-and-plastic frame** won't rust or corrode
- Holder is **20¼" wide**
- Removable end caps let you **connect multiple units**

### MaxiRough® Tool Organizer

Item #	1-4	5+
CLN552 • 20.25"W	\$44	\$41

### Broom Head — Quality broom has chemical-resistant bristles.

- **Resists chemicals**, petroleum-based liquids and solvents for a long, reliable life
- **Stiff-fibered broom head** scrubs and sweeps on rough or smooth concrete
- **Handle (CLN279)** locks into reinforced head to prevent breaking or stripping (Handle sold separately)

PRO-SWEEP™ Broom		
Item #	1-11	12+
CLN278 • 24"W Broom Head	\$27	\$25
CLN279 • Handle Ext. Dia. 1.13" x 60"L	\$27	

## Mop, Mopstick, Bucket and Wringer — Take the mess out of mopping.

- **Economical MaxiCotton Mop head (CLN550)** is cut-end 4-ply cotton yarn
- **Mopstick head and handle (CLN551)** work with the MaxiCotton Mop; plastic head and fiberglass handle won't rust or corrode
- **60"L** for extra reach and leverage, quick side-mop release
- **MaxiRough Mop Bucket and Wringer (CLN553)** has a 33 qt. bucket and sidepress wringer
- **4 swivel casters**
- **Hook on wringer for mop**
- **Slot holds tools**

### Maintenance Mops

(Specify Size for CLN550: 16 oz., 24 oz. or 32 oz. • **Add \$1** for 24 oz. and **\$2** for 32 oz.)

Item #	1-11	12+
CLN550 • MaxiCotton™ Cut-End Mop Head • 7"W	\$10	\$9
CLN551 • Quick-Way™ Mopstick • 60"L	\$18	\$16

### MaxiRough® Mop Bucket and Wringer

Item #	1-4	5+
CLN553 • Holds 8.25 gal.	\$115	\$109

### Tool Stand — Store 24 tools in an 18" x 18" space.

- Accepts tools with long handles **up to 1 3/8" in diameter**
- Compact and **requires minimal floor space**
- Plastic construction is **unaffected by wet tools or humidity**
- **Assembles easily** without tools

TLS484

Tool Storage Stand		
Item #	1-4	5+
TLS484 • For Tools up to 1.375" Dia.	\$54	\$50

### Squeegee — Quickly move spills and standing liquids.

- Choose **conventional straight or liquid-containing curved blade**
- Tough, rubber squeegee **blades are durable and long-lasting**
- **60"L solid wood handle (CLN555)** has smooth finish
- Tapered end **attaches to squeegee head with friction fit**; easy release

### Maintenance Squeegee

(Specify for CLN554: Curved or Straight Blade)

Item #	1-11	12+
CLN554 • MaxiRough® Floor Squeegee Curved 23.5"W • Straight 24"W	\$39	\$36
CLN555 • Handle for MaxiRough® Floor Squeegee • 60"L	\$11	\$9

### Double-Blade Squeegee — Lasts 2X longer and it won't splash.

- **Chemical-resistant PVC blades** leave floors free of liquid and streaks
- **Two blades double the service life** because the head flips, and the unused blade acts as a splashguard

### Double-Blade Squeegee

Item #	1+
CLN256 • Straight Head • 30"W	\$45
CLN255 • Straight Head • 24"W	\$39
CLN254 • Straight Head • 18"W	\$37
CLN253 • Handle • 1.5"W x 60"L	\$34

GRP7004

Full coverage adhesive backing holds tight with no shifting.

## Restroom Mats with Adhesive Backing — No-shift mats fight odor and stains.

Adhesive-backed mats keep your floors cleaner, drier and safer for a more professional restroom environment.

- Full product line to **protect your entire restroom**: antimicrobial urinal mats, toilet mats, sink/dryer mats and more
- **Proprietary adhesive formulation** applied across entire backing of mats ensures they stay in place with no shifting, curling or flipping up
- Sticks to your floor to **stop slip and trip hazards** and eliminate time spent repositioning mats that have shifted; mats peel up easily when you need to remove them
- Mats won't budge while you clean them; simply **mop them with the rest of the floor**
- Permanently infused with **antimicrobial technology** to help prevent the growth of odor-causing bacteria and mold on the mats
- **Absorbent top surface** is engineered to pull in urine and water on contact, wick it away and dry out quickly
- Two impermeable backing layers ensure **zero liquid pass-through**, protecting your flooring and grout against degradation and discoloration from uric acid

GRP7002

Durable, low-profile mats can be mopped or scrubbed without shifting or sliding, allowing you to extend product life.

### Urinal Mat

- **GRP7001, GRP7601** — catches drips and splashes in standard applications
- **GRP7002, GRP7602** — is extra-large for extended coverage, place with one end abutting your wall for **easy alignment**

### Urinal Mat Runners

- Industry-first design lets you **roll out and cut to length** the perfect size runner for continuous drip/splash coverage
- 25-foot roll provides enough **coverage for up to 10 urinals**; also ideal for rows of sinks or wherever custom sizes are needed

### Toilet Mat

- Mat design fits around the base of your toilet to absorb urine and provide maximum **drip/splash coverage**

### Plunger Mat

- **Controls drips and eliminates puddles** under toilet plungers and brushes, soap dispensers and other small-footprint areas

### Sink & Dryer Mat

- Provides effective **drip/splash coverage** on floors underneath and between sinks, hand dryers and towel dispensers.
- Can also be used in front of drinking fountains, showers, transition, areas or anywhere you need to **control slip hazards**

## PIG® Restroom Mats with Adhesive Backing

Item #	Description	Size	Qty	1-2	3+

**Notice:** New Pig's Adhesive-Backed Mats work with most common industrial and commercial floor surfaces. To determine the suitability for your application, test a 6" x 6" piece in a non-critical area before use. See the PIG Adhesive-Backed Mat Notice on page 229 for more information.

Patent Pending

"We were having compliance issues with staff not placing the lids back on 55-gallon oily rag and debris drums. This product solved our problems and **kept us from getting violation notices** during our last audit."

— Justin, PIG Latching  
Drum Lid Customer

# STORAGE & MATERIAL HANDLING

We've got easier ways to store, dispense, handle and transport your liquids.

Whatever you're storing, pouring or securing, we've developed and discovered an unbeatable collection of products to help you get the job done right.

- **PIG Latching Drum Lids** open and close with one hand for easy hazardous waste compliance
- **PIG Burpless Funnels** let you pour quickly and safely thanks to our patented splash-free designs
- **Drums & Containers** come in all the sizes, styles and materials for your storage and shipping needs
- **Drum Accessories** like pumps, gauges, movers and lifters make your drum work easier and safer
- **PIG Flammable Safety Cabinets** can't be beat when it comes to quality, features and performance

## “AWARD-WINNING SOLUTIONS THAT WORK.”

We invented products like our Burpless Funnels and Latching Drum Lids to take some of the grunt work out of your workday.

Andy Brunhuber — Product Manager

## ◆ HELPS YOU COMPLY

For every solid waste stream that's generated by or at your facility, a hazardous waste determination must be made. For help understanding the Resource Conservation and Recovery Act (RCRA), call our Tech Team at 1-800-HOT-HOGS.

## **EXPERT ADVICE: FREE WHITE PAPER**

Having a plan to manage your hazardous wastes properly is key to avoiding violations and fines. Our experts tell you how.

Download the white paper: [newpig.com/hazwaste](http://newpig.com/hazwaste)

# PIG LATCHING DRUM LIDS & BURPLESS FUNNELS ARE DESIGNED SPECIFICALLY TO ◆ **HELP YOU COMPLY!**

If you're using a drum to collect materials that are considered hazardous waste, you can't take the drum lid off and not put it back on properly. If you're hassling with the bolt ring every time you access the drum, you'll be out of compliance the first time the lid ends up on the floor. Same goes for funnels that are on-again and off-again. Our **Latching Lids** and **Burpless Funnels** allow you to keep drums closed until they're ready for disposal. That helps you meet these regs:

- ◆ **Helps you comply** with 40 CFR 264.1086(c)(1)(ii) requiring haz waste containers to be sealed to prevent VOC emissions
- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed

## EPA's Solvent-Contaminated Wipes rule could lower your shipping costs.

The EPA passed the *Solvent-Contaminated Wipes Management Rule* that allows properly managed wipes with no free liquids to be exempted from full haz waste regulations. That can save you money, and **PIG Latching Drum Lids** can help you with the "properly managed" part of that equation!

- ◆ **Helps you comply** with 40 CFR 261.4 for management of solvent-contaminated wipes

The EPA has new rules about the management of solvent-contaminated wipes. Learn how you could save time and money.

**DOWNLOAD YOUR FREE WHITE PAPER:**  
[newpig.com/solventwipes](http://newpig.com/solventwipes)

## Using a funnel to meet regs? Your transfer station probably needs a pallet, too!

Once you've got a PIG Burpless Drum Funnel on top of your drum to satisfy closed container regs, bring your transfer station full circle with a **PIG Containment Pallet** underneath for compliance with EPA secondary containment regulations.

- ◆ **Helps you comply** with 40 CFR 264.175 requiring full containment for hazardous waste to prevent releases into the environment.

**LEARN MORE ABOUT OUR SPILL PALLETS  
ON PAGES 366-371.**

# WHEN DO YOU NEED A LID VERSUS A FUNNEL?

## PIG LATCHING LIDS

For solid waste in open-head drums

Safely cover drums of solid waste without the fuss of a nut and bolt ring.

- **PIG Latching Drum Lids** give quick, easy access but keep contents dry and secure
- One-handed access makes it easy to add to drum contents and **helps you comply with regs**
- **Nitrile gasket and locking mechanism** seal drum lid to help reduce vapors and protect contents

## PIG BURPLESS FUNNELS

For liquid waste in tight-head drums

Our patented funnel designs help you pour liquids quickly and safely.

- **Burpless vents** allow fast pouring without venting through  $\frac{3}{4}$ " bung; a possible reg violation if left open
- Easy-access design helps you **meet closed container regs** and minimize vapor exposure
- **Nitrile gasket and locking mechanism** seal drum funnel lid to reduce vapor emissions

SEE OUR FULL LINEUP OF LIDS AND FUNNELS ON PAGES 296–306.

**EPA SAYS TO  
KEEP A LID ON IT.**

DRM659

Drum sold separately on page 308

**TOP 10  
BEST  
SELLER!**

**EXCLUSIVE!**

**NO NUTS. NO BOLTS.  
NO FUSS!**

## **pig** Latching Drum Lids — One-hand access makes it easy to meet haz waste regulations.

**Problem:** Taking the bolt ring and lid off an open-head drum that's being used to store hazardous waste and not replacing it is a violation of closed container regs.

**Finding the solution:** Our idea was simple — make a lid with a latch that was easy to install and use. Early models were compliant but clunky. Pins broke. Hinges got pinched. We had lots of failures and replaced lots of lids. But the customers who worked with us helped us perfect them.

Now we make a lid that controls vapor. We have a lid that has FM Approved fusible plugs for flammables, plus we have the first lids for poly and fiber drums and outdoor storage.

**Problem solved:**  
**PIG Latching Drum Lids**

- Hinged lid has a latching handle that easily **opens and closes with one hand**; hinge stops **keep lid upright** when open
- Nitrile gasket and locking mechanism **seal drum lid** to help cut vapors and keep drum contents dry and secure
- Drum lid **improves appearance of drums** and storage areas
- Easy-access lid closes securely to help you **meet regulations**; **lockable latch** helps prevent unauthorized access
- Durable, **chemical-resistant powder coat** for long service life
- ◆ **Helps you comply** with 40 CFR 264.1086(c)(1)(ii) requiring haz waste containers to be sealed to prevent VOC emissions
- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed
- ◆ **Helps you comply** with 40 CFR 261.4 for management of solvent-contaminated wipes
- ◆ **Helps you comply** with 40 CFR 262.15 for containers in satellite accumulation areas

**SIZES AVAILABLE TO FIT YOUR STEEL DRUMS FROM  
5 TO 85 GALLONS. CHOOSE FROM THREE COLORS!**

Adjustable tension means the latching handle will close properly every time!

Removable hinge pin lets you remove the lid without loosening the band.

#### PIG™ Latching Drum Lid

(Specify Color for DRM659 & DRM821: Black Red Yellow)

Item #	1-2	3+
<b>DRM1201</b> • Red only • For 85-gal. Open-head Steel Drums	<b>\$465</b>	<b>\$442</b>

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

*"This was a great investment. It is very easy to use, and we do not have to battle with closing waste drums when not in use. Because of this lid, we were able to improve our compliance record."*

— Laura B., DRM659 Customer

**DRM1201**  
85 gal.

Even your 85-gallon drums can meet regs — this Latching Drum Lid is a perfect fit for extra-large, 85-gallon drums.

**EXPERT  
ADVICE**

Watch our latching lid make it easy to access drums with no bolt ring hassles. See it at: [newpig.com/drumlid](http://newpig.com/drumlid)

# Latching Lids — Choose a lid to suit your

## Latching Lid with Fast-Latch Ring — Easy to install and access.

- Fast-latch ring allows **easy installation** on new or most reconditioned 55-gallon steel drums; no clumsy nut-and-bolt ring
- Adjustment rod lets ring expand to **fit reconditioned drums with larger diameters**
- **Latching handle** easily opens and closes with one hand
- **Includes all the lid features** listed on page 296
- ◆ **Helps you comply** with the regulations listed on page 299

Our fast-latch ring is easier to install than a nut-and-bolt ring, plus it expands to fit larger drums.

### Latching Drum Lid with Fast-Latch Ring

(Specify Color:  Black  Red  Yellow)

Item #	1-2	3+
<b>DRM1072</b> • For 55-gal. Open-head Steel Drums	\$361	\$342 *

\*  **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## Latching Lid with Fusible Plugs — Turn a 55-gallon steel drum into a container for flammable materials.

- The only latching drum lid **designed specifically for NFPA 30** venting requirements
- In a fire, the **nylon plugs melt to vent pressure** and prevent drum from bursting
- Latching handle **easily opens and closes with one hand**
- Ideal for **safe storage of flammable or combustible solids** such as used rags and absorbents
- **Nitrile gasket and locking mechanism seal lid** to help reduce vapor emissions
- **Plus all the lid features** listed on page 296
- ◆ **Helps you comply** with the regulations listed on page 299

FM Approved plugs melt if there's a fire.

<b>DRM1111</b> • For 55-gal. Open-head Steel Drums	\$458	\$431	*

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

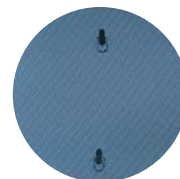

Rainwater rolls right off without puddling.

## PIG™ Latching Drum Lid for Draining — Drain liquids with our one-hand lid to meet closed container regs.

- **Latching design** opens and closes with one hand for easy drum access; no nuts, no bolts, no fuss
- **Nitrile gasket and locking mechanism** seal lid to help reduce vapor emissions and keep drum contents secure
- Add a **screen** (sold separately) for easy draining of waste liquids in 55-, 20- and 30-gallon open-head drums
- **Lid stays closed** while filters or containers are draining; **hinge stop** keeps lid upright when open; lockable for security
- Multiple **lid color options** let you segregate drums
- Lever Ring (DRM1049, DRM640) lets you quickly attach or remove your latching drum lid **without handling a bolt**
- ◆ **Helps you comply** with regulations listed on page 296

**DRM1204**  
Coarse mesh screen holds heavier containers and parts for draining.

**DRM553**  
Fine mesh screen filters out debris such as metal shavings or small parts.

**DRM1049**  
Lever Ring adjusts up to 1" for bent or out-of-round reconditioned drums.

**DRM640** Lever Ring is perfectly sized for new 55-gallon drums.

<b>DRM1085 Contents</b> • 1 Latching Drum Lid • 4 Spacers			

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

Patent 8,480,139

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

## PIG™ Latching Bucket Lid — Secure contents and help meet regs with the **ONLY** latching lid that fits both steel and poly buckets!

- Latching mechanism and EVA gasket provide a tight seal to secure contents and reduce vapor emissions
- **Easy-open and close, single latching hasp;** padlockable
- Fast-latch ring installs easily; **no nut/bolt ring**
- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed
- ◆ **Helps you comply** with 40 CFR 262.15 for containers in satellite accumulation areas
- ◆ **Helps you comply** with 40 CFR 264.1086(c)(1)(ii) waste emissions with VOC regs

**DRM1200**  
Shown on poly bucket

PIG™ 5-Gallon Latching Bucket Lid with Fast-Latch Ring			
Item #	1-2	3+	
<b>DRM1200</b> • For 5-gal. Plastic & Steel Buckets	\$264	\$254	*

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

Patent 8,480,139

### PIG® Fiber Drum Lid — No-hassle Latching Lid helps keep contents dry and pure.

- Tabs on ring align to drum chime to securely **fit 30- or 55-gallon fiber drums**
- Fast-latch ring allows **easy installation** on fiber drums
- **3"-wide EVA gasket and locking mechanism** seal lid to protect contents
- Includes all the lid **features and regulations** listed on page 296

#### PIG™ Latching Lid for Fiber Drum

Item #	1-2	3+
<b>DRM1199</b> • For 55-gal. Open-head Fiber Drums	<b>\$436</b>	<b>\$414</b> *
<b>DRM1124</b> • For 30-gal. Open-head Fiber Drums	<b>\$432</b>	<b>\$409</b> *

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

Patent 8,480,139

### PIG® Latching Lid for Fluorescent Lamp Storage Drum — Made to fit your drum and meet waste management regs.

- Replaces conventional slide-on lids for **fast, easy access**
- **Latching handle** is easy to open or close with one hand
- 3"-wide EVA gasket and locking mechanism **seal lid to container**; hinge pin for **easy lid removal** without loosening drum band
- **Crowned lid** keeps debris from accumulating on top
- ◆ **Helps you comply** with 40 CFR 273.13(d) for managing universal waste in a manner that prevents releases into the environment

#### PIG™ Latching Lid for Fluorescent Lamp Storage Drum

Item #	1-2	3+
<b>DRM1129</b> • For 23" Dia. Fluorescent Lamp Storage Drums	<b>\$421</b>	<b>\$388</b> *

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

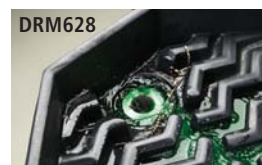

### PIG® Poly Drum Funnel — Cover your entire drum top for clean, easy draining and pouring.

- 4"-high sidewalls and zigzag ridges **prevent splashes** and catch tools or parts
- **Double-wall polyethylene** construction resists UV rays, corrosion, most chemicals
- **Level inside surface** allows easy draining
- **Fits 55 gal.** tight-head steel or poly drum
- **Attached hinged lid** blocks dirt and contaminants; still allows quick access
- **Access to 3/4" bung** for liquid-level gauge
- **Pop-Up Drum Fill Gauges** and **Strainer** sold separately

**Pop-up drum fill gauge** helps prevent overfilling. Two sizes available.

**Drum funnel strainer** filters metal chips and debris from liquid as you pour.

#### PIG® Poly Drum Funnel

(Specify Color: Black Red Yellow)

Item #	1-4	5+
<b>DRM672</b> • Ext. Dia. 29" x 11"H	<b>\$83</b>	<b>\$78</b>

#### Pop-Up Drum Fill Gauge

Item #	1-3	4+
<b>DRM317</b> • 11" Float Indicator Depth For Drums w/ 0.75" NPT Bung	<b>\$28</b>	<b>\$27</b>
<b>DRM245</b> • 5" Float Indicator Depth For Drums w/ 0.75" NPT Bung	<b>\$27</b>	<b>\$25.95</b>

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

#### Strainer for PIG® Poly Drum Funnel

Item #	1-4	5+
<b>DRM628</b> • Use with DRM672 0.044"W x 0.044"L • Mesh Opening	<b>\$20</b>	<b>\$18</b>

**BEST SELLER!**

PIG Barrel Top Mat  
sold on page 28.

Now you can easily **pour into your IBCs** without struggling to reach over the top of the container.

## **PIG** Poly Funnels — Reduce splashback while safely pouring liquids into your drums, totes and tanks.

- Non-threaded funnels **stay securely in place** after installation and are easily removed
- **Molded-in nozzles** easily fit 2" bung openings (DRM1406), 4-6" IBC openings (DRM1407) or 8" tank openings (DRM1408)
- Lightweight LLDPE **resists chemicals and corrosion**
- Clamshell design directs the flow of liquid toward the drum opening, **reducing splashing and spilled liquid**
- Smooth surface allows for **easy cleanup**
- Black color **hides grime**
- **Can be hung on a wall** for easy storage when not in use

PIG® Poly Funnel		
Item #		1+
<b>DRM1406</b>	• For 20- to 55-gal. Plastic or Steel Drums with a 2" bung 16"W x 18"L x 8.125"H	<b>\$61</b>
<b>DRM1407</b>	• For IBC Totes with a 4" - 6" Opening • 16"W x 19.875"L x 10"H	<b>\$66</b>
<b>DRM1408</b>	• For Tanks with an 8" Opening • 16"W x 20.375"L x 10.5"H	<b>\$71</b>

## **PIG** Open-Head Poly Drum Lid — Replaces waste drum lid; no hassling with bolts.

- Large **18"-diameter opening** allows easy waste collection
- Thick-wall, **100% polyethylene construction** resists UV rays, rust, corrosion and most chemicals; optional screen (see page 300)

NOTE: Does not meet closed container regulations.

PIG® Open-Head Poly Drum Lid			
(Specify Lid Color:  Black  Red  Yellow)			
Item #	1-4	5+	
<b>DRM965</b>	• For 55-gal. Steel & Poly Drums • Ext. Dia. 24.5" x 11.25"H	<b>\$159</b>	<b>\$152</b>

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

## THE DREADED SPLASHBACK

DRM1125

**BEST  
SELLER!**

PIG Barrel Top Mat sold  
on page 28.

**EXCLUSIVE!**

## **PIG** Burpless Funnels — Clean pouring, no splashback and a one-hand latch for easy reg compliance.

- **Latching handle** opens and closes lid in a one-handed operation
- Lets you pour **without having to vent through ¾" bung**, a possible closed container reg violation if left open
- **Chemical-resistant powder coat** helps ensure long service life
- **Lockable** to prevent unauthorized access
- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed
- ◆ **Helps you comply** with 40 CFR 262.15 for containers in satellite accumulation areas
- ◆ **Helps you comply** with 40 CFR 264.1086(c)(1)(ii) for VOC emissions

## PIG Drum Funnels set the standard for performance.

These funnels offer features you won't find anywhere else!

Patented Burpless design vents during pouring for fast, smooth flow with no splashback.

One-hand latch for easy opening and secure closing.

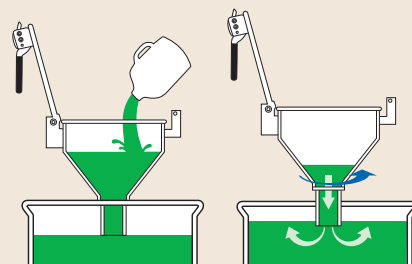

Nitrile gasket and locking mechanism create a vapor-tight seal, tested to 2 psi.

Overfill preventer stops messy overflow (available on DRM1127, DRM1032 and DRM1050).

### How the overfill preventer works:

1. When liquid level reaches the bottom of preventer, funnel stops draining and starts to fill up, so you know when to stop pouring.
2. Air trapped between inside of drum and outside of tube stops liquid from rising.
3. To empty funnel, twist funnel and preventer counterclockwise and slowly lift to drain contents into remaining airspace.

# Choose the right funnel for your pouring jobs.

## PIG Original Burpless Funnel (DRM1125)

Our original bestselling drum funnel is great for everyday pouring needs.

## PIG Large Burpless Funnel (DRM1210)

Wide-mouth funnel has more volume for larger draining and pouring jobs — you can empty a 5-gallon pail in 17 seconds!

Sturdy, coarse mesh screen (DRM1203) holds heavier containers and parts for draining.

## PIG Small Burpless Funnel (DRM1032)

Designed for 5-gallon pails and smaller drums; 5"-diameter fill mouth limits vapor, odor and VOC emissions.

## PIG Tall Burpless Funnel (DRM1211)

The extra height lets you drain tall containers such as paint cans and filters inside funnel while keeping the lid closed, reducing vapor emissions.

### PIG® Burpless® Steel Drum Funnel

<b>DRM604</b> • For DRM1125, DRM1127 and DRM1211	<b>\$47</b>	*
<b>DRM605</b> • For DRM1210	<b>\$45</b>	*
<b>DRM604 and DRM605 Contents</b> • 1 Lid Gasket • 1 oz. Adhesive		

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

### PIG® Poly-Coated Steel Drum Funnel — Textured interior coating resists chemicals, peeling and rust.

- Redesigned with an even **more chemically resistant** polyethylene foam gasket
- Poly-coated interior** is ideal for use with acetic acid, alcohol, water and other common liquids
- DRM1128 includes a built-in overfill preventer; **stops flow when the drum is almost full** to help you avoid messy overfills
- Includes **all the features of our funnels** on page 304

◆ **Helps you comply** with regs listed on page 304

Poly coating shields funnel against solvents and thinners.

PIG® Burpless® Poly-Coated Steel Drum Funnel			
(Specify Color: <span style="background-color: black; color: black;">Black</span> <span style="background-color: red; color: red;">Red</span> )

DRM919

Air trapped between inside of drum and outside of tube stops liquid from rising.

When liquid level reaches the bottom of preventer's outer tube, funnel stops draining and starts to fill up, so you know to stop pouring.

To empty funnel and preventer counter-clockwise to drain contents into remaining airspace.

Interior ridges create a level surface for easy draining of buckets and other large containers.

Our fastest draining funnel, DRM166, has a superwide opening and 7-gal. capacity.

Built-in overfill preventer (DRM1680, DRM1681) acts as a shutoff; alerts you to stop pouring.

## PIG® Burpless Poly Funnel — Keeps on chugging without burps or splashbacks.

- **Burpless design** vents during pouring for fast, smooth flow with no splashback
- Lets you pour **without having to vent through ¾" bung**
- Thick-wall, **100% polyethylene construction** resists UV rays, rust, corrosion and most chemicals
- **Threaded brass** insert screws right into bung. **Vent tube** prevents liquid from burping back.
- **Lockable hinged lid** won't get lost or separated from funnel; choice of three colors to help segregate waste
- **Built-in debris strainer** captures large particles
- DRM1680 and DRM1681 feature a **built-in overfill preventer** to stop flow and avoid messes when drains are almost full
- DRM1680 fits **2" NPT** bung opening; DRM1681 fits bung openings with **2" buttress threads**

PIG® Burpless® Poly Drum Funnel

## Open-Head UN Rated Steel Drums — Open-head design and removable lid offers full, convenient access.

Tough, UN Rated steel drums are **made for liquid or solid hazardous waste**, so you can rely on them to deliver safety and compliance.

- Removable lid offers **full, convenient access** to inside of drum
- Optional **phenolic/epoxy lining** adds corrosion resistance
- **12-gauge bolt ring closure**, sponge rubber gasket and plated bolt/nut (on all except DRM833–DRM837) provide tight seal to help prevent leaks and spills
- **Quick-style lever lock rings** (DRM833–DRM837) make it easy to comply with closure regs; no tools required and shippable “as is” — no need to switch closure rings as with other lever lock ring assemblies
- DRM970 and DRM1973 feature **2" NPT and ¾" NPT bungs**

**BUY AN EXTRA DRUM AND TURN IT INTO A SPILL KIT! SEE PAGES 100 AND 109.**

- 6- Composite

### <sup>2</sup> Material of construction:

- A- Steel
- B- Aluminum
- C- Natural Wood
- D- Plywood
- F- Reconstructed Wood
- G- Fiberboard
- H- Plastic
- L- Textile
- M- Paper, multi-wall
- N- Other metal
- P- Glass, Porcelain, Stoneware

### <sup>3</sup> Packing Group:

- X- High Hazard, Packing Group I, II, or III
- Y- Medium Hazard, Packing Group II or III
- Z- Low Hazard, Packing Group III only

## Stainless Steel Drum — When purity is critical, nothing outperforms stainless steel.

DRM471

- Strong, corrosion-resistant and reusable drums are constructed of long-lasting **304-2B stainless steel**
- **UN Rated** and tested for safe shipping of hazardous materials
- Available in **open head and tight head**
- Open-head design (DRM471, DRM470) and removable lid offer **full, convenient access**; has carbon steel bolt ring closure with EDPM gasket for tight seal
- **Tight-head design** (DRM472, DRM482) has 2" NPT and 3/4" NPT bungs

UN Rated Stainless Steel Drum		
Item #	1-2	3+
<b>DRM471</b> • Open-Head • 55 gal. • 1.5/1.5/1.5 mm UN1A2/X430/S, UN1A2/Y1.5/200	<b>\$1144</b>	<b>\$1089</b>

<b>DRM482</b> • Tight-Head • 30 gal. • 1.2/1.2/1.2 mm UN1A1/X1.2/300	<b>\$809</b>	<b>\$769</b>

## Translucent Poly Drum — Check fluid levels at a glance with a see-through poly container.

DRM1139

DRM1137

DRM1138

- **Translucent walls** and **molded-in calibration marks** eliminate **guesswork** to help prevent overfilling or running out of supplies
- Made from **FDA-Compliant resins** for containment of food and cosmetic products
- **High-density polyethylene** construction is strong and durable, yet lightweight
- **UN Rated and tested** to help ensure safe shipping of hazardous materials
- **360° top drum chime** (DRM1138, DRM1139) makes it easy to move with drum lifter or other drum handling device
- **DRM1137** has 2" NPS and 3/4" NPS bungs; **DRM1138** has 2" buttress and 2" NPT bungs; **DRM1139** has 2" buttress and 2" NPS with center reducer (3/4" NPS fitting)

BEST SELLER!

## UN Rated All-Fiber Drum — Incinerable drum can store or dispose of hot-fills and dry materials.

- No need to empty drum to burn contents for waste reduction or fuels blending; drum is **completely incinerable**
- **Flat top and bottom** make stacking simple and safe
- **Telescoping cover** slips over top, so you can utilize entire inside capacity
- **Ideal for pelletized resins, colorants and other dry materials**

### UN Rated All-Fiber Drum

Item #	1-9	10+
DRM806 • 55 gal. • UN1G/Y100/S	\$62	\$61
DRM799 • 30 gal. • UN1G/Y120/S, UN1G/Z120/S	\$49	\$48
DRM798 • 12 gal. • UN1G/X60/S	\$45	\$42

DRM1071

DRM994

DRM995

## UN Rated Square Fiber Drum — Maximize your floor space for storage.

- **Single-wall construction** is sturdy and long lasting; rounded corners are less likely to get damaged
- **Telescoping, two-piece design** allows compact storage; flat top and bottom make stacking safer and more uniform
- Drum contains **no metal parts** for rust-free storage and complete incineration at time of disposal
- **Cost-effective alternative** to poly drums for storing dry or solid materials

### UN Rated Square Fiber Drum

Item #	1-9	10+
DRM1071 • 55 gal. • UN1G/X100/S	\$75	\$73

DRM994 • 15 gal. • UN1G/X75/S	\$35	\$34

# UN Rated Steel Salvage Drum — Safely ship a damaged or leaking container.

- **UN Rated and tested** to help ensure safe shipping of hazardous materials
- **Open-head design** and removable lid offer full, convenient access
- Interior is coated with a **corrosion inhibitor**; choose optional phenolic/epoxy lining for added resistance
- **Quick-style drums** (DRM842, DRM846) have quick-style lever lock rings, require no tools; easier to comply with closure regs
- **Bolt & ring drums** (DRM400, DRM1000, DRM1001, DRM1002) provide a tight seal with plated bolt/nut, EPDM gasket
- ◆ **Helps you comply** with 49 CFR 173.3(c)(1)

Quick-style lever is easier and less time-consuming to use than traditional bolt-and-ring closures.

PAK1400

PAK1401

## **UN Rated Waste Containers** — Collapsible design saves space until you need to use them.

- Free-standing 55-gallon (DRM1400) and 30-gallon (DRM1401) bags can be used as a **replacement for bulky steel drums**
- Flexible UV-resistant composite makes this space-saving containment unit **easy to store and stack** when not in use
- Ideal for use in **satellite collection areas**, emergency response cleanups and other remote locations

### PIG® UN Rated Waste Container

Item #	1-9	10+
<b>PAK1400</b> • 20"W x 20"L x 35"H • 55-gal.	<b>\$110</b>	<b>\$103</b>
<b>PAK1401</b> • 18"W x 18"L x 27.5"H • 30-gal.	<b>\$97</b>	<b>\$90</b>

DRM1240

## Clean-Pak UN Rated Waste Container — Collect haz waste in this bulk bag for easy shipping and disposal.

- Ideal for collecting saturated absorbents, used rags, contaminated soil and other **hazardous materials** (intended for solids only)
- Triple-wall corrugated sleeve maintains rigidity to **keep bag open during loading**, folds for easy storage; poly outer layer resists oil
- High-capacity straps are rated at 3,000 lbs. for **secure lifting with a hoist** or forklift with proper attachment

### Clean-Pak UN Rated Waste Container

Item #	1-9	10+
<b>DRM1240</b> • 36"W x 36"L x 36"H • Holds 2,500 lbs. (UN Packaging Group I) or 3,000 lbs. (UN Packaging Groups II and III)	<b>\$190</b>	<b>\$176</b>

## **pig** Overpack Salvage Drum — Ship hazardous waste in a tough container.

- **X-rated for Packing Groups I, II, and III** (except PAK998 and PAK181); ideal for regulated packaging including shipping hazardous waste
- **100% plastic material with UV inhibitors** is durable, lightweight and chemical resistant
- **Containers are nestable** when empty to save storage space; will keep hazardous waste safely contained during shipping
- **Leakproof, twist-on lid** (except PAK998 and PAK181) is notched so you can easily tighten it with a 2x4 or pole
- **Integrated ledges** allow you to move overpack with a forklift; smaller units have integrated handles

### Special features to suit your needs:

- **PAK998** is durable HDPE made from FDA Compliant resins; one-piece sealable lid with flip-up handle allows for quick open/close
- **PAK708 and PAK709** feature **two broom holes** on opposite sides of the lid; allows 100% positive leverage for easy opening and closing with a broom handle or bar (Patent 10,273,038)
- **PAK489 and PAK710** have **6" polyolefin wheels** and integrated handle for easy transportation to your shipping vehicle
- **PAK674** is **oversized** for shipping distorted or bulging drums
- **PAK229** is specially designed for **one-person handling**; base and lid accept 2x4s or poles to stabilize drum while you tighten the lid
- ◆ **Helps you comply** with 49 CFR 173.3(c)(1) requiring salvage drums to meet UN specs for shipping

## DID YOU KNOW?

Spent spill response materials, including absorbents and PPE, may be placed in compatible UN Rated salvage drums for shipment. If the container is certified as both a salvage drum and an overpack and is used as a salvage drum, any references to the overpack must be removed prior to shipment.

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

Oil Storage Regulations: Be sure to check federal, state and local oil storage regulations prior to purchasing.

**DID YOU KNOW?**

Used oil destined for recycling is not subject to full hazardous waste regulation. Collecting waste oil in bulk tanks makes it easier to pump the oil into trucks for transport to the recycling facility.

PAK1006

**BEST  
SELLER!**

PAK249

## Double Wall Waste Oil Tank — Store up to 500 gallons of waste oil.

- Bulk capacity eliminates multiple small containers and **centralizes waste oil storage**
- **Double-wall, 10-gauge steel construction** helps tank withstand impact and provides leak-tested containment
- **Generous 10"-diameter fill hole** features a lockable hatch and debris screen
- Durable powder coating **resists chipping, rust and corrosion**
- **Heavy-duty locking swivel casters** for easy repositioning (PAK248–PAK250 only)
- **Dipstick measures oil volume** in tank (PAK248–PAK250 only) while level gauge monitors content at a glance
- Individual ports and tank exterior are **labeled for easy identification**
- 2" vent helps **prevent pressure buildup**
- **Arrives assembled** and ready to use

Individual ports and tank exterior are fully labeled for easy identification.

*"The quality is above and beyond our expectations and, no pun intended, **it's built like a tank**. It was shipped on a very sturdy pallet and arrived without a scratch on it and it was very easy to set it up."*

— Paul, PAK250 Customer

Just pinch the lid to unlock — so much easier to open and close than pails with separate latches or locks.

**DRM934**  
Easy-open/close, screw-top lid with easy-pour spout is tamper-evident and child-resistant.

### Life Latch Poly Pail with Spout — Built-in features for easier access and pouring.

- Screw top lid features tamper-evident, child-resistant **closing mechanism and a spout** for easy pouring
- Made from **FDA-Compliant** resins for containment of food and cosmetic products
- Built-in **locking mechanism** allows you to close lid securely

Life Latch® Screw Top UN Rated Poly Pail

Item #	1-9	10-49	50+
<b>DRM934</b> • 5 gal. • UN1H2/Y1.5/30, UN1H2/Y30/S Ext. Dia. 13.35" x 16.75"H	\$39	\$37	\$35

### Tight-Head UN Rated Poly Pail w/Carton — Combo packaging for haz waste shipping.

- **Combination packaging** includes a 5-gallon HDPE pail inside a heavy-duty cardboard outer shipping carton
- Made from **FDA-Compliant** resins for food and cosmetic products
- 70 mm screw cap; **in-line spout** allows complete draining with a 3/4" faucet (not included)
- Ideal for storing and shipping hazardous or non-hazardous liquids; UN Rated for **Packing Groups II and III**

## Tight-Head UN Rated Poly Pails — Store and ship almost any liquid in our selection of easy-to-carry pails.

- One-piece, blow-molded construction **has no seams to hold residue or develop leaks**
- High-density polyethylene is **compatible with a wide variety of liquids** for safe storage and shipping
- **Built-in handle** is comfortable for carrying loaded pails; folds down for storage and stacking
- **Reike screw cap** on DRM1892 and DRM892 features a 70mm bung opening for venting (other models have standard 2.25" screw cap)
- **Translucent walls** (DRM1892 and DRM282) show content levels to help prevent overfilling or running out of material
- **Opaque walls** (DRM892 and DRM524) block light to protect contents
- DRM282 is made from **FDA-Compliant resins** for containment of food and cosmetic products

# Oil Safe Container — Store and dispense your lubricants, and choose from ten lid colors to help prevent contamination.

Lids and containers sold separately.

- Compact, ergonomical, wide-mouth containers are **easy to fill**
- **Five lid styles available** including stretch spouts and utility lids (sold separately)
- **Industrial-grade HDPE** has antistatic treatment and resists heat, UV and contamination
- **Liquid levels are easy to read** and measure in quarts or liters
- Keeps stored lubricants pure and **free of contamination**
- **Includes label** to identify contents
- **Optional pump** (GEN550) dispenses lubricants in hard-to-reach spots

**Premium pump** (GEN172) features fill port and non-return valve; requires **utility lid** (GEN594). **Quick connect hose** accepts a quick connect fitting (not included) to avoid drips; choose **5' hose** (GEN170) or **10' hose** (GEN171).

Lids available in 10 colors:

## Oil Safe® Container

Item #	1-2	3+
<b>GEN544</b> • 10 qt.	\$56	\$52
<b>GEN543</b> • 5 qt.	\$28	\$27
<b>GEN542</b> • 3 qt.	\$25	\$24
<b>GEN541</b> • 2 qt.	\$22	\$21

## Oil Safe® Lid

Item #	1-2	3+
(Specify Lid Color: Black, Blue, Dark Green, Green, Gray, Orange, Purple, Red, Tan or Yellow)		
<b>GEN593</b> • Storage Lid	\$31	\$30
<b>GEN594</b> • Utility Lid w/ Screw-on Cap	\$34	\$33
<b>GEN595</b> • 8" Stretch Spout Lid w/ 0.5" Opening	\$57	\$54
<b>GEN596</b> • 5" Stumpy Spout Lid w/ 1" Opening	\$75	\$72
<b>GEN598</b> • 5" Mini Spout Lid w/ 0.25" Opening	\$64	\$62
<b>GEN547</b> • Stretch Spout Lid Ext. • 13"	\$27	\$25
<b>GEN835</b> • Hose Extension For GEN596 Only • 9"	\$35	\$34

## Oil Safe® Pump

Item #	1-2	3+
<b>GEN550</b> • For GEN594 Lid and GEN542, GEN543 and GEN544 Containers • 5' Hose	\$91	\$88

## Oil Safe® Premium Pump

Item #	1+
(Specify Lid Color for GEN172: Black, Blue, Dark Green, Green, Gray, Orange, Purple, Red, Tan or Yellow)	
<b>GEN172</b> • For GEN594 Lid and GEN542, GEN543 and GEN544 Containers • 5' Hose	\$141
<b>GEN171</b> • Quick Connect Hose • 10'L	\$61
<b>GEN170</b> • Quick Connect Hose • 5'L	\$58
<b>GEN171 &amp; GEN170 Contents</b> • 1 Discharge Hose with 1/4" NPT Male Adaptor • 1 - 1/4" NPT Male Adaptor for Pump Return Port • 1 - 10 Micron Breather	

13" stretch spout extension (GEN547) reaches tough places; replaces tip of stretch spout lid.

Storage lid (GEN593) with molded handle fits all containers; prevents contamination.

Utility lid (GEN594) with screw cap allows you to pour without removing lid; also accepts pump.

Stretch spout lid (GEN595) has a twist-open valve to regulate flow of low-viscosity liquids.

Stumpy spout lid (GEN596) has a 1" spout opening; hose extension (GEN835) also available.

Pump (GEN550) dispenses liquids in hard-to-reach places; requires utility lid (GEN594).

# 8 MODELS AVAILABLE!

PIG Barrel Top Absorbent Mat sold on page 28.

## Rotary Hand Drum Pumps — Whatever liquid you need to move, we've got a pump that's compatible!

- Manual pumps are rotary operated for **fast, easy dispensing**
- **No power source required** — ideal for applications where you don't have access to electricity or compressed air
- Lightweight designs can be broken down for **compact storage** or disassembled for easy cleaning
- **Use with** any 15- to 55-gallon drum with 2" NPT bungs

*"This drum pump works efficiently. It is **sturdy while turning the handle**. My company bought one of these pumps over a year ago and it gets used many times every day and we still use it with no problems."*

— Robin, DRM983 Customer

**Wesco Iron Rotary Hand Drum Pump with Drip Pan** reduces spills and leaks during and after use.

### Wesco Iron Rotary Drum Pump with Drip Pan

- Drip pan helps to eliminate spills due to overpumping or draining at the nozzle

DRM1310

### Wesco Aluminum Rotary Pump - Non-Sparking

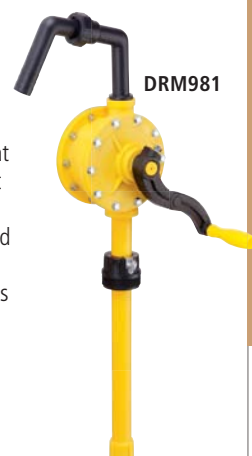

- Self-priming and non-sparking to help you safely pump oils and noncorrosive liquids

DRM1311

### Zee Line Poly Rotary Pump - PTFE Seals

- Corrosion-resistant plastic body is great for dispensing fleet fluids, oil-based liquids, water-based chemicals and chlorinated solvents

DRM981

### Zee Line Ryton Rotary Pump - Viton Seals

- Corrosion-resistant plastic body is great for dispensing aggressive chemicals and chlorinated solvents

DRM982

### Zee Line HDPE Rotary Pump - Viton Seals

- Capable of pumping in reverse using discharge hose (not included) for transferring fluids into drums
- **Built-in strainer** filters out particulate to help avoid contamination

DRM311

### Zee Line Aluminum Rotary Pump - NBR Seals

- High-flow pump includes 54" polypropylene discharge hose
- Gear-driven design provides fast, smooth operation to pump a full quart of liquid per stroke

DRM983

### Zee Line Stainless Steel Rotary Pump - PTFE Seals

- PTFE tape (included) provides an excellent seal between pickup tube sections

DRM988

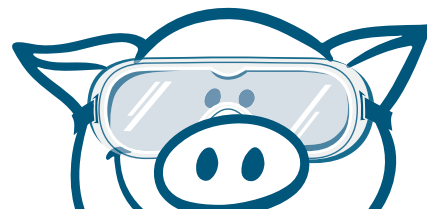

### Zee Line Cast-Iron Rotary Drum Pump

- DRM1414 is FM approved for use with flammables; non-sparking discharge nozzle and holder prevent accidental fires

DRM1414

# PROFESSIONAL PUMPS FOR INDUSTRIAL LIQUIDS

DRM1420

## Lever Action Drum Pumps — More hand-powered options to satisfy your liquid dispensing needs.

- Lever action pumps deliver **fast and easy dispensing**
- **No power source required** — ideal for applications where you don't have access to electricity or compressed air
- **Lightweight designs** can be broken down for compact storage or disassembled for easy cleaning
- **Use with** 15- to 55-gallon drums with 2" NPT bungs (DRM106–DRM108 also fit 1¼" bungs)
- **DRM694** works with 6½-gallon open-head pails
- Each pump includes an **adjustable suction tube** for easy access to high or low levels of fluid
- DRM461, DRM694 and DRM106–DRM108 feature **three handle pin locations for adjustable flow rates** per stroke (closest position to piston rod produces lower rates, farthest position produces higher rates)

**STUMPED ABOUT A PUMP?  
CALL OUR TECH TEAM AT 1-800-HOT-HOGS.**

DRM1421

**Action Pump Aluminum Lever Action Drum Pump with Drip Pan** catches stray liquids and channels them back into your drum.

### Action Pump Stainless Steel Double Diaphragm Pump

- Rapidly transfer fuels and other flammable liquids
- Features a locking latch for security
- Inlet is fitted with mesh screen to prevent contaminants from entering pump

DRM1420

### Action Pump Diaphragm Pump

- Ideal for applications involving the transfer of strong alkalis and acids, machine oil and water
- Durable Ryton body can handle up to 40% nitric acid

DRM1419

### Action Pump Stainless Steel Drum Pump

- Move high viscosity liquids including detergents, acids and oils
- Built to handle liquids up to 140°F

DRM1416

### Action Pump Aluminum Drum Pump with Drip Pan

- Attached drip pan catches stray liquids and channels them back into drum
- High-angle discharge spout is ideal for filling bottles

DRM1421

### Zee Line Steel Drum Pump — Nitrile Seals

- Durable all-steel body for light oil (max 40 wt.), ATF, hydraulic fluid, kerosene and diesel fuel

DRM461

Spout turns up to stop drips.

### Zee Line Steel Pail Pump — Viton Seals

- Turn any standard bucket into a mobile lubricant dispenser
- Includes 4'L hose with curved discharge nozzle (pail not included)

DRM694

### Zee Line Poly Drum Pump — Viton Seals

- Simple design makes an economical choice for non-corrosive, water-based liquids

DRM106

### Zee Line Poly Drum Pump — Poly Seals

- General-purpose pump for water-based chemicals, light acids, bases and alkalis

DRM107

### Zee Line Ryton Lever Action Drum Pump

- Ryton body pump handles stronger acids (including 20% nitric acid), bases and water-based chemicals

DRM108

DRM343

Earthing stud on tube lets you ground pump for safer dispensing of flammable liquids (DRM343, DRM1411).

## Piston Hand Pumps — Affordable solutions for easy dispensing of any liquids you work with.

- Piston action pumps deliver **fast and easy dispensing**
- **No power source required** — ideal for applications where you don't have access to electricity or compressed air
- **T-handle design** offers easy operation (all models except DRM1289)
- **Use with** 15- to 55-gallon drums with 2" NPT bungs (all models except DRM1411)

### Choose from four pumps that are safe for flammables:

- **DRM343 and DRM1411** feature an earthing stud for proper grounding (wires not included)
- **DRM1092 and DRM1109** have built-in bonding and grounding wires that are always visible to encourage use

DRM222

**KEEP DRUM TOPS CLEAN WITH PIG BARREL TOP MAT (SHOWN AT RIGHT). SEE PAGE 28.**

The Beckson Industrial PVC Drum Pump with Buna-N Seals is a great solution for moving oil-based liquids.

### Action Pump Stainless Steel Drum Pump

- Stainless steel and PTFE construction is compatible with gas, diesel fuel, kerosene, diesel exhaust fluid (DEF), light oils and water-based fluids of 40 wt. maximum viscosity

DRM343

### Zee Line Stainless Steel Pail Pump

- Quickly dispense gas, diesel fuel, kerosene, diesel exhaust fluid (DEF), light oils and water-based fluids of 40 wt. maximum viscosity
- Fits 5 gal. pails with 2" NPT or 2" buttress bung

DRM1411

### Beckson Industrial PVC Piston Drum Pump - Viton Seals

- Economical choice for acids; moves up to one full gallon in just six strokes, compatible with up to 50% sulfuric acid
- 3'L discharge hose

DRM221

### Ayling & Reichert Stainless Steel Piston Hand Drum Pump

- Entire pump resists corrosive chemicals
- FM Approved with built-in bonding and grounding wires to control static electricity
- Internal flame arrestor helps prevent flashback

DRM1109

### Ayling & Reichert Steel Piston Hand Drum Pump

- FM Approved with built-in bonding and grounding wires to control static electricity
- Internal flame arrestor helps prevent flashback

DRM1092

### Beckson Industrial PVC Piston Drum Pump - Buna-N Seals

- Economical choice for oil-based liquids; moves up to one full gallon in just six strokes
- 3'L discharge hose

DRM222

### Zee Line Nylon Piston Hand Drum Pump

- Easily handle small water-based dispensing jobs with 16 oz. per stroke/lift

DRM462

Spout turns up to stop drips.

### Zee Line Poly Piston Hand Drum Pump - Viton Seals

- Polypropylene construction is compatible with antifreeze, chemicals and detergents
- Spout rotates up to prevent messy drips between uses

DRM681

### Fill-Rite Poly Piston Hand Drum Pump

- Transfer Diesel Exhaust Fluid (DEF) easily and economically
- Made from materials that will not taint or alter the chemical structure of the DEF being transferred

DRM1289

### Heavy-Duty Siphon Pump — Moves up to 7 gal. per minute from your 55 gal. drums.

- **Compatible** with light oils, diluted acids/caustics and disinfectants
- **Moves up to 7 gallons** of liquid per minute
- Maximum recommended viscosity equals **30–40 wt.**

#### Action Pump Polyethylene Heavy-Duty Siphon Drum Pump

Item #	1-6	7+
<b>DRM344</b> • For Oil-Based Liquids & General-Purpose Chemicals 7 gal./Minute • Fits 15- to 55-gal. Drum w/ 2" NPT Bung	\$34	\$31

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit [newpig.com](http://newpig.com) for chemical compatibility.

### Brass Piston Transfer Pump — Transfer fluids from hard-to-reach places.

- **Non-corroding brass body** and removable neoprene caps are compatible with engine oil, coolants and more
- **Portable, self-priming hand pump** uses piston action for smooth and easy operation
- Includes **2'-long discharge hose, 3.5'-long suction hose**

#### Action Pump Brass Piston Transfer Pump

Item #	1+
<b>DRM1415</b> • For Engine Oil, Coolants, Transmission Fluid, Power Steering Fluid, Oils, Diesel, Water and Antifreeze • 3.2 oz./stroke	\$44

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit [newpig.com](http://newpig.com) for chemical compatibility.

## FDA Compliant Piston Pumps — Food-grade pumps dispense viscous liquids and harsh chemicals. Four sizes fit pails to IBCs!

**DRM1318**  
Need to dispense from an IBC? No problem! This pump is designed specifically to fit your totes.

- **FDA Compliant** pumps are made from polypropylene with polyethylene wetted materials
- **Ideal for dispensing** olive oils, syrups and honey; also compatible with a wide range of chemicals including acids, bases, glycerine, chlorines, crop chemicals and liquid fertilizer
- **Manual pump** is more affordable than electric or air-powered pumps; can be used when power supplies are unavailable
- Handles liquids up to 140°F at a **maximum viscosity of 8,800 cP**
- Safety strap "locks out" the pump to **help reduce waste**
- Spout can be rotated to **eliminate messy drips**
- **Four sizes available** to fit your pails, drums and IBCs (models for drums fit both 2" NPT and 2" buttress threads)

#### Action Pump FDA-Compliant Piston Pump

Item #	1+
<b>DRM1315</b> • For Food Products, Lubricants, Oils, High Viscosity Fluids, Mild Acids 5 oz./Stroke • Fits 5-gal. Pail w/ 70mm Rieke Screw Cap	\$92
<b>DRM1316</b> • For Food Products, Lubricants, Oils, High Viscosity Fluids, Mild Acids 15 oz./Stroke • Fits 15- to 30-gal. Drum w/ 2" NPT or Buttress Bung	\$102
<b>DRM1317</b> • For Food Products, Lubricants, Oils, High Viscosity Fluids, Mild Acids 15 oz./Stroke • Fits 55-gal. Drum w/ 2" NPT or Buttress Bung	\$124
<b>DRM1318</b> • For Food Products, Lubricants, Oils, High Viscosity Fluids, Mild Acids 15 oz./Stroke • Fits IBC Totes w/ 2" NPT Opening	\$137

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit [newpig.com](http://newpig.com) for chemical compatibility.

## NiCad Battery-Operated Pump System — Put away your cords and air lines ... this pump is portable!

- **Convenient and portable;** can be used remotely in different locations without the use of power cords or air lines
- **Works with** diesel exhaust fluid (DEF), water-based chemicals, soap, detergents, insecticides and antifreeze with maximum 20 wt. viscosity
- **Maximum flow rate of 7 gal./minute**
- **Pumps 106 gallons per charge** and uses a 19.2V rechargeable NiCad battery and Charging Dock (included and also sold separately)

DRM1220 comes with a 70" L polyethylene hose, nozzle, holster and stainless steel spout.

### Zee Line NiCad Battery-Operated Pump System

Item #	1+
<b>DRM1220</b> • Pump System • For DEF, Water-Based Chemicals, Insecticides, Antifreeze (Max. 20 wt.) • 7 gal./minute • Fits up to 55-gal. Drum & Container with 2" Bung	<b>\$315</b>
<b>DRM1222</b> • Replacement Battery	<b>\$71</b>
<b>DRM1223</b> • Charging Dock	<b>\$41</b>

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit [newpig.com](http://newpig.com) for chemical compatibility.

## Alkaline Battery-Operated Pump — Hand-held pumps are great for small jobs.

- **Portable design** can be used remotely, unlike standard pumps that require power cords or air lines
- **Ideal for moving material** from 5-gallon and smaller cans to equipment or other containers; fits sumps, bladders and containers
- DRM1410 **automatically shuts off** to eliminate overflows
- Batteries not included (**DRM1226** requires two D size; **DRM1410** requires two AA size)

### Zee Line Alkaline Battery-Operated Pump

Item #	1+
<b>DRM1226</b> • For Water and Light Oil (Max. 20 wt.) • 2.5 gal./minute	<b>\$27</b>
<b>DRM1410</b> • Auto Shutoff • For DEF, Light Oils and Water-Based Fluids 2.4 gal./minute	<b>\$26</b>

\* NEW

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit [newpig.com](http://newpig.com) for chemical compatibility.

## Lithium Battery-Operated Drum Pump System — Move up to 14 gal. per minute.

- Maximum flow rate of **14 gal./minute**; pumps up to 450 gallons per charge
- **Portable design** can be used remotely, unlike standard pumps that require power cords or air lines
- Built-in **12V rechargeable lithium battery**
- Dual-speed motor with dual fans allows **precision dispensing**
- **Stainless steel tube** (DRM1424) is compatible with light acids, solvents, sodium hypochlorite, cleaners, coolants and DEF

### FTI Lithium Battery-Operated Drum Pump System

Item #	1+
<b>DRM1423</b> • Drum Pump Motor and Charging Kit • 14 gal./minute	<b>\$355</b>
<b>DRM1424</b> • Pick-Up Tube • For Light Acids, Solvents, Sodium Hypochlorite, Cleaners, Coolants and DEF • 40" L	<b>\$665</b>

## MILD CORROSIVES

## Light-Duty Pump System — Economical for mild corrosives.

- Lightweight system is perfect for intermittent transfers of **mild corrosives, acids, cleaners, bases and lab chemicals**
- .33 HP electric motor @ 10 gpm has dual speed toggle switch for **better flow control**
- Pump housing and pickup tubes are **all-polypropylene construction**
- Pickup tubes include **5' L PVC discharge hose**
- **Adapter (DRM1021)** required for installation

**PICKUP TUBES  
AVAILABLE TO FIT  
YOUR DRUMS  
OR TOTES.**

### Pump Motors

Item #	Name	Power Requirements	Max Viscosity	1+
<b>DRM1080</b>	.33 HP Electric Pump Motor	110V/50-60Hz	200 cps	<b>\$340</b>

### Pickup Tubes

Item #	Name	Tube Length	Use With	1+
<b>DRM1081</b>	Polypropylene Pickup Tube	40" L	55-gal drums	<b>\$310</b>
<b>IBC001</b>	Polypropylene Pickup Tube	48" L	275-gal IBCs	<b>\$345</b>
<b>IBC005</b>	Polypropylene Pickup Tube	54" L	330-gal IBCs	<b>\$400</b>

### Required Accessories

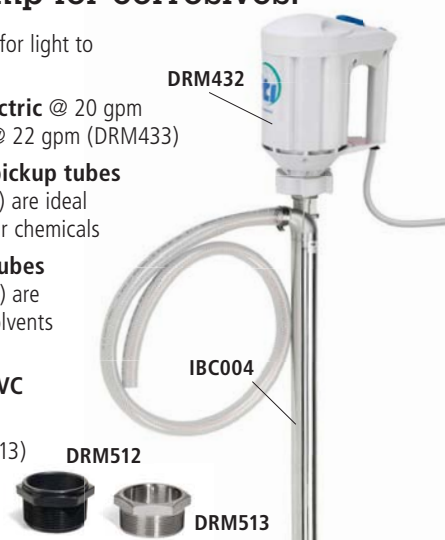

Item #	Name	1+
<b>DRM1021</b>	Polypropylene IPS Adapter	<b>\$21</b>

## CORROSIVES

## PF Series Pump System — High-output pump for corrosives.

- **Rated continuous-duty** for light to medium viscosities
- Choose .5 HP motor in **electric** @ 20 gpm (DRM432) or **air-driven** @ 22 gpm (DRM433)
- Sealless **polypropylene pickup tubes** (DRM435, IBC002, IBC006) are ideal for acids, caustics and other chemicals
- **Stainless steel pickup tubes** (DRM508, IBC004, IBC007) are great for non-flammable solvents and mild corrosives
- Pickup tubes include **5' L PVC discharge hose**
- **Adapter (DRM512, DRM513)** required for installation

### Pump Motors

Item #	Name	Power Requirements	Max Viscosity	1+
<b>DRM432</b>	.5 HP Electric Pump Motor	110V/50-60Hz	500 cps	<b>\$513</b>
<b>DRM433</b>	.5 HP Air-Operated Pump Motor	80-100 psi @ 15-32 cfm	330 cps	<b>\$529</b>

### Pickup Tubes

Item #	Name	Tube Length	Use With	1+
<b>DRM435</b>	PFP Polypropylene Pickup Tube	40" L	55-gal drums	<b>\$532</b>
<b>IBC002</b>	PFP Polypropylene Pickup Tube	48" L	275-gal IBCs	<b>\$555</b>
<b>IBC006</b>	PFP Polypropylene Pickup Tube	54" L	330-gal IBCs	<b>\$595</b>
<b>DRM508</b>	PFS Stainless Steel Pickup Tube	40" L	55-gal drums	<b>\$825</b>
<b>IBC004</b>	PFS Stainless Steel Pickup Tube	48" L	275-gal IBCs	<b>\$900</b>
<b>IBC007</b>	PFS Stainless Steel Pickup Tube	54" L	330-gal IBCs	<b>\$985</b>

### Required Accessories

Item #	Name	1+
<b>DRM512</b>	Polypropylene IPS Adapter For DRM435, IBC002 and IBC006	<b>\$22</b>
<b>DRM513</b>	Stainless Steel IPS Adapter For DRM508, IBC004 and IBC007	<b>\$57</b>

**NON-FLAMMABLES**

### TT Series Pump — Transfer medium-viscosity, non-flammable liquids.

- For transfer of **shear-sensitive liquids or oils**
- Your choice of .33 HP **electric motor** @ 10 gpm (DRM1887) or .50 HP **air-driven motor** @ 22 gpm (DRM433)
- Both motors rated continuous duty for **medium-viscosity** corrosives
- **Pickup tubes** (DRM271, IBC003) are made from stainless steel and Teflon to withstand corrosives and non-flammable solvents
- **PVC discharge hose** (DRM890) included with IBC003; sold separately for DRM271
- **Adapter** (DRM514) required for installation

**Pump Motors**

Item #	Name	Power Requirements	Max Viscosity	1+
<b>DRM1887</b>	.33 HP Electric Pump Motor	115V/60Hz	500 cps	<b>\$979</b>
<b>DRM433</b>	.5 HP Air-Operated Pump Motor	80-100 psi @ 15-32 cfm	330 cps	<b>\$529</b>

**Pickup Tubes**

Item #	Name	Tube Length	Use With	1+
<b>DRM271</b>	TTS Stainless Steel Pickup Tube	40" L	55-gal drums	<b>\$750</b>
<b>IBC003</b>	TTS Stainless Steel Pickup Tube	48" L	275-gal IBCs	<b>\$900</b>

**Required Accessories**

Item #	Name	1+
<b>DRM514</b>	Stainless Steel IPS Adapter	<b>\$57</b>
<b>DRM890</b>	PVC Discharge Hose for DRM271	<b>\$34</b>

**FLAMMABLES**

### TTS Series Pump System — Explosion-proof pump for flammables.

- For transfer of **corrosives, solvents and flammable liquids**
- Your choice of .67 HP **electric motor** @ 10 gpm (DRM1269) or .50 HP **air-driven motor** @ 22 gpm (DRM433)
- **Pickup tubes** (DRM271, IBC003) are made from stainless steel and Teflon
- **Static hose protection kit** (DRM272) helps you properly ground motor to eliminate static-generated sparking; hose features cross-linked poly construction
- **Adapter** (DRM514) required for installation

NOTE: DRM1269 includes power cord; plug must be installed by customer to match receptacle in use

**Pump Motors**

Item #	Name	Power Requirements	Max Viscosity	1+
<b>DRM1269</b>	.67 HP Electric Explosion Proof Pump Motor	115V/60Hz	500 cps	<b>\$1309</b>
<b>DRM433</b>	.5 HP Air-Operated Explosion Proof Pump Motor	80-100 psi @ 15-32 cfm	330 cps	<b>\$529</b>

**Pickup Tubes**

Item #	Name	Tube Length	Use With	1+
<b>DRM271</b>	TTS Stainless Steel Pickup Tube	40" L	55-gal drums	<b>\$750</b>
<b>IBC003</b>	TTS Stainless Steel Pickup Tube	48" L	275-gal IBCs	<b>\$900</b>

**Required Accessories**

Item #	Name	1+
<b>DRM514</b>	Stainless Steel IPS Adapter	<b>\$57</b>
<b>DRM272</b>	Static Hose Protection Kit	<b>\$475</b>

DRM272 Contents = (1) 4' L Hose = (1) 6' Grounding Wire with Clamp

## Lutz Pump System — Take control of your outflow with this variable speed motor.

### Lutz Electric Drum Pump Motor (DRM767)

- **Variable speed .85 HP electric pump motor** lets you easily control output flow
- Open-flow, **drip-proof motor** is ventilated and cooled by air

### Pickup Tube (DRM768)

- Polypropylene construction is compatible with a wide range of **light-viscosity, oil-based liquids**
- **Nonlubricated tube** prevents contamination of liquids being pumped
- No-seal tube **can run dry** for short periods of time with residual liquids

#### Lutz Electric Drum Pump System

Item #	1+
<b>DRM767</b> • Motor for Thin-bodied & Slightly Viscous Liquids in Nonexplosive Areas Electric: 110V/60 Hz	<b>\$685</b>
<b>DRM768</b> • Pickup Tube • For Corrosive and Noncorrosive Liquids • 39" L	<b>\$565</b>
<b>DRM768 Contents</b> • 1 Polypropylene Pickup Tube • 1 Wall Hanger • 1 PVC Hose • 1 Barrel Adaptor • 2 Hose Clamps	

\*This product is subject to restrictions and cannot be shipped to California.

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit [newpig.com](http://newpig.com) for chemical compatibility.

## Wedge — Durable wedge helps you pump every last ounce out of your drums.

- Easy-to-use wedge **props up 30- and 55-gallon drums**
- Moves liquid to one side for **easy pumping**
- Made of durable, nonsparking **100% recycled polyethylene**
- Reduces waste; ideal for use with **expensive process chemicals**

#### Drum Wedge

Item #	1-9	10+
<b>DRM299</b> • 9.625" W x 12" L x 5.625" H	<b>\$26</b>	<b>\$24</b>

## Electric Powered Fuel Transfer Pump — Convenient and safe refueling in the field is a breeze.

- Easy to use in the field **for fleet, farm and lawn vehicle refuels**; compatible with gasoline, diesel, biodiesel, kerosene, mineral spirits, methanol and ethanol/gasoline (E15)
- **Maximum flow rate** 8 gallons/minute; maximum viscosity 140 wt.
- **Hand-held pump can also be bung-mounted** with included tank mount adapter and hinged vane design

#### Fill-Rite Electric Powered Fuel Transfer Pump System

Item #	1	2+
<b>DRM1291</b> • For Diesel, Gasoline, BioDiesel (up to B20), E15, Kerosene, Mineral Spirits, Methanol (up to 15%) • Requires 12V Direct Current 8 gal./Minute	<b>\$431</b>	<b>\$410</b>
<b>DRM1291 Contents</b> • Manual Nozzle • Discharge Hose • Telescoping Suction Tube • Nozzle Boot • Bung Tank Mount Adapter • Quick Connect Power Cord with Alligator Clips		

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit [newpig.com](http://newpig.com) for chemical compatibility.

## Oil Dispensing System — Great for farm and fleet operations.

- **Dispenses motor oils**, gear oils, automatic transmission fluids and other petroleum-based lubricants
- 3:1 ratio, low-pressure pump is specifically designed for **pumping liquids through a hose reel**
- **Z-Swivel and 25' medium-pressure dispensing hose** aides lubrication for hard-to-reach machinery
- **Durable hose** has maximum working pressure of 4,500 pounds
- **Oil control handle** keeps output regulated and consistent
- **Delivery rate** of 5 gpm

### Zee Line Air-Operated Oil Drum Pump with Nozzle

Item #	1+
<b>DRM164</b> • For Oil-Based Liquids & Lubricants Air: 50-145 PSI • Fits 30- and 55-gal. Tight-Head Drums with 2" NPT Bung	<b>\$772</b>
<b>DRM164 Contents</b> • 1 Air Operated Pump - (DRM696) • 1 Dispensing Hose - (DRM162) • 1 Oil Control Handle - (DRM163)	

**BEST  
SELLER!**

## Metered Dispensing System — Ideal for fleets, this system ensures fast, consistent oil and fluid fills.

- **Accurately dispenses motor oils**, gear oils, automatic transmission fluids or other petroleum-based lubricants from 30- or 55-gallon tight-head drums
- **System consists of** air-operated pump, quart meter and 32' open oil hose reel
- 3:1 ratio low-pressure pump is specifically designed for **pumping liquids through a hose reel**
- **32' rubber hose reel** reaches your work area, retracts when you're finished
- Hand-operated **quart meter** tracks the amount of liquid dispensed in 8 oz. increments; comes with 12" flexible hose and non-drip nozzle

### Zee Line Air-Operated Metered Oil Drum Pump System

Item #	1+
<b>DRM699</b> • Complete System For Oil-Based Liquids • Air: 50-145 PSI • Fits 30- and 55-gal. Tight-Head Drums with 2" NPT Bung	<b>\$1860</b>
<b>DRM699 Contents</b> • 1 Pump - (DRM696) 1 Open Oil Hose Reel - (DRM697) • 1 Quart Meter - (DRM698)	
<b>DRM696</b> • Pump For Oil-Based Liquids Air: 100-145 PSI • Fits 30- and 55-gal. Tight-Head Drums with 2" NPT Bung	<b>\$779</b>
<b>DRM696 Contents</b> • 1 Air Operated Pump Motor • 1 Pump Tube 1 Oil Hose • 1 Air Hose • 1 Air Regulator Combination Unit	
<b>DRM697</b> • Open Hose Reel	<b>\$720</b>
<b>DRM698</b> • Quart Meter	<b>\$479</b>

**BUY SEPARATE COMPONENTS  
OR SAVE ON A COMPLETE  
SYSTEM (DRM699)**

## Air-Operated Metered Oil IBC Pump System — Easily transfer lubricants and oil-based liquids from your IBC tanks.

- Ideal for dispensing **motor oils, gear oils, automatic transmission fluids** and similar petroleum-based lubricants from IBC tanks
- **3:1 ratio** low-pressure pump is specifically designed for pumping liquids through a hose reel
- **Nozzle with flex spout and inlet swivel** dispenses lubricants and oil-based liquids accurately
- **Mounting plate** allows easy attachment to your IBC tote
- **Hose reel** features dual arm support with adjustable hose stop

## Air-Operated IBC Pump — Dispense fleet lubricants from IBC units.

- Move liquids **up to 90 wt.**
- **Positive displacement pump** is designed for pumping liquids through meters and oil hose reels with minimum flow loss
- 3:1 pump delivers steady flow of liquid up to **5 gpm**
- Includes **extra-long 42" pick-up tube** and shorter 22½" tube for versatility
- Meter and hose reel **sold separately**

### Zee Line Air-Operated Metered Oil IBC Pump System

Item #	1+
<b>IBC008</b> • Mechanical • Measures in Quarts • 32'L Hose • Air: 50-145 PSI	<b>\$1960</b> *
<b>IBC009</b> • Mechanical • Measures in Gallons • 32'L Hose • Air: 50-145 PSI	<b>\$2030</b> *
<b>IBC011</b> • Digital • Measures in Pints, Quarts, Liters or Gallons • 32'L Hose • Air: 50-145 PSI	<b>\$1910</b> *

\* ⚠️ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

### Zee Line Air-Operated IBC Pump

Item #	1+
<b>DRM367</b> • For Oil-Based Liquids Fits IBC w/2" NPT Bung • Air: 50-145 PSI	<b>\$724</b>
<b>DRM367 Contents</b> • 1 Air-Operated Pump Motor • 1 42"L Pump Tube 1 22.5"L Pump Tube • 1 Oil Hose • 1 Air Regulator Combination Unit	

## Air-Operated Double Diaphragm Pumps — Make the job of moving waste oil quicker and easier with these mountable transfer pumps.

- **Pump construction** is all-polypropylene or aluminum and polypropylene
- **For transferring** oil, waste oil, gear lube and automatic transmission fluid (ATF)
- Pump motors are **non-stalling and lube-free**
- Buy just the pump or **entire system (DRM1286-DRM1288)** including cam locks, valves, adapters, hoses, filters, mounting bracket and more; system can be mounted to a wall, table or cart

### Zee Line Air-Operated Double Diaphragm Transfer Pump

Item #	1+
<b>DRM1283</b> • Polypropylene Body • 1/2" Inlet • For Motor Oil, Waste Oil, ATF 14 gal./Minute	<b>\$567</b>
<b>DRM1284</b> • Aluminum Base with a Polypropylene Center Section • 3/4" Inlet For Motor Oil, Waste Oil, ATF • 14 gal./Minute	<b>\$581</b>
<b>DRM1285</b> • Aluminum Body with a Polypropylene Center Section • 1" Inlet For Motor Oil, Waste Oil, ATF • 37 gal./Minute	<b>\$907</b>

### Zee Line Air-Operated Double Diaphragm Transfer Pump System

<b>DRM1286</b> • Polypropylene Body • 1/2" Inlet • For Motor Oil, Waste Oil, ATF 14 gal./Minute	<b>\$1008</b>
<b>DRM1287</b> • Aluminum Base with a Polypropylene Center Section 3/4" Inlet • For Motor Oil, Waste Oil, ATF • 14 gal./Minute	<b>\$1020</b>
<b>DRM1288</b> • Aluminum Body with a Polypropylene Center Section 1" Inlet • For Motor Oil, Waste Oil, ATF • 37 gal./Minute	<b>\$1582</b>

**Pump System Includes** • Male & Female Cam Locks • Brass Ball Valves • Hydraulic Adapter Swivel Suction Hose • Discharge Hose • Nipple • Strainer • Wall Mount Bracket • Airline Filter

## IBC Mixer — Re-suspend settled solids and maintain uniformity of contents.

- Air-powered direct drive motor **mounts to any IBC** with 6" opening
- **Adjustable bridge and tote clamps** let you position motor at proper location
- Dual turbines are specially designed for mixing material in **square or rectangular containers** with corners

IBC Mixer		
Item #		1+
<b>IBC014</b> • For Dyes, Inks, Paints, Solvents & Mild Corrosives • 36"L		<b>\$2998</b>

BEST SELLER!

## Dual-Force Vac Pump — Air-operated vac sucks liquids into a drum or pumps out for reclamation.

- Dual-mode design **pumps or vacuums**
- Quiet, air-powered pump has no motor; **requires virtually no maintenance**
- **Automatic safety shutoff valve** prevents overflows
- **Fast-turn switch** changes from fill to empty mode in seconds
- **Installs quickly** on a 55-gallon tight-head steel drum (requires drum with UN Rating of at least 1A1/X1.8/300)
- Pumps up to **33 gpm of oils, coolants and non-flammable solvents**
- Optional **squeegee attachment** (DRM276) pulls in up to 40 gpm for easier liquid cleanups

### Vortec Air-Operated Dual-Force Vac Pump

Item #	1+
<b>DRM903</b> • For Oils, Coolants and Non-Flammable Solvents • Air: 50 PSI at 15 SCFM (Min.), 100 PSI at 23 SCFM (Max.)	<b>\$827</b>

**DRM903 Contents** • 1 Pump Body Assembly With Overflow Preventer • 1 Hose • 1 Drum Evacuation Tube • 1 Extension Wand • 1 Hose Drum Connection • 1 Ball Valve With 1/4" NPT • 1 Air Line Filter

### Vortec Squeegee Attachment

Item #	1+
<b>DRM276</b> • Steel handle with neoprene blade	<b>\$196</b>

## Coliwasa Sampler — The easy way to sample liquids and semisolids in drums.

- **100% chemical-resistant**, see-through tube (polypropylene), rod (thermoplastic polymer) and stoppers (neoprene)
- Features a unique **screw-down locking device** for transferring liquids and semisolids to your in-house lab
- **DRM151** collects up to 130 mL of liquids or semisolids; **DRM152** collects up to 460 mL

Coliwasa Sampler			
Item #		1-2	3+
<b>DRM152</b> • For Sample Gathering Int. Dia. 1" x 39"L • 10/box		<b>\$268</b>	<b>\$256</b>
<b>DRM151</b> • For Sample Gathering Int. Dia. 0.56" x 39"L • 10/box		<b>\$268</b>	<b>\$256</b>

BEST SELLER!

DRM151

## Drum Mixer System — Motor and mixer easily combine liquids in drums.

- Sealed mixer offers **4-blade turbine mixing/blending capabilities**
- **Stainless steel and PTFE-construction mixer** is compatible with dyes, inks, paints, solvents, mild corrosives, flammables and food products (maximum viscosity 1,000 cP)
- Choice of **motors sold below**

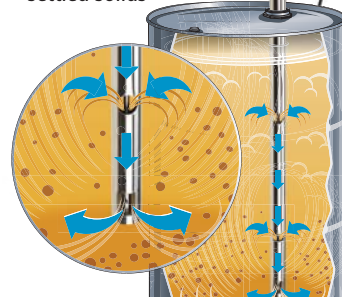

DRM433

NEW!

DRM1887 Motor

**DRM1425**  
Top-to-bottom mixing action promotes rapid suspension of settled solids

### FTI Drum Mixer System

Item #	1+
<b>DRM1887</b> • FTI .33 Horsepower Pump Motor • For Medium Viscosities in Non-Explosive Areas & Corrosives • Electric: 115V/60 Hz	<b>\$979</b>
<b>DRM433</b> • FTI .5 Horsepower Air-Operated Explosion-Proof Pump Motor For Liquids up to 330 cps Viscosity • Air: 80-100 psi @ 15-32 cfm	<b>\$529</b>
<b>DRM1425</b> • Drum Mixer • 40"L	<b>\$875</b>
<b>DRM514</b> • Stainless Steel IPS Adapter	<b>\$57</b>

### Gravity-Fed Hose with Nozzle — No pump needed to dispense from IBCs.

- Simple gravity-fed application **requires no electricity or air source**; produces flow rates of up to 10 gpm
- **2" female NPS fitting** attaches easily to your IBC; working temperature range 40°F to 120°F
- 8'-long PVC hose and aluminum dispensing nozzle **resist most chemicals**

#### IBC Gravity-Fed Hose with Nozzle

Item #	1+
IBC021 • For use with IBC Totes	<b>\$170</b>

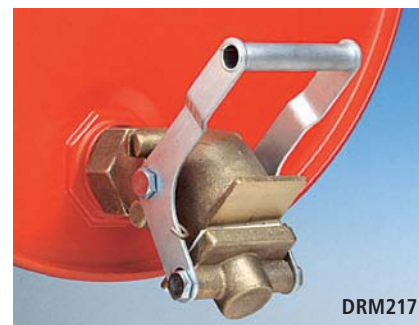

### Poly Drum Faucet — Chemical-resistant and great for disposable use.

- Inexpensive faucet **can be discarded** after dispensing liquids that may harden or gel on the faucet over time
- Economical **alternative to steel faucets** to help ensure chemical compatibility
- Ideal for use with **adhesives, resins and fixatives**

#### Polyethylene Drum Faucet

Item #	1+
<b>DRM347</b> • For Viscous, Non-Corrosive Liquids 2" NPT Bung • Not Adjustable	<b>\$19</b>
<b>DRM346</b> • For Non-Viscous, Non-Corrosive Liquids • .75" NPT Bung • Not Adjustable	<b>\$10</b>

BEST  
SELLER!

### Brass Gate Valve — Easily dispenses viscous liquids heavier than SAE 30.

- **Drains thick resins, lubes** and other noncorrosive liquids from 55 gal. drums
- Able to dispense noncorrosive liquids **heavier than SAE 30**
- Solid cast brass construction is **strong and chemical resistant**
- **FM Approved** for dispensing flammables

#### Brass Gate Drum Valve

Item #	1+
<b>DRM217</b> • For Non-Corrosive High Viscosity Fluids • 2" NPT Bung • Not Adjustable	<b>\$242</b>

### Adjustable Stainless Steel Drum Faucet — Ideal for dispensing flammables.

- **FM Approved faucet** features a built-in flame arrestor to help prevent ignition
- Stainless steel for **added chemical resistance** and long service life
- Faucet **adjusts to desired pouring angle** without remounting
- PTFE seals offer secure, **leak-free operation** with a wide range of liquids

#### Adjustable Stainless Steel Drum Faucet

Item #	1+
<b>DRM489</b> • For Flammable & Corrosive Liquids .75" NPT Bung • Adjustable	<b>\$207</b>

### Brass Drum Faucet — Flame arrestor helps prevent ignition.

- **FM Approved faucet** features a built-in flame arrestor to help prevent ignition
- Self-closing with a **PTFE seal** to help prevent spills
- **Lockable** to prevent unauthorized access
- Available in standard design (DRM244) or **adjustable** (DRM244-01)

#### Brass Safety Drum Faucet

Item #	1+
<b>DRM244</b> • For Non-Viscous, Non-Corrosive, Flammable Liquids • .75" NPT Bung	<b>\$67.55</b>
<b>DRM244-01</b> • For Non-Viscous, Non-Corrosive, Flammable Liquids • .75" NPT Bung • Adjustable	<b>\$81</b>

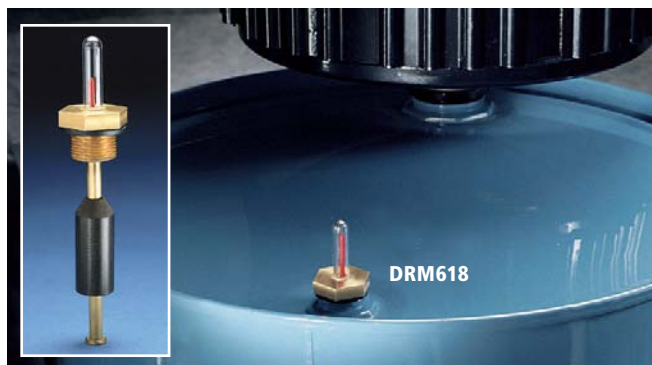

### Zinc Drum Faucet with Gauge — See exactly what's left in your drum.

- **Chrome-plated steel drum gauge** with visible fluid level gives quick reading for horizontal drum
- **Zinc faucet** is FM Approved for use with flammable liquids
- For **nonviscous oils and chemicals** except chlorinated solvents or concentrated acids or bases

#### Zinc Drum Faucet with Gauge

Item #	1+
<b>DRM205</b> • For 55-gal. Horizontal Drums w/ .75" NPT Bung	<b>\$160</b>

### **PIG® Pop-Up Gauge** — Prevent overfills with a drum gauge that won't leak.

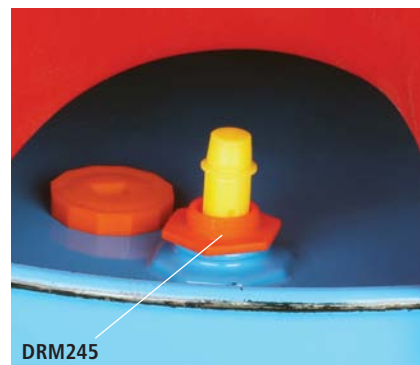

- Durable gauge pops up when drum is near capacity to **help prevent overfilling**
- Solid cast brass construction is **strong and chemical resistant**
- **Nitrile gasket and float** have excellent resistance to petroleum-based fluids and aromatics
- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed
- ◆ **Helps you comply** with 40 CFR 264.1086(c)(1)(ii)

#### PIG® Flammable Liquids Pop-Up Drum Gauge

Item #	1-4	5+
<b>DRM618</b> • For 30- and 55-gal. Vertical Drums w/.75" NPT Bung 8.25" Float Indicator Depth	<b>\$147</b>	<b>\$134</b>

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

DRM245

### **Pop-Up Drum Gauge** — Economical gauge signals when drum is nearly full.

- Durable gauge **helps prevent overfilling** by popping up when drum is near capacity
- **Corrosion-resistant polyethylene** withstands most liquids
- Highly visible red and yellow colors offer **easy indication**
- Available in extra-long **11" model** (DRM317) to give an even earlier warning that your drum is nearly full

#### Pop-Up Drum Gauge

Item #	1-3	4+
<b>DRM317</b> • For 30- and 55-gal. Vertical Drums w/.75" NPT Bung 11" Float Indicator Depth	<b>\$28</b>	<b>\$27</b>
<b>DRM245</b> • For 30- and 55-gal. Vertical Drums w/.75" NPT Bung 5" Float Indicator Depth	<b>\$27</b>	<b>\$25.95</b>

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

## Drum Gauges — Check levels across a wide range of liquids.

- **Avoid overflows and downtime** by quickly checking a drum's liquid level; no guessing or messy dipsticks
- High-contrast, transparent design is **easy to read**, even in low light
- **Simple mechanical design** helps minimize upkeep
- Indicator tube **shows high and low barrel levels** in gallons, lifters and volume percentage
- Designed for use with **vertical drums**

#### Drum Gauges

\* ⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

DRM1295

## IBC Fill Cap Wrench — Tightly closed center caps are no problem for this tool.

- Lightweight IBC tote wrench can help you **achieve the right torque to remove a tightly closed IBC cap**
- **Double handles** ease the opening of previously torqued fill caps; **can also be used to tighten fill caps** for in-plant use
- **Helps you comply with UN/DOT closure requirements** prior to shipping by inserting a 1/2" drive manual torque wrench (sold separately) into the center and applying the specified torque

DRM1295

- **Compatible with most 6-inch IBC caps**

### IBC Fill Cap Wrench

Item #	1+
<b>DRM1295</b> • Aluminum	<b>\$99</b>

DRM322

DRM323

## Nonmetallic Drum Vent — Relieves pressure and vacuum for easy dispensing.

- Automatically **relieves vacuum and drum pressure buildup** at 5 psi
- **Flame arrestor** extinguishes flames and sparks
- Choose **DRM322** for **petroleum-based liquids**; **DRM323** for **chlorinated solvents**

### Non-Metallic Drum Vent

Item #	1+
<b>DRM322</b> • For 55-gal. Vertical Drums w/2" NPT Bung For Petroleum Based Liquids • FM Approved	<b>\$63</b>
<b>DRM323</b> • For 55-gal. Vertical Drums w/2" NPT Bung • For Chlorinated Solvents	<b>\$94</b>

\*FM = Factory Mutual tested/approved

DRM135

## PIG™ Draining Screen — Fits inside a 55-gallon drum for easy draining.

- Steel screen **allows drum to be closed with a latching lid** or covered with a funnel with screen in place
- **Mounts securely** and holds up to 40 lbs.
- Use to **drain filters, buckets and more**
- Mesh **filters out debris**, but lets liquid pass through
- 1" finger hole with rubber grommet for **easy removal**

### PIG™ Draining Drum Screen

Item #	1-4	5+
<b>DRM135</b> • For 55-gal. Open-head Steel Drums • .125" Dia. Mesh Opening	<b>\$126</b>	<b>\$120</b>

## Deluxe Drum Plug Wrench — Open almost any drum bung with ease.

- Versatile **wrenches** open **standard and nonstandard drum bungs**; also work as ring and faucet wrenches
- Available in durable **zinc-plated steel** or **nonsparking bronze alloy**
- Deluxe wrench** (DRM1019, DRM1020) features an elongated handle for extra leverage and knuckle protection
- Multi-purpose wrench** (DRM1017, DRM1018) features an angled handle for knuckle protection

### Deluxe Drum Plug Wrench

Item #	1-3	4+
<b>DRM1019</b> • Polished Zinc Cast Steel • 2"W x 12"L	<b>\$74</b>	<b>\$69</b>
<b>DRM1020</b> • Non-Sparking Bronze Alloy • 2"W x 12"L	<b>\$116</b>	<b>\$110</b>

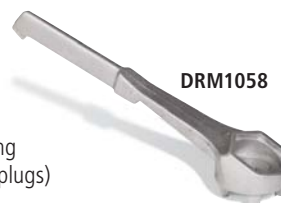

### Multi-Purpose Drum Plug Wrench

Item #	1-3	4+
<b>DRM1017</b> • Polished Zinc Cast Steel • 5"W x 13"L	<b>\$85</b>	<b>\$78</b>
<b>DRM1018</b> • Non-Sparking Bronze Alloy • 5"W x 13"L	<b>\$175</b>	<b>\$163</b>

## Nonsparking Drum Plug Wrench — Avoid sparks and knuckle scrapes.

- Durable, **nonsparking aluminum** is safe around flammables
- Offset handle design **reduces user** and prevents knuckle scraping
- Fits most **round- and hex-style** bung plugs (not compatible with 3/4" Rieke plugs)

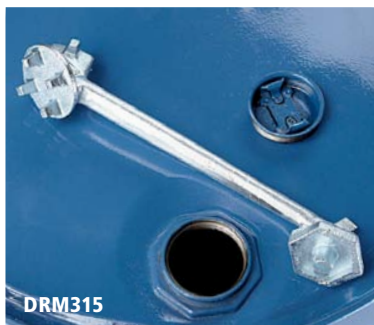

### Non-Sparking Drum Plug Wrench

Item #	1-3	4+
<b>DRM1058</b> • 10.5"L • For Most Round- & Hex-style Drum Plugs (Not Compatible w/ .75" Rieke Plugs)	<b>\$28</b>	<b>\$26</b>

## Drum Plug Wrench — Economical cast iron wrench is built to last.

- Inexpensive way** to open and close most domestic steel and plastic drum plugs
- Durable cast iron** construction and zinc-plated finish
- 12" handle with offset allows **two-handed use** for stubborn bungs

### Drum Plug Wrench

Item #	1-2	3-5	6+
<b>DRM315</b> • 2.5"W x 12"L	<b>\$33</b>	<b>\$31</b>	<b>\$26</b>

## Nonsparking Tool Kit — Packed with tools commonly used around flammables.

- Aluminum bronze** tool set is designed for safe handling in hazardous environments
- Tools are **nonsparking and nonmagnetic**
- ◆ **Helps you comply** with 29 CFR 1910.120 (j)(2)(v) requiring hand tools appropriate for flammable atmospheres

### Non-Sparking Tool Kit

Item #	1+
<b>GEN310</b> • Deluxe • 9.5"W x 16"L x 9.5"H	<b>\$1320</b>

Notice: Call Technical Services at 1-800-HOT-HOGS (468-4647) or visit our website at [newpig.com](http://newpig.com) for kit contents.

## Retractable Grounding Reel — Provides tangle-free flexibility for high-use areas.

- Spring-loaded retracting reel maintains a handy length of wire; **prevents tangles to avoid accidents**
- Reel **locks when cable is at desired length** and retracts with a light tug
- Ideal for transferring **flammable materials in high volumes**

### Rota-Reel® Retractable Bonding/ Grounding Wire Reel

Item #	1-2	3+
<b>DRM133-50T</b> • Reel Grounding End Hand Clamp Bonding End • 50'L	\$482	\$465
<b>DRM133-20T</b> • Reel Grounding End Hand Clamp Bonding End • 20'L	\$370	\$353

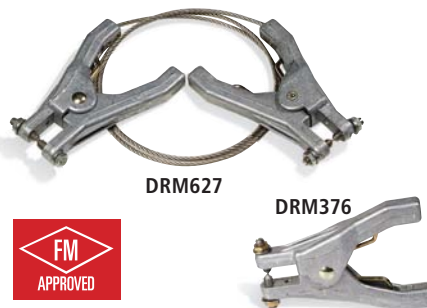

## Grounding Wires — Work safer with a coiled grounding wire to prevent tripping.

- Bonding and grounding assemblies **control static electricity** to prevent sparking during flammable liquids transfer or storage; FM Approved, NFPA 77 compliant
- **Coiled wire** provides a solid grounding connection with no tripping hazard
- **Vinyl coating** protects wire from corrosion for outdoor use and longer life

### Retract-a-Clamp® Insulated Bonding/ Grounding Wires

Item #	1-3	4+
<b>DRM416</b> • Hand Clamp Grounding End Hand Clamp Bonding End • 10'L	\$112	\$108
<b>DRM441</b> • 1/4" Eyelet Grounding End Hand Clamp Bonding End • 10'L	\$80	\$77

## Grounding Clamp — NFPA- and FM-compliant grounding for flammables storage.

- Bonding and grounding assemblies **prevent spark danger** while transferring or storing flammable liquids
- **3' galvanized uncoated steel wire** is easy to inspect for dangerous breaks and frays (DRM627)
- ◆ **Helps you comply** with 29 CFR 1910.106(e)(6)(ii) for grounding and bonding when transferring flammables

### Tuffite® REB2960 Grounding Clamp

Item #	1-3	4+
<b>DRM376</b> • Hand Clamp	\$39	\$37
<b>DRM627</b> • Hand Clamp Grounding End Hand Clamp Bonding End • 3'L	\$105	\$100

## Bonding/Grounding Wires — Safer flammables transfers.

- **Choose insulated or uninsulated** drum grounding wires
- Available with **various clamp options** to ensure a solid connection on barrels
- ◆ **Helps you comply** with 29 CFR 1910.106(e)(6)(ii) for grounding and bonding when transferring flammables

### Bonding/Grounding Wires

Item #	1-3	4+
<b>DRM492</b> • Insulated • 1/4" Eyelet Grounding End • Hand Clamp Bonding End • 10'L	\$61	\$57
<b>DRM493</b> • Uninsulated • C-Clamp Grounding End • Hand Clamp Bonding End • 3'L	\$69	\$67
<b>DRM494</b> • Uninsulated • Hand Clamp Grounding End • Hand Clamp Bonding End • 3'L	\$91	\$87
<b>DRM1235</b> • Insulated • #10 Ring Terminal Bonding End • Alligator Clip Grounding End • 5'L	\$45	\$43
<b>DRM495</b> • Uninsulated • Alligator Clip Grounding End • Alligator Clip Bonding End • 3'L	\$41	\$39
<b>DRM498</b> • Insulated • C-Clamp Grounding End • Alligator Clip Bonding End • 3'L	\$47	\$45

BEST SELLER!

DRM474

**Straight-Sided Inserts**

Thick 15-mil construction is durable for mixing, pumping and when using follower plates. (See ordering information below)

DRM923

**Round-Bottom Liners**

Thinner design (4-mil to 10-mil) is more baglike with a full rounded bottom that won't trap liquids. (See ordering information below)

DRM143

**Chemical-Resistant Liner**

Multi-layered nylon/poly film resists chemicals, paints, non-flammable solvents and hot fills that break down standard liners.

GEN302

**Accordion-Sided Insert** has pleated walls to accommodate variations in reconditioned drums.

## Drum and Bucket Liners — Reuse your containers and save on cleaning costs.

- **Reduces the costs** and time associated with cleaning, reconditioning and disposing of used drums and pails
- Helps **eliminate container residues** that could make you liable for future contamination
- Protects contents and **extends drum life**
- Contoured design is **easy to insert**, won't leave folds or pockets that can trap liquid
- Made from **FDA Compliant resins** for containment of food and cosmetic products
- Ideal for storing paints, inks, coatings and other **hard-to-clean materials**
- Three top styles: **snap-over** rolls over the rim of open-head drums and covers the lip; **peel-over** slides over the side of the drum, about 5" past the lip; **tie-off** can be lifted and tied like standard trashbags

*"Buckets are very costly and this liner reduces the need to change the bucket often. **The liners are durable and up to the task.** We've used them for years in a heavy industrial setting and never had one rip or tear."*

— John, GEN308 Customer

SELLER

DRM146

## Snap-On Covers — Protect your drums against dirt, moisture and rust.

- **Economical covers** protect drum heads and bungs from dirt, moisture and rust; **tough and rigid** to stay on for reliable protection
- Constructed of **weather-resistant** polyethylene; suitable for use indoors or out
- **Clear covers** for easy view of labels on drum heads; **black covers** shield contents from light

### Snap-On Drum Covers

Item #	1+
<b>DRM144</b> • Clear • For 55-gal. Open-head Steel Drums • 25/box	<b>\$196</b>
<b>DRM145</b> • Clear • For 55-gal. Tight-head Steel Drums • 25/box	<b>\$196</b>
<b>DRM146</b> • Black • For 55-gal. Tight-head Steel Drums • 25/box	<b>\$196</b>
<b>DRM147</b> • Black • For 55-gal. Open-head Steel Drums • 25/box	<b>\$196</b>

## Drum Lock — Protect drums and their contents with a sleek bung lock.

- **Protects steel drum contents** from cross contamination, theft or sabotage; electrophoretic lock coating is **corrosion-proof and made to last a lifetime**
- **Set includes a 2" and a 3/4" drum lock** for bungs on 15–110-gallon steel drums
- **Hinged, one-piece design** is heavy-duty, nonsparking zinc alloy with an all-weather locking mechanism; gator-like grips clamp around the bung plugs

### Drum Lock

Item #	1	2+
<b>DRM1340</b> • For Steel Drums with .75" and 2" Bungs	<b>\$75</b>	<b>\$72</b>

## Tamper-Evident Capsel — Protect materials with these one-time use bung seals.

- Attaches over the 2" bung on most **tight-head poly drums**
- **Tear tab design** makes it obvious if seal has been removed
- Capsel can only be **removed with pliers**; once tabs have been peeled, seal must be replaced

Installs easily with a rubber mallet.

### Right-Seal™ Tamper-Evident Capsel

Item #	1+
<b>DRM1342</b> • For Poly Drums w/ 2" Bungs 10/bag	<b>\$6</b>

## IBC Ball Valve Cap — Keep your valve assembly clean during transportation.

- **Prevent dust and foreign objects from entering** the valve assembly of your IBC
- **Fits 2" IBC valves** (two sizes available to fit different thread depths)
- **Polypropylene construction with foam liner** keeps contaminants out

### IBC Ball Valve Cap

Item #	1+
<b>IBC019</b> • Fits IBC Valves w/ 1/2"-deep NPT threads • 5/package	<b>\$13</b>
<b>IBC020</b> • Fits IBC Valves w/ 2"-deep NPT threads • 5/package	<b>\$10</b>

# Drum Replacement Parts — Salvage those still-usable drums and put them back in business!

- **Steel drum replacement parts:** Ring and bolt sets for 55 gal. open-head steel drums; lever drum rings for 55 gal. open-head drums
- **Open-head drum replacement parts:** Rubber gaskets for 55 gal. drums (sold 10/box); drum lids for 55 gal. drums with and without bung fittings; DRM1037 gasket stretches over drum lip to create an air- and liquidproof seal
- **Bungs for tight-head steel drums:** Choose either 2" NPT or 3/4" NPT plated steel bungs with bung gaskets
- **Bungs for tight-head poly drums:** Choose either 2" poly buttress bung or 2" poly NPT bung (both have gaskets)

Outfit your open-head drums with a new ring and bolt set.

DRM1004

## 55-Gallon Steel Drum Heater — Warm thick liquids for easier handling.

- **Clamps onto a 55-gallon steel drum** to gradually warm liquids for easier pumping and dispensing
- Thermostat-controlled band can be **adjusted up to 550°F** to accommodate liquids of varying temperatures
- Powered by a **standard 120 V outlet**
- **3 1/4" H heating band** fits drums up to 22 1/2" in diameter

55-Gallon Steel Drum Heater	
Item #	1+
<b>DRM1004</b>	<b>\$313</b>

NOTE: Not for use with flammable or hazardous liquids.

## IBC Heater — Wrap your totes to protect temperature-sensitive liquids.

- Flexible, wrap-around surface heater delivers uniform heat to ensure a **safe, constant temperature**
- Vinyl insulated "blanket" **installs easily** (two sizes sold below); digital thermostat lets you control temperature

Powerblanket® IBC Heater	
Item #	1+
<b>IBC015</b> • Use with 330-gal. IBC 56" H x 174" L	<b>\$2918</b>
<b>IBC016</b> • Use with 275-gal. IBC 42" H x 174" L	<b>\$2703</b>

IBC015

### PIG® Spill Containment Cart — Mobile sump catches leaks and spills from drums.

- Sump holds up to **57 gallons** of spilled hazardous liquids from leaking drums
- Grate and drain plug remove for **easy emptying and cleaning**
- ◆ **Helps you comply** with 40 CFR 264.175 for containment of haz waste

#### PIG® Poly Spill Containment Cart

Item #	1-2	3+
<b>PAK648</b> • For 5- to 55-gal. Drums • 500 lb. load capacity 57 gal. sump capacity	<b>\$959</b>	<b>\$918</b>

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

### PIG® Steel Spill Cart — Move your drum on a 33-gallon containment sump.

- **Rugged, welded-steel** construction withstands strenuous use
- Chemical-resistant, **6" polyurethane wheels** roll easily, even over rough surfaces
- **Rear swivel wheels** have brakes
- Steel grating deck lifts out for **easy sump cleaning**
- **Pipe handle** has cross bracing to add strength; handle removes for easier storage
- **Cart is compatible with** most oils, solvents, lubricants and flammables

#### PIG™ Steel Spill Containment Cart

Item #	1+
<b>PAK994</b> • For 5-to 55-gal. Drums 2,000 lb. load capacity • 33 gal. sump capacity	<b>\$710</b>

### PIG® Adjustable Dolly — Durable steel dolly fits your drums and overpacks.

- Fits 55-gallon drums and most overpacks (**adjustable diameters from 22¾" to 26½"**)
- **Heavy-duty ¾" steel frame** adjusts in minutes with bolts and lock nuts
- **Curved ends** hold drum tight
- **Hard rubber casters** for smooth rolling
- **Brakes** keep dolly from moving

DLY301-01

#### PIG™ Steel Adjustable Drum Dolly

Item #	1+
<b>DLY301-01</b> • For 55-gal. Drums and Containers from 22.75" to 26.5" Dia. 800 lb. Load Capacity	<b>\$210</b>

Graduated steps accept various containers.

DRM876

### Multi-Level Quad Dolly — Holds or moves buckets, LP tanks or drums.

- **Dolly base has multiple levels** to accommodate 5-gallon buckets, LP tanks and 30- and 55-gallon drums
- Durable steel construction; polished zinc finish **resists corrosion**
- **DRM876** rolls on 3" hard rubber wheels; **DRM877** features 3" cast iron wheels for more load capacity

#### Vestil® Steel Multi-Level Quad Dolly

Item #	1-2	3+
<b>DRM877</b> • Heavy-Duty • For 5-gal. Bucket and 30- to 55-gal. Drums 1,200 lb. load capacity	<b>\$190</b>	<b>\$177</b>
<b>DRM876</b> • For 5-gal. Bucket and 30- to 55-gal. Drums 900 lb. load capacity	<b>\$138</b>	<b>\$131</b>

## PIG® Spill Drum Dolly — Simple solution for drum storage and transport is always ready to catch leaks and spills.

- **Holds up to 500 lbs.** for easy moving of 55-gallon drums even when they're full
- **11-gallon sump** provides protection from minor spills and leaks
- **Solid rubber free-rolling casters** and optional handle (DRM787) make drum transport easy

DRM949

PIG® Poly Spill Drum Dolly			
Item #	1-2	3+	
<b>DRM786</b> • White • For 5- to 55-gal. Drums • 500 lb. load capacity 11 gal. sump capacity	\$192	\$179	
<b>DRM949</b> • Hi-Viz Green • For 5- to 55-gal. Drums • 500 lb. load capacity 11 gal. sump capacity	\$199	\$186	
<b>DRM787</b> • Handle	\$44	\$43	

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

## PIG® Drum Spill Tray — Store a 55-gallon drum in compliance with regulations so leaks can't touch your floor.

- **Catches drips, leaks and spills** that can make your floor a big mess
- **With a 55 gal. drum in place**, DRM369 holds 15 gal.; DRM371 holds 14 gal.
- **Tray with removable grate** (DRM371) holds four 5-gallon buckets or leaky batteries above leaked liquids
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

PIG® Drum Spill Tray			
Item #	1-5	6-10	11+
<b>DRM369</b> • 32.25"W x 32.25"L x 8.25"H 22 gal. sump capacity	\$99	\$95	\$91
<b>DRM371</b> • With Grate 32.25"W x 32.25"L x 8.25"H 21 gal. sump capacity	\$141	\$133	\$128
<b>DRM484</b> • PIG™ Drum Spill Tray Steel Dolly 800 lb. load capacity	\$181		

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

DLY306

# DRUM HANDLING DONE EASY

## Wesco Drum Trucks — Simple solutions that let you roll, drain and dispense from just about any drum.

- Drum trucks make it easy for one person to **safely move drums** around your facility, even in busy areas
- Heavy-duty, welded steel construction **holds up to 1,000 lbs.**; (DRM1078–DRM1079 are lightweight aluminum, hold up to 700 lbs.)
- Stable, **4-wheel design** helps you move drums without strains or tipovers (select models, see table at right)
- DRM250, DRM211 and DRM1251 are specially designed **for use with poly or fiber drums**; wide feet and security belt help prevent gouges and punctures
- **Built-in kickstand** secures drum truck when not in motion (DLY303, DRM250, DRM464, DRM997 and DRM1251)
- **Wheel options:** Shock-absorbing **Moldon rubber wheels** for rough or outdoor surfaces; **Polyurethane wheels** are made to handle rough surfaces indoors; chemical-resistant **polyolefin wheels** for hard, smooth surfaces indoors; **pneumatic tires** offer a smooth, cushioned ride over any surface

### Multi-Purpose Drum Truck

- **Rear wheels** help you maneuver stand when it's in draining position

DLY303

- Truck doubles as a cradle for draining; just add a spigot to have an **all-in-one mobile dispensing rig**

### Draining Drum Truck

- Add a spigot and this truck doubles as a **dispensing cradle**
- **Rear wheels** help you maneuver stand when it's in draining position

### Aluminum Drum Truck

- Corrosion-resistant aluminum is lightweight and **safe for use with flammables**
- DRM1079 includes a **handle brake** for extra stopping power

### Poly Drum Truck

- Specially formed nose pads help you safely transport poly drums and overpacks without damage

### Knock Down Drum Truck

- Ergonomic design for easier handling; ships boxed to save on freight

### Easy Load Drum Truck

- Extra-stable, 4-wheel design and double-welded steel pipe frame make this drum truck ideal for harsh environments

### Economy Drum Truck

- Wide 24" handle with vinyl grips ensures easy maneuvering
- Double-welded, budget friendly design is ideal for occasional drum handling

SELLER!**

## PIG® Dispensing Drum Dolly — Do-it-all dolly transports, dispenses and provides containment.

- Versatile unit transports drums up to 55 gallons, **tilts for dispensing** and provides secondary containment
- **Closed sump** lets you move unit without contained liquids splashing out
- Rugged polyethylene with **UV inhibitors** for indoor/outdoor use
- Roomy well **accommodates 5-gallon buckets** for refilling
- Choose **rubber wheels** (DRM664) for concrete or asphalt outdoors; choose **polyolefin wheels** (DRM662, DRM986) for smooth floors
- ◆ **Helps you comply** with 40 CFR 264.175 for containment of haz waste
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

**DRM986**  
Lime green dolly is easy to see!

*"We needed secondary containment for a very heavy drum of resin. This was a perfect solution since it **easily slips under a tipped drum**. The fact that it's wheeled is also helpful."*

— Karma O., DRM662 Customer

## Lo-Profile Drum Caddy — Unique design features a removable handle for easy loading — plus a built-in bung wrench!

- Designed to maneuver drums **only ½" off the floor**, without having to tilt or balance as you go
- Multifunctional **removable handle** can be used to tilt the drum you're loading for easier handling; also features a **built-in bung wrench** that goes everywhere your caddy goes

You'll never be left looking for a bung wrench again — it's built right in to the removable handle!

Vestil® Steel Lo-Profile Drum Caddy							
Item #	Drum Size (gal.)	Drum Composition	Type of Drum	Load Capacity	# of Wheels	Type of Wheel	1+
<b>DRM765</b>	30- to 55-Gallon	Steel, Fiber and Rimmed Plastic	Open- and Tight-Head	1,200 lbs.	3	Polyurethane	<b>\$191</b>

## Hydraulic Drum Lifters — Load and unload drums from pallets, truck beds, shelves and racking with no forklift.

- **Economy** (DRM259) offers the safety and convenience of a hydraulic lift at an affordable price point
- **High-Lift** (DRM260) works with a variety of drums and features a top lift height of 42½" to reach most truck beds
- **Ergonomic** (DRM624) works with the widest range of drum sizes and types, and has the highest load capacity

### Wesco® Hydraulic Drum Lifters

Looking for an absorbent mat you can trust?  
There's a lot to love about **PIG Mat!** See them all starting on page 10.

## PIG® Poly Drum Rack — Save valuable floor space with this storage and dispensing system.

- Lets you **stack and dispense** from multiple 30-gallon or 55-gallon drums
- Vertical storage is ideal when **floor space is limited**
- Polyethylene construction **resists corrosion and most chemicals**
- **Rack** (PAK182, PAK573) sits on floor for secure dispensing and storage; forkliftable while unloaded for easy transportation
- **Stacker** (PAK183, PAK574) lets you double your drum capacity without sacrificing valuable floor space
- **Dispensing shelf** (PAK575) attaches to front of any stacker to hold a 6-gallon pail

Build a 4-drum system (shown far left) or 2-drum system to fit your facility.

**DO YOU HAVE DRUM TAPS? WE DO!**  
**SEE PAGE 336**

# PIG FLAMMABLE SAFETY CABINETS

**Built to last a lifetime.  
Guaranteed.**

No other cabinets on the market are stronger or have better features. From fully MIG-welded construction to door faces that are 56% thicker than the competition, our cabinets are built to take decades of industrial use. And with our lifetime warranty, you can buy our cabinets once and use them forever — if there's ever a problem, we'll replace your cabinet or refund your money.

**We have dozens of sizes and styles to match your application. See our full selection on pages 354–358.**

**The only Flammable  
Safety Cabinets tough  
enough to wear the PIG label!**

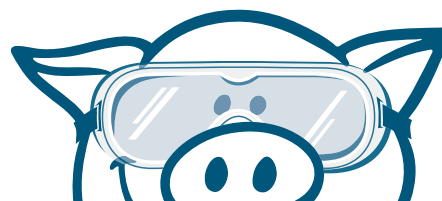

**CAB714**

**Mike Kinney**  
New Pig Product Development

## PIG Cabinets are built to outperform the competition!

NEW PIG	The Other Guys
<b>FULL LIFETIME WARRANTY!</b>	5- or 10-Year Warranty
<b>Thicker 14-gauge door faces</b>	18-gauge door faces
<b>Heavy-duty, self-lubricating bullet hinges</b>	Grime-prone piano hinges
<b>MIG-welded, full-width shelf supports</b>	Spot-welded support strips
<b>Rounded, one-piece corners</b>	Fastened 90-degree corner pieces
<b>Hybrid powder coating</b>	Conventional powder coating or enamel paint

## EXPERT ADVICE

Watch this video to see why our cabinets are the best-built, best-backed on the market: [newpig.com/safetycabinets](http://newpig.com/safetycabinets)

Check out these FAQs for help choosing the best cabinet to store flammables: [newpig.com/flammable-cabinet-FAQs](http://newpig.com/flammable-cabinet-FAQs)

# Every PIG Flammable Safety Cabinet is built

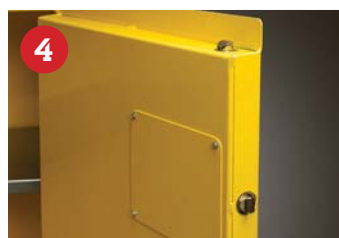

1 Self-closing models have a fusible link that melts in a fire; allows you to prop doors open.

2 Full-width shelf hangers are stronger than individual, spot-welded column hangers.

3 Fully enclosed bullet hinges won't trap grime. More durable than piano hinges.

4 Three-point zinc latch ensures spark-free closing every time.

5 Recessed door handle with keyed lock won't snag on passing traffic.

## LIFETIME WARRANTY

If you're not satisfied, we'll replace the cabinet or offer you a full refund.

- **FM Approved** for the storage of flammables (meets NFPA and OSHA specs); models with self-closing doors meet UFC standards
- **Fully MIG-welded** 14- and 18-gauge steel body is built for a lifetime of continuous use
- Impact-resistant, 14-gauge steel door faces are **56% thicker than competing cabinets**
- **Three-point zinc latch** ensures fail-safe, nonsparking door closure
- **Recessed handle** won't catch on passing traffic
- **4" bullet hinges** feature self-lubricating, fully enclosed brass pins
- Double-wall construction with 1½" of insulating air space **adds fire protection**
- **2" leakproof sump** contains leaks, drips and spills
- **Flame arrestor** vents on right and left sides of cabinet help prevent flashback ignition
- **Full-width, welded shelf hangers** offer maximum support and increase sidewall thickness
- **Grounding connection** inhibits static buildup
- Hybrid powder-coat finish **resists chemicals and corrosion**
- Leveling feet can be **adjusted for stability**
- Most models include **adjustable shelving**; shelves provide 350-lb weight capacity when evenly loaded
- Cabinets are intended for **indoor use only**

NOTE: OSHA codes state that no more than 60 gallons may be Category 1, 2 or 3 flammable liquids, and no more than 120 gallons may be Category 4 flammable liquids.

CAB354

## Steel Cylinder Cabinet — Store gas and propane cylinders in economical steel cabinets.

- 13-gauge flattened mesh sides and 12-gauge top **protect cylinders**
- **Reinforced corner angles** add strength
- Safety yellow powder coating and red-lettered signage **increase visibility**
- **Lockable doors** help prevent tampering
- Predrilled holes in footpads let you **secure cabinet to floor** (hardware not included)
- **Horizontal liquid propane cabinets** (CAB356–CAB359) feature smooth tube rails to hold cylinders in horizontal position
- **Vertical liquid propane cabinets** (CAB354, CAB355) feature 12-gauge solid steel floor to support cylinders in upright position
- **Compressed gas cabinets** (CAB360, CAB361) feature open-bottom design and adjustable safety retention chains to help secure cylinders in upright position
- ◆ **Helps you comply** with 29 CFR 1910.110 and NFPA 58-5-2.1.1 for storage of liquefied petroleum gases

## Steel Self-Closing Oily Waste Can — Prevent fires started by oily rags with an FM Approved, UL Listed can.

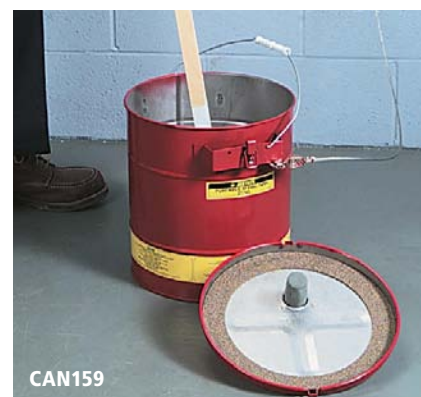

- **Protect against fires** caused by sparks and spontaneous combustion of solvent-soaked cloths, wipers and flammable waste
- **Foot lever** opens lid to 60 degrees for hands-free access
- Durable, galvanized steel construction with **powder-coated finish**
- Elevated base features **air ports for increased circulation** and dispersal of heat buildup
- **FM Approved and UL Listed**
- "Empty Every Night" **warning label** printed in English, Spanish and French

Steel Self-Closing Oily Waste Can			
		JUSTRITE	
Item #		1-4	5+

CAN125

CAN121

### Type I Poly Safety Can — Store your corrosive, volatile liquids in storage containers that won't rust or dent.

- 100% leak-tested and **fully FM Compliant** construction
- **High-density poly** resists dents, punctures and chemicals
- **Stainless steel fittings** are ideal for corrosive chemicals
- Spring-loaded, self-closing lid is airtight to **help control vapors** and prevent accidental spills
- Positive pressure relief cap automatically vents to **guard against rupture and explosion**
- Current-carrying carbon insert **prevents arc flash** and provides proper bonding
- Double stainless steel mesh **flame arrestor stops flashback ignition** but still provides fast liquid flow
- **Rounded handle** swings while you carry heavy loads

\*FM = Factory Mutual tested/approved

CAN460

### Safety Shelf Can — Dispense flammables right from the shelf without lifting the can.

- Dispensing faucet is built into can bottom to **reduce the risk of spills and drops**
- Durable, **powder-coated steel** resists fuels, solvents and lubricating fluids
- Brass **control-flow faucet** for precision dispensing
- **100% leak-tested** and fully FM Compliant construction

Steel Safety Shelf Can with Control Flow Faucet		JUSTRITE	
Item #		1-4	5+
CAN460 • 5 gal. • *FM		\$203	\$193

\*FM = Factory Mutual tested/approved

*"Thank you! This is EXACTLY what I was looking for.  
Super sturdy. Super easy to set up. Super easy to use.  
I'm in Hog Heaven!"*

— Mark, PIG Heavy-Duty Poly Modular  
Spill Deck Customer

# SPILL CONTAINMENT

Store and secure your liquids on field-proven PIG Containment products.

Keep dangerous liquids in drums, IBCs and tanks on lockdown! PIG Spill Containment products are tested and proven to handle real-world abuse and harsh weather, year after year. No matter what conditions you're dealing with, your liquids stay secure.

- **PIG Pallets and Decks** are the strongest you can buy for drum storage at any capacity
- **IBC Containment** is designed to handle your totes' larger capacities for safe, compliant storage
- **Roll Top Hardcovers** deliver weathertight security to meet your outdoor drum storage needs
- **Collapsible Containment** offers portable roll-over and drive-in solutions for easy loading and fast setup
- **Trays, Basins and Bags** capture leaks and drips from just about anything to keep floors safe and dry

## “TRUST US — THIS STUFF IS TOUGH.”

We know that containment products take a beating in the real world, so we engineer ours to a higher standard that won't fail you. Guaranteed.

Greg Harpster — Product Development

## ◆ HELPS YOU COMPLY

Depending on your application and capacities, many PIG containment products can help you meet EPA regulations.

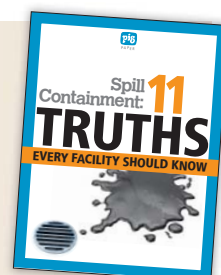

**40 CFR 264.175** requires full containment for hazardous waste to prevent releases into the environment. Full containment is defined as 100% of the largest container or 10% of the total volume, whichever is greater.

## EXPERT ADVICE: FREE WHITE PAPER

Spill containment is a big part of complying with water pollution regs. Know these 11 truths! Download the white paper: [newpig.com/11truths](http://newpig.com/11truths)

[reghelp@newpig.com](mailto:reghelp@newpig.com) • 1-800-HOT-HOGS

GET FREE ADVICE ON REGS! See page 167 for details.

# YOU CAN'T BUY A STRONGER PALLET OR DECK.

Containment products are your last line of defense against nasty liquids — so failure is not an option. That's why we tend to go a little overboard with our product testing.

## Extreme measures

We built the hulking machine shown on this page to push the limits of our decks and pallets. It can easily simulate your real-world applications, but that's just the beginning. We crank up the pressure — and keep it there for months — to ensure performance when it counts. So whatever you do to your PIG Pallets, we've torture-tested ours even worse.

## It pays to be PIG Tough.

Don't waste your money on products that can't take the pressure. PIG Decks and Pallets are designed, tested and guaranteed not to fail.

### 30,000 reasons why PIG won't fail.

Our in-house compression tester can deliver loads equivalent to 30,000 lbs. of drum weight. Way more than you'll ever see in the real world.

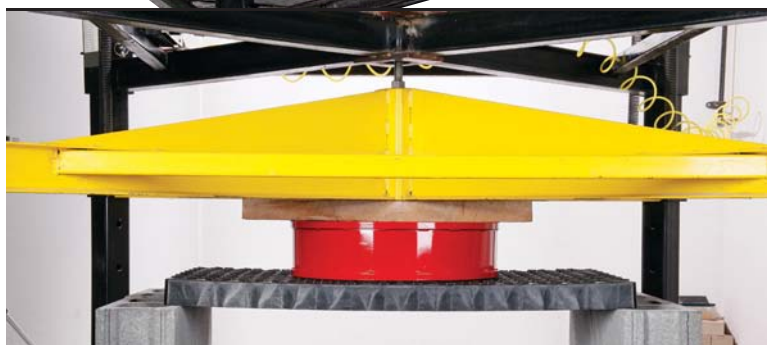

## EXPERT ADVICE

Decks and pallets can fit multiple needs. Read this article for help choosing which is best for your application: [newpig.com/deck-or-pallet](http://newpig.com/deck-or-pallet)

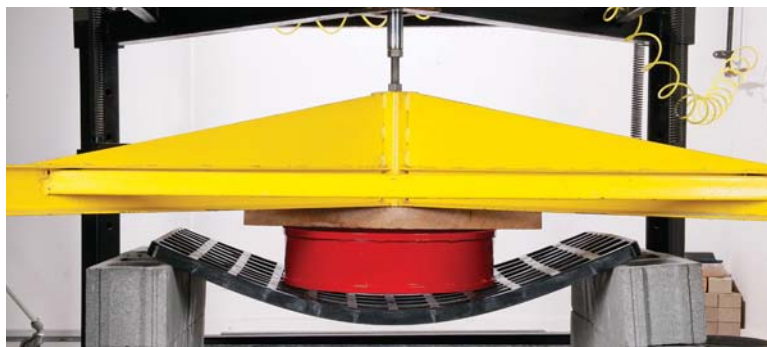

Designed  
& Tested  
**PIG**  
**TOUGH**

### PASS! PIG grates can take the pressure.

Our compression tester simulates long-term, full-capacity drum storage. PIG Decks and Pallets pass the test with flying colors!

### FAIL! Other brands bend and bow.

Anything less than level is an accident waiting to happen. Why risk it? Play it safe with stronger grates from PIG!

# CHOOSING THE RIGHT CONTAINMENT: DO YOU NEED A PALLET OR A DECK?

PAK210  
PIG Poly Spill  
Containment Pallet

PAK531  
PIG Poly Modular  
Spill Deck

## Pallets are best when:

- **You need full containment** for your drum storage area to meet EPA regulations; Spill Pallets have larger sumps to accommodate the number of drums they're intended to be used with
- **You need to move your containment** with a forklift; most models can only be moved without drums, but our Heavy-Duty Pallets can be moved fully loaded (see pages 368–369)
- **You don't have enough floor space** to build a modular drum storage system; pallets are taller, making them a better choice when you can't build outward

## Decks are ideal when:

- **You need to store drums of non-hazardous liquids** in order to catch leaks and drips, but compliance is not required
- **You need to store smaller containers** of hazardous liquids in full containment to meet EPA regulations; as long as the math works out, decks can help you meet regs, but not as efficiently as pallets (call us for help if you're not sure!)
- **You need easier access** to your drum tops or containers; decks are lower profile than pallets, keeping stored items closer at hand
- **You need to connect multiple units** with shared sumps

## ◆ HELPS YOU COMPLY

### When compliance is a must, put your trust in PIG.

Storing drums or leaky equipment on PIG Pallets and Decks is about more than just maintaining a professional appearance. They also play a big role in maintaining regulation compliance at your facility.

- ◆ **Helps you comply** with 40 CFR 264.175 **Secondary Containment Regs** requiring full containment for hazardous waste to prevent releases into the environment
- ◆ **Helps you comply** with 40 CFR 122.26 **Stormwater Regulations** requiring facilities with an SWPPP to describe the plan and equipment available to prevent illegal discharge of pollutants into waterways
- ◆ **Helps you comply** with 40 CFR 112.7 **SPCC Regulations** requiring facilities to have written plans and documentation of the products that are in place to prevent discharge of oil into waters

## Create a top-to-bottom compliant transfer station.

Once you've got a PIG Spill Pallet underneath your drums, top off your transfer station with a PIG Burpless Steel Funnel to help satisfy the EPA's closed container regulations.

- ◆ **Helps small and large quantity generators comply** with 40 CFR 262.16(b)(2)(iii) and 40 CFR 262.17(a)(1)(iv) requiring haz waste containers to be kept closed

SEE OUR FUNNELS  
ON PAGES 304–306.

**BEST  
SELLER!**

PIG Burpless Drum Funnel  
sold on page 304.

PAK210

## **Poly Spill Pallet** — The strongest standard pallet you can buy for everyday drum storage.

- **6,000 lb. UDL capacity** holds four fully loaded steel or poly drums
- Low 10" height means **easy loading and unloading**
- **Molded-in sump** catches leaks, drips and spills to help you comply with regulations and keep your storage areas clean and safe
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- Textured grating **adds traction and lifts out** for easy sump access
- **Two-way forklift entry** allows easy movement from either direction (unloaded only)
- **Compact footprint** reduces floor space needed for drum storage
- **Optional ¾" drain plug**; empty sump without removing drums or grate
- **Poly Loading Ramp (PAK734)** is chemical-resistant and easy to position

- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

PIG® Poly Spill Containment Pallet 			
(Specify: With drain or without drain • Add \$15 to price shown for Pallet with drain)			
Item #	1-2	3-6	7+
<b>PAK210</b> • Holds (4) 55-gal. Steel or Poly Drums • 66 gal. sump capacity • 6,000 lb. load capacity • 51"W x 51"L x 10"H	\$355	\$345	\$330
Poly Loading Ramp			
Item #	1+		
<b>PAK734</b> • Use with PAK210 • 700 lb. load capacity	\$258

## REMOVABLE GRATES FOR QUICK SUMP ACCESS!

PAK210

Engineered to handle poly drums too!

Nestable design lets you stack unused pallets and saves money on bulk shipping.

PAK734

Load drums onto PAK210 using a poly loading ramp (PAK734).

# DON'T LET THIS HAPPEN TO YOU!

Did your bargain-basement containment pallet come with a warning? Not all pallets are all created equal. First there's a little bending, bowing or warping. Then drums are leaning, tipping and spilling. A cheap pallet might save you a few bucks up front, but you'll always pay more in the end.

PIG Pallets are **PIG TOUGH**. Guaranteed.

# HEAVY LOADS? BRING 'EM ON.

TOP 10  
BEST  
SELLER!

PAK672

Nonslip structural grates on the deck surface won't bow, buckle or break.

Only 8¾" high!

Optional ¾" drain plug

Four-way forklift entry for easy movement — even when fully loaded!

## Heavy-Duty Spill Pallet — The strongest pallet on the market won't bow or buckle. Guaranteed.

- The strongest, **most durable** containment pallets you can buy
  - Innovative design **transfers weight to load-bearing channels** to maximize capacity
  - Molded-in sump **catches leaks, drips and spills** to help you comply with regulations and keep your storage areas clean and safe
  - Low height means **loading and unloading require less effort** and drum tops are within easier reach
  - Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
  - Textured grating **adds traction and lifts out** for easy sump access; optional ¾" drain plug lets you **empty sump without removing drums** or grating
  - ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
  - ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
  - ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations
- NOTE: Loaded drums should be properly secured before moving.

### PIG Heavy-Duty Grates — Up to 2X thicker and 4X stronger than the competition.

The grates in our Heavy-Duty Pallets are tested and proven to support the weight of fully loaded poly drums — long term — without failing.

Other grates bow and sag under poly drums, and over time, the weight will cause the pallet to fail.

**PAK604**

Engineered to be moved fully loaded.  
(Straps not included.)

GROUNDING WIRES  
ON PAGE 340.**

PAK223

PAK225

This durable ramp attaches to the PIG Steel Deck; edge guards guide drum trucks and keep them on the ramp.

## **Steel Deck** — Low-profile storage is ideal for flammables and has regulation sump capacity.

- **Economical alternative** to steel pallets; avoid extra costs of pallet feet while still benefiting from full containment capacity
- Full-height internal **support channels add strength**; flow-through vents allow liquid to spread across sump
- Durable, powder-coated steel **resists dents and provides years of service**
- **Steel grating** lifts out for access to sump
- **Can be grounded** to avoid static sparking
- Available with storage for **up to six drums** at an easily accessible 6½" height (except for PAK220)
- **Closed sump** catches leaks and spills to help keep floors safe
- ◆ **Helps you comply** with regulations listed on opposite page (except PAK223)

BEST  
SELLER!

## PIG® Bladder Deck — Roll out 55 gallons of additional sump capacity!

**PAK523**  
Full bladder deployment requires clearance of 66"W x 58"D in front of deck.

- Patented **"flow-through" sump design** lets liquid pass freely from the sump to the bladder to help you comply with containment regs
- Modular design with exclusive bulkhead fittings and predrilled ports to connect to other decks; **5¾"H decks are ready to use**
- Integrated bladder box provides extra **55 gallons of containment**
- **Predrilled, plugged ports** allow you to connect to any PIG Poly Modular Spill Deck
- **Molded-in sump** catches leaks and spills to keep storage areas clean
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and chemicals** (call for compatibility)
- **Replacement Bladder** (PAK525) recommended after bladder is used; Loading Ramp (PAK726) sold on opposite page
- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

Deck captures small spills and leaks. Bladder stays rolled up behind trap door until sump is full and then deploys automatically.

### PIG® Bladder Spill Containment Deck

Item #	1-2	3-6	7+
<b>PAK530</b> • Holds (4) 55-gal. Steel or Poly Drums • 99 gal. sump capacity • 6,000 lb. load capacity • 52"W x 56"L x 5.75"H	\$479	\$467	\$457
<b>PAK528</b> • Holds (2) 55-gal. Steel or Poly Drums • 77 gal. sump capacity • 3,000 lb. load capacity • 26"W x 56"L x 5.75"H	\$357	\$346	\$336
<b>PAK523</b> • Holds (1) 55-gal. Steel or Poly Drum • 66 gal. sump capacity • 1,500 lb. load capacity • 26"W x 30.38"L x 5.75"H	\$299	\$284	\$271
<b>PAK525</b> • Replacement Bladder	\$94		

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

## PIG® Poly Deck with Pallet Jack Pockets — Transfer drums on this drip-catching deck. No forklift required!

**PAK1020**

Fork channels are sized and spaced so you can roll right in.

NOTE: Straps not included.

- Fork pockets are spaced to fit most pallet jacks; deck can be moved fully loaded with properly secured drums
- **2,000 lb. UDL capacity** is strong enough to support two fully loaded steel or poly drums; PIG Decks won't buckle or bow
- **Low-profile 6½"H design** is easy to load or unload; pumps and funnels are easy to access
- 22-gallon molded-in **sump catches leaks, drips and spills** during drum transfers
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- **Textured grating adds traction** and lifts out for easy sump access
- **Durable, heavy-duty steel ramp** (PAK225) has **edge guards** that guide drum trucks and help keep them from rolling off the sides

**PAK225**

### PIG® Poly Deck with Pallet Jack Pockets

Item #	1-2	3+
<b>PAK1020</b> • Holds (2) 55-gal. Steel or Poly Drums • 22 gal. sump capacity • 2,000 lb. load capacity • 26"W x 52"L x 6.5"H	\$315	\$303

## Poly Modular Spill Deck — Build up to your required sump capacity with our connectable, sump-sharing decks.

- Patented **flow-through sump design** lets liquid pass from one sump to another; helps you meet containment regs
- Modular design features bulkhead fittings and predrilled ports to **connect to other decks**; ready to use as soon as they arrive
- **Mix and match** the sections you need to fit your space and help meet sump capacity requirements
- **Special tools and hardware** to connect sections included
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- **Textured grating** adds traction and lifts out for easy sump access
- Translucent white sidewalls allow **easy visual inspection**
- ◆ **Helps you comply** with 40 CFR 264.175 for containment of haz waste (depending on size of containers stored and number of deck sections)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations where absorbents, barriers and containment devices can be used to control or prevent oil discharges
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

NOTE: PIG Heavy Duty Poly Modular Deck and PIG Poly Modular Deck components cannot be joined together due to their different heights.

Our patented bulkhead fittings let liquids from leaking drums flow from one connected deck to another.

Removing the predrilled ports lets you connect deck sections, creating a larger storage or work area and increasing sump capacity.

Choose our standard decks for drum storage and everyday applications.

Lift truck? No sweat. The 9-deck system shown here has a combined 300,000 lb. UDL capacity and 264-gallon sump.

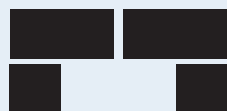

PAK531

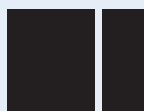

PAK466

#### Combine sections to create a custom containment area:

Configure to tight spaces easily.

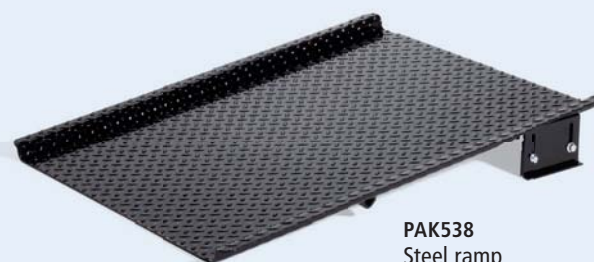

Create a 6-drum deck that complies — with just 2 sections.

Create a linear storage area.

**DID YOU KNOW?**

**Uniform Distribution Load (UDL)** refers to the amount of weight a product can handle over its entire surface. For example, a unit with a 50,000-pound UDL capacity will not be able to support the weight of a 50,000-pound tank on four legs. The weight needs to be evenly distributed over the entire surface. For more information about load capacity and testing, see page 364.

PAK538  
Steel ramp

Add a ramp to make drum loading and unloading easier.

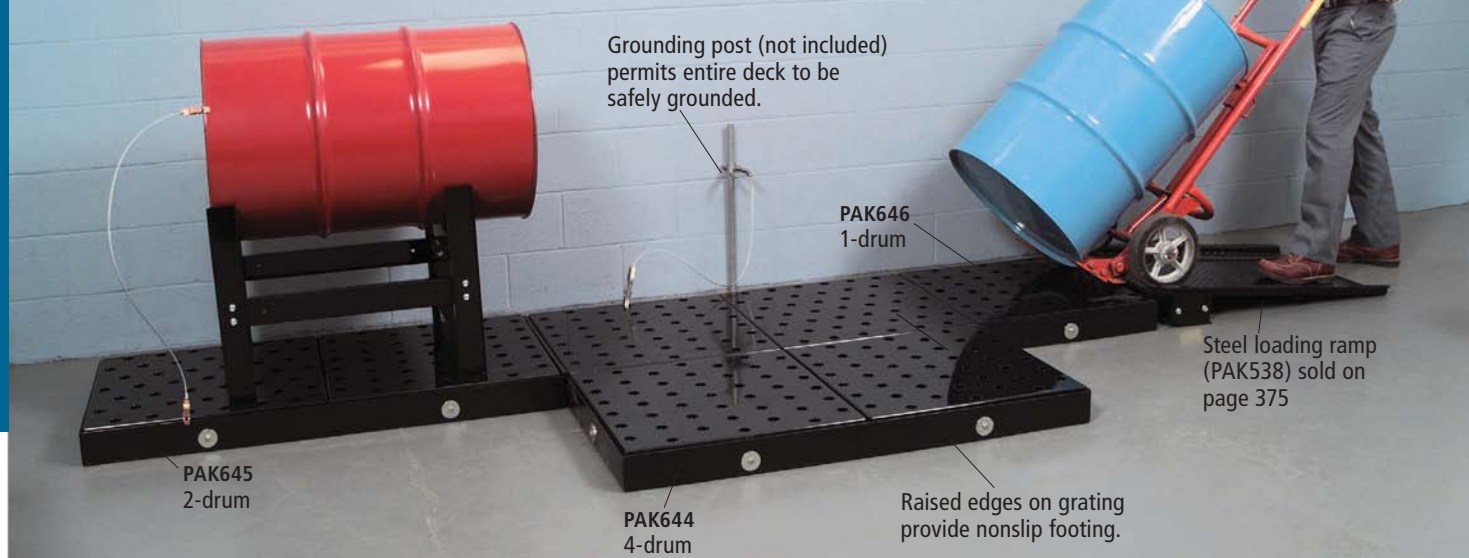

- A poly ramp (PAK726, shown on page 374) is easy to handle and more economical
- A steel ramp (PAK538) has a heavier weight capacity

#### Poly Loading Ramp

Item #	1+
<b>PAK726</b> • Use with all 5.75"H Decks sold above • 600 lb. load capacity	<b>\$178</b>

#### Steel Loading Ramp

Item #	1+
<b>PAK538</b> • Use with PAK466 and PAK465 • 1,000 lb. load capacity	<b>\$350</b>

## PIG® Steel Modular Deck — Create groundable custom drum storage for flammable liquids.

- **Flow-through sump** design lets liquid pass freely from one sump to another
- Exclusive bulkhead fittings and predrilled ports to **connect to other decks for customized storage**
- Special wrench (included) makes it easy to **connect multiple deck sections**
- **11-gauge hot-rolled steel** can be bonded and grounded for safer storage of flammable liquids
- **4" height** is easy to load or unload; easy-access pumps and funnels

◆ **Helps you comply** with regulations listed on page 374

# ROLL TOP HARDCOVERS

PAK601  
PIG 2-Drum Roll Top  
Hardcover Spill Pallet  
(See page 379)

## Why do I need a Roll Top?

Drums stored outdoors are an easy target for EPA inspectors. Without containment, your leaks and spills are direct contaminants to the environment. Even regular pallets don't cut it — they just fill up with rainwater and spill out. But New Pig has you (and your drums) covered. PIG Roll Top Hardcovers stand up to even the toughest conditions, keeping liquids in and the elements out.

- **Weathertight roll top slides up** for easy access while the rest of the hardcover stays closed
- **Covered pallet has built-in sump** to catch leaks, drips and spills; helps you meet drum containment regs
- **Heavy-duty construction** allows entire unit to be moved with drums in place
- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply** with SPCC and Stormwater Regs

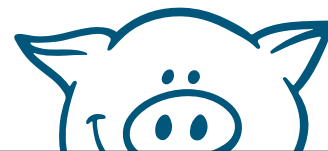

### Products for outdoor drum and IBC storage:

PIG IBC Roll Top Hardcover Spill Pallet .....	387

## STORE YOUR HAZ WASTE OUTDOORS AND IN COMPLIANCE.

FROM IBCs  
TO BATTERIES,  
WE'VE GOT YOU  
COVERED!

### PIG EXPERT ADVICE

Storing containers outdoors in areas where rain and snow are common could lead to run-on entering your secondary containment systems. Run-on is rain or snowmelt that accumulates in sumps. If hazardous waste is being stored outside, EPA says that run-on "must be prevented," or there must be sufficient sump capacity to accommodate both run-on and the largest potential spill.

Keep reading at [newpig.com/prevent-run-on](http://newpig.com/prevent-run-on)

# DRUM STORAGE FOR RAIN, SHINE, SLEET OR SNOW

PAK601

## Roll Top Spill Pallets — Protect your drums from the elements using our roomy roll tops.

- Roll top slides up for **easy access to drum tops** while the rest of the unit stays closed; store drums with pumps or funnels in place
- **Low-profile pallet** with sump catches leaks, drips and spills while keeping drum tops and accessories within reach
- **Weather-resistant design** prevents contaminants from entering stormwater
- Heavy-duty construction allows unit to be **lifted by a forklift with drums in place**
- Low-density polyethylene (LDPE) with UV inhibitors **resists UV rays, rust, corrosion and most chemicals**
- **Optional ¾" drain plug** lets you empty sump without removing drums or grating
- Durable **swing-out doors** on front for easy loading and unloading (PAK601); swing-out doors on front and rear provide easy access from both sides (PAK901)
- Doors and roll top **can be secured with padlock** (sold separately)
- **Single drum roll top** features a two-piece design to provide protected storage and liquid containment
- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste (except DRM828)
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations
- ◆ **Helps you comply** with 40 CFR 112.26 Stormwater Regulations

Hardcover and pallet (PAK901, PAK601, PAK150) can be lifted by a forklift with drums in place. No need to unload them!

Forklift collar on DRM828 lets you move fully loaded unit.

Setup is simple! Just load a drum on the pallet, drop sleeve over drum and attach roll top hardcover.

Removable top lets you insert and replace drums.

DRM828

Move unit manually with dolly (DLY301-01).

DLY301-01

"We've used PIG Roll Tops in the past, and our new one is just as good. The fit and finish are great; no difficulty in getting doors to fit together. **Perfect for outdoor spill containment and storage.**"

— Doug M., PAK601 Customer

**Loading Ramps** — Add an optional steel or poly ramp and stop waiting for forklifts to load drums onto decks.

- **Steel ramp** (PAK603) features a polyethylene grate surface; hinge assemblies let you store ramp upright inside a PIG Roll Top Hardcover
- **Poly ramp** (PAK734) is easy to handle and has a ribbed surface for traction

NOTE: Ramp must be detached to close doors.

### PIG Burpless Funnels

Vented design lets you **pour without splashback** — it's the fastest, cleanest way to dump your buckets!

See them starting on page 304.

## Drum HazMat Containment Station — Lets you house up to four drums of flammables indoors or outdoors.

- **Integrated sump** contains leaks and spills
- **Durable steel construction** with hard-shell finish stands up to heavy use and harsh weather; lockable for security; **welds are 100% inspected**
- **Station can be grounded** using standard lug on exterior of unit
- **Hinged lid (PAK198, PAK199)** is supported by heavy-duty gas cylinders and opens easily for access to drum tops
- **XT stations (PAK245, PAK246)** have additional 18" clearance so drums can be stored with pumps and funnels in place
- ◆ **Helps you comply** with 40 CFR 264.175
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

# COMPLY AND KEEP IT CLEAN!

Balancing totes on bricks might save you a few bucks, but it's an accident (and violation) waiting to happen.

Optional bucket shelf makes dispensing easy.

NEW  
BEST  
SELLER!

PAK736

**EXCLUSIVE!**

## **PIG** IBC Spill Pallet — Your heavy tote is no problem for our 8,000 lb. capacity pallet.

### PIG-ENGINEERED SOLUTIONS

**Problem:** Customers needed a compact, easy-to-use pallet for their IBCs with enough sump volume to meet regs.

**Finding the solution:** Our Poly IBC Spill Containment Pallet has an innovative support system that doesn't cut into sump capacity but keeps the unit low and easy to use. We topped it with the heaviest grates in the industry for unbeatable strength and added 17% more surface area to make it easier to position your totes. As a final touch, we gave it the only closed sump on the market to keep out debris and make liquid recovery easier.

**Problem solved:** PIG Poly IBC Spill Containment Pallet

- The best blend of **strength and value** without paying for more capacity than you need
- Strong enough for long-term storage of IBCs, this innovative design **transfers weight** to load-bearing channels
- Molded-in sump catches leaks, drips and spills to **help you comply with regulations** and keep storage areas clean
- **Low profile** for easy access to and dispensing from IBC tanks; 27" height for single unit, 22" height for twin
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- **Two-way forklift entry** allows movement when not loaded
- **Textured grating** lifts out for easy access to sump
- Optional ¾" drain plug lets you **empty sump without removing totes** or grating
- **Pallet with attached bucket shelf (PAK736, PAK940)** drains collected liquids into main sump for neater, easier dispensing (extra bucket shelf sold separately as PAK1011)

◆ **Helps you comply** with regs listed on page 384

Learn how to store IBCs and meet containment regs: [newpig.com/ibcs-and-containment](http://newpig.com/ibcs-and-containment)

PAK749

Two-way forklift entry makes unit easy to move when empty.

Twin Poly IBC Spill Pallet (PAK749, PAK940) side-by-side design lets you store two IBC tanks on one unit (8,000 lb. UDL per side); avoids the higher cost of buying two single units.

#### PIG® Poly IBC Spill Containment Pallet

(Specify: With drain or without drain; Add \$15 to price shown for drain)

Item #	1+
<b>PAK735</b> • Holds (1) 350-gal. IBC • 360 gal. sump capacity • 8,000 lb. load capacity • 63"W x 63"L x 27"H	<b>\$1244</b>
<b>PAK736</b> • With Bucket Shelf • Holds (1) 350-gal. IBC • 360 gal. sump capacity • 8,000 lb. load capacity • 63"W x 63"L x 27"H	<b>\$1361</b>

#### PIG® Twin Poly IBC Spill Containment Pallet

(Specify: With drain or without drain; Add \$15 to price shown for drain)

Item #	1+
<b>PAK749</b> • Holds (2) 450-gal. IBCs • 535 gal. sump capacity • 16,000 lb. load capacity • 61.625"W x 124.6"L x 22"H	<b>\$1900</b>
<b>PAK940</b> • With 2 Bucket Shelves • Holds (2) 450-gal. IBCs • 535 gal. sump capacity • 16,000 lb. load capacity • 61.625"W x 124.6"L x 22"H	<b>\$2105</b>

#### Bucket Shelf for PIG® Poly IBC Spill Containment Pallet

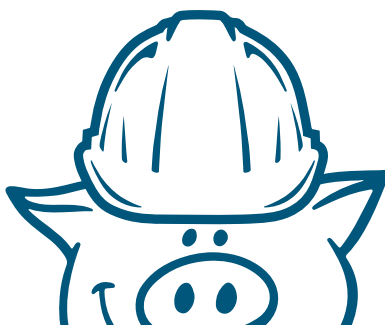

Item #	1+
<b>PAK1011</b> • 16"W x 13"H x 19"D	<b>\$154</b>

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

"Just received our PIG Poly IBC Spill Containment Pallet, and I'm really pleased with its appearance and quality. The drain will help in recovering spilled product, should the IBC get punctured. I'm looking forward to putting it into service."

— Jeremy W., PAK736 Customer

PAK940

Store drums of chemically compatible liquids beside your totes.

PAK902

Storing your tote outdoors? See our IBC Roll Top Hardcovers on page 387.

PAK467

## PIG® Heavy-Duty IBC Unit — Stack two IBCs on our strongest unit. It holds up to 6 tons!

- 4"-thick, two-section decking is supported by all-poly inner pedestals for **superior load handling**
- Heavy-duty construction permits **long-term stacked storage** of two IBCs to save space
- Low-density polyethylene (LDPE) construction **resists UV rays, rust, corrosion and most chemicals**
- **Textured grating** holds a variety of IBC sizes; if tank has feet or pegs, be sure to use proper support pads or plates (PAK1008, sold separately at newpig.com)
- Translucent white sidewalls allow **easy visual inspection**
- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

Our containment unit test stand applies a downforce to simulate the stress of long-term tank storage. Our units pass with flying colors!

### PIG® Heavy-Duty Poly IBC Spill Containment Unit

Item #	1-2	3-6	7+
<b>PAK1007</b> • With 3/4" Drain • Holds (2) 385-gal. IBC, Double-stacked 400 gal. sump capacity • 12,000 lb. load capacity • 58"W x 58"L x 33.5"H	\$1720	\$1630	\$1540
<b>PAK467</b> • Without Drain • Holds (2) 385-gal. IBC, Double-stacked • 400 gal. sump capacity 12,000 lb. load capacity • 58"W x 58"L x 33.5"H	\$1710	\$1620	\$1530

Flammables Notice: If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. ## Steel IBC Pallet — You can ground these units for safer handling of flammable liquids.

PAK993

- Durable, **heavy-gauge steel construction** provides years of service
- **Removable bucket shelf** can be positioned inside or outside sump
- Ideal for storing **oils, solvents and flammables**; grounding bolt included
- Steel grating **lifts out** for easy access
- **Installed 3/4" drain** lets you empty the pallet without pumping out liquids
- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

### Steel IBC Spill Containment Pallet

Item #	1+
<b>PAK993</b> • Holds (2) 350-gal. IBCs • 400 gal. sump capacity • 10,000 lb. load capacity 51"W x 99"L x 23"H	\$1989

**USE BONDING/GROUNDING WIRES FOR SAFER FLAMMABLES TRANSFER. SEE PAGE 340.**

**NEW!**

**IBC100**  
Includes removable  
grates and bucket shelf  
(dispensing hose sold  
on page 336)

## **Steel IBC Spill Containment Pallet** — Steel pallet provides secondary containment for flammables.

- Store oils, lubricants, solvents and flammables; grounding lug included
- Made of long-lasting, heavy-duty steel; **durable, powder-coated finish** protects against rust and corrosion for long life
- Deck holds **two stacked 330-gallon IBCs**
- **Built-in 3/4" plug** makes draining easy; two-way forklift access

- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

PIG™ Steel IBC Spill Containment Pallet		
Item #	1	2+
<b>IBC100</b> • With Drain • Holds (2) 330-gal. IBC, Double-stacked 363-gal. sump capacity • 12,000 lb. load capacity • 58"W x 58"L x 31.6"H	<b>\$1790</b>	<b>\$1700</b>

## **IBC Rack with Sump** — Four IBCs fit on this easy-access steel sump.

- Powder-coated racking with shared sump **saves valuable floor space** while protecting against large-scale leaks and ruptures
- 385-gallon sump provides **containment volume for four IBCs**
- **Splash guards on back and sides** help keep liquids inside the sump
- **Pallet stops** on each level prevent IBCs from being pushed or positioned too far back
- Removable galvanized steel grating provides **easy access to sump**
- ◆ **Helps you comply** with regulations listed above

IBC Rack with Spill Containment Sump		
Item #	1+	
<b>PAK252</b> • 54"W x 126"L x 120"H • 10,000 lbs. Load Capacity UDL Per Shelf 385 gal. sump capacity	<b>\$5899</b>	

NOTE: Actual color of racking may vary from photo shown.

**DENIOS**

**PAK120**

Three-IBC Pallet includes three pallet sections and two expansion tanks. (IBCs not included)

## **pig** Modular IBC Spill Pallet — Create a low-profile, expandable storage system.

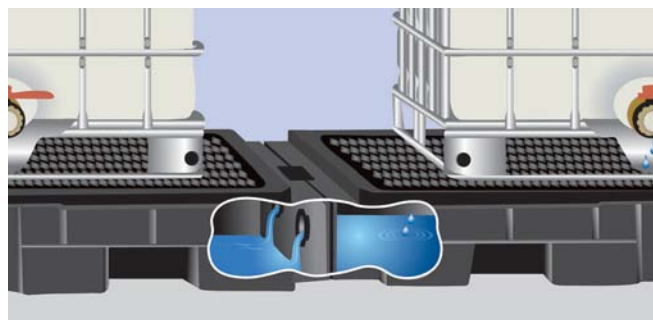

- Each heavy-duty pallet section supports **9,000 lb.** UDL and accommodates almost any size IBC unit
- Pallet sections and tanks are **100% polyethylene** to resist corrosion and most chemicals, including acids, solvents and oils
- Each pallet section features **four-way forklift pockets for easy moving** and nonslip grates that lift out for easy sump access
- **Low profile** for easy loading and access
- **Increase sump capacity** by adding on an individual pallet section (PAK672)
- Includes **specially designed tool kit** for connecting components
- ◆ **Helps you comply** with regulations listed on opposite page

### PIG® Modular Poly IBC Spill Containment Pallet

Item #	1+
<b>PAK122</b> • Holds (5) 350-gal. IBCs • 375 gal. sump capacity 45,000 lb. load capacity • 62.5"W x 313"L x 8.75"H	<b>\$2875</b>
<b>PAK122 Contents</b> • 5 Pallets • 1 Tool Kit • 4 Bulkhead Fittings	
<b>PAK121</b> • Holds (4) 350-gal. IBCs • 365 gal. sump capacity 36,000 lb. load capacity • 62.5"W x 281"L x 12.5"H	<b>\$2595</b>
<b>PAK121 Contents</b> • 4 Pallets • 1 Expansion Tank • 1 Tool Kit 4 Bulkhead Fittings	
<b>PAK120</b> • Holds (3) 350-gal. IBCs • 355 gal. sump capacity 27,000 lb. load capacity • 62.5"W x 250"L x 12.5"H	<b>\$2450</b>

Flow-through connections let system components share sump capacity to help you meet regulations.

Each system includes the pallets, expansion tanks and bulkhead fittings to create your IBC storage area.

### CHOOSING THE RIGHT IBC PALLET SYSTEM IS EASY!

#### Two-IBC pallet (PAK119)

Includes: 2 pallets, 2 expansion tanks • Capacity: 280 gallons  
(Helps meet secondary containment requirements for two IBC units.)

#### Three-IBC pallet (PAK120)

Includes: 3 pallets, 2 expansion tanks • Capacity: 355 gallons  
(Helps meet secondary containment requirements for three IBC units.)

#### Four-IBC pallet (PAK121)

Includes: 4 pallets, 1 expansion tank • Capacity: 365 gallons  
(Helps meet secondary containment requirements for four IBC units.)

#### Five-IBC pallet (PAK122)

Includes: 5 pallets • Capacity: 375 gallons  
(Helps meet secondary containment requirements for five IBC units.)

# **IBC Roll Top Hardcover Pallet** — Store totes outdoors and meet EPA standards.

- Provide **protected storage** and liquid containment for IBCs up to 52"L x 52"W x 61"H
- **Weather-resistant design** prevents contaminants from entering stormwater
- Low-density polyethylene (LDPE) construction with UV inhibitors **resists UV rays, rust, corrosion and most chemicals**
- Durable rolling cover and **swing-out doors on both sides** provide easy access
- **Two-way forklift entry** for easy movement (unloaded only)
- **Optional 3/4" drain plug** lets you empty sump without removing IBC and grating
- ◆ **Helps you comply** with 40 CFR 264.175 for storage of haz waste
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations

PAK964

### Poly Utility Tray — Line your bench or shelf with a poly tray to hold small parts.

- Light-colored, flat-bottomed, modular design makes it **easy to see small parts**
- All-poly construction **resists most chemicals**; will not rust or corrode

#### Poly Utility Tray

Item #	1+
PAK662 • 24"W x 37"L x 4"H • 13.48 gal. sump capacity	\$68
PAK661 • 25.5"W x 38"L x 2.5"H • 8.83 gal. sump capacity	\$65
PAK659 • 29.5"W x 29.5"L x 2"H • 6.18 gal. sump capacity	\$52
PAK658 • 17"W x 24"L x 2.25"H • 3.27 gal. sump capacity	\$42
PAK657 • 16"W x 20"L x 2.5"H • 3 gal. sump capacity	\$41
PAK656 • 10.75"W x 15"L x 1"H • .5 gal. sump capacity	\$26

**Flammables Notice:** If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

PAK124

PAK123

### Utility Tray — Tough tray can handle your heaviest parts.

- Great for **temporary storage** of leaking parts or cores; poly tray **resists many chemicals**
- **Saves** valuable bench **space**; store large, heavy parts safely on floor
- **Ribbed bottom** keeps batteries and containers from resting in spilled liquids
- PAK123 has **heavy-duty grate** to raise parts and containers out of deeper liquids in sump

#### PIG® Utility Tray

Item #	1+
PAK123 • With Grate • 25.25"W x 49.25"L x 3.25"H • 8 gal. sump capacity	\$125
PAK124 • 25.25"W x 49.25"L x 2"H • 9 gal. sump capacity	\$72

**Flammables Notice:** If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

**SEE ADDITIONAL GRATES ON PAGE 399.**

### Steel Spill Tray — Working with flammables? Keep drips off the floor with a steel tray.

- **100% leak-tested** tray is ideal for temporary storage of gas cans and small containers that may leak or drip flammable liquids
- New and improved design features **built-in handles** so you can easily move or carry trays
- 12-gauge galvanized steel **can be grounded** to limit the buildup of static electricity when handling flammables

#### Steel Spill Tray

Item #	1+
PAK254 • 24"W x 36"L x 3"H • 11 gal. sump capacity	\$236
PAK255 • 18"W x 48"L x 3"H • 11 gal. sump capacity	\$280

**BEST  
SELLER!**

Collapsible sidewalls have attached skirt with aluminum-reinforced supports.

PAK793

Sides easily fold down to allow pallet jacks and forklifts to be driven into and out of containment.

Quick setup!  
Just pull out one support and the entire wall takes shape.

## Collapse-A-Tainer Berm — Our most affordable model sets up quickly for portable containment.

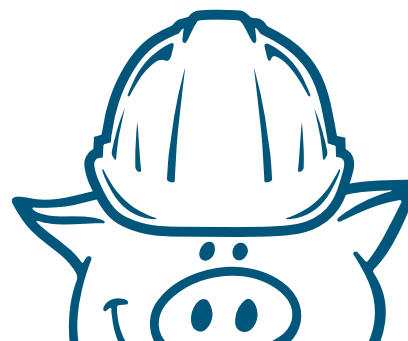

- Re-engineered to provide **exceptional value** while maintaining the quality and performance you expect from PIG Collapse-A-Tainers
- Durable, coated geomembrane **resists chemicals, abrasion and tearing**
- Folds to a compact size for **easy handling** and storage
- **Ideal for use** under storage tanks, tote tanks, pillow tanks, pallets loaded with drums and more; can be stowed in a vehicle for containment in remote locations
- **One-piece design** requires no additional parts or tools
- **Can be held in place** by positioning sand bags on skirting or by staking to the ground through grommets
- ◆ **Helps you comply** with 40 CFR 112.7 SPCC Regulations
- ◆ **Helps you comply** with 40 CFR 122.26 Stormwater Regulations

Even the 12' x 12' system (PAK793) folds to a size that's easy to handle, carry and store.

PIG® Collapse-A-Tainer® Spill Containment Berm

<b>PAK792</b> • 8'W x 10'L x 1'H Overall dimensions 6'W x 8'L x 1'H Sump dimensions • 359 gal. sump capacity	\$893	\$849	*
<b>PAK791</b> • 6'W x 8'L x 1'H Overall dimensions 4'W x 6'L x 1'H Sump dimensions • 179 gal. sump capacity	\$816	\$781	*

\* **WARNING:** Cancer, Birth Defects and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

**PAK1003**

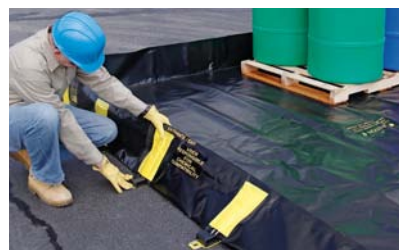

Berm provides constant drive-through capability, while sides can be locked in place.

**PAK595**

Optional belting helps protect containment berm from sharp debris collected in tires. See page 396 for information.

## Self-Rising Containment Berm — Endwalls rise with a leak or can be locked in place.

- Endwalls can remain folded down during use, but **automatically rise** with the liquid level of a leak
- **Heavy-duty hinges** can be locked into place when snow, hoses or other heavy objects could prevent the flotation system from functioning
- Folds to a **compact size** to let you store the system in a vehicle and transport it to a remote location; included strap secures unit in place
- Constructed of durable, coated **geomembrane** that resists chemicals, abrasion and tearing
- **Grommets** at each support hinge allow unit to be staked to the ground when needed
- **Ideal for use** under storage tanks, tote tanks, pillow tanks, pallets loaded with drums and more
- **Custom sizes and colors** available; call 1-800-HOT-HOGS (468-4647) for details
- ◆ **Helps you comply** with regulations listed on opposite page

Hinges can be locked in place to prevent snow, hoses or other heavy objects from interfering with the flotation system.

Endwalls rise with the liquid level for round-the-clock protection.

Heavy-duty hinges are tough enough to withstand vehicle traffic.

# CUSTOMIZED CONTAINMENT

## Collapse-A-Tainer Berm — Tell us what you need!

Don't see a Collapse-A-Tainer Berm that fits your application? Just give us your specs and we'll build it! Customize the shape, dimensions and reinforcement to create the perfect system.

- Convenient one-piece construction; **no assembly required** and no parts to lose
- **Made of tough geomembrane material** that resists harsh chemicals
- **Designed for mobility in the field** and easily moved by hoist or forklift
- Optional accessories include **track mat, ground tarp and ground mat**, sold separately
- **Sample material available**; just ask!

### How to Order Collapse-A-Tainer Containment Berms

For a custom Collapse-A-Tainer Berm, you'll need to determine the number of gallons (Gal) you wish to contain, including volume displaced by vehicles, containers or other items.

Next, estimate the desired width in feet (W'). To calculate the length (L') needed, use this formula:

$$\text{Gal} \div 7.48 \div W' = L'$$

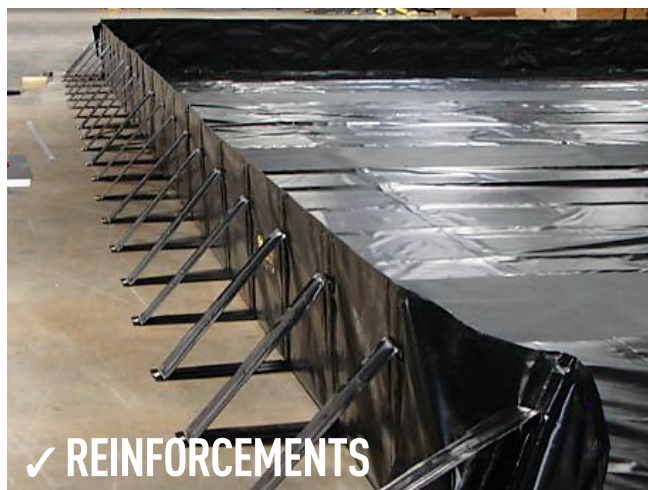

## Use this handy checklist to create your custom Collapse-A-Tainer Berm.

- |  |   |
|--|---|
| <input checked="" type="checkbox"/> What is your application?                  | <input checked="" type="checkbox"/> What type of material is required to contain your liquid? |
| <input checked="" type="checkbox"/> How many gallons will you need to contain? | <input checked="" type="checkbox"/> Do you need drive-through? 2 or 4 sides?                  |
| <input checked="" type="checkbox"/> Are there any size restrictions?           | <input checked="" type="checkbox"/> Will you use it on smooth or rough surfaces?              |

### ✓ SIZE

Large, small or in-between, we can customize the perfect containment berm for your application.

### ✓ REINFORCEMENTS

Choose rigid or collapsible sidewalls; counterbalanced outside locking supports available, along with optional track belting.

**CALL 1-800-HOT-HOGS (468-4647) FOR MORE INFORMATION AND A FREE QUOTE FOR YOUR DESIGN.**

## PIG Collapse-A-Tainer Lite — Lightweight containment is easy to store, handle and deploy.

"Everything about these containments is great! They ship fast, collapse to almost nothing and **work like a charm**. Great product!"

— Brad Y., PAK720 Customer

BEST SELLER!

- A great way to provide **portable containment**; **no assembly required**
- **Durable 18 oz. vinyl** is chemical resistant, lightweight and easy to handle
- Portable containment berm **folds to a compact size** for carrying or storing
- 8" sidewalls are the **perfect "step-over" height**, so Collapse-A-Tainer Lite is ideal for use as a decon station
- **Optional grate** elevates area inside containment berm
- ◆ **Helps you comply** with 40 CFR 264.175, 40 CFR 122.26 and 40 CFR 112.7

*"The size fits perfectly under our trucks. It handles being driven over with no tears, springs back up with no problems. The yellow visibly announces to all that spill containment is being used."*

— Jim H., PAK936 Customer

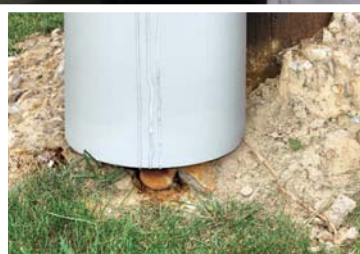

# Transformer Bags — Contain and transport

## ONE TOUGH BAG.

All transformer bags have high-capacity straps (rated at 10,000 lbs.) for safe lifting.

Reflective stripe adds visibility in low-light situations.

Don't let a leaky transformer land you with an EPA violation.

Double-wall base increases strength and capacity.

PAK236

**Problem:** Energy companies transporting damaged, oil-filled transformers were pumping them out and loading them onto spill pallets. And it was costing them a bundle.

**Finding the solution:** We believed there had to be a better way — a bag that would allow customers to move transformers without having to empty them first. At first, they said it would never work, but we knew we were on to something.

We lined the bag with PIG Fat Mat® Pads to absorb and contain leaks and worked out how to make it puncture resistant, sturdy enough to drag over diamond plating and strong enough to hoist.

Twelve prototypes, seven on-site tests and six months later, we lifted a transformer and shook it in midair to prove once and for all that the best way to eliminate pumpouts was with one tough bag.

**Problem solved: PIG Transformer Containment Bags**

PAK235

PIG Transformer Containment Bags are packed for compact storage in vehicles. Handles and lightweight construction make them easy to carry anywhere!

PAK273

Pad-mount bags are easy to use — just drop in the transformer, zip and go!

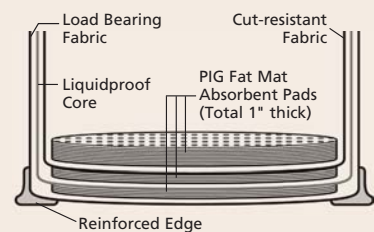

- **DOT and UN Rated** for Packing Group III for the safe transport of PCBs
- **High-capacity hoist straps** (rated at 10,000 lbs.) offer secure lifting
- Watertight nylon/polyethylene sandwiched between durable woven polypropylene delivers **weather, puncture and tear protection**
- Three integrated PIG Fat Mat Pads cushion bag to prevent damage on rough surfaces like diamond plate; also **soak up leaks and splashes** of mineral oils and PCBs
- Pull-up duffel sleeve **covers entire transformer** and cinches with attached drawstring
- Self-supporting bag opens for **easy, one-person loading**; sewn-in Tyvek tag lets you record tracking info
- ◆ **Helps you comply** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan; 40 CFR 761 by containing releases of PCB-contaminated materials; 40 CFR 112.7 SPCC Regulations where containment devices can be used to control or prevent oil discharges

# leaking transformers with our DOT Rated bags.

Just 4 easy steps and it's in the bag.

## Built tough for the long haul.

PAK274

Our containment bags come in a variety of sizes for both pole- and pad-mount transformers!

PAK235

**Drop it in:** Just set your containment bag down and drop in the transformer.

**Close it up:** Pull up the sleeve and cinch it tight.

**Lift it:** Move the transformer with a hoist. If using a forklift, our attachment (DRM419, page 349) helps you comply with regs.

**Transport it:** Load it up, strap it down and go — this tough bag contains leaks and withstands wear and tear!

**WRAP UV-RESISTANT PIG OIL-ONLY SOCKS AROUND PAD-MOUNT TRANSFORMERS TO ABSORB LEAKS! SEE PAGE 61.**

# LEAKS & SPILLS ARE RISKY BUSINESS...

## Prepare for the inevitable.

When it's your job to keep workers safe and protect the environment, it requires you to wear many different hats. Problem is, the more hats you wear, the harder it is to do your job.

Unfortunately, it only takes one slip-and-fall injury or a single spill into the environment to saddle your facility with serious consequences. Since the dangers posed by leaks and spills aren't always known, it can be pretty stressful to manage the risks. It's not a matter of if, but when, so you need to be prepared.

## Your mess. Our mission.

We're on a mission to guide you through the pitfalls of leak-and-spill management so you can stay clean, safe and productive. And that includes helping you avoid the accidents, injuries and regulatory relapses that can happen so quickly in today's fast-paced facilities.

We understand how overwhelming it can feel, which is why everything we do is to make your job easier. We don't just want you to get through your workday — we want you to feel good about it, too! Who couldn't use a little more peace of mind?

## EXPERT ADVICE

### Experience you can trust.

Each member of our service team receives hundreds of hours of training. From in-depth product and regulatory training to emerging trends across various industries, we're educated on the issues that affect you most.

# DON'T GO IT ALONE!

## Expert advice to get the job done right.

You can always count on PIG for products that work, people who know their stuff, and an experience that'll put a smile on your face. We're experts at things like catching leaks and overspray, containing spills, and preventing slips, trips and falls. But we're even better at listening to your problems, finding solutions that fit your facility, and paying attention to the little things, like getting back to you when we say we will.

Check out the topics listed at the right to see how we can help. We've loaded the next eight pages with info and resources to help you do your job right and keep hazards in check. Any questions? Give us a squeal!

*"New Pig knows their stuff ... They're not just selling X. They're telling you how to use X or when maybe Y is better."*

— Norman, EHS Manager

*"They'll do whatever's necessary to get you that information, time and time again. They have the knowledge to ask the right questions to help you out as a customer."*

— Rick, Maintenance Manager

We're on a mission to help you stay clean, safe and productive:

### Catch Leaks and Overspray

Find out which PIG products are best for containing oily messes from your machinery and equipment.

See page 404

### Contain Spills

Spills are a matter of *when*, not *if*. Be prepared to respond fast and clean up quickly.

See page 405

### Floor Safety

50% of same-level falls are caused by unsafe floors. Reduce slips and trips with tips from the pros.

See page 406

### Secondary Containment

Get up to speed — and into compliance — on these critical EPA regulations.

See page 407

### Store and Contain Liquids

Everything you want to know about drums, overpacks, UN ratings and more.

See page 408

### Hazardous Waste

Understand your RCRA responsibilities and meet the PIG products that can help you comply.

See page 409

### Drain Protection and Filtration

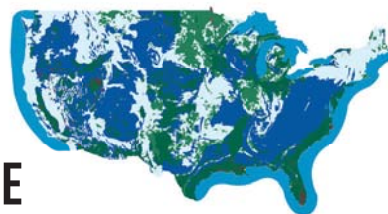

Keep an eye on the environment with best practices to help prevent stormwater pollution.

See page 410

### Storm Preparedness

Learn what a Business Continuity Plan is and see our best solutions for weather response.

See page 411

## THE pig DIFFERENCE GRANT PROGRAM

New Pig directly funds local grassroots projects that restore, conserve and protect America's rivers, streams and estuaries.

Apply for a grant, learn more and take action: [pigdifference.org](http://pigdifference.org)

# CATCH LEAKS & OVERSPRAY

## A messy workstation is no way to work.

### THE PROBLEM

Machines that leak, drip and spray oil are guilty of more than just making a mess. They're also to blame for mucking up your productivity and creating slip hazards. A greasy, grimy workstation is a daily distraction that slows you down and only gets worse if you ignore the problem.

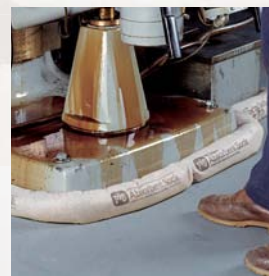

### HOW WE CAN HELP

PIG Absorbents stop oil in its tracks. We make mats, socks and pillows in dozens of styles to soak up leaks, drips and overspray of any liquid. You can also use our containment berms to confine messy machinery. By hitting leaks at the source, you can spend more time working and less time working around the problem.

### ◆ OSHA regulation summary

**29 CFR 1910.141(a)(3)(ii)** requires that workplace floors shall be maintained in a dry condition, and where wet processes are used, mats or other dry standing places shall be provided.

PIG Products help you do the job right:

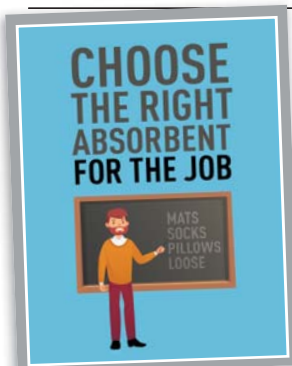

PIG Absorbent Socks  
404 ..... page 32

PIG Universal Mat  
MAT230 ..... page 13

PIG Build-A-Berm  
PLR222 ..... page 169

### 10-PART ABSORBENTS TRAINING SERIES

## Part 1: Choosing the right absorbent

There are so many choices of absorbents, it can be a little tricky to pick a single product that's best for your application. Our 10-part series covers the basics (and then some) to help you find the best solutions for your facility.

**EXPERT ADVICE**

Get FREE answers from our experts — **1-800-HOT-HOGS**

# CONTAIN SPILLS

Spills are inevitable — a fast response is your best defense.

## THE PROBLEM

An open container of solvents is kicked over. A drum of waste oil is hit by a forklift. A fueling mishap pours diesel into a retention pond. If you're not prepared to respond, the damages can quickly multiply. From EPA fines to worker injuries, not having a plan can prove to be extremely costly.

## HOW WE CAN HELP

New Pig has spill response down to a science. Every PIG Spill Kit is filled with plant-proven supplies to contain liquids, and they're packed in the order you need them for fast cleanup. Trust our Absorbent Booms for oil spills on water, and ask us about other PIG solutions to help satisfy your facility's spill plan.

### ◆ EPA regulation summary

40 CFR 112.7 states that facilities subject to **SPCC Regulations** must have written plans discussing what measures are in place to prevent spills. Facilities must also have documentation of the products, countermeasures and procedures that are in place, or will be in place, to prevent discharge of oil into waters.

PIG Products help you do the job right:

PIG Big Daddy Spill Caddy KIT820..... page 91

PIG Absorbent Booms BOM304..... page 65

PIG SpillBlocker Dike PLR267..... page 163

## 5-PART SPILL RESPONSE SERIES

### Part 1: Assessing risk and retraining instincts

PIG-exclusive series covers risk assessment, proper protection of responders, spill planning and training requirements, spill response techniques, decontamination and reporting requirements.

# FLOOR SAFETY

## An ounce of prevention is worth a ton of safety.

### THE PROBLEM

Slips, trips and falls are the second-leading cause of worker accidents and lost work-time injuries. On top of the pain and suffering, a single workers' comp claim can cost your company tens of thousands of dollars. According to the National Safety Council, 50% of these incidents are caused by unsafe floors. Knowing how to find these hazards is the first step in making your workplace safer.

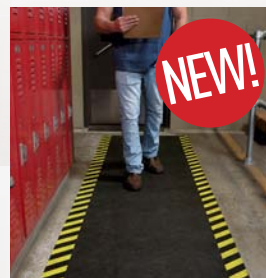

### HOW WE CAN HELP

Once you know *where* to focus your floor safety efforts (see the article below), we can hook you up with the best products on the planet to do the job right. Stick down some Grippy® Floor Mat for instant traction at entrances, and use Grippy® Absorbent Mat to help keep your workstations safe. Need to call attention to hazards, too? Try our High-Visibility Safety Floor Runner. Our proven solutions are built to make a difference.

### ◆ OSHA regulation summary

**29 CFR 1910.22(a)(2)** requires that workplace floors be maintained in a clean and, so far as possible, dry condition.

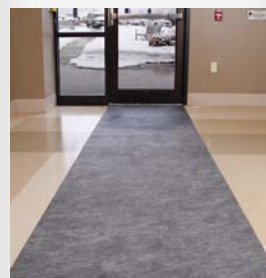

PIG Products help you do the job right:

PIG Safety Floor Runner

# SECONDARY CONTAINMENT

PIG Products help you do the job right:

PIG Collapse-A-Tainer Berm  
**PAK793** ..... page 394

PIG Poly Spill Pallet  
**PAK210** ..... page 366

PIG IBC Containment  
**PAK735** ..... page 383

## Give your hazardous liquids a safe space to spill into.

### THE PROBLEM

A simple container failure can start a chain reaction of damages and fines, from lost inventory (\$) to slip-and-fall injuries (\$\$) to environmental contamination (\$\$\$). That's why the EPA requires secondary containment — something for your spills to spill into. Even if your facility has measures in place, things like rainwater accumulation, chemical reactions and insufficient volume capacity can render your containment system useless.

### HOW WE CAN HELP

We're not the type of company that just sells you a product and sends you on your way. We'll help you find the best solution for your specific application — whether it's a PIG Spill Pallet for small transfer stations, a Collapse-A-Tainer Berm for drive-in access or IBC Containment for your totes. Not sure what you need to maintain compliance? Get in touch with our experts — we're always happy to help!

### ◆ EPA regulation summary

**40 CFR 264.175** requires full containment for hazardous waste to prevent releases into the environment. Full containment is defined as 100% of the largest container or 10% of the total volume, whichever is greater.

### ARTICLE

## 5 Main Points of Secondary Containment Regulations

We know how mind-numbing federal regulations can be. So we broke it down into the five main things to consider under the EPA's haz waste storage regs.

READ MORE: [newpig.com/containmentregs](http://newpig.com/containmentregs)

# STORE & CONTAIN LIQUIDS

PIG Products help you do the job right:

PIG Overpack Salvage Drum  
**PAK725** ..... page 315

UN Rated Poly IBC  
**DRM1141** ..... page 316

UN Rated Steel Drums  
**DRM1844** ..... page 308

Our most-popular reads deliver best practices:

## Overpacks 101

Like drums and other performance-oriented packaging, overpacks have to pass specific tests in order to qualify as overpacks. Get the lowdown on salvage drums, lab packing and how UN ratings come into play when you ship containers.

READ THE ARTICLE: [newpig.com/overpacks101](http://newpig.com/overpacks101)

## Cracking the Code: Explaining UN Ratings

You probably know that you need DOT packaging or a special container to ship dangerous goods. You may even know that these containers require a UN rating. But did you know which UN rating each container needs to have?

GET THE ANSWERS HERE: [newpig.com/UN-ratings](http://newpig.com/UN-ratings)

## Steel Drums 101

The liquids and chemicals that steel drums come in contact with are varied and the jobs they do change with your plant's needs. When it's time to match your drum to your application, how do you know which one is best?

LEARN MORE: [newpig.com/steeldrums101](http://newpig.com/steeldrums101)

# HAZARDOUS WASTE

If haz waste handling has been a problem, we can help.

## THE PROBLEM

Chemical spill catastrophes make headline news, but there are thousands of smaller spills from drums, IBC totes, tanks, hoses and all sorts of machinery that result in violations and "smaller," five-figure fines. These get piled on facilities every year as EPA auditors look for dysfunctional processes and mismanaged hazardous waste systems during visits.

## HOW WE CAN HELP

We can help you understand your RCRA responsibilities (see below), and there's a full lineup of PIG products to help you comply. Our Burpless Drum Funnels and Latching Drum Lids are must-haves for Closed Container requirements. And you'll find dozens of recycling solutions like our Aerosol Can Recycler to help keep your haz waste handling costs in check. Need help navigating all the red tape? Give us a squeal — we're happy to help!

### ◆ EPA regulation summary

**40 CFR 262 (RCRA regulations)** state that hazardous waste must be appropriately identified and handled safely to protect human health and the environment, while minimizing interference with daily business operations.

PIG Products help you do the job right:

PIG Burpless Steel Funnel  
**DRM1125**..... page 305

PIG Latching Drum Lids  
**DRM1072**..... page 298

PIG Aerosol Can Recycler  
**DRM1266** ..... page 278

## 15-PART RCRA SERIES

### Part 1: How to Make Solid Waste Determinations

In this series on the Resource Conservation and Recovery Act (RCRA), we'll guide you through proper hazardous waste handling to keep you safe and compliant.

START HERE: [newpig.com/RCRA101](http://newpig.com/RCRA101)

# DRAIN PROTECTION & STORMWATER FILTRATION

## Preventing water pollution is everyone's responsibility.

### THE PROBLEM

Your storm drains are a system of passageways that empty into nearby rivers, lakes and streams, and it's your job to protect those waters. Stormwater runoff and its contaminants can pose a serious threat to the environment, and the EPA will levy heavy fines if you're in violation of their regulations. Many facilities don't understand their risks, or how easy and affordable it can be to get into compliance.

### HOW WE CAN HELP

We understand the Clean Water Act, we speak SWPPP and NPDES, and we have an entire line of products designed to protect your drains and prevent runoff pollution. Ask us about our DrainBlockers to temporarily keep everything out, or our redesigned Storm Drain Filters for round-the-clock, below-the-grate filtration. You can also stock up on Oil-Only Spill Kits for fast response to outdoor spills.

### ◆ EPA regulation summary

**40 CFR 122.26 (Stormwater)** requires a Stormwater Pollution Prevention Plan (SWPPP) in place when applying for an NPDES Permit.

**40 CFR 112.7 (SPCC)** requires written plans in place to prevent discharge of oil into waters.

PIG Products help you do the job right:

### 11-PART STORMWATER SERIES

## Part 1: How Stormwater Regs Fit Into the Clean Water Act

Learn best practices that protect water quality and help ensure compliance with environmental regulations to help simplify the process.

START HERE: [newpig.com/stormwater101](http://newpig.com/stormwater101)

# STORM PREPAREDNESS

## Sooner or later, every roof is gonna spring a leak.

### THE PROBLEM

It doesn't take a "storm of the century" to interrupt your business. If you're not prepared to protect your people, inventory and assets, even a moderate weather event can have big consequences. Roof leaks and flooding can quickly lead to downtime, lost customers, falling stock prices, worker injuries and other costly outcomes.

### HOW WE CAN HELP

The key is to be ready before the storm hits, and New Pig offers some great products to help you prepare for Mother Nature's worst. A PIG Roof Leak Diverter catches leaks and channels them to a drain or container, away from your people and inventory. Stock up on PIG Water Absorbent Mats to soak up any wet weather that intrudes — they're the best in our lineup for water. We also carry Water-Activated Flood Bags and Barriers to help you stay dry out there.

### ◆ Best practice summary

**Business Continuity Planning (BCP)** is a strategy that's established through the recognition of threats and risks facing a company, ensuring that personnel and assets are protected and able to function in the event of a disaster.

PIG Products help you do the job right:

## Need to buy from a company with ISO certified systems? You're looking at it!

When you're ready to make a purchase, the last thing you want is another obstacle in your path. That's one of the reasons we're committed to maintaining our ISO 9001:2015 and ISO 14001:2015 certifications — to make sure that anybody who wants to do business with New Pig can!

Even if you're not *required* to buy from an ISO-registered company, you can still benefit from the rigorous processes we have in place. Our quality and environmental management systems help ensure that we make PIG products the best they can be — and in a safe and environmentally responsible way, too.

*"We want the PIG brand to represent more than just a product. It's a solution to your needs. Through our quality and environmental management systems, we're able to achieve this with the utmost success!"*

Jason Emes, CQE  
New Pig QMS/EMS Manager

### Mailing List Rental Preference:

We occasionally make our customer list available to a few reputable, carefully screened companies whose products we feel may be of interest to you. If you do not wish to receive such mailings, you may do any of the following and we will promptly remove your name from our rental list. Mail: New Pig Customer Lists, One Pork Avenue, P.O. Box 304, Tipton, PA 16684; call: 1-800-643-OINK (6465); or email: [hothogs@newpig.com](mailto:hothogs@newpig.com).

**Limited Warranty:** Except as described in our No Guff Guarantee®, there are no express warranties or implied warranties including, but not limited to, merchantability and fitness for a particular purpose. New Pig shall not be subject to and disclaims: 1) All obligations or liabilities arising out of breach of contract or of warranty, 2) All obligations whatsoever arising from tort claims (including negligence and strict liability) or arising under other theories of law with respect to products sold or services rendered by New Pig or any undertakings, acts or omissions relating thereto, and 3) All consequential, incidental and contingent damages whatsoever.

**Prices:** All published prices are in U.S. dollars and must be paid in U.S. dollars. In the event of a printing error, New Pig reserves the right to charge the correct price. New Pig works hard to maintain prices, but they are subject to change due to market conditions.

**Terms:** These terms and conditions shall constitute the entire agreement between New Pig and the purchaser, and shall be governed by and construed according to the laws of the state of Pennsylvania and the United States of America.

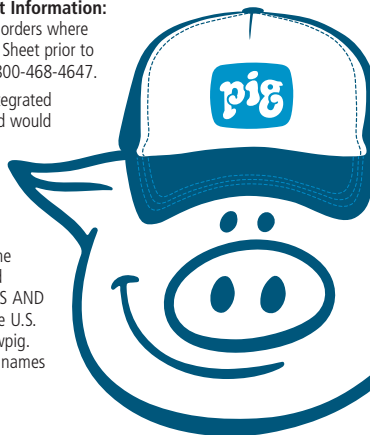

### OSHA Hazardous Substance Product Information:

Safety Data Sheets are enclosed with all orders where required. If you would like a Safety Data Sheet prior to order, please call customer service at 1-800-468-4647.

**Attention Distributors:** If you hold integrated supply contracts with your customers and would like to provide New Pig Products to them, give us a holler. You may qualify for special pricing. Please call our Integrated Supply Team at 1-800-328-2464.

**Trademarks:** All rights reserved. PIG, the PIG logo, Pigalog, 1-800-HOT-HOGS and WORLD'S BEST STUFF FOR LEAKS, DRIPS AND SPILLS, are trademarks of New Pig in the U.S. and other countries. See more at [tm.newpig.com](http://tm.newpig.com). Other company, product or service names used may be trademarks of others.

**Offers:** Expire in 30 days.

What are you waiting for? Do more with PIG!

# Pigging out on workplace messes since 1985.

Back in '85, our founders ran a small, industrial cleaning business and needed a better way to clean up the oil leaking from machinery. They were sick and tired of dealing with clay — it was a mess to clean up the mess. After many failed experiments, they filled their wives' pantyhose with corncob and it worked like magic. The first PIG Sock was born and the contained absorbents revolution was alive!

## Made right here in Tipton, PA

More than three decades later, we're still making our own absorbents in the same small town where we started. And while we've grown to become the world's leading brand, we've always stayed true to our roots. Tipton, Pennsylvania, may not be the most exciting place in the world (we do have two traffic lights), but there's no shortage of pride in what we do here. From the engineers on our Product Development team to the operators on our PIG Mat line, our people have a rich history of making dependable products that keep customers coming back for more.

## The World's #1 Mat

As demand for our cleaner, safer way of working grew, PIG wasn't about to be penned in by a couple of oceans. By establishing offices in the UK, Europe, China and India, and partnering with thousands of distributors and resellers around the globe, PIG products have reached more than 300,000 facilities in over 100 countries — on all 7 continents! No matter where messes are made, people everywhere love PIG: it's the *World's Best Stuff for Leaks, Drips and Spills.*®

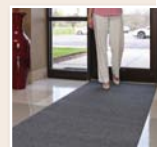

Our home base is in the United States, but we're fluent in many different languages of leak-and-spill expertise.

## Award-winning designs with your messes in mind.

We've won more **Plant Engineering Product of the Year** awards than anyone. Check out our history of innovative problem-solvers!

# At New Pig, looking for a better way is the only way we work.

## ◀ INNOVATION THEN: Corncobs and pantyhose

If our founders had settled for the status quo, workers might still be throwing clay on their leaks and spills. But after spending countless hours shoveling mountains of oil-soaked kitty litter from factory floors, they were determined to find a better way.

Most of their experimenting took place in a sloppy corner of an old warehouse dubbed the "Pig Pen." It wasn't pretty, but that's where the corncobs, rice hulls and pantyhose hit the floor — and eventually gave birth to the world's very first contained absorbent. The PIG Original Sock would be the first of many New Pig innovations to come.

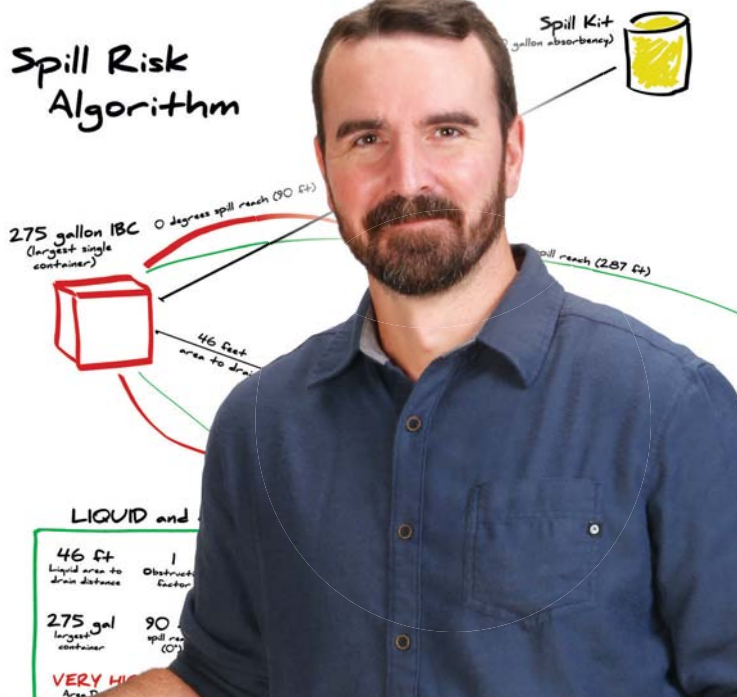

## INNOVATION NOW: ▶ Adhesives and algorithms

A lot has changed on the leak-and-spill landscape today, but our passion for finding better ways to work has been a constant through the years. We've developed dozens of industry firsts and engineered hundreds of product improvements to help you work cleaner, safer and be more productive. (Check out some of our award-winners on the opposite page!)

One of our most recent inventions, PIG Grippy® Mat, never would have happened if we didn't step outside our comfort zone. We knew that a sticky-backed absorbent mat would solve a ton of problems, but we knew nothing about adhesives. So we did what all good inventors do — we failed, and failed and failed some more (52 times, in fact) until our P53® adhesive backing was just right.

That's not to say that PIG innovation is all about sloppy testing areas and sticky experiments. Our new Spill Risk Algorithm (locked inside the top-secret box at right) is evidence that even the leak and spill experts at New Pig are always learning how to learn. This PIG-original, patent-pending algorithm applies physics — over 600 calculations are performed — and industry-specific research to help you really understand your spill risks.

### Spill Risk Algorithm

**Andy James ▶**  
Director of Advanced Experience  
(and really good at physics)

# WORLD'S BEST STUFF FOR LEAKS, DRIPS AND SPILLS.®

## Top products to get the job done right.

When you're going up against industrial hazards like acid baths, oil-slicked floors and runaway spills, you need products you can trust. And nobody can beat the quality, engineering or performance of PIG. That's why more than 300,000 customers worldwide have relied on New Pig to help them absorb, contain and control their liquid messes. See what they have to say about some of our most popular solutions below — what can the *World's Best Stuff* do at your facility?

### PIG Latching Drum Lid with Fast-Latch Ring

*Getting a whole plant full of employees to follow compliance requirements is often difficult. **This product takes away the issue of drums never being closed.** One worry off my back.*

— Dawn

#### PIG-EXCLUSIVE ONE-HAND LATCH

DRM1072 See page 298

### PIG Poly Spill Containment Pallet

*We love the containment pallets. They keep us on good terms with the compliance department.*

— Michael

#### STRONGEST PALLETES YOU CAN BUY

PAK210 See page 366

### PIG Absorbent Mat

*The best way to clean up oil in our machine shop!*

— Sean

#### #1 MAT IN THE WORLD

MAT240 See page 11

### PIG Big Daddy Spill Caddy

*I just received my Spill Caddy and I love the convenience of it. It is a large caddy, but easy to move around to where you need it to go.*

— Daniel

#### THE ONLY SPILL KITS PACKED WITH PIG

KIT820 See page 91

### PIG DrainBlocker Drain Cover

*This drain blocker is far above others. The material is reusable and stops liquid immediately. It does everything as advertised and more!*

— Brandon

#### MOST DURABLE DRAIN COVERS

# WE'RE OBSESSED WITH KEEPING YOU HAPPY.

## BEST SERVICE AROUND

From our offices in Tipton, Pennsylvania, your call is answered in two rings by a real person. (They're friendlier than robots!) The average order takes only three minutes, and we won't rest until you're good to go.

## FREE EXPERT ADVICE

Not sure how to handle a messy situation? Need to double-check chemical compatibility? Confused about EPA and OSHA regulations? Our team can help you figure it out. Give us a squeal for second-to-none support.

## FAST SHIPPING

Thanks to our speedy warehouse crew and massive in-stock inventory, most orders ship same day. And when you order using Autoship, your favorite products ship automatically so you never run out. (See [newpig.com/autoship](http://newpig.com/autoship))

## RISK-FREE SHOPPING

We stand behind 100% of our products, 100% of the time. So if you're not happy, we'll refund every single penny, including shipping both ways. We'll even schedule the return from your location. Zero risk. No guff. All good.

## EASY ORDERING ANY WAY YOU LIKE IT
